A quaint preacher once said, he did n't see why the devil should have all the best tunes; but if that preacher's theology was correct, it might not appear unreasonable to send the music to the same place where he believed (or preached) the bulk of its earthly admirers are bound.

But we have great faith in laughing while we may; and don't fear that music or true fun of any sort will injure anybody.

A PORTSMOUTH ARTIST.—In the April number of Harper's Monthly, is an illustrated article, "Three Months in Labrador."—It is well known that our townsman, Mr. F. S. Knowlton, accompanied the excursion party thither last summer, as artist; and the Chronicler of the trip thus acknowledges Mr. Knowlton's services:

"To F. S. Knowlton, of Portsmouth, N. H., the writer is greatly indebted for admirable photographic views of coast and interior landscapes. They are believed to be the only photographs of Labrador scenery every taken."

Mr. Knowlton is now engaged at the excellent photographic establishment of Mr. J. E. Small, in Exchange Buildings.

SEASON-ABLE.—Fine winter weather we are having. The city has again put on its wintry aspect, and the jingling of sleigh bells is heard in our streets. The "old white coat" which Spring has so kindly put upon the land, is about to be repaired, as there needs a patch on the elbow. The other morning the thermometer was down to zero—but who cares? Pile on the wood and coal, and let us be comfortable! Ah! that is not so easily done by *all*. May God pity, and those able assist, the poor, in these "hard times." R.

HORSE GUARDS.—At recent meetings of Company C, in this city, several new members have been voted in; and reports from recruiting committees in Portsmouth, Great Falls, and other towns, indicate that forty men will be enrolled, uniformed and mounted, in this the third Company of the regiment, ere the second annual parade at Concord in June. It is expected that 200 Guards will muster on that occasion.

☞ The body of John White, the lad who was killed on the Eastern Railroad a few days since, was brought to this city, and buried from the North Church on Tuesday forenoon.

SOCIAL GATHERING.—There is to be a "Union Republican Gathering," at the Town Hall in Hampton, on Thursday evening next. Of course the ladies will be there; for there can be neither union nor sociality worth having without them. Refreshments will be furnished, and all arrangements are made for a good time generally—which the Hampton folks know so well how to enjoy; and if the Union of States is not mended, the union of good feeling will be cemented, which, after all, is of more consequence.

SHIP ADELAIDE BELL'S FLAG.—The New Orleans Sunday Delta of March 10, contains the following item, confirmatory of our own idea, that the *Vigilants* of New Orleans were barking up the wrong tree, in supposing that Capt. Robertson displayed a "black republican flag," or that any such flag ever existed.

The whole bluster about it, was an exhibition of wilful lying in some persons; and of ignorance and folly in others. The Delta says:—

The captain of the ship who was charged with having produced some excitement by displaying a Black Republican flag, assures us that he was entirely ignorant of the whole circumstance complained of; that the flag was presented to him by Mr. Isaac Bell, of Mobile, a true Southern man, and has been used by the ship for some years as a United States flag, and that he knows nothing of the facts stated in our local columns respecting the tumult which it is alleged to have created.

A messenger, sent South by Mr. Buchanan, has just returned to Washington. He pities very much the gentlemen of the South who have sided secession, and resigned *good places* under the federal government, having held them long, and not knowing, now, how to get a living.

☞ Four persons, all Irish, were burnt to death in a tenement house in Roxbury, Mass., on Tuesday morning about 3 o'clock. Another is so badly burnt and wounded, that he will probably die.

An Irish widow Minton, aged 80, was burnt in Manchester, N. H., on Monday evening, by lighting a lamp,—and died Tuesday morning.

☞ Six men were drowned from the bark Harvest Queen, near Scituate, Mass., in the storm of Monday night.

Mankind may be divided into three classes:—those who learn from the experience of others—they are happy men; those who learn from their own experience—they are wise men; and lastly, those who neither learn from their own nor from other people's experience—they are fools.

☞ The New York correspondent of the Boston Evening Gazette says: "That confounded humbug, but clever hoax, the Sons of Malta, has been played out, and the last of the lodges was sold out a few days since. It is supposed that at least twenty thousand persons were initiated in this city."

We are often infinitely mistaken, and take the falsest measures, when we envy the happiness of rich and great men; we know not the inward canker that eats out all joy and delight, and makes them really much more miserable than ourselves.

☞ A panorama is exhibited at Liverpool, showing the progress of the Prince of Wales in this country, and contains views of the principal cities and towns through which he passed.

Would you save yourself from suffering after eating, or from acidity of the stomach, or burning sensation or indigestion? Use Herrick Allen's Gold Medal Saleratus.—Never use soda if you can procure this article. It will strengthen weak stomachs and relieve dyspepsia; is a saving in the quantity of flour, &c. Try it. Grocers and Druggists most all sell it.

Sold at wholesale, by Israel Nash & Co., Boston; and Sumner, Swasey & Currier, Newburyport.

LIFE INSURANCE.

"IN THE MIDST OF LIFE WE ARE IN DEATH."

The strong man often falters, and falls in the midst of the hurry and business of life. The *wise* man maketh provision for those whom he loveth, against the liability to accident and death.

THE

MUTUAL LIFE INSURANCE CO.

Of New York,

with an accumulated capital of over

SEVEN MILLION DOLLARS,

Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually*, or *annually*, at the option of the insured.

The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.

No reflecting man can sit at his fireside with his young family about him, and feel at ease;—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

GROVER & BAKER

SEWING

MACHINES.

TO THE LADIES.

CHARLES T. EMERY,

No. 10 Market Sq., Portsmouth,

Having been appointed

SOLE AGENT IN PORTSMOUTH

for the sale of the celebrated and unrivalled Noiseless

GROVER & BAKER

FAMILY AND MANUFACTURING

Sewing Machines,

would invite especial attention to the same.

THE GROVER & BAKER SEWING MACHINE makes the only seam formed by a Sewing Machine, in which each stitch is independently locked, and without dependence on other stitches for strength, and the only seam that will admit of the thread being cut at every fourth stitch without injury to the seam in wear.

THE GROVER & BAKER SEWING MACHINE is adapted to all varieties of fabrics, sewing equally well the finest Swiss Muslin or the heaviest cloth or leather, and requiring no adjustment for any kind of sewing other than the adaptation of needles and thread.

THE GROVER & BAKER SEWING MACHINE sews from ordinary spools without rewinding, and fastens its own seams, thereby saving time and thread It will sew common spool cotton, silk and linen thread with equal facility.

THE GROVER & BAKER SEWING MACHINE is so simple that an intelligent child of ten years can readily learn to operate it. It is more easily kept in order than any other machine, and need not be taken apart to be oiled.

THE GROVER & BAKER SEWING MACHINE makes the only stitch that cannot be injured by washing and ironing, and the only stitch that forms an elastic and durable seam. Fabrics put together with this stitch may wear out and drop to pieces from original weakness, or hard usage, but come apart or give way at the seams, they cannot; they will hold together when the cloth or calico around them hangs in rags and tatters.

Every Machine Warranted.

PRICES FROM $40 UPWARDS.

☞ Be sure to call and examine.

I have also been appointed agent for

THE UNIVERSAL HEMMER,

Which can be attached to *any* machine, and will turn a hem from 1-16 inch to 2½ inches, without previous basting

PRICE $5.

A VOICE FROM THE WEST!

FROM THE CLEVELAND PLAINDEALER.

UNIVERSAL, UNIVERSAL,

IS THE DEMAND FOR

DR. S. O. RICHARDSON'S

SHERRY WINE BITTERS,

The celebrated New England remedy for

Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.

They are used and recommended by the leading Physicians of the country, and all who try them, pronounce them invaluable.

Dr. JAMES L. LEPEKERE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."

E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."

Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and will in future forward several cures of palpitation of the heart, and general debility.

THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."

GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a special certain remedy."

J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.

D. K. GALLEHER, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

BELLINGHAM'S

Celebrated Stimulating Ongnent!

For the Whiskers and Hair.

The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the Agency for, and are now enabled to offer to the American people, the above justly celebrated and world-renowned article.

THE STIMULATING ONGUENT

Is prepared by DR. C. F. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of

WHISKERS OR A MUSTACHE

in from three to six weeks. This article is the only one of the kind used by the French, and in London and Paris it is in universal use.

It is a beautiful, economical, soothing, yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp, it will cure BALDNESS, and cause to spring up in place of the bald spots a fine growth of new hair. Applied according to directions, it will turn RED or TOWY hair DARK, and restore GRAY hair to its original color, leaving it soft, smooth and flexible. The "ONGUENT" is an indispensable article in every gentleman's toilet, and after one week's use they would not for any consideration be without it.

The subscribers are the only Agents for the article in the United States, to whom all orders must be addressed.

Price One Dollar a box—for sale by all druggists and Dealers; or a box of the "Onguent," (warranted to have the desired effect,) will be sent to any one who desires it, by mail (direct,) securely packed, on receipt of price and postage, $1.18. Apply to or address

WHO SHALL DECIDE WHEN DOCTORS CAN'T

The Homœopathic College of New York, says the Medical Times, recently held its commencement, on which occasion the President gave the following significant charge to the graduates. We need no other proof of the utter worthlessness of the system which these young men are now deemed qualified to practise:

"You need not stick alone to Homœopathy; if that will not cure, try Allopathy; if Allopathy fails, try Hydropathy; and if you are not then successful, adopt Spiritualism, or any other curative means that may be at hand."

It is deeply humiliating to add that this Institution has a charter from the State, and by its diploma places its graduates upon the same legal footing as those of our best medical schools.—*Boston Medical and Surgical Journal.*

AYER'S
Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & CO.—Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it faced out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any things. In fact, the disorder grew worse. At length I was advised to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made could be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. Now and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully,

ALFRED H. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eye, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla; and also a desperate *Malignant Erysipelas* by large doses of the same; says he cures the common *Eruptions* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Goitre*—a bid sum swelling on the neck, which I had suffered from over two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhœa by it, and some where the complaint was caused by ulceration of the womb, the ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward L. Marrow, of Newborn, Ala., writes: "A dangerous ovarian tumor on one of the females in my family, which had defied all the remedies we could employ, had at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEANS, 6th Feb., 1859.

Dr. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have obtained with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects most wonderful in the cure of a long train of *Mercurial Diseases*. One of my patients had Syphilitic sores in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another had Syphilitic secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and destroy him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, out of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a change of weather she excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent has given me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

Dr. J. C. AYER: Sir, I have long afflicted with a painful chronic *Rheumatism* for a long time, to the baffling of the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored me my present health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAH.

Jules Y. Gotchell, of St. Louis, writes: "I have been afflicted for years with an *affection of the Liver*, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been for a broken-down man for some years from no other cause than *derangement of the Liver*. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparilla, because he had seen it do you, and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit of them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its wonderful curativeness for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. We are told remarkable cures in our own families, among them who have not some personal experience of its effects or some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

BLOOD FOOD

CONSUMPTIVES.

An equal and normal circulation of the blood is health. An abnormal, that is to say, an excessive or deficient circulation or stagnation of the blood, is disease. To illustrate—torpidity of the Liver is caused by stagnation of the blood in that organ; diseases of the Kidneys, Inflammation of the Lungs, Disease of the Heart, &c., by the same cause, viz., Impoverished Circulation; and from the same cause spring all the minor forms of disease. To discover a certain cure, then, for these diseases, the rational inquiry is, What causes the blood to circulate?

For centuries it has been a matter of much study among scientific and medical men; and while many experiments have been made and much labor expended upon the inquiry, it has been left to this century, among its other wonderful increase in knowledge, to make this grand discovery also

Acknowledging that life is the gift of the Creator and that "in Him we live and move and have our being," we still venture the remark that, as the planets move in their spheres, and all vegetable life is governed by certain absolute laws, so animal life is traceable to a fixed cause, which remove or destroy, and death, the certain effect, follows.

Analysis of the red corpuscles of the blood shows them to be compounds of iron, sulphur and phosphorous.

The air we breathe we know to contain a very large proportion of oxygen.

Oxygen, brought in contact with metal, evolves or emits electricity.

Electricity, brought in contact with a muscular fibre, causes contraction.

These facts being indisputable, we have now the solution as to the motor or motive power of the heart. The oxygen in the air we breathe, coming in contact with the iron in the red corpuscles of blood, emits electricity, which, coming in contact with the heart, causes it to contract; and hence the power which expels the blood, and sends it tingling through the remotest arteries. Whatever, then, are the causes of CONSUMPTION, DROPSY, PALSY, SCROFULOUS SWELLINGS, DANCE, DYSPEPSIA, EPILEPSY, FEVER & AGUE, &c.—a deficiency of the red corpuscles containing iron, sulphur and phosphorous, which causes a deficiency of electricity, and consequently an abnormal circulation. The blood becomes diseased, and the various pulmonary complaints and prostration ensue—the sufferer becomes nervous, and subject to rheumatic pains and neuralgia—complaints of the bowels and kidneys are, in short, almost every type of disease; but virulent fevers may be traced to this deficiency in the blood, or the congestion or red globules.

Old age causes a deficiency of corpuscles, and while we do not pretend to say that we have discovered the "elixir vitæ," we do say that life can be materially prolonged by the use of the

"BLOOD FOOD,"

which restores the red globules and the normal circulation. Consumption, Liver Complaint, Nervous Debility, Neuralgia, Falling of the Womb, and other delicate diseases to which women are subject. For Sickness of the Stomach, Bilious Attacks, Liver Complaints, Costiveness, Dyspepsia, Consumption, and a host of evils flesh is heir to, it is a certain cure.—*St. Louis Morning Herald.*

PROF. WOOD'S RESTORATIVE CORDIAL.—It is recorded in the classics that Psyche was on errand to a climate warmer than the West Indies, to procure a sample of the beauty of Proserpine in a box. After some delay the messenger returned, and as soon as the top of the box was removed, out flew all the ills that flesh is heir to. Fortunately hope was found in the bottom of the box. Prof. Wood's Restorative Cordial revives the recollection of the story, for it invigorates the blood, aids the organs of digestion, imparts strength to the nervous system, and fortifies the citadel of health so as to bid defiance to the assaults of disease. It is a healthy tonic, compounded entirely of vegetable productions, and while it is exhilarating as pure wine, no injurious results can possibly follow its use. It is a delightfully pleasant cordial, and those who are afflicted with loss of appetite, Dyspepsia, Consumption, Painters' Colic, Neuralgia, Palpitation of the Heart, &c., will here find an infallible panacea.—*St. Louis Daily Express*

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR is, without doubt, the best tonic Cordial in the world. To those who are suffering from general debility, we would recommend it as one, for it is pleasant to the taste, is strengthening to the system, and will at once tend to impart a healthy tone and vigor to the whole circulatory system. It is a delicate cordial to excite the tastes of disease. It can be taken by the weakest stomach, while those in good health will at once say to its exhilarating power. We are confident that after using one bottle of this Cordial, none will be for a day without it.—*N. Y. Leader.*

A PURE, HEALTHY TONIC, and one free from the deleterious and injurious effects sure to follow those in ordinary use, has long been felt to be a desideratum in the medical world. Such a tonic, and one so skillfully combined from the vegetable kingdom as to act in perfect accordance with the laws of Nature, and thus soothe the weakest stomach, and at the same time allay nervous and other irritations, and tone up all the organs of which the human body is composed, is offered in Prof. Wood's Restorative Cordial and Blood Renovator. Hence it is perfectly adapted to old and Young. Reader, try it. Thousands have already done so; the testimony is universal in its favor.—*New York Atlas.*

☞ Before noticing a patent medicine, we have to be certain that it will prove itself to be all that it is recommended. TAKE THE Great Tonic Restorative Cordial and Blood Renovator of Prof. Wood will stand the test fully, and in fact it is without doubt the first Article in the market for purifying the blood and strengthening the system. We have no hesitation in recommending its use to all.—*New Yorker.*

SOMETHING MORE VALUABLE

THAN SILVER OR GOLD,

BECAUSE

IT WILL RESTORE THE WEAK,

AND REINSTATE THE BLOOD IN ALL ITS ORIGINAL PURITY & VIGOR.

It is

PROF. O. J. WOOD'S

RESTORATIVE CORDIAL

—AND—

BLOOD RENOVATOR.

It is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted *as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach*, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combined, powerful and tonic and soothing properties, and consequently can never injure. As a sure preventive and cure of

CONSUMPTION, BRONCHITIS, DYSPEPSIA INDIGESTION, LOSS OF APPETITE, FAINTNESS, NERVOUS IRRITABILITY, NEURALGIA, PALPITATION OF THE HEART, MELANCHOLY, HYPOCHONDRIA, NIGHT SWEATS, LANGUIDNESS, ANDALL THAT CLASS OF CASES SO FEARFULLY FATAL, CALLED FEMALE WEAKNESSES AND IRREGULARITIES.

THERE IS NOTHING ITS EQUAL!

Also Liver Derangements and Torpidity, and Liver Complaints, Diseases of the Kidneys, or any general derangement of the Urinary Organs.

It will not only cure the debility following CHILLS and FEVER, but prevent all attacks arising from miasmatic influences and cure the disease at once, if already attacked.

TRAVELLERS should have a bottle with them, as it will infallibly prevent any deleterious consequences following upon the change of climate and water.

As it prevents costiveness, and strengthens the digestive organs, it should be in the hands of all persons of sedentary habits.

LADIES not accustomed to much out-door exercise, should always use it.

MOTHERS should use it, for it is a perfect relief, taken a month or two before the final trial; she will pass the dreadful period with perfect ease and safety

There is no mistake about it!

THE CORDIAL IS ALL WE CLAIM FOR IT!

MOTHERS, TRY IT!

And to you we appeal, to detect the illness or decline not only of your daughters, before it is too late, but also your sons and husbands, for while the former, from false delicacy, often go down to a premature grave without letting their condition be known; in time, the latter are often so mixed up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always watchful of her boys, so to you we confidently appeal for we are sure your warm hearts will unerringly point you to PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR as the remedy which should be always on hand in time of need.

O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St Louis, Mo., and sold by all good Druggists. Price $1 per bottle.

Read what the Press say, after thoroughly testing the matter, and no one can have doubt.

PROF. WOOD'S Restorative Cordial and Blood Renovator is a genuine medicine of real merit, pleasant to the taste, and invigorating to the system. While it purifies the blood and soothes the nervous irritation, it aids the organs of digestion to perform their functions, and resists the assaults of disease. It is a chemical compound so skillfully combined, that while it exhilarates it does not provoke the lassitude which usually follows excitement. Being a purely vegetable and innocuous stable matter, it is absolutely beneficial, and no ill effects can possibly accompany its use. It is an infallible and speedy remedy for Dyspepsia, Nervous Faintness, Nervous Debility, Neuralgia, Falling of the Womb, and other delicate diseases to which women are subject. For Sickness of the Stomach, Bilious Attacks, Liver Complaints, Costiveness, Dyspepsia, Consumption, and a host of evils flesh is heir to, it is a certain cure.—*St. Louis Morning Herald.*

OLD KENTUCKY
BOURBON
"1849 RESERVE"

The *established popularity* of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of Kentucky Whiskeys.

Being distilled in 1849, and manufactured exclusively for as with great care, it can be relied upon as a strong pure stimulant, and perfectly adapted for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a curative agent it has a tendency to *recruate and strengthen*; while age has long contributed its genial charm, and enriched it with a delicious flavor and an oily body, it affords a pleasant incentive to the preservation or recovery of health, through the agreeable medium of a well pleased palate.

Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and sold by all prominent druggists, grocers and town agents. A. M. BININGER & CO.,

Dyspepsia Remedy

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It invigorates, exhilarates, and is innocuous, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels. Ladies and children

It will instantly revive the most melancholy and drooping spirits, and restore the weak nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Horrors Premens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

Dose.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will relieve Heartburn.
Three doses will cure Indigestion
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.
One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach recovers the Invigorating Spirit, the distressing load and all painful feelings will be removed.
One dose will remove the most distressing pains of Colic, either in the stomach or bowels.
A few doses will remove all obstructions in the Kidneys, Bladder and Urinary Passages.
Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Personswho, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint Bottles, at 50 cents, qts $1.

LIBERTY VS. LAW.—It must be clearly manifest that a cheerful acquiescence in the decision of majorities, a peaceable submission to the administration of the laws, and an aversion to violence, have been far from being prominent traits in the Southern people. *From the administration of John Adams* to the present day, they have claimed the right to secede and dissociate the States, at pleasure, as legitimate machinery for sectional agrandizement; they have held allegiance to the United States government as subordinate to that of their respective States; and have never failed to resort to threats and armed resistance, when not allowed to dominate over the government and laws of the nation.—*Traveller.*

A girl advertises in a German newspaper for a situation as bar-maid or waitress in a refreshment saloon. Among her qualifications for such a position, she says she can cut two hundred and twenty-five pieces of bread and butter, of satisfactory appearance, out of one pound of bread and two ounces of butter. Frequenters of cheap eating houses will appreciate the boasted accomplishment.

There was a singular problem among the stoics, which ran to this purpose: "When a man says, 'I lie,' does he lie or does he not? If he lies, he speaks the truth; if he speaks the truth, he lies." Many were the books written upon this wonderful problem.—Chrysippus favored the world with no less than six; and Philetus studied himself to death in his vain endeavors to solve it.

PREDICTION.—A letter in the N. Y. Tribune, dated Baltimore, March 14, has the following item:

"On Monday last, Judge Black, who ought to know, is said to have openly predicted that there will be no war on the part of the rebels; that Jeff. Davis will, within ninety days, have the cotton States all under the federal flag again, nice and snug, and will be the Democratic candidate for the Presidency of the United States in 1864! Our Senator Kennedy, who was present, is reported to have endorsed this prediction."

AN ESCAPE.—The editor of Harper's Weekly was an attendant in the Senate Chamber at the closing hours of the last session. He thus speaks of General Jo Lane's five hours' speech, delivered if not composed by him: "When I think of that speech, and when I remember that General Lane was at one time a probable candidate for the Presidency, I cannot find words to express my thanks to Divine Providence for our escape."

The La Grange (Texas) Democrat says that Judge Hancock stated in a speech in that place, the other day, that, "there was a surveillance of the mails by which all news from the Peace Congress, looking to an adjustment, was suppressed."

The Bourbons are now a family of exiles, not fewer than fifty-five out of the seventy-four who are the direct or collateral descendants of Louis XIV., being in exile.

True good breeding is nothing more than the practice of the common principles of humanity and good nature, extended to all concerns of common life.

A man at a fair was asked if his horse was timid. "Not at all," said he; "he frequently spouds the whole night by himself in a stable."

What is the worst kind of fare for a man to live on? War-fare.

"If dirt was trumps, what a hand you would hold," said Lamb to a filthy partner at whist.

What would this world be without woman? A shiftless concern.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic* roots, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*Set it is the best pr paration of Bitters that has ever been offered to th public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, MARCH 21, 1861.

DOCTORS DISAGREE.

Most of our readers are aware of the fact, that a party, or union of parties in Boston, last autumn, banded together and elected Mr. Appleton to Congress, in opposition to the republican nominee, Mr. Burlingame.

Two papers, the Courier and Post, were engaged in this fusion or union, and both rejoiced at the election of Mr. Appleton, as a means of safety to the country.

At the present moment, every body is made sensible that the President's course is beset with difficulties,—and the newspapers generally are giving him and his cabinet, the benefit of their advice, criticism, or reproaches.

We have already published an article on this subject from the N. H. Gazette, approving of leaving Fort Sumter, and *advising* Mr. Lincoln and the republican party, to treat the secessionists as follows:—

We propose to treat peacefully with the new Confederacy. We would negotiate for their return to the Union if possible; for an acknowledgment of their independence, and for treaties of peace and amity, if reunion cannot be accomplished.

The Courier and Post also, say peace;—and the editor of the Courier in a late essay, speaking approvingly of what it deems Mr. Lincoln's policy of masterly inactivity, says:—

The revolted States, for the present, at least, and wisely, as we think, will be left to work out their own salvation, or destruction, as the case may be.

An honored and favored correspondent of the Courier, says:—

It seems, from that, that there are individuals in the Republican party, who are willing that the Government should withdraw everything from the seceded States, and *acknowledge their independence*; and who believe that it will do this by the month of July. Let us apply the brakes; the pace is fearful. We neither agree to this, nor believe it to be the policy of peace, or of the government. An absolute withdrawal of everything in any way calculated to keep up irritation, troops or what not, and a violent letting of these States alone for a time, we believe, and have believed, to be the highest wisdom, the most certain coercion; but we would never, till that experiment had failed, consent to, or join in an acknowledment of *their independence*. When that shall have been done, the door upon their return is forever closed. The whole machinery by which return is possible is crushed in an instant, and will have to be re-erected—an almost impossible task hereafter.

We would not do it, if for no other reason than it would shut out from all chance of return to his seat, that large-hearted patriot, Bouligny.

We would not do it until the course of time and events had made it certain beyond doubt that the leaven of the Union had disappeared from those States, hoping always that, if any remained, it would, in the end, and at no distant time, leaven the whole lump.

The Courier endorses this article, by saying it is "wise and able."

In the Boston Post's editorial on finance and business, March 19, we read these items of politico-financial interest.

As our readers are aware, nothing has really been done to solve the great political problem of the day, although many seem to take it for granted that some how or other, there will be no fighting, just as, a few weeks since, they thought that secession would die out, and the Union be preserved.

In commercial circles here, the opinion is certainly becoming stronger and more general in favor of a full and speedy recognition of the Southern Republic. This would settle the whole affair at once, and without bloodshed—give the South time to enjoy and measure the blessings of secession—and enable the loyal States of the Union to resume their interrupted career of prosperity.

Now let us suppose Mr. Lincoln, desiring peace, as much as all these three or four writers, but being puzzled to know how best to secure it, should say to Congress, Please to give me directions by your votes, on a bill voting Texas, Florida and Co. out of the Union, as they were voted in!—what would Mr. Appleton do?

He would look in the Courier and Post for his *cue*,—and he would find at least *two* cues, one recommending acknowledgment, as a present salve to commerce—the other disuading from it, lest it bring political alienation, never to be healed.

JOHN MITCHELL AND THE SOUTH.—John Mitchell delivers himself as follows in his last letter from Paris to the Charleston Mercury. John has been unable evidently to arrange matters to his satisfaction:

On the whole, I would beg most earnestly to impress upon you the conviction that in Europe generally, but but in England particularly, you have no chance, no *locus standi*, no pretension to be considered as Christian men, or perhaps as human beings, except the cotton field alone. But for that, and the interest hanging upon that, you would be hunted from the face of the earth, and erased from creation by the indignant voice of an outraged nineteenth century!

Men who see into their neighbors, are apt to be contemptuous; but men who see through them, find something lying behind every human soul which it is not for them to sit in judgment on, or to attempt to sneer out of the order of God's manifold universe.

NEW HAMPSHIRE NEWS.

The Boston Post says:—

The excuse offered for the decrease of 4000 votes in the late contest for Governor in New Hampshire, is that they were absent at Washington for offices.

It is very certain that no republican paper or speaker has made any such excuse. Nor has there been any such falling off of votes here, in *any* parts, as to surprise any well-informed man.

The Newark, N. J. Evening Journal, edited by a New Hampshire man, says, of our late election:—

As everybody expected, this election has been carried by the Republicans, though the Democracy have made *large gains* on the popular vote.

A comparison of this year's Governor vote with last year's, will show the *great* gain of about 600. A comparison of the vote for Representatives to Congress, with that of two years ago, will show no gain at all. To compare either of them with the Presidential Vote of last fall, amounts to nothing, except to deceive somebody.

The same Newark paper adds:—

This will complete the eighth and last year of Republican abolition rule in New Hampshire. President Peirce was voted down in his own State in March, 1854, every other man expecting office at his hand; but the pressure on President Lincoln is still more severe, at least two-thirds of the members of the Republican party of New Hampshire being applicants for official station.

Here are at least two bold figures of speech: viz. a hyperbole and a blunder.

The hyperbole is about the number of office seekers,—very large to be sure,—but no bigger now than eight years ago.

The other *figure* which votes down President Pierce in 1854, is the blunder, typographical, we suppose.

President Pierce was chosen in 1852 by 7000 majority.

In 1853, Martin was chosen Governor by 5,500. In 1854 Baker had 1600. And in 1855, which must be the year intended, Metcalf, K. N., was chosen by 848 majority only.

In 1856, there was no majority at all,—but Metcalf was chosen by the legislature. Yet in the November election, that year, Fremont had a majority of over 5000, for president.

In March 1857, Gov. Haile had 2500 majority, a falling off of half, from Fremont's, and he had *less votes* by 4000.

This was the Dred Scott year;—and some papers were full of rejoicings at that decision, and of predictions that every force opposing slavery was henceforward dead or powerless. It has not happened, exactly;—certainly not in New Hampshire.

The next year, 1858, Gov. Haile had about 4500 majority;—and Govs. Goodwin and Berry have had majorities since;—but the presidential majorities have been larger generally, than those for governor.

CRUEL TREATMENT OF COOLIES.—The Callao correspondent of the Panama Star announces the recent arrival there of a vessel having on board about six hundred coolies, who have engaged to labor for eight years at the rate of five dollars per month. They are sold at auction for this term of years at the rate of four hundred to four hundred and fifty dollars. In many cases they are put under the direction of negroes as overseers, and are too often treated with great cruelty. No attention is paid by the authorities to their complaints, and a band of fifty who escaped from their masters and claimed redress from the government, were sent back to chains and punishment.

☞ A great oil discovery has occurred about three miles below Titusville, Pa.—While some men were engaged in drilling, the gas threw up the oil nearly 100 feet into the air, and it caught fire at the engine and burned two of the men very badly. The light was seen for several miles around. Over $3000 worth of oil was gathered from this well in thirty hours, and an immense quantity lost. The sum of $30,000 was offered for the well within half an hour after the miners "struck ile."

A very valuable well,—or a very tough story.

A young farmer of Rensselaer county, N. Y., who has a sweet heart residing in Albany, went to the city to visit her one evening. He hitched his horse in the street, several blocks distant; and as the hours sped away, and the animal was uncared for and unclaimed, a benevolent lady in front of whose house it was hitched, called a policeman and had the horse taken to a stable. When the lover at last bade his Dulcinea good night and looked for his team, it was of course missing. He supposed it to be stolen, and telegraphed to Troy and other places, requesting that any one driving such a team might be arrested. Subsequently, inquiring at the police station in Albany, he got track of the property, recovered it by making proper explanations, and drove homewards rejoicing. But at Troy, the telegraph subjected him to another annoyance, for he was arrested as a horse thief, upon his own description of the team, and could not escape from the cells of a prison except by sending for friends to come in from his rural home and identify him. He threatens to sue the lady whose sympathy for the horse led to the original difficulty.

Dimity is named from Damietta, a town in Egypt celebrated for its manufacture.

☞ The U. S. Senate continued the discussion of the Douglas resolution on Tuesday. Mr. Clingman of N. C., complained of the silence maintained by Republican Senators in regard to the policy of the administration. In answer to this complaint,

Mr. Hale said he knew no more what the administration intended to do than Mr. Clingman. He had not corresponded with the administration, verbally or in writing, as to any step of public policy, or with regard to a single appointment.

Mr. Clingman said if the Senator from New Hampshire had not been consulted, the administration showed a want of statesmanship.

Mr. Hale said he agreed to that. [Laughter.] But he was here to represent his State, not the administration, but presumed he should sustain the same relation to it that Mr. Clingman would, viz., to give his cordial support to all patriotic measures which recommend themselves. He would endeavor to do the same, and in that case belong to the same party. [Laughter.]

He intended to support the administration when it deserved it, but when it took a course contrary to the interests of the Union and the country, he should not give it his support. The President had been overwhelmed by his friends, who filled the avenues to the White House to pay their respects to him and to the heads of the departments. He presumed that the President had the judgment, prudence and courage to stem the storms which assailed the ship of State, and would seek no advice outside of his constitutional advisers.

Mr. Chandler said the Senator from Kentucky (Mr. Breckinridge) yesterday made a remark about blood-letting, and called it his (Chandler's) doctrine. It was that of a distinguished son of Virginia and of Kentucky, for then the latter was part of the former. He alluded to Jefferson. The irrepressible conflict was illustrated in the history of Pharaoh and Moses.

The Senator from Kentucky had argued in favor of abandoning the forts and giving up attempts to enforce the laws, and said that unless this was done Kentucky would go out of the Union. The Senator's disunion platform had been repudiated by three millions of voters. The people had rendered their verdict, and the question cannot be re-opened. He believed if the Rattlesnake Banner was raised in Kentucky, it would be hailed by but few supporters in that gallant State.

Mr. Simmons of Rhode Island offered a substitute for the resolution of Mr. Douglas—and gave a hint towards the solution of the mystery. He said "the revenue would be collected, or the States setting up for themselves would cease to have any business."

FOREIGN APPOINTMENTS. — President Lincoln has sent into the Senate the names of the following persons for important foreign missions:

Charles Francis Adams of Massachusetts, for England.
William L. Dayton, New Jersey, for France.
George P. Marsh, Vermont, for Sardinia.
James Watson Webb, New York, for Turkey.
Cassius M. Clay, Kentucky, for Spain.
Thomas Corwin, Ohio, for Mexico.

HOPEFUL SIGNS.—The foreign appointments referred to the Senate, on Monday, are such as ought to inspire no little encouragement in the public mind in behalf of the Administration. We do not think that any more unexceptionable representatives of our country abroad could have been selected than Messrs. Adams, Dayton and Marsh. The first will enjoy the extraordinary prestige of the Ambassadorship to a court, to which his father was accredited, and at which his grandfather was the first minister. Rarely could such a brilliant succession occur under any government, and especially in a republic.—*Boston Courier.*

Mr. Dayton of New Jersey was the candidate for Vice President, with Fremont.

Mr. Marsh, of Vermont, is a gentleman of high reputation.

☞ The Washington correspondent of the Traveller, on Monday, says:—

"The President has put his foot down against all applicants for office of extreme abolition tendencies; hence Barney's nomination for the New York Collectorship, hangs fire until he clears up his alleged abolition antecedents; and hence also the decision in favor of Spooner of Brooklyn, postmaster, the other two applicants being, as alleged, rank abolitionists. It is said that some Boston appointments are delayed for the same reason."

☞ A clergymen insured his MSS. sermons in Ætna Insurance Co. some ten years ago. In moving into another house at Lockport, his log hut, in which the MSS. sermons were left behind, was burnt; he went to the company for the insurance money, which was refused, and an action resulted. The defence was that the sermons were valueless, and not orthodox; the old gentleman produced witnesses who testified that the sermons had done them good; the judge was unable to decide the pecuniary value of a sermon, but the jury gave a verdict of $2000.

☞ A queer suit has been decided in favor of the plaintiff at Chicago. A well-to do man went to an intelligence office, saying that he wanted a wife, and would like to try her first as a servant. He paid $3 down, and agreed to cash up another $7, if he married the girl. He soon married, and then refused the $7 owing; hence the suit.

The Corinth (Miss.) Advertiser very pertinently says that the question is not what Mississippi must do to enable her to defend herself out, but how she is to get back into the Union with as little dishonor to herself as possible.

FROM THE SOUTH.—*New York, March 19.*—A dispatch to the Times says the reason for the detention of Engineer Archibald, was the offer of the same post in the Confederated States and the gift of a furnished house.

Indications from Texas are, that there will be an armed collission between the friends of Gov. Houston and the secessionists. Many advocate keeping the Federal troops in that State to co-operate with and protect the Unionists.

The seizure of the vessel with oil, etc. for the Light house at Galveston, is considered most dastardly and cowardly. It was effected by one Sherman, with a so-called vigilance committee.

WASHINGTON, March 19.—The southern commissioners do not expect an answer to their official communication for ten or twelve days. They feel confident that in the mean time there will be no collision or change in the military status of the seceded States. They have telegraphic assurances from Montgomery that ample arrangements have been made to avoid all trouble for the present at Fort Pickens.

TRADE LAWS.—We notice that some of the journalists think that goods imported into the seceded States free of duty may be introduced into the United States, and sold in competition with the articles of Northern importers, upon which duties have been paid. It is only necessary to explain that all goods reaching the United States through the free ports of the Southern Confederacy, will be subject to our revenue laws, and can be seized as smuggled articles.—*Boston Courier.*

Petersburg is in the heart of the slave region of Virginia, and half the slaves in the State are within fifty miles of it, and yet it gave only 117 majority for secession the other day. It is considered a settler of the hopes of the secessionists in that State.—*Boston Post.*

WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, no REMEDY has performed so many or such remarkable cures of the *Throat, Lungs and Chest,*—of *Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma,* or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam.* So generally acknowledged is the superior excellence of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Miller, Esq.

Editor of the Norway Advertiser, gives his opinion of this great remedy substantially as follows:

NORWAY VILLAGE, Me., Aug 4, 1860.

MESSRS. S. W. Fowle & Co.—Gentlemen:—For a remedy of such undoubted merit as DR. WISTAR'S BALSAM OF WILD CHERRY, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial and be relieved. Several years since I first became acquainted with this Balsam at a time of distressing cough and cold, which took such firm hold of my lungs as to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain.

In our town this remedy is a great favorite with many, and it all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.

Yours respectfully, GEO. W MILLET.

HAIR RESTORATIVE.

The following is a sample of many letters daily received by W. E. HAGAN & CO., Troy, N. Y., who are the Manufacturers and Proprietors of "HEIMSTREET'S HAIR RESTORATIVE," an article of which many of our first citizens speak as being the *cheapest and best* Hair Preparation which has ever been introduced in our market. A combination of Stimulant, Spirits and Oil, affording an agreeable *Hair Dressing*, leaving the scalp perfectly free from dandruff, and causing the Hair to have a *rich glossy appearance.* Two articles in one. A fine "*Hair Dressing*," and a never-failing Restorative for the *Bald* and *Gray.*—Read the following letter:

ST. LOUIS, MO., June, 1859.

MR. HENRY REYNOLDS,—*Dear Sir*:—I hereby certify that my hair having become gray, I used, at your request, HEIMSTREET'S INIMITABLE HAIR RESTORATIVE, (prepared by W. E. HAGAN & Co., Troy, N. Y.,) for several weeks. My hair was in that time restored to its original color, with all its luxuriance and beauty; and I will be much pleased to recommend the article, personally, on any and every occasion, as I know it to be merits that the Proprietors do not claim for it in their circulars. Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and continued Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

☞ Schooner Sarah Ann, Milliken, of Rockland, Me., struck on Duck Island, (one of the Isles of Shoals,) at 3 o'clock Monday morning, became leaky, and her cargo of lime took fire, destroying the vessel. Two persons perished by drowning: viz. the captain, whose body has not been found; and a boy sixteen years old, whose body was recovered and forwarded to his friends by railroad from this city, on Wednesday. The remaining two of the crew were saved,—being taken from the wreck by Messrs. Geo. Pool, Josiah Randell, and Charles Clark, of Gosport.

☞ At the annual meeting of the Granite State Engine Co., No. 1, held on Monday evening, March 18th, the following officers were chosen:—James H. Emery, Foreman; John H. Tredick, 2d Foreman; George M. Ayers, Clerk.

DEBATE IN THE CABINET UPON THE FORT SUMTER QUESTION.—Our latest advices from Washington, speak of the Fort Sumter matter as still unsettled.—According to a special dispatch in the New York Herald, the instructions to Major Anderson in reference to the evacuation of that Fort, proved the principal subject under consideration at a protracted meeting of the Cabinet on Saturday, when

Much diversity of opinion prevailed as to the manner of withdrawing the garrison, and no ultimate conclusion was arrived at on that point.

The apparently unavoidable necessity of treating with the revolutionary authorities of the South, even to effect a peaceable removal, owing to their control of the inlet to the harbor of Charleston, is found greatly perplexing. Some members of the Cabinet strenuously opposed all direct or indirect recognition of the rebellious government on the one hand, while on the other they are fully aware of the improbability of the assent of Gen. Beauregard to the entrance of any federal vessel or vessels into the harbor, and the withdrawal of Major Anderson's command, without having first expressly stipulated, against all *ruses*, but also for the delivery of the fort and its armament in an intact condition.

There are republicans here, of high political standing, who assert, both knowingly and positively, that the secret of the unexpected consent of Gov. Chase and other radical Cabinet members to the surrender of Fort Sumter, is their firm belief in the inevitability of the ultimate division of the country into two confederacies, one distinctly free labor, the other slave holding; and their desire to bring about the separation without bloodshed. That this idea has been broached in Cabinet council is certain.

☞ The county of York in Maine, consists of 26 towns, and by the census returns of 1860, only seven of these towns show an increase in the last ten years; and of the seven, four gain only 105 inhabitants, and the remaining three—Saco and Biddeford, which are manufacturing, and Kittery, where the navy yard is—have gained less than four thousand. That is slow progress; but divide the Union and the whole of New England will not come up to that ratio by the next census—the Newburyport Herald thinks.

A NEW DICTIONARY.—The southern confederacy require a new dictionary.—The Southern Literary Messenger gives a specimen of what is required, which will astonish many northern men, in finding themselves classed with those whom they despise, and cause them to re-state their positions. The term *Abolitionist* is thus defined by the only literary periodical at the South:—

An Abolitionist is any man who does not love slavery for its own sake, as a divine institution; who does not *worship* it as the corner-stone of civil-liberty; who does not adore it as the only possible social condition on which a permanent republican government can be created; and who does not, in his inmost soul, desire to see it extended and *perpetuated over the whole earth*, as a means of human reformation second in dignity, and importance and sacredness alone to the Christian religion. He who does not love African slavery with this love is an abolitionist.

Under this new definition, it may be safe to say, as one of our democratic friends said the other day, New Hampshire is thoroughly abolitionized.

MISSOURI CONVENTION.—*St. Louis, March* 19.—The Convention yesterday passed the 1st and second resolutions of the Committee on Federal Relations. A motion to amend the second resolution by desiring the government to withdraw the troops from the forts in the seceded States, was tabled. An amendment to the third resolution, that if the border States seceded Missouri would, was lost, 22 against 68.

The French Government has determined to take the entire business of manufacturing friction matches into its own hands, expecting to realize 20,000,000 francs a year from the chips. The danger of fires and the poisoning of children, are the principal pleas which the French financial chief offers for the change.

FORT SUMTER, &c.

WASHINGTON, March 19.—It is ascertained from a reliable source, that Fort Sumter will be evacuated to-morrow, (Wednesday.) The order has already gone forward.

WASHINGTON, March 20.—Even those who have denied "by authority" that Fort Sumter was to be evacuated, as first announced on the 8th of March, this morning admit that the movement was then decided upon as a military necessity.

John B. Floyd, late Secretary of War, will escape trial on legal technicalities.

Lieut. Smeads of the army, stationed in the Coast Survey office here, has accepted the command of the National Rifles, the captain of which refused to take the oath of allegiance.

NEW YORK, March 20.—A dispatch from Washington to the Herald says that the administration has instructed the commanders of vessels off Pensacola not to make any movements until further advised, as an armistice of ten days has been agreed upon between the Southern commissioners and the administration.

The Herald's Charleston dispatch says:

"Paymaster Hutton visited Fort Sumter this evening, under a flag of truce, and paid off 50 government soldiers. Major Anderson and command will leave by the steamer Columbia on Saturday.

The Southern Confederacy will be recognized by France and Spain.

There was some excitement this evening, caused by the appearance of a steamer from the North, abreast of Fort Sumter.—The Excel has left to reconnoitre."

Carl Schurz has accepted the Portugal mission.

Mr. Fogg of N. H. is pressed for Commissioner of Patents.

☞ The Washington correspondent of the New York Commercial Advertiser telegraphs that the younger children of Mr. Lincoln are quite sick, and apprehension is felt that they will not recover.

SECESSION DEFEATED.—*Louisville Ky., March* 20.—In the Arkansas Convention a secession ordinance was defeated by a vote of 39 nays to 35 yeas.

A Distressing Cough, causes the friends of the sufferer as much pain as the sufferer himself. *Dr. Wistar's Balsam of Wild Cherry* will certainly cure coughs, colds, arrest consumption, and that speedily. When did it ever fail?

LIFE INSURANCE.

"IN THE MIDST OF LIFE WE ARE IN DEATH."

The strong man often falters, and falls in the midst of the hurry and business of life. The wise man makes provision for those whom he loveth, against the liability to accident and death.

THE

MUTUAL LIFE INSURANCE CO.

Of New York,

with an accumulated capital of over

SEVEN MILLION DOLLARS,

invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually*, or *annually*, at the option of the insured.

The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time *is* near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.

No reflecting man can sit at his fireside with his young family about him, and feel at ease;—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

No. 10 Market Sq., Portsmouth,

Having been appointed

SOLE AGENT IN PORTSMOUTH

for the sale of the celebrated and unrivalled

Noiseless

GROVER & BAKER

FAMILY AND MANUFACTURING

Sewing Machines,

would invite especial attention to the same.

THE GROVER & BAKER SEWING MACHINE makes the only seam formed by a Sewing Machine, in which each stitch is independently locked, and without dependence on other stitches for strength, and the only seam that will admit of the thread being cut at every fourth stitch without injury to the seam in wear.

THE GROVER & BAKER SEWING MACHINE is adapted to all varieties of fabrics, sewing equally well the finest Swiss Muslin or the heaviest cloth or leather, and requiring no adjustment for any kind of sewing other than the adaptation of needles and thread.

THE GROVER & BAKER SEWING MACHINE sews from ordinary spools without rewinding, and fastens its own seams, thereby saving time and thread It will sew common spool cotton, silk and linen thread with equal facility.

THE GROVER & BAKER SEWING MACHINE is so simple that an intelligent child of ten years can readily learn to operate it. It is more easily kept in order than any other machine, and need not be taken apart to be oiled.

THE GROVER & BAKER SEWING MACHINE makes the only stitch that cannot be injured by washing and ironing, and the only stitch that forms an elastic and durable seam. Fabrics put together with this stitch may wear out and drop to pieces from original weakness, or hard usage, but come apart or give way at the seams, they cannot; they will hold together when the cloth or calico around them hangs in rags and tatters.

Every Machine Warranted.

PRICES FROM $40 UPWARDS.

A VOICE FROM THE WEST!

FROM THE CLEVELAND PLAINDEALER

UNIVERSAL, UNIVERSAL,

IS THE DEMAND FOR

DR. S. O. RICHARDSON'S

SHERRY WINE BITTERS,

The celebrated New England remedy for

Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.

They are used and recommended by the leading Physicians of the country, and all who try them, pronounce them invaluable.

Dr. JAMES L. LEPERE writes from Navarre, Stark Co., Ohio: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."

E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."

Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.

THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character: "after using a few bottles, I was completely restored, and am now in robust health."

GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."

J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.

D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

BELLINGHAM'S

Celebrated Stimulating Onguent!

For the Whiskers and Hair.

The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the Agency for, and are now enabled to offer to the American people, the above justly celebrated and world-renowned article.

THE STIMULATING ONGUENT

is prepared by DR. C. P. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of

WHISKERS OR A MUSTACHE

in from three to six weeks. This article is the only one of the kind used by the French, and in London and Paris it is in universal use.

It is a beautiful, economical, soothing, yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp, it will cure BALDNESS, and cause to spring up in place of the bald spots a fine growth of new hair. Applied according to directions, it will turn RED or TOWY hair DARK, and restore GRAY hair to its original color, leaving it soft, smooth and flexible. The "ONGUENT" is an indispensable article in every gentleman's toilet, and after one week's use they would not for any consideration be without it.

The subscribers are the only Agents for the article in the United States, to whom all orders must be addressed.

Price One Dollar a box—for sale by all druggists and Dealers; or a box of the "Onguent," (warranted to have the desired effect,) will be sent to any one who desires it, by mail (direct,) securely packed, on receipt of price and postage, $1.18. Apply to or address

PROFESSOR WOOD'S

HAIR RESTORATIVE!

SEE WHAT OTHERS SAY OF IT.

A Distinguished St. Louis Physician Writes.

ST. LOUIS, July 10, 1869.

O. J. WOOD, Esq.—*Dear Sir:*—Allow me the pleasure and satisfaction of transmitting to you the beneficial effects of your Hair Restorative, after a trial of 5 years. I commenced using your Restorative in January, 1855, since which time I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one third gray. A few applications stopped its falling, and in three weeks there was not a gray hair to be found, neither has there been up to this time

After my hair was completely restored, I continued its use by applying two or three times a month. My hair has ever continued healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the facts above mentioned will be of any particular advantage to you, or even flatter your reputation, as this late day, as I am well aware they are all well known already, and even more wonderful ones throughout the Union. I have occasion at this time in travelling the greater part of the time the past three years, to take pleasure in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people who pronounced it a humbug, saying they had used it and without effect. In every instance, however, it proved, by probing the matter, that they had not used your article at all, but had used some new article, said to be as good, and selling at about half the price. I have noticed two or three articles myself advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently, some of these charlatans have not brains enough to write an advertisement, as I notice they have copied yours, word for word, in several instances, merely inserting some name in place of yours.

I have, within the past five years, seen and talked with more than two thousand persons that have used your preparation with perfect success—some for baldness, gray hair, scald head, dandruff, and every disease the scalp and head are subject to.

I called to see you, personally, at your original place of business here, and you addressed to me, care box No. 1920, will be promptly answered. Yours truly, JAMES WHITE, M. D.

WOOD'S HAIR RESTORATIVE has acquired a reputation from actual test and experiment which cannot be enhanced by any praise. In our own vicinity it has been extensively used, and we believe in every case with every desired result, and receives the universal indorsement of all who have tried it. We therefore recommend it as one of those few genuine *nostrums* which accomplish all they profess, and all the bald and gray could desire.—*Columbian Spy.*

PROF. WOOD'S HAIR RESTORATIVE.—In another column will be found an advertisement of this well known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cutaneous eruptions, and prevents the hair from falling off. We have seen many authentic testimonials in proof of these assertions, some of which are from gentlemen whom we have known for many years as a person of the most reliable character. Don't day till you have tried the Restorative. —*Be ton Office Branch.*

WOOD'S HAIR RESTORATIVE.—We are not in the habit of puffing every new discovery, for in nine cases out of ten they are quack nostrums, but we take great pleasure in recommending Prof. Wood's article to all whose hair is falling off or turning gray. Our well known contributor, Finley Johnson, Esq., has experienced the benefit of its application, and joins with us in speaking of its virtues. Let all try it, and bald heads will be as rare as snow in summer.—*Baltimore Patriot.*

WOOD'S HAIR RESTORATIVE.—Unlike most specifics, this is proved, by unexceptable evidence, to possess great efficacy as a restorer of the hair to its pristine vigor. Where the head had become almost bald because of old age, the use of this article has produced a beautiful growth of thick, glossy hair It is therefore a valuable preparation for all classes. Its ingredients are such as to effectually eradicate dandruff and other impurities which operate so injuriously to the hair It also has curative powers of another description. In many cases pimples and other disfigurements of the skin disappear wherever it is used. There is no hazard attaching to the trial of this remedy, and its effects are so marked, special, as the compound, if it does not cause a manifest improvement, is incapable of doing harm, as its component elements are perfectly innocuous.—*Boston Transcript, April 22, 1859.*

WARREN SPRINGS, Tuft Co., Fa., June, 7, 69.

PROF. WOOD—*Dear Sir*—I was induced more than a year ago to try your valuable Hair Restorative to clean my head of dandruff. I had suffered from it for years, and had never been able to get anything to do it, and my scalp was until I saw your advertisement in a Harrisburgh paper. I bought a bottle, and am now prepared to recommend it to universal use, for it has completely removed all dandruff from my head, and as application once in two weeks keeps it free from itching and other unpleasantness. I must also state that my hair had become quite white in places, and by the use of your preparation, has been restored to its original color. I was quite bald in front, and although I have used two bottles of the Restorative, no one has any knowledge of it, as I allow a few gray hairs to remain, in order to have my appearance comport with my age. My head is now of less trouble to me in keeping it clean, &c., than at any time since I have been a child. I consider your preparation of great value, and, although I do not like to expose myself, I consider it my duty to say so. You can use this, or any part of it, in any shape you think proper, if it is worth anything to you. Yours, &c., H. H. ETTER.

ALL HAIR DYES ABANDONED—WOOD'S GREAT ARTICLE IN THE FIELD.—Prof. Wood stands on an eminence no chemist whose attention has been turned to inventing a hair tonic, has ever before reached. His fame is world-wide, and thousands who have worn wigs or been bald for years, are now, through the use of his preparation, wearing their own natural and luxuriant head covering. So much for chemistry. Prof. Wood studied out the human hair, its properties, its diseases, and how to restore its decayed vitality; he saw, as in his own case, that gray hair is unnatural in those the age of the individual had reached forsecore, and he believed that the hair could be re-vitalized. He tried his own case—almost bald and wholly gray at 45—he restored his own hair—and the article he did it with he gave to the world. Get WOOD'S HAIR RESTORATIVE, and take nothing else.—*N. Y. Dog Book.*

CONSUMPTIVES.

An equal and normal circulation of the blood is health. An abnormal, that is to say, an excessive or deficient circulation or stagnation of the blood, is disease. To illustrate—torpidity of the Liver is caused by stagnation of the blood in that organ; diseases of the Kidneys, Inflammation of the Lungs, Disease of the Heart, &c., by the same cause, viz., Improper Circulation; and from the same cause spring all the minor forms of disease. To discover a certain cure, then, for these diseases, the first great inquiry is, What causes the blood to circulate?

For centuries it has been a matter of much study among scientific and medical men; and while many experiments have been made and much labor expended upon the theory, it has been left to this century, among its other wonderful increase in knowledge, to make this grand discovery also

Acknowledging that life is the gift of the Creator and that "in Him we live and move and have our being," we still venture the remark that, as the planets move in their spheres and all vegetable life is governed by certain absolute laws, so animal life is traceable to a fixed cause, which removes or destroy, and death, the certain effect, follows.

Analysis of the red corpuscles of the blood shows them to be compounds of iron, sulphur and phosphorous.

The air we breathe we know to contain a very large proportion of oxygen.

Oxygen, brought in contact with metal, evolves electricity.

Electricity, brought in contact with a muscular fibre, causes it to contract.

These facts being indisputable, we have now the solution as to the motor or motive power of the heart. The oxygen in the air we breathe, coming in contact with the iron in the red corpuscles of blood, emits electricity, which, coming in contact with the fibrous tissues of the heart, forces the power which expels the blood, and sends it tingling through the remotest arteries. What, then, are the causes of CONSUMPTION, DROPSY, PALSY, PARALYSIS, ST. VITUS' DANCE, DYSPEPSIA, EPILEPSY, FEVER & AGUE, &c.?—A deficiency of the red corpuscles containing the iron, sulphur and phosphorous, which causes a deficiency of electricity, and consequently an abnormal circulation. The blood becomes watery, colds and bronchial complaints and prostration ensue—the sufferer becomes nervous, and subject to rheumatic pains and neuralgia—complaints of the liver and kidneys set in; in short, almost every type of disease but virulent fevers may be traced to this deficiency in the blood, of the corpuscles or red globules.

Old age causes a deficiency of corpuscles, and hence we do not pretend to say that we have discovered the "elixir vitæ," we do say that life can be materially prolonged by the use of the

"BLOOD FOOD,"

which restores the red globules and the normal circulation. Consumptives! friends of consumptives! Sufferers from any organic disease! Unfortunates, who have by excess of vital energy mind, reduce the standard of the blood and diminished the red globules! Ladies suffering any of the diseases known as the Female Complaints, be persuaded the "Blood Food" can cure you. It has cured thousands of desperate cases where all hope had deserted the sufferer. Do not despair, do not throw away your only hope. The "Blood Food" is an unfailing remedy; give it a trial.

An abridged treatise, showing cure and fully proving the theory advanced here to be correct, will be mailed to any interested party, on the receipt of two 3 cent postage stamps. Blood Food is sold by all druggists; or where it cannot be had, I will send 6 bottles, free of expense, for $6. Price, single bottle, $1. It is put up in 8 oz. vials, in yellow wrappers—the old kind, in small bottles, in red wrappers, having been done away with; and bears the fac-simile signature of Church & Dupont upon the face of the wrapper Beware of counterfeits and imitations.

BININGER'S GENUINE Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for Family use, to know that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy free from adulterations, fusel oil, bolic flavor and impurities, and fully appreciating the fact that it is often commended by the medical faculty in preference to Brandies, when all other remedies fail, we are now bottling and selling reasonable rates, a Brandy of our own importation from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

Dyspepsia Remedy

DR. DARIUS HAM'S
AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their minds perverse, sometimes fancying a broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating effects of Dr. Ham's Invigorating Spirit.

What it will do!

Dose.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing fears and painful feelings will be removed.

One dose will remove the most distressing pains in the Stomach, sides and back.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are troubled with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to relieve disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts. $1.

A MINISTER'S WIFE. — Somebody at the West, not finding in the Scriptures any statement of the qualifications and duties of the wives of ministers, concludes that recourse must be had to "that other rule of faith and practice, public opinion; from which," the writer says, "we learn that a minister's wife must be":

1. Like Mary, always sitting at the feet of Jesus, in possession of the one thing needful, regardless of every worldly interest.

2. Like Martha, she should do all the serving, yet without being encumbered by it.

3. She should be a little more prompt than Sarah of old, and have refreshments always ready for those travelling angels whose visits at the minister's house are not "few and far between."

4. Like Dorcas, she should "keep constantly on hand a supply of ready-made clothing," to bestow upon all the poor saints and sinners in the community where she resides, with a spare box for others abroad.

5. Like the prophetess Anna, she should not "depart from the temple day or night, for the multiplied meetings of the church and benevolent societies, require an almost constant attendance in the sanctuary, and it is the *duty of the minister's wife* to attend to them all."

6. Like the widow of Sarepta, she must have the art of using meal out of one barrel, and oil out of one cruse, the year round, without diminishing the quantity.

Lastly, she must be apt to please everybody—"becoming all things to all men," women and children. Grave or gay, refined or rude, intelligent or ignorant, affable or reserved, as suits the company in which she may chance to fall.

Upon these conclusions are based the following

REMARKS.

1. We perceive that it is the duty of churches to set apart young women, and educate them for ministers' wives.

2. When a church is about to call a pastor, they should appoint a special committee to visit his wife, and ascertain whether she is able and willing to perform the labor of five ordinary women, without any compensation except the crumbs which fall from her master's (husband's) table.

3. A minister's wife should be always at home and always abroad; always serving God, and always serving tables.

Lastly, she must be a little more prudent than our Savior, for he had favorites among his disciples, which in her is unpardonable.

NOVEL INCIDENT.—Kennet, the showman, has a hippopotamus, which he has recently been exhibiting to the good folks of New Orleans. They having been exceedingly liberal in the patronage of his show, Kennet advertised that on the day of his departure he would lead the animal through the streets, en route for the depot. Vast crowds lined the way. Presently the show-er and the showee made their appearance, to the great delight of the unwashed, who cheered and huzzaed lustily. The hippopotamus, unaccustomed to so public a demonstration, eyed first one side, then the other, and suddenly standing on his hind legs, grunted out, "Oohchunckon!" "Oohchunckon!" in a distinct manner. At first the populace laughed, but it being suggested by some that he meant "Hurrah for Lincoln," an attempt was made to kill him and mob his keeper—an undertaking which would undoubtedly have been successful had not the keeper protested on his honor that the animal always did so when frightened, and that long before Lincoln was heard of, the hippopotami of all climes had indulged in the same remarkable dialect.

A PITIABLE SCENE.—One evening on our way to our office, says the Maine Temperance Journal, we met a bright-eyed little fellow of some ten or twelve summers, trying to get his intoxicated father home.—We did not so much pity the unfeeling father, who could not sit up in his wagon, but our heart bled for the poor little boy, who looked as if he would sink into the earth for very shame. None but the Eternal Father can tell the emotions of that boy's heart as he saw his father, who ought to be a bright example for him to follow,—the almost insensible object of the jeers of the boys in the streets.

A GHOST STRIPPED OF HIS TERRORS—A ghost rushed upon a party of both sexes, one night recently, near the Lafayette, La. cemetery, frightening them into a rapid flight. One strong-armed and strong-minded feminine stood her ground, and gave the ghost such a taste of her quality that he begged for quarters, and owned to the cheat; and she carried him back, a captive of her fists and nails. In answer to the eager enquiries urged upon her, she said—"Poh! can't fool me, I can tell a man, no matter what he has on, I'll bet."

☞ Among the numerous designs for a flag of the Confederate States submitted to the flag committee of Congress, was one representing seven rattlesnakes, tied together by their tails, with a bale of cotton on one side, and a jug of whiskey on the other. A Montgomery paper thinks the author of the design is a genius, and ought to have an office.

☞ At a meeting recently held in London, it was asserted that the property acquired by the negroes of Jamaica, since their emancipation, amounted to eleven million five hundred thousand dollars, and that the products of the island—the result of their special industry—were worth $5,000,000 during the last year.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic*, and cannot fail to meet the wants of the debilitated.
It is a mild tonic to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhea, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best physicians in Boston has said: "*he has in the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

FRIDAY, MARCH 22, 1861.

NEW HAMPSHIRE ELECTION. — The Concord Patriot has returns from all but seven towns in the State. Adding the last year's vote of these, and the whole vote will stand as follows: Stark, 31,562; Berry, 35,500; scattering, 161; majority for Berry, 3777.

The whole vote this year is 67,223; last March it was 71,603.

The list of Representatives embraces 114 Democrats and 190 Republicans, with one returned as a "Union man." There are towns to hear from which elected 18 members last year, 13 Democrats and 5 Republicans. If they have done the same this year, there will be 127 Democrats and 195 Republicans in the House—majority for the latter 68.

The Patriot says that Gilman Marston is re-elected in the First Congressional District by over 1000 majority; Edward H. Rollins in the second, by about 800; and Thomas M. Edwards in the third, by over 1500.

The Patriot states that the aggregate vote of the State is about 4500 less than at the election a year ago, the Democratic vote being 2000 less, and the Republican vote 2500 less. The Patriot says this decrease in the vote is mainly due to two causes—the "six months' law," which probably cut off one-half of it or more, and the want of the requisite *effort* and *courage* on the part of the Democracy.

The Patriot, after speaking of the encouragement which the republicans had,—says:

The Democracy, on the other hand, had every discouragement and disadvantage that ever a party contended against. Weighed down by the *unfortunate acts and complications of the administration*, and starting with a majority of 9600 against them—conscious of the powerful motives for union and energy on the part of their opponents, and hopeless of success, they had neither the courage nor the motives to exertion which are essential to victory.

Then looking over the democratic gains once more, the Patriot concludes with the following remarkable thanksgiving and praise at the change of administration.

Thank God, we have "touched bottom" at last; we have changed places with our opponents; we have got rid of the responsibility of Government, and are hereafter to be relieved from the odium and damaging influence which any administration must necessarily throw upon its supporters. These our opponents must now assume, and if they are not crushed by them before the end of their first year's rule, we shall be greatly disappointed.

PERILS OF THE WHALE FISHERY.—A letter from Job Sherman, third mate of the ship Mary Ann, of Fair Haven, Mass., gives the particulars of his wonderful escape from death while pursuing a whale.—The whale struck the boat, and threw him right across the monster's mouth, so that both legs were in its mouth, and then went down with him. Fortunately, the whale soon came up, so that the man could breathe. In the meantime, he had extricated one of his legs; but the whale immediately went down again, carrying Mr. Sherman down the second time. Mr. S. then thought of his sheath knife, which he used upon the whale's under jaw, causing it to let go its hold, when Mr. S. arose to the surface of the water, about a ship's length from the boat, and he was rescued, nearly exhausted, by seizing him by the hair of the head as he was sinking. On examination, he found himself with a hole in one leg large enough to receive an egg.

THE GREAT EASTERN STEAMSHIP.—The Directors of this ship have prepared the report to be presented at the general meeting of the owners. The voyage to New York entailed a loss of only $3000.—Another voyage is intended early in April. The ship's working expenses may be reduced to the ordinary charges of merchant steamers. A hope is expressed that another successful voyage to America will establish public confidence, and that the ship may then find profitable employment in any trade.

☞ The Boston Traveller renews the recommendation, made some time ago, that all our merchant vessels, in the southern, West India, or more distant trade, should have a proper armament, to defend themselves against pirates, which will probably spring up under the secession complications. One has, already, viz. one Capt. Sherman, who has captured the vessel with oil for the southern Light Houses. The sea pirates are no worse than those on the land. If Christians may steal and sell men, why may not pirates steal and sell oil?

Texas affairs on the frontiers are represented in a sad condition. The United States Government has been expending $2,500,000 for defending the seceders from Indians, Mexicans, and marauders.

When we were urged to *re* annex Texas to the U. S.—we were told of the great *benefit* we should derive from it.—But we had only had instead, a great bill of cost, and a perpetual fuss. The end is not yet.

A MISSING WOMAN FOUND DEAD IN THE SNOW.—We learn from the Littleton Journal, that the body of Mary Scannel, wife of Patrick Scannel of Gale River, Bethlehem, who was missed from her home six weeks ago, and supposed to have been murdered by her husband, and her body secreted, was found by Mr. Allen Thompson of Bethlehem, on Thursday, March 7th, about 125 rods east from the residence of the deceased. An inquest was held, the result of which was a verdict that the deceased came to her death by a blow inflicted upon her head, on the 26th of January, by a stick or club in the hands of Patrick Scannel. The accused has been arrested and lodged in Haverhill jail.

GEN. SUMNER.—Edward V. Sumner, who has recently been appointed General of the South western Division of the Army, in place of the traitor Twiggs, is a native of Boston, and is about sixty years of age—and is vigorous in both mind and body.—He served with distinction in the Mexican war. In 1855 he was appointed Colonel of the First Cavalry. He commanded in Kansas during the troubles there, and gained the good will of the settlers by his kindness. His good advice was not heeded by the Pierce Administration; had it been, there would have been much less trouble. He is a brave and gallant officer, and will not prove a traitor.

☞ James F. Gove, son of John Gove, Esq., Sandwich, N. H., was recently attacked with the small pox, in Jersey City. He was taken to the hospital on Commins Point, near East river. There was a fair prospect of his recovery, when, in a fit of temporary insanity, he dashed through a window of the second story of the hospital, with such violence as to take the entire window with him. On reaching the pavement, he rushed to the wharf and threw himself into the river. A number of boats immediately put off for him, but it was of no avail; a rescue was impossible. He was an estimable young man, about twenty two years of age.

SETTING FENCE POSTS.—Setting fence posts in an inverted position, has been frequently recommended. The following is from the Genessee Farmer:

About thirty years ago, I, to test the thing, split two bar posts, side by side, out of a chestnut log. They were eight feet long, eight inches wide, and three thick. One I set butt down, the other top down. At the end of ten years the one set in butt down was rotted off, and I re-set it in the same hole. At the end of six years it was rotted off again. I put in another one. The other lasted four years longer, when it got split in two, and I took it out and it was about two-thirds rotted off.

NEW ORLEANS, March 20.—Gen. Twiggs has declined the office of Brigadier General in the army of the Southern Confederacy, on account of feeble health.

Advices from Key West say that no war vessels are there.

The city is quiet, the people calmly awaiting the denouement of events.

The steamers from New York, with armaments for Forts Taylor and Jefferson, are overdue.

Advices from Indianola are to the 16th. Lt. Williams has resigned. Col. Bonneville of the Third Infantry, late in command at Fort Clark, has arrived, en route for St. Louis. Two companies had arrived from San Antonio and were awaiting transportation. Other companies were expected.—Lt. Washington of the U. S. Army, would act as Quartermaster and Commissary until the troops left the State.

FORT SUMTER EVACUATED.—The world of rumor about Fort Sumter has come to an end, in the authentic information of its evacuation. This great measure cannot fail to strengthen the bands and to encourage the hearts of the Union men of the Border States, and have a soothing effect upon the whole country. As such it will be hailed with satisfaction by every friend of conciliation. What the country now needs is time and peace. However the ultra Republicans may write of this act, by *it* President Lincoln has said peace; and in time let us hope that better popular judgments will come, and that these will bring complete national adjustment.—*Boston Post, Thursday.*

MONEY AND BUSINESS.—There is as yet no life or activity to notice in any of the leading articles. Buyers continue to purchase moderately, and in the present unsettled state of our political affairs are not disposed to hold any considerable quantity of merchandise. Spices, spirits and other articles affected by the change of tariff are held with considerable firmness, and holders are not urging sales, in anticipation of better prices. There continues to be an abundant supply of money, and first-class paper is taken at from 6 and 9 per cent.—*Boston Shipping List, 20th.*

SALUTES FOR THE UNION.—*Van Buren, Ark., March* 19.—Thirty-nine guns were fired from a cannon dug up from the battle field of Trenton, in honor of the thirty-nine members of the convention who voted against the ordinance of secession to-day.

FORT SMITH, Ark., March 20.—Thirty-nine guns were fired here to-day in honor of the vote in the convention against secession.

STEAMER UNCLE SAM.—*New York, March* 20.—A letter from Acapulco, dated Feb. 27th, says the steamer Uncle Sam having been pronounced unseaworthy, her mails and steerage passengers were taken to San Francisco by steamer California, but the cabin passengers would have to await the arrival of the Golden Gate due in eight days.

U. S. SENATE—SPECIAL SESSION.

WEDNESDAY, March 20.

Mr. Hale offered a resolution that the Senate adjourn on Saturday. Laid over.

Mr. Douglas's resolution was then taken up.

Mr. Bayard said the issue long anticipated by him had now culminated in the withdrawal of seven States, and there is but one of two courses to pursue, viz., a war of subjugation, or the acknowledgement of their independence as a separate nationality.—He said he had a proposition which he intended to offer, authorizing the President to conclude a treaty with the Confederate States, acknowledging their independence as a separate nation. If this should not be adopted, the other alternative, civil war, will occur, which should be avoided. He argued to the effect that the act of secession is a breach of contract, and, as such, actual revolution; but at the same time it is a revolution inaugurated by the people themselves, collectively, and you cannot meet it except by war or peaceful negotiation.

WASHINGTON, March 20.—[Dispatch to the Traveller.]—The Southern Confederacy lays claim to the Territory of New Mexico.

A Railroad contractor has just petitioned the new Southern Government for a grant of land there.

Developments have recently been made here which show the great extent of the plot of secessionists against the United States government.

The plans of the leaders were deliberately laid, and had it not been for the immense Union vote cast by the people of Virginia, Tennessee and Missouri, a much greater success would have attended the project of dividing the Confederacy.

It now appears that a considerable number of Washington officials, not before suspected, were deeply implicated in the plot.

It is also announced here that Fort Pickens has been relieved, and is in a condition to resist any attack that can be made by the rebels.

WASHINGTON, March 19.—[Dispatch to the N. Y. Herald.]—My dispatch expressing the secessionists' plot to resist the federal laws in the city of Baltimore, stirred up a hornets' nest, and has brought over from that city a large delegation of Republicans, who have had frequent intercourse with Mr. Lincoln upon the subject. These gentlemen assert that such a party does exist there, and that it is led by a disunion party of that city.

WASHINGTON, March 20.—Much curiosity is manifested relative to the action of the administration with regard to affairs at the South, and various rumors prevail. Information derived from authentic sources warrants the assertion that whatever movements may be in progress, they involve nothing of a hostile character; on the contrary, they are in the direction of peace. It is generally agreed, however, that the military status in the gulf forts now held by the general government will be preserved.

WASHINGTON, March 20.—The President has sent the following nominations to the Senate:—Anson Burlingame, Minister to Austria; B. R. Wood, Minister to Denmark; H. S. Sanford, Minister to Belgium; and Freeman H. Morse, Consul to London.

Thomas J. Dryer has been appointed Commissioner to the Sandwich Islands;—James O. Putnam of New York, Consul to Havre; Rufus King, editor of the Milwaukee Sentinel, Minister to Rome.

REPORTS FROM WASHINGTON.

NEW YORK, March 21.—The Southern Commissioners have positive assurance from the government that no reinforcements of forts will be permitted for the present.

The Tribune correspondent states that Lt. Slemmer is to be promoted. No order has yet been issued for the evacuation of Fort Sumter. The Treasury Department is preparing instructions to collectors for the execution of the new tariff.

Dispatches from Major Anderson say that formidable batteries have been erected in the rear of Fort Sumter, which is its weakest point.

Advices from Montgomery announce that arrangements have been made with the Commissioners at Washington to await the withdrawal of the Federal troops before opening negotiations.

A dispatch to the N. Y. World says it is positively known that orders have been issued for the evacuation of Fort Sumter, which will be done by Saturday.

WASHINGTON, March 21.—An editorial in the National Intelligencer of this morning, headed "The Past, the Present, and the Future," causes quite a sensation in political circles. It reviews the action of the seceding States, and takes positive ground against coercion. It declares that the national difficulties can only be settled by a general convention of the States, and that the relations of the seceding States to the Federal Government can be arranged only by their voluntary return to the Union, or by the definite recognition of their independence out of it. This is believed to be the opinion of many leading Republicans, but others sternly oppose it.

The friends of Mr. Fogg of New Hampshire are confident that Mr Holloway's name will be withdrawn, and that he will be appointed Commissioner of Patents.

The following Post Office appointments have been made in N. H.: Hollis, E. Abbott; Amherst, John G. Dickey; Hillsboro', Nathaniel Bruce; Mont Vernon, E. T. Wheeler; South Weare, Dr. L. W. Peabody; Epsom, Joseph D. Taylor; West Concord, Truman Putnam; Sutton, J. G. Cheney; South Sutton, James Greeley, Jr.; North Sutton, George W. Prescott; Wilmot Flat, Otis Jones. PERLEY.

FROM TEXAS.—*New Orleans, March* 20.—Galveston dates of the 19th, state that Gov. Houston and the Secretary of State had refused to appear on the 16th, before the Convention, when summoned, after notice to take the oath. Lieut. Gov. Clark was to assume the Governor's powers on the 16th. It is not known what Gov. Houston will do.

The Convention passed an ordinance continuing in power the State government officers who took the oath.

☞ We are pleased to learn that the new ship of 1000 tons, now on the stocks at the yard of Messrs. Tobey & Littlefield, has been purchased by Messrs. Page, Richardson & Co., of Boston, and will be launched next week. These enterprising builders have built some of the best ships that ever floated in the Piscataqua; and Messrs. P. R. & Co. having purchased several of them, are of course satisfied of their being A No. 1.

THE U. S. DISTRICT COURT, Judge Harvey presiding, commenced a session in this city on Tuesday. The Ferdinand N. Clark case in Bankruptcy, was before the Court, when the rights of certain creditors as to a portion of the funds in the hands of the Assignee was discussed by Messrs. Hayner of New York and Emery of Portsmouth, representing the rival claimants of the money. The hearing was upon the report of the Commissioner appointed to designate the amount and character of the claims against the Bankrupt.

Judge Harvey reserved his decision till he could confer with the Circuit Judge.—The Court adjourned on Wednesday.

SALE OF BANK STOCK.—The Collector of taxes sold at auction a short time since, four shares of the stock in the Bank of New Hampshire *at $102 per share.* This is an advance of ten per cent since the last Auction sale in December.

The stock is said to have been sold to pay the tax of one of our wealthiest citizens, who declined paying in the way that other people are in the habit of doing.—*Ballot.*

GONE TO WASHINGTON.—Hon. Gilman Marston, our Representative in Congress, left Exeter on Wednesday last for Washington. Judging from the attention he received during his limited stay at home, we judge this information may be acceptable to many.—*Ballot.*

SUCCESSFUL SPORTING.—Messrs. Lane, Adams and Dow of Exeter, on Friday last, went out with their dogs in pursuit of foxes, and succeeded in capturing *eleven*—They conceive this an exploit to tell of.—*Ballot.*

☞ On Wednesday, the Boston Merchants' Exchange received the following telegraphic report, dated New York, March 20th:—

"Fort Sumter has been abandoned and blown up."

This piece of news, however, was not confirmed on Thursday morning.

APPOINTMENT.—Rev. Thomas G. Salter, Rector of St. Thomas Episcopal Church, Dover, N. H., has been appointed a Chaplain in the Navy.

☞ Joshua R. Giddings, of Ohio, has been assigned by the new administration the post of Consul General of the United States at Montreal.

☞ The number of Sewing Machines making the Grover & Baker Stitch, now sold in the United States, exceeds that of all others combined. The truth is, since the people have found out by experience the value of this stitch, the well-informed will use no other. These machines must be purchased of the Grover & Baker Sewing Machine Co., who are exclusive proprietors of this stitch, or their licensees; or the use of them will subject the purchaser, as well as the seller, to prosecution. 1tdaw

WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, NO REMEDY has performed so many or such remarkable cures of the *Throat, Lungs and Chest,*—of *Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma,* or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam.* So generally acknowledged is the superior excellence of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.

Editor of the Norway Advertiser, gives his opinion of this great remedy substantially as follows:

NORWAY VILLAGE, Me., Aug 4, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—For a remedy of such undoubted merit as DR. WISTAR'S BALSAM OF WILD CHERRY, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial and be relieved. Several years since I first became acquainted with this Balsam at a time of distressing cough and cold, which took such firm hold of my lungs as to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain

In our town this remedy is a great favorite with many, and if all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.

Yours respectfully, GEO. W MILLET.

HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE.

The following is a sample of many letters daily received by W. E. HAGAN & Co., Troy, N. Y., who are the Manufacturers and Proprietors of "HEIMSTREET'S HAIR RESTORATIVE." An article of which many of our first citizens speak as being the *cheapest and best* Hair Preparation which has ever been introduced in our market. A combination of Stimulating Spirits and Oil, affording an agreeable *Hair Dressing*, leaving the scalp perfectly free from dandruff, and causing the Hair to have a *rich glossy appearance.* Two articles in one. A fine "*Hair Dressing*," and a never-failing Restorative for the *Bald* and *Gray.*—Read the following letter:

ST. LOUIS, MO., June, 1859.

MR. HENRY REYNOLDS,—*Dear Sir:*—I hereby certify that my hair having become *gray*, I made at your request, HEIMSTREET'S INIMITABLE HAIR RESTORATIVE, (prepared by W. E. HAGAN & Co., Troy, N. Y.,) for several weeks. My hair was at that time restored to its original color, with all its luxuriance and beauty; and I will be much pleased to recommend the article personally, on any and every occasion, as I know it h s merits that the Proprietors do not claim for it in their circulars. Respectfully yours,

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

LIFE INSURANCE.

"IN THE MIDST OF LIFE WE ARE IN DEATH."

The strong man often falters, and falls in the midst of the hurry and business of life. The wise man maketh provision for those whom he loveth, against the liability to accident and death.

THE

MUTUAL LIFE INSURANCE CO.

Of New York,

with an accumulated capital of over

SEVEN MILLION DOLLARS,

Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually*, or *annually*, at the option of the insured.

The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principles. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.

No reflecting man can sit at his fireside with his young family about him, and feel at ease:—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

GROVER & BAKER

SEWING MACHINES.

TO THE LADIES.

CHARLES T. EMERY,

No. 10 Market Sq., Portsmouth,

Having been appointed

SOLE AGENT IN PORTSMOUTH

for the sale of the celebrated and unrivalled *Noiseless*

G. ROVER & BAKER

FAMILY AND MANUFACTURING

Sewing Machines,

would invite especial attention to the same.

THE GROVER & BAKER SEWING MACHINE makes the only seam formed by a Sewing Machine, in which each stitch is independently locked, and without dependence on other stitches for strength, and the only seam that will admit of the thread being cut at every fourth stitch without injury to the seam in wear.

THE GROVER & BAKER SEWING MACHINE is adapted to all varieties of fabrics, sewing equally well the finest Swiss Muslin or the heaviest cloth or leather, and requiring no adjustment for any kind of sewing other than the adaptation of needles and thread.

THE GROVER & BAKER SEWING MACHINE sews from ordinary spools without rewinding, and fastens its own seams, thereby saving time and thread It will sew common spool cotton, silk and linen thread with equal facility.

THE GROVER & BAKER SEWING MACHINE is so simple that an intelligent child of ten years can readily learn to operate it. It is more easily kept in order than any other machine, and need not be taken apart to be oiled.

THE GROVER & BAKER SEWING MACHINE makes the only stitch that cannot be injured by washing and ironing, and the only stitch that forms an elastic and durable seam. Fabrics put together with this stitch may wear out and drop to pieces from original weakness, or hard usage, but come apart or give way at the seams, they cannot; they will hold together when the cloth or calico around them hangs in rags and tatters.

Every Machine Warranted.

PRICES FROM $40 UPWARDS.

☞ Be sure to call and examine.

I have also been appointed agent for

THE UNIVERSAL HEMMER,

Which can be attached to any machine, and will turn a hem from 1-16 inch to 2½ inches, without previous basting.

CERTAIN CURE, CERTAIN CURE,

—FOR—

RHEUMATISM AND NEURALGIA.

GARDINER'S

RHEUMATIC AND NEURALGIA COMPOUND,

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 90 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

BELLINGHAM'S

Celebrated Stimulating Onguent!

For the Whiskers and Hair.

The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the Agency for, and are now enabled to offer to the American people, the above justly celebrated and world-renowned article.

THE STIMULATING ONGUENT

is prepared by DR. C. P. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of

WHISKERS OR A MUSTACHE

in from three to six weeks. This article is the only one of the kind used by the French, and in London and Paris it is in universal use.

It is a beautiful, economical, soothing, yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp, it will cure BALDNESS, and cause to spring up in place of the bald spots a fine growth of new hair. Applied according to directions, it will turn RED or TOWY hair DARK, and restore GRAY hair to its original color, leaving it soft, smooth and flexible. The "ONGUENT" is an indispensable article in every gentleman's toilet, and after one week's use they would not for any consideration be without it.

The subscribers are the only Agents for the article in the United States, to whom all orders must be addressed.

Price One Dollar a box—for sale by all druggists and Dealers; or a box of the "Onguent," (warranted to have the desired effect,) will be sent to any one who desires it, by mail (direct,) securely packed, on receipt of price and postage, $1.18. Apply to or address

Morning Chronicle.

THE UNION VICTORY IN NORTH CAROLINA.—The Wilmington (N. C.) Herald of Wednesday, says:—

"The official vote of the State, except the vote of Davie and Haywood counties, on the question of Convention or no Convention, is published in the State Journal. The reported votes of those two counties, which are supposed to be correct, are given, and the result is—For a Convention, 46,-679; against a Convention, 47,323; majority against a Convention, 651. The vote of the State is smaller by about 20,000 than it was in the election last August."

The Fayetteville Observer, of the 11th, informs us that "of the whole number of delegates, eighty-two are Constitutional Union men, and thirty-eight secessionists. The Union majority, therefore, is rather more than two to one." The same paper has the following significant paragraph:—

"We have abundant signs from some disunion organs that they wish to treat the voice of the people, thus expressed, with contempt. It is pretended there has been a great reaction since the election. But this, like the great reaction we heard of before the election, is a humbug. It may be that two or three have joined the noisy secessionists in one or two of the towns, but the great body of the people are firm. They will not be frightened into disunion. They will 'watch and wait.'"

☞ The result of the election in Fredericksburg, Texas, on the 23d ult., was 318 votes for the Union, and only 14 for secession. A letter from that place dated Feb. 24, shows that Texas is by no means unanimous for secession, and that, in fact, the secessionists are threatened with secession by the Union counties.

"We have not yet received any information from our neighborhood, but we know that the opinion of the people is throughout the same. At 8 o'clock the Gillespie Rifle Company raised the Union flag on the top of the Court House, wherein the voting took place, and then dispersed until 4 o'clock in the afternoon, when the company returned, took down the flag again, and marched with it in procession, accompanied by a band of music, through the streets. Our representative in the Legislature, who has betrayed us, recognizing the unlawfully elected commission, and voting for secession, enjoys now the contempt of almost everybody, though he used to be one of the most popular men in town. Twelve counties in the northern part of the State have threatened in the Legislature to secede from Texas, if the latter withdraws from the United States.

I hear many persons asserting that they would prefer to live under the greatest despotism than under the rule of the secessionists.

The convention was called together by private individuals, and many counties were not represented at all."

BLOOD FOOD

CONSUMPTIVES.

An equal and normal circulation of the blood is health; abnormal, that is to say, an excessive or deficient circulation or stagnation of the blood, is disease. To illustrate—torpidity of the liver is caused by stagnation of the blood in that organ; diseases of the Kidneys, inflammation of the Lungs, Disease of the Heart, &c., by the same cause, viz., Improper Circulation; and from the same causes springs all the minor forms of disease. To discover a certain cure, then, for these diseases, the first great inquiry is, What is the governing principle?

For centuries it has been a matter of much study among scientific and medical men; and while many experiments have been made and much labor expended upon the inquiry, it has been left to this century, among its other wonderful discoveries in knowledge, to make this grand discovery also.

Acknowledging that life is the gift of the Creator and that "in Him we live and move and have our being," we still, venture the remark that, as the planets move in their sphere, and all vegetable life is governed by certain absolute laws, so animal life is exclusive to a fixed cause, which remove or destroy, and death, the certain effect, follows.

Analysis of the red corpuscles of the blood shows them to be compounds of Iron, sulphur and phosphorus.

The air we breathe we know to contain a very large proportion of Oxygen.

Oxygen, brought in contact with metal, evolves or emits electricity.

Electricity, brought in contact with a muscular fibre, causes it to contract.

These facts being indisputable, we have now the solution as to the motor or motive power of the heart. The oxygen in the air we breathe, coming in contact with the iron in the red corpuscles of blood, emits electricity, which, coming in contact with the heart, causes it to contract; and hence the power which expels the blood, and sends it tingling through the remotest extremities. All ills, then, are the causes of CONSUMPTION, DROPSY, PALSY, PARALYSIS, ST. VITUS' DANCE, DYSPEPSIA, BILIOUSNESS, FEVER & AGUE, &c.!—a deficiency of the red corpuscles containing the iron, sulphur and phosphorous, which causes a deficiency of electricity, and consequently an abnormal circulation. The blood becomes watery, colds and bronchial complaints and prostration ensue—the system becomes nervous, and subject to rheumatic pains and neuralgia—complaints of the liver and kidneys set in; in short, almost every type of disease but virulent fevers, may be traced to this deficiency in the blood, of the corpuscles or red globules.

Old age causes a deficiency of corpuscles, and while we do not pretend to say that we have discovered the "elixir vitæ," we do say that life can be materially prolonged by the use of the

"BLOOD FOOD,"

which restores the red globules and the normal circulation. Consumptives! Friends of consumptives! Sufferers from any organic disease! Unfortunates, who have by excess of the body or mind, reduced the standard of the blood and diminished the red globules! Ladies, suffering from of the diseases known as female complaints, be persuaded the "Blood Food" can cure you. It has cured thousands of desperate cases where all hope had been given up. Do not reject it, do not throw away your only hope. The "Blood Food" is an unfailing remedy; give it a trial.

An elaborate treatise, carrying out and fully proving the theory advanced here to be correct, will be mailed to any interested party, on receipt of two 3-cent postage stamps. Blood Food is sold by all druggists; or where it cannot be had, I will send 6 bottles, free of expense, for $6. Price, single bottle, $1. It is put up in 5 oz. vials, in yellow wrappers—the old kind, in small bottles, in red wrappers, having been taken away with; and bears the fac-simile signature of Church & Dupont upon the face of the wrapper. Beware of counterfeits and imitations.

BININGER'S GENUINE Cognac Brandy

The immense practice of adulterating Brandies having become so common that a genuine article is the exception; it is a duty we owe to those requiring it for Family use and Invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the public demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is upon the opinion of our Medical Faculty as a sustaining stimulant, when all other remedies fail, we are now bottling and selling considerable quantities of a Brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

DR. DARIUS HAM'S
AROMATIC INVIGORATING SPIRIT.

Dyspepsia Remedy

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly restore the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

Dose.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the disturbed and painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, nausea at stomach, weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the Invigorating Spirit in pint bottles, at 50 cents, qts $1.

Morning Chronicle.

FRENCH SOLDIERS.—To those persons who are fond of military display, Paris is of all places the most eligible in the world. You not only have grand military reviews here of thousands of men almost every week, but every morning you are aroused by the rattle of the drum, or clangor of the trumpet, of divisions moving past your door; while morning, noon and night, and in all places, you continually meet national guards in full costume, swaggering chasseurs in their burnished helmets, Cent Gardes in their violet attire, and soldiers of the line, swarming the gardens, forming the most prominent objects of attention (excepting always the grisettes) on every promenade.

There are in Paris at all times—at any rate there have been during the present administration—some fifty thousand troops, while in its vicinity and within some two or three hours summons, are distributed in different stations some sixty thousand more. Should an exigency arise, therefore, in which the government might desire to exercise some sudden force upon this city, a hundred thousand men could be brought to bear in a very brief space of time. The citizens of Paris, and chiefly those in the more turbulent quarters of the city, understand all this, but nevertheless they do not esteem the power as by any means irresistible, for in addition to a reliance on their own indomitable courage, they never lose sight of the fact that the soldiers are Frenchmen, and liable to be governed by a patriotism as susceptible and as impulsive as their own. That is one of the reasons why their is such a facility for revolutions in Paris.

If the soldier could only be held faithful to his employ and prevented from reasoning on his duty, France might be kept as quiet as the sternest despot would require, and the French obtain the compliment from English writers of being a steadfast and loyal people. As it is, however, he does not think his pay purchases his soul; he feels that he has not resigned all his rights of country in the ceremony of enlistment, and esteems patriotism of greater importance even than discipline. The German soldier is, on the contrary a mere machine; he indulges in no notions of reserved rights beyond his beef and beer; in return he gives blind obedience, and consequently is just the instrument for despotic service. He fights stubbornly, but never with enthusiasm, and can never be expected to fraternize with the complaining masses of his own countrymen so long as his own belly is well filled.

The Frenchman on the contrary is highly susceptible and sympathetic, and when directed against his fellow-citizens in a cause which he has taken pains to weigh in their favor, is much more likely to leave his own ranks and clasp them in his arms, than to direct his musket against their breasts. He does not stop to reason upon the risks of desertion, or breach of discipline. He obeys an instinct which is above human laws, and thus contributes to make the revolutions in which he takes a part look like decrees of heaven. It is these great and impulsive movements of the French nation which has encouraged certain writers to decry them as fickle, and which has persuaded careless thinkers among us, to take up the sneer, as if beyond dispute. No proposition, however, can be more erroneous. Like most common sayings, its very plausibility is a proof of his falsehood, and it is carried through only by a pretentious popularity instead of reason.—*Geo. Wilkes.*

EARTHQUAKES.—The great earthquake in New England, in 1755, bent the metal vanes on meeting houses in Boston.

Earthquakes occurring in the saline district of Onondaga, Western New York, where the water holds in solution frigorific mixtures of the chlorides of *calcium, magnesium* and *sodium*, have been known to form a crust of ice on Seneca Lake in mild weather.

Earthquakes in the East, where the dust that forms the ground has most of it once worn the human form, produces at the instant of the shock, a substance resembling human hair—when burnt it has the crisp and the smell of human hair. This disappears in three days. The fact is well attested and it is wonderful, as is everything in nature.—*E. Merriam.*

A BAPTISTERY IN MR. BEECHER'S CHURCH.—A baptistery has been constructed under the pulpit of Rev. Henry Ward Beecher's church, Brooklyn. For several years past the pastor of Plymouth Church, in receiving new members to its communion, has been in the habit of administering baptism in the mode most consonant with the individual views of the applicant. He does not hold that one form of baptism is right and all others wrong; and while, for his own part, he prefers sprinkling, he never seeks to dissuade a candidate who prefers immersion. But heretofore, in administering baptism by immersion, he has been compelled to resort to some other church edifice for a baptistery. The frequency of these occasions at length determined the trustees of Plymouth Church, at the pastor's suggestion, to place a baptistery in their own building.—*The Independent.*

SHARP PRACTICE.—A shrewd farmer was that, who, not a thousand miles from Framingham, presented a quantity of meal for exhibition, the agricultural society having offered two prizes. Finding no other exhibitor of meal at the show, and not wishing to lose his labor, he divided his into two portions, and getting a neighboring farmer to exhibit the other half, he obtained from the judges the first prize for the one, and the second for the other.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic s*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*that it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merit.

SOUTHERN DOCTRINES.

It has many times been asserted by Southern members, on the floor of Congress, that it would be better for society to convert Northern laborers into slaves. Daniel Webster once replied, that "we are all laborers at the North." Nothing can be more insulting to our Northern free men, free laborers, and free voters, than such doctrines. It is even contended that the right of suffrage enjoyed by our free laborers, tends to the destruction of the government.

The Hon. Mr. De Jarnette, Representative from Virginia, in his speech in the House, on the 15th February last, expressed the Southern doctrine when he said:—

"I have seen, Mr. Speaker, for ten years, that dissolution must come. I have seen the irrepressible conflict between labor and capital at the North, and have known that it could but result in favor of the former, inasmuch as that labor possessed the revolutionary power there: to wit, the elective franchise. Wherever there is free competition between labor and capital, and that labor is armed with the unrestricted right to vote; the labor, [laborers] being always in the majority, must, sooner or later, so control the law making power as to hold the capital subject to its will. That labor has for many years past controlled the law-making power of New England. It has now gained the control of the law-making power in many of the States west of the Hudson, and in the last presidential contest, it aspired to, and obtained, the control of the law-making power of this Government." "Thus, society at the North is now pregnant with the seeds of its own destruction: Its only salvation is a *strong Government*, and a *restriction of the elective franchise*." "It is the free suffrage and free labor at the North which now controls the press, the bar, the schools, and the pulpit. It has so shattered the framework of society that society itself exists only in an inverted order at the North."

Let Northern laborers mark what De Jarnette further said:—

"At the South our *new Republic* will have no such element of discord. Capital there owns all labor, which, from its nature, so lowers the man as to make him unfit for society and self-government. Thus capital and labor in our new Republic will work in beautiful harmony; and it is thus that African slavery furnishes the *only basis* upon which republican liberty can be preserved."

Beautiful harmony! Liberty is for the Rulers only, who own all the property or capital, while the rights of all who earn it are trampled under foot! The common people are "unfit for society and self-government!"

Southern statesmen have also declared that slavery is "the substratum of society," that it is "the corner-stone in our political edifice!" And now it is proclaimed by the Southern members of Congress, that nothing can save the Union, but an amendment of the Constitution, in substance, guaranteeing the right of property in slaves in the free Territories, perpetuating the institution, and that such amendments shall never be liable to be rescinded!

Now as nearly all of us at the North are laborers in our various pursuits of industry, what shall we think of such doctrines? Shall we agree to amend the constitution so as to give slavery a paramount influence; to substitute it as the *basis* of the constitution, instead of freedom? The South demands concessions and compromises in order to save the Union, and that these shall be incorporated in the Constitution—the concessions to be all on the part of the free States, which have violated no Southern rights, and therefore can make no concessions. What, then, is the cause of complaint to justify secession, and the attempt to overthrow the Government? It is, so far as we can learn from the debates in Congress, that Northern freemen—laborers—have arisen in the majesty of their strength, and by the simple exercise of their right of suffrage, changed the Administration, in order to restore the government to its original principles. Still the South retained a majority, prior to the secession, in both Houses of Congress, and might have tied up the hands of the President. But the Southern rulers, clearly foreseeing that the twenty millions in the free States would soon have a majority in both Houses, resolved upon secession, unless the North would humbly comply with their imperious demands. It is certain that slavery underlies the whole secession movement.

NORTH.

APPROVAL.—The Boston Post of Thursday says:

The selections from the Republicans of New England for two important diplomatic posts, those of Sardinia and England, have certainly been fortunate. Both Mr. Marsh and Mr. Adams are of high personal character, and both will undoubtedly worthily represent the country abroad.

☞ The Gloucester Telegraph mentions three missing schooners from that port, supposed to be lost, with their crews, twenty-six men in all. The vessels are the White Swallow, H. N. Stanwood, Susan Young.

☞ The Southern tariff is very unpopular with business men at the South. The New Orleans Bee says that New Orleans will lose its Arkansas trade in consequence of it. The Bee asks very pertinently:

"Why should Arkansas continue to make purchases of goods in Louisiana, when the same articles can be procured in Memphis at lower prices. If southern shoes pay twenty or thirty per cent. duty in New Orleans, and pay nothing in Memphis, it is perfectly clear that the latter will wrest from us the major part of this particular branch of commerce; and it is equally certain that we must lose some of our best customers."

The Macon (Ga.) Citizen thus comments upon it:—

"There is no use trying to disguise the fact that the business men of the South are very restive under the operations of the new tariff enactments of the Southern Congress. There is to be any quantity of trouble and hard swearing as to invoices, passing muster at the custom houses, to say nothing of the double tax on all European fabrics, imported through the ports of the United States. But it is the duty of patriots, to grin and bear all these enactions.—Money must be raised to feed and pay an army of defense, and to support the new government, and the hope is entertained that direct trade will be so far inaugurated as to relieve the people from the burden of one of these tariffs."

There will remain however, even in the event of direct trade, the necessity of establishing an army of custom house officers on the Northern frontier, and the Citizen therefore hopes that free trade and direct taxation will yet be the policy of the South.

"THE FATHERS" OF THE COUNTRY, FANCY POLITICIANS.—Mr. Stephens, the Vice President of the Cotton Confederacy, made a speech a few days ago at Atalanta, Georgia, in which he attempted to show the superiority of the Constitution of the Confederacy to that of the United States. The following extract will show the opinions, entertained by the statesmen of Cotton, of the early days of the Republic:—

"A grand difference between the old and new Constitution was this: in the old Constitution, the Fathers looked upon the fallacy of the equality of races, as underlying the foundations of Republican liberty. Jefferson, Madison, Washington, and many others, were tender of the word Slave in the organic law, and *all looked forward to the time when the institution of slavery should be removed from our midst* as a trouble and a stumbling-block. The delusion could not be traced in any of the component parts of the Southern Constitution. In that instrument, we solemnly discarded the pestilent heresy of fancy politicians, that all men, of all races, were equal; and we have made African *inequality* and subordination, and the *equality* of white men, the chief corner-stone of the Southern Republic.

THE OLD COPPER CENTS.—In November last the Directors of the Mint at Philadelphia made an arrangement with the Adams Express Co. to convey to the Mint, free of charge, all old cents to be exchanged for new ones. On the 20th of last Feb. this arrangement was brought to a close. During this time, (about three months,) there have been received at the Mint five million four hundred thousand cents, (fifty-four thousand dollars.) One million one hundred thousand cents were sent from Boston and the east.

In bank parlors in New York, it has become quite common of late to inquire, when jobbing paper is offered for discount, How much confidential paper have they out?—How much rent do they pay? How many horses do they keep? How many newspapers do they own stock in and edit? How much are their store expenses? How much capital have they diverted from their regular business to put into real estate, bank stock, insurance or other stocks?—How much time do they spend away from their business, as directors of insurance companies, churches, opera houses, and other institutions and corporations? Are they managing political campaigns, making stump speeches, or seeking office? How much are the personal expenses of the partners? What amount of assets have they in proportion to their liabilities? Does their business exceed twice the amount of their active capital? Do they attend to their business in all its departments, or leave it to their clerks? Pertinent questions—all.

☞ Deacon Converse denies the statement that the alleged indiscretion or criminality of Mr. Kalloch was brought to his notice soon after its occurrence. He states that it was not communicated to him until some weeks after Mr. Kalloch had received his letters of dismissal and left for Kansas.

☞ The boat builder's shop of Messrs. Orne & Rolfe, in Newburyport, in the rear of the store of R. Bayley & Son, was destroyed by fire about 1 o'clock Tuesday morning. Several boats and a quantity of valuable lumber were burned with the building. The fire is supposed to have caught accidentally from the steam box.

☞ Four runaway negroes, belonging to citizens of Florida, went to Fort Pickens recently, and demanded the protection of Lt. Slemmer. That officer promptly returned them to their masters.

☞ A letter from Little Rock, Arkansas, says:—

Arkansas will not go out of the Union until all hopes of an adjustment shall fail. We will favor a National Convention, and probably appoint delegates to a Border State Convention.

☞ "Our country:—however bounded, still Our Country."—These are the words of a famous toast, which was drank sometime after Texas was annexed, and we believe after we had 'conquered' (and bought) a piece of Mexico.

It was published all over the country, and repeated in speeches and newspaper items, with great applause. The *meaning* of it probably was, that all true republican patriots in the United States, must love, either the soil of Texas and New Mexico, or else the people who lived there, better than they ever did before, and better than they did the outside barbarians. It meant some big like this, or else it meant nothing.

But now, when Texas, and Florida, and Louisiana,—all new comers, have gone out again—are they a part of our country?—And must we love, or hate, the people there? Perhaps somebody, who drank the toast, can tell us. The question is of some consequence.

A MAIL CARRIER ATTACKED BY WOLVES.—The mail carrier between Boyer Valley and Decatur, when about forty-five miles from Iowa, on his return trip, was startled at hearing the howling of wolves, and, turning to ascertain the proximity of his danger, discovered, at no great distance, a pack of a hundred or more wolves, apparently frenzied with hunger, and, with lolling tongues, rapidly lessening the distance between them and the horror-stricken mail-carrier. Viewing thus his danger, with desperation lent by despair, the mail-carrier immediately put whip to his horse, hoping to gain a place of refuge ere the hungering wolves could overtake him; but the wolves gradually gained upon him, and he began to think that his sands of life had nearly run out, when, suddenly, a tree presented itself to his gladdened vision, for which he rode for dear life, and finally gained the asylum of his hopes, with the savage beasts close upon him, and jumped from the horse on to the limb of a tree. The wolves came up in a moment, and, after howling with disappointment for a short time, gradually settled down in quietude to watch their prey. The carrier remained in this awful condition until nearly morning, with scarcely any clothes on, having thrown off nearly all his wearing apparel, hoping to increase the speed of his poor animal. At about the dawn of day, the wolves disappeared, when the mail-carrier, nearly frozen to death, fell from the tree to the ground insensible. In that condition, a friend, who came along a short time afterward, found him, and carried him to a house five miles distant, where he recovered sufficiently, previous to the friend's departure, to relate the story. The horse was chased by a portion of the wolves, and is supposed to be lost, together with the mail.

☞ The captain of the ship Adelaide Bell has sued the proprietors and editors of the New Orleans Crescent for $50,000 damages, on account of certain reports in regard to what was alleged to be a Black Republican flag which was unfurled from the mast-head of the vessel.

☞ Mr. Ayling, a clerk in the dockyard, recently married a Miss Spry. Her creditors pounced upon him for her debts, amounting to $15,000, created by her fashionable tastes and personal extravagance. The husband's place was worth but $800 per annum, and he had to go into bankruptcy. Both names are suggestive.

A BOY'S DAMAGES.—Emory A. Hayden, a child of 10 years, has just recovered $1875 damages in the Connecticut Courts, against the Smithville Manufacturing Co., in Willimantic, for an accident that happened to him while serving as a bobbin boy, in their employ, he having been caught by his hand between the cog wheels of a spinning frame, left unguarded, and the hand partly destroyed.

☞ The Charleston (S.C.) News has an earnest article *against* the union of the border slave States with the cotton States. It thinks the border States had better not join the Southern Confederacy.

The Benedict of the Cleveland Herald writing from Washington in regard to the President's reception says: "The ladies' dresses had evidently been often stepped on, for there was a great breadth upon the floor, and very scant patterns about the shoulders."

☞ Louis Napoleon is charged with an increasing annual expenditure of seventy millions of dollars per annum, and an annual increase of the public debt of fifty millions of dollars.

☞ Goods destined to North Carolina, Tennessee and Arkansas, via Charleston, pass through the Confederate States free of duty and without delay.

☞ The number of cottages engaged at Newport is larger than ever before so early in the season, and the list of names embraces many southerners.

☞ The Raleigh (N. C.) Standard thinks a revolution is coming and the secessionists will be overthrown.

THE ANGEL OF PATIENCE.

BY JOHN G. WHITTIER.

To weary hearts, to mourning homes,
God's meekest angel gently comes;
No power has he to banish pain,
Or give us back our lost again;
And yet, in tenderest love our dear
And Heavenly Father sends him here.

There's quiet in that angel's glance,
There's rest in that still countenance;
He mocks no grief with idle cheer,
Nor wounds with words the mourner's tear,
But ills and woes he may not cure,
He kindly trains us to endure.

Angel of Patience! sent to calm
Our feverish brows with cooling balm;
To lay the storms of hope and fear,
And reconcile life's smile and tear;
And throbs of wounded pride to still,
And make us own our Father's will!

Oh, thou who mournest on thy way!
With longings for the close of day,
He walks with thee, that angel kind,
And gently whispers: "Be resigned!
Bear up, bear on, the end shall tell,
The dear Lord ordereth all things well!"

☞ The seven southern students that left Dartmouth College lately, turn out to be but *four*; and of these four students one goes for poor health, one for poor scholarship, one to enter elsewhere at the north, and *one* only, because his friends, being secessionists, call him home.

☞ Accounts from Texas represent the planting season as being unusually favorable. The prairie grass is said to be abundant, and planters are actively engaged in planting corn and cotton. So says the Victoria Advocate.

☞ George N. Sanders, the "inevitable" and impudent, writes that the Southern Confederacy is so fixed a fact that it will presently invite the Free States to admission within its charmed circle.

☞ Senator Wilson, speaking of his belief that Lincoln will stand by the Chicago platform, asks "when a man ought to forsake his principles?" "When they are *bad*," replies the N. Y. Daybook.

☞ Miss Maria L. Eastman, formerly a teacher in Concord, has purchased the Brooks Seminary for Young Ladies, at Media, Penn., paying therefor $22,000.

WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, NO REMEDY has performed so many or such remarkable cures of the *Throat, Lungs and Chest,*—of *Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma,* or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam*. So generally acknowledged is the supe for excellence of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.

Editor of the Norway Advertiser, gives his opinion of this great remedy substantially as follows:

NORWAY VILLAGE, Me., Aug. 4, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—For a remedy of such undoubted merit as Dr. WISTAR'S BALSAM OF WILD CHERRY, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial and be relieved. Several years since I first became acquainted with this Balsam at a time of distressing cough and cold, which took such firm hold of my lungs as to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain

In our town this remedy is a great favorite with many, and if all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.

Yours respectfully, GEO. W MILLET.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

Local.

THE STORM of Thursday night was the most severe for the Winter. The fall of snow was fully a foot, but it was piled into drifts higher than a man's head in some places, and plastered all over the sides and windows of houses and stores. Streets, roads and railroads, were blockaded more than at any time previous this season.—The train from Portland in the morning arrived at half-past 12, only an hour and a quarter late; but no Boston train arrived here for the day, nor up to the time of our going to press, 4 o'clock Saturday morning. The 7 o'clock train out of Portsmouth ran off the track, a little beyond Newburyport, and only succeeded in getting on the track again, and returning to Newburyport in the evening—where also the 11 o'clock up train was at last accounts. The 5 o'clock up train from Portland remained here all night. A freight train was stuck between Ipswich and Rowley all day.

The down trains got to Ipswich, but of course could come no farther, as the road was blockaded with trains as well as snow. Finally, at 10 o'clock Friday night, it was telegraphed that the down train had started from Ipswich, and it was deemed reasonable to expect it here by midnight—but as nothing more was heard of it, it probably ran off the track before getting to Newburyport.

And to cap all, the telegraph failed us also. The wires above Salem were down, the first part of the day; and for the remainder, were monopolized by Portland business, to the exclusion of all other. And as the office in Newburyport closed at half-past 10 — we think, altogether, we have pretty good excuse for being short of news this morning, don't you, reader?

The P. S. & P. B. trains were the only ones that got through on anything like time—and but for a delay of an hour or more, caused by the freight train being off the track, below Portsmouth, the morning Portland train up would have been in on time.

No train arrived or left on the C. & P. Road, for the day.

Thursday afternoon, the Navy Yard boat, after getting almost across to the Yard, was obliged to return to this side, for the night—so powerful was the combination of head wind and strong tide running up.

☞ A private Masquerade and Fancy Dress Ball came off at Union Hall in this city, on Thursday night last. It was well attended, the number being limited; and was altogether a brilliant and successful affair. The music was by Turner's new Quadrille Band. The ladies were "dressed and undressed" beautifully, as is usual on such occasions.

☞ The storm of Thursday night was so severe, the darkness so intense, and the streets blocked with snow to such an extent, that the hackmen, with good reason, declined to turn out and convey the attendants at the Bal Masque to their homes, until daylight Friday morning. One hack was capsized, in the attempt—and in the morning, even, the teams got stuck in snow-drifts several times, and had to be shovelled out, and in some cases the gaily-dressed passengers were obliged to dismount.

☞ Jaques' Extract of the Pond Lily, (for a sample bottle of which we are indebted to Mr. N. P. Thacher,) is one of the most exquisite of all perfumes—and is put up in elegant style. A bewitching representation of Pond Lilies is on the label and box: and the same beautiful photograph, when enlarged for the show-card, presents an accurate likeness of one of Portsmouth's fair daughters. All who appreciate delicate scents, should have a bottle of the Pond Lily.

☞ The Portsmouth Steam Factory have declared a dividend of three per cent., payable on the 1st of April.

A San Francisco letter says:—"Rev. T. Starr King, who gets $6000 a year salary, and makes no little by his lectures, told his people that if they would pay off the church debt by the 1st of May he would stay another year with them, and perhaps two years. As they have paid off $10,000 of debt during the past ten months, and as there is but about $6000 more due, it is presumed that he will not go back for the present to his congregation in Boston, who paid $2500 salary a year."

MAY FLOWERS IN MARCH AND IN WINTER.—Much obliged are we to a fair friend for the Mayflower sent us yesterday. How it managed to get above the snow, find sun enough to open its petals and give it fragrance, is more than we can understand. It certainly stole a march upon the winter that now surrounds us.—*Portland Argus, 22d.*

☞ Within the past two years there have been more instances of murder of husbands by their wives, than in the twenty years previous.

☞ A man must be pre-eminently a gentleman who will respect a woman who does not compel him to do so.

☞ Barnum's latest curiosity is a *three ounce dog* purchased in Bridgeport for $100.

RHEUMATISM AND NEURALGIA.

GARDINER'S

RHEUMATIC AND NEURALGIA COMPOUND,

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entire ly cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hunareds of persons for Scrofulous Humors with great benefit.

LIFE INSURANCE.

"IN THE MIDST OF LIFE WE ARE IN DEATH."

The strong man often falters, and falls in the midst of the hurry and business of life. The *wise* man maketh provision for those whom he loveth, against the liability to accident and death.

THE

MUTUAL LIFE INSURANCE CO.

Of New York,

with an accumulated capital of over

SEVEN MILLION DOLLARS,

Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually, or annually*, at the option of the insured.

The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.

No reflecting man can sit at his fireside with his young family about him, and feel at ease:—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

GROVER & BAKER

SEWING MACHINES.

TO THE LADIES.

CHARLES T. EMERY,

No. 10 Market Sq., Portsmouth,

Having been appointed

SOLE AGENT IN PORTSMOUTH

for the sale of the celebrated and unrivalled Noiseless

GROVER & BAKER

FAMILY AND MANUFACTURING

Sewing Machines,

would invite especial attention to the same.

THE GROVER & BAKER SEWING MACHINE makes the only seam formed by a Sewing Machine, in which each stitch is independently locked, and without dependence on other stitches for strength, and the only seam that will admit of the thread being cut at every fourth stitch without injury to the seam in wear.

THE GROVER & BAKER SEWING MACHINE is adapted to all varieties of fabrics, sewing equally well the finest Swiss Muslin or the heaviest cloth or leather, and requiring no adjustment for any kind of sewing other than the adaptation of needles and thread.

THE GROVER & BAKER SEWING MACHINE sews from ordinary spools without rewinding, and fastens its own seams, thereby saving time and thread It will sew common spool cotton, silk and linen thread with equal facility.

THE GROVER & BAKER SEWING MACHINE is so simple that an intelligent child of ten years can readily learn to operate it. It is more easily kept in order than any other machine, and need not be taken apart to be oiled.

THE GROVER & BAKER SEWING MACHINE makes the only stitch that cannot be injured by washing and ironing, and the only stitch that forms an elastic and durable seam. Fabrics put together with this stitch may wear out and drop to pieces from original weakness, or hard usage, but come apart or give way at the seams, they cannot; they will hold together when the cloth or calico around them hangs in rags and tatters.

Every Machine Warranted.

PRICES FROM $40 UPWARDS.

☞ Be sure to call and examine.

I have also been appointed agent for

THE UNIVERSAL HEMMER,

Which can be attached to *any* machine, and will turn a hem from 1-16 inch to 2½ inches, without previous basting.

A VOICE FROM THE WEST!

FROM THE CLEVELAND PLAINDEALER

UNIVERSAL, UNIVERSAL,

IS THE DEMAND FOR

DR. S. O. RICHARDSON'S

SHERRY WINE BITTERS

The celebrated New England remedy for

Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.

They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.

Dr. JAMES L. LEPEERE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."

E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."

Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.

THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."

GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."

J. W. HUNT writes from Delphos, Allen Co., Ohio, (a notorious place where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.

D. R. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

BELLINGHAM'S

Celebrated Stimulating Ongunent!

For the Whiskers and Hair.

The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the Agency for, and are now enabled to offer to the American people, the above justly celebrated and world-renowned article.

THE STIMULATING ONGUENT

is prepared by DR. C. P. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of

WHISKERS OR A MUSTACHE

in from three to six weeks. This article is the only one of the kind used by the French, and in London and Paris it is in universal use.

It is a beautiful, economical, soothing, yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp, it will cure BALDNESS, and cause to spring up in place of the bald spots a fine growth of new hair. Applied according to directions, it will turn RED or TOWY hair DARK, and restore GRAY hair to its original color, leaving it soft, smooth and flexible. The "ONGUENT" is an indispensable article in every gentleman's toilet, and after one week's use they would not for any consideration be without it.

The subscribers are the only Agents for the article in the United States, to whom all orders must be addressed.

Price One Dollar a box—for sale by all druggists and Dealers; or a box of the "Onguent," (warranted to have the desired effect,) will be sent to any one who desires it, by mail (direct,) securely packed, on receipt of price and postage, $1.18. Apply or address

A SUNBEAM AND A SHADOW.

I hear a shout of merriment,
A laughing boy I see;
Two little feet the carpet press,
And bring the child to me.
Two little arms are round my neck,
Two feet upon my knee;
How fall the kisses on my cheek!
How sweet they are to me!

That merry shout no more I hear.
No laughing child I see;
No little arms are round my neck,
Nor feet upon my knee!
No kisses drop upon my cheek,
Those lips are sealed to me.
Dear Lord, how could I give him up
To any but to thee!

☞ On the 19th ult., a schooner hauling out from San Francisco, California, hoisted the Palmetto flag. A crowd instantly assembled on the wharf, and by a well directed fire of potatoes, compelled the would-be secessionists not only to haul down the obnoxious colors, but to hoist the "Stars and Stripes" in their place.

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and do you feel your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some bit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors and purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the digestive organs of the body, they are equally, and many of them surely, cured by the same means. None who know the virtues of these Pills would neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of sickness spoon after spoon her life long, and had pronounced incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we know. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR BRO. AYER: I cannot answer you what complaint I have cured with your Pills better than to say *all but* we ever cured without them. I place great reliance on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER. *Sir:* I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once.

Yours with great respect, ED. W. PRESLE, *Clerk of Second Ward.*

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the liver very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at last a purgative pill on which we may rely, and which we can recommend with the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, Washington, D. C., 7th Feb., 1856.

SIR: I have used your Pills in my family and in hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quite marked, and I have frequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them. Esteemedly yours, ALONZO BALL, M. D., *Physician of the Marine Hospital.*

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for *bilious dysentery and diarrhœa.* Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in ministerial duty, to regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V HIMES.

WARREN, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and *purify the fountains of the blood.*

JOHN G. MERIAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Tingle, Montreal, Canada.

Too much cannot be said of your Pills for the cure of costiveness. Of others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitude suffering from the complaint, which, although bad enough in itself, is the prompter of others that are worse. I believe costiveness to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Smart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promoters of the natural movements which wholly or partially disappeared, and I also have effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hendee, of the Methodist Episc. Church.

PLEASANT HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my kidneys, followed by a distressing neuralgic pain, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills, their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec., 1855.

DR. AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that has afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its injudicious use. These contain no mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

SOMETHING MORE VALUABLE

THAN SILVER OR GOLD,

BECAUSE

IT WILL RESTORE THE WEAK,
AND REINSTATE THE BLOOD IN ALL ITS
ORIGINAL PURITY & VIGOR.

It is

PROF. O. J. WOOD'S

RESTORATIVE CORDIAL

—AND—

BLOOD RENOVATOR.

It is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and then restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted as to *act in perfect accordance with the laws of nature, and hence soothe the weakest stomach,* and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of those of those of those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. As a sure preventive and cure of

CONSUMPTION, BRONCHITIS, DYSPEPSIA INDIGESTION, LOSS OF APPETITE, FAINTNESS, NERVOUS IRRITABILITY, NEURALGIA, PALPITATION OF THE HEART, MELANCHOLY, HYPOCHONDRIA, NIGHT SWEATS, LANGUOR, GIDDINESS, AND ALL THAT CLASS OF CASES SO FEARFULLY PRALANT AMONG FEMALE WEAKNESSES AND IRREGULARITIES.

THERE IS NOTHING ITS EQUAL!

Also Liver Derangements and Torpidity, and Liver Complaints, Disease of the Kidneys, or any general derangement of the Urinary Organs.

It will not only cure the debility following CHILLS and FEVER, but prevent all attacks arising from miasmatic influences and cure the disease at once, if already attacked.

TRAVELLERS should have a bottle with them, for it will infallibly prevent any deleterious consequences following upon the change of climate and water.

As it prevents costiveness, and strengthens the digestive organs, it should be in the hands of all persons of sedentary habits.

LADIES not accustomed to much out-door exercise, should always use it.

MOTHERS should use it, for it is a perfect relief, taken a month or two before the final trial—she will pass the dreadful period with perfect ease and safety

There is no mistake about it!

THE CORDIAL IS ALL WE CLAIM FOR IT!

MOTHERS, TRY IT!

"And to you we appeal, to detect the illness or decline not only of your daughters, before it is too late, but also your sons and husbands, for while the former, from mistaken delicacy, often go down to a premature grave rather than let their condition be known; in time, the latter are often so seized up with the excitement of business that if it were not for you they too would travel into the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never failing affection will unerringly direct you to THE OLD RESTORATIVE CORDIAL AND BLOOD RENOVATOR as the remedy which should be always on hand in time of need.

O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market St., Louis, Mo., and sold by all good Druggists. Price $1 per bottle.

Read what the Press say, after thoroughly testing the matter, and no one can have doubt.

PROF. WOOD'S Restorative Cordial and Blood Renovator is a pleasant and powerful tonic, most pleasant to the taste, and invigorating to the system. While it purifies the blood and soothes the nervous irritation, it aids the organs of digestion to perform their functions, and resists the assaults of disease. It is a chemical compound so skillfully combined, that while it exhilarates it does not provoke the lassitude which usually follows excitement. A tonic composed exclusively of vegetable matter, it is absolutely harmless, and no ill effects can possibly accompany its use. It is an infallible and speedy remedy for Loss of Appetite, Faintness, Nervous Irritability, Nervous Weakness, Falling of the Womb, and other delicate diseases to which women are subject. For Sickness of the Stomach, Bilious Attacks, Liver Complaint, Costiveness, Dyspepsia, Consumption, and a host of evils flesh is heir to, it is a certain cure.—*St. Louis Morning Herald.*

PROF. WOOD'S RESTORATIVE CORDIAL.—It is recorded in the classics that Dryden was accosted by a client who had come to Westminster, to procure a sample of the beauty of Prescriptive in a box. After some delay the messenger returned, and as soon as he got out of the door he opened, and out flew all the life that flesh is heir to. Fortunately hope was found in the bottom of the box. Prof. Wood's Restorative Cordial revives the recollection of the story, for it invigorates the blood, it aids the organs of digestion, imparts strength to the various system, and imparts a physical of health so as to bid defiance to the assaults of disease. It is a healthy tonic, composed entirely of vegetable productions, and while it exhilarating as pure wine, no injurious results can possibly follow its use. It is a desideratum in the medical world, and those who are afflicted with loss of appetite, Dyspepsia, Consumption, Faintness, Neuralgia, Palpitation of the Heart, &c., will find an infallible panacea.—*St. Louis Daily Express.*

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR is, without doubt, the best tonic Cordial in the world. To those who are suffering from general debility, we would recommend its use, for it is pleasant to the taste, it strengthening to the system, and will at once tend to remove all impurities of the blood, and eradicate all traces of disease. It can be taken by the weakest stomach, while those in good health will at once feel its exhilarating power. We are confident that after using one bottle of this cordial, none will be for a day without it.—*N. Y. Leader.*

A PURE, HEALTHY TONIC, and one free from the deleterious and injurious effects sure to follow those in ordinary use, has long been felt to be a desideratum in the medical world. Such a tonic, and one so skillfully combined from the vegetable kingdom as to act in perfect accordance with the laws of Nature, and thus soothe the weakest stomach, and at the same time allay nervous and other irritations, and tone up all the organs of which the human body is composed, is offered in Prof. Wood's Restorative Cordial and Blood Renovator. Hence it is perfectly adapted to old and Young, Enfeebled and Infirm. Thousands have already done so; the testimony is universal in its favor.—*New York Atlas.*

☞ Before noticing a patent medicine, we have to be certain that it will prove itself to be all that it is recommended. And we would say that the Prof. Wood's Restorative Cordial and Blood Renovator, fully fulfils the test fully, and in fact it is without doubt the first article in the market for purifying the blood and strengthening the system. We have no hesitation in recommending its use to all.—*New Yorker.*

DR. DARIUS HAM'S

Dyspepsia Remedy

AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Invigorates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and cure the weak, nervous and sickly to health, strength and vigor.

Persons who from the injudicious use of liquors, have become depleted, and their nervous systems shattered, constitutions broken down, and suffering the horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.

One dose will remove all Bad Spirits.

One dose will cure Heartburn.

Three doses will cure Indigestion

One dose will give you a good appetite.

One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing effects of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints are sured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the monthly surgeon, and give the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

BININGER'S
OLD KENTUCKY
BOURBON
"1849 RESERVE"

The *established popularity* of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of Kentucky Whiskeys.

Being distilled in 1848, and manufactured expressly for us with great care, it can be relied upon as a strictly pure article, and peculiarly effective for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a curative agent it has a tendency to *recreate* and *strengthen*; while age having contributed its genial influence, and rendering it within a delicious flavor and oily body, it affords a pleasant incentive to the preservation or recovery of health, through the agreeable medium of a well pleased palate.

Put up in a variety of attractive forms, in iron-bound cases of twelve and two dozen bottles each, and sold by all prominent druggists, grocers and town agents. A. M. BININGER & CO.,

THRILLING ADVENTURE.—The following thrilling adventure happened a day or two since to a well known gentleman of this city, a tailor by trade, but whose name we forbear to mention. On New Year's Day he took a double barrelled shot-gun and proceeded to the Mission in quest of small game, and the birds being quite shy, he loaded his gun pretty heavily. While crossing a large field, he was observed by a ferocious bull, which immediately gave chase. The frightened sportsman ran as fast as his legs could carry him; but the enraged animal gained rapidly upon his faltering steps, having run a goodly distance, and no fence or means of escape in sight. The ferocious bull had got within five yards of him when the sportsman fell, but he immediately pointed his gun at the bull's eye, and gave him the contents of barrel number one, which hit the bull in the forehead and brought him to the ground.

Taking advantage of the respite, the hunter staggered to his feet, and again achieved a small distance from his formidable antagonist, who had recovered from his first shock and was once more in full pursuit. The sportsman turned and fired barrel number two, which hit the bull on the side of the left jaw, and knocked him over once more, the pursuer and pursued being about ten feet apart. Again the hunter started on the clean leap, and again the bull recovered and followed at full speed. Finding that the animal was fast closing with him, our hero turned and struck the infuriate beast over the head with the stock of his gun, breaking the stock and knocking the bull down. Again he turned and fled, once more the bull got up and made after him with vengeful spite, when the hunter turned for the fourth time and knocked him down with the barrels of his gun, and repeated his blows until he killed his dreadful antagonist.—*San Francisco Herald.*

THE FRENCHMAN WHO DID NOT UNDERSTAND THE ENGLISH LANGUAGE.—Some time since, (no matter when,) a Frenchman came to this country, and, in order to facilitate his understanding of the language, bought an English dictionary. At his arrival, he noticed a crowd on the wharf, cheering two women, who were enacting an imitation of Heenan and Sayers; and the bystanders giving vent to their feelings in their own language. The lover of frogs lastly procured his English dictionary and joined the collection; and as one of the combatants seemed to get the better of the other, the crowd cried out, "Well done, Peg!" (Peg being vulgarly used to abbreviate Margaret.) The Frenchman turned over his dictionary and found 'well,' the definition of which was a hole in the ground, to draw water from; turned over again and found "done," the definition being "well baked;" turned to the word "peg," and found the definition, "a thing to hang an umbrella or other article on." All of which sorely puzzled Johnny Crapeau, he not understanding what those words as defined, had to do with two women fighting.

Theological Metaphysics is pretty generally nothing more than a "darkening of counsel by words without knowledge." Most purely theological contentions arise out of sheer misunderstanding. The disputants often become metaphysical, according to the explanation of metaphysics by the Scotchman, who said:

"Metaphysics is when twa men are talking thegither, and one of them dinna ken what he is talking about, and the ither canna understand him."

Drs. Chalmers and Stuart must have been a "wee bit" metaphysical that day they got into a controversy about the nature of faith. Chalmers, compelled at length to leave his friend, said—

"I have time to say no more; but you will find my views fully and well put in a recent tract called 'Difficulties in the Way of Believing.'"

"Why," exclaimed Dr. Stuart, "that is my own tract; I published it myself!"

☞ A New Orleans correspondent of the N. Y. World closes a long letter on the state of affairs in Louisiana with the following paragraph:

The state of feeling here among the people is a jumble; there being a strong party opposed to secession, in fact, a majority in the city and State—yet nearly all are ready to fight against coercion. Most seem to hate the North; some desire an immediate war, opening of the slave trade, free tariff, direct taxation, State sovereignty; others violently oppose these measures. Chaos seems about to come again, so far as the human mind is related; only one thing unites us all,—that is, laying the blame of all this at the door of the North, and taking no degree of wrong to ourselves.

DISUNION IN KENTUCKY.—The disunionists of Kentucky have called a mass convention, to meet at Frankfort on March 20, of "all who love the South and are determined to maintain her rights; who advocate resistance to the coercion of the seceded States by the federal government; who prefer an alliance with the slaveholding States to submission to northern aggression; and who desire a reconstructed confederacy of the slaveholding and loyal free States rather than the rule of an abolitionized and centralized despotism." The call is signed by about thirty names, none of them of much note.

MONDAY, MARCH 25, 1861.

HENRY CLAY FORGOTTEN.

In these days, when treason is rampant; when cowards in the North look with fear at the drivers of the South; when the *drivers* of the seceding states will not let the *people* vote on what purports to be a *popular* outbreak, and the *would-be-drivers* of the northern states strike hands with the oppressor,—in these days, says Uncle Toby, it is well to look back, only a very few years, to see what was said about the right and wrong of slavery and freedom, by such men as Henry Clay,—and by some other men, about the Divine Government as applicable to this subject and this nation.

Rev. Dr. Stearns, of Cambridge, Mass., in April 1854, in an address on the pending Nebraska bill, held this language:

"The passing of this bill would imply an acknowledged change in national policy and feelings with regard to the permanence and increase of slavery. It would be saying to the world, that young America not only repudiates the old anti-slavery doctrines of the Revolution, but rejects as obsolete the almost united sentiment of the southern patriots of a former generation. It has outgrown the fears, the humanity, the hatred of oppression which characterized the councils of Washington, of Madison, of Marshall, and of him, the generous, far-seeing patriot of a later age, ever ready to make sacrifices for the peace of the Union —Henry Clay. To their minds, slavery was a moral wrong, a social curse, a national disgrace. It was to be limited; not extended, not perpetuated; but as early as may be, removed. In a speech before the American Colonization Society, at Washington, in 1827, Mr. Clay said:—

"If I could be instrumental in eradicating this *deepest stain* from the character of our country, and removing all cause of reproach on account of it, by foreign nations; if I could only be instrumental in ridding of this *foul blot* that revered State which gave me birth, or that not less beloved State which kindly adopted me as her son, I would not exchange the proud satisfaction which I should enjoy, for the honor of all the triumphs ever decreed to the most successful conqueror."

In another speech, delivered on a similar occasion in 1829, in Kentucky, he exclaims: "Is there no remedy? Must we endure perpetually all the undoubted mischiefs of a state of slavery, as it affects both the free and bond portions of these states? What mind is sufficiently extensive in its reach; what nerves sufficiently strong, to contemplate this vast and excessive augmentation, [of the slave population] without an awful foreboding of the tremendous consequences?"

Dr. Stearns resumes thus:—"In opposition to these great sentiments, now we say, let slavery come, let it cover our territories, let it exist as a part of our policy, and be perpetuated to the remotest generations.

What might be the ultimate effect of the act contemplated, this is not the place to divine. I believe in an Almighty Governor of nations. I have confidence, from causes already in operation, and the high overrulings of Heaven, that even this bill would redound in the end to the advancement of freedom. Depend upon it, if passed it will be a bad move for the South. It was expected that the Mexican war would bring great accessions of power to the slave interest. But under the control of Him who turneth the councils of men into foolishness, the Mexican war gave the heaviest blow to slavery which it has ever received since the formation of the Constitution. What has been, might be, will be again. But through what convulsions the nation must first pass, God only knows. We certainly cannot be justified if, by our supineness, we run the dreadful hazard. At the same time, we shall stand before the nations of the earth with unnumbered fingers of scorn pointed at us.

"One objection more to the passage of this bill. It will exasperate the North, and give intensity to agitation. It will add strength to that indiscriminate abolition which has seemed to act from the beginning, without sense or reason, or any regard to consequences. The country will have no rest under it. It will be fetters on the limbs of freemen. And whatever may be the consequences, American freemen can never be held in chains. The slave may be crushed under the heel of oppression, but the Norman Saxon will have liberty or perish in the struggle for it. Slave labor and free labor cannot exist side by side. When you open those vast territories to a slave population, you effectually drive out the enterprising freemen. You shackle northern liberties. You say to the free agriculturists of New England and New York, and Ohio, how down, that we may go over; and the free agriculturists of New England, New York and Ohio are not the men to lay their body as the ground and the street to them that go over. You also say to the Northern States, you must henceforth tolerate slavery, wherever it shall please to take possession, in every inch of territory which you now own, or may hereafter acquire. Under such a doctrine there will be agitations, and frenzied excitements, till the spirit of the old patriots triumphs again, or —I dare not contemplate the awful result."

SAD FIRE, ACCIDENTS, AND LOSS OF LIFE.—On Thursday night, the North Church, Newburyport, (late Dr. Dimmick's) was discovered to be on fire at about 12 1-2 o'clock, the first alarm being given by a steam whistle from an engine on the Eastern Railroad, that happened just then to have arrived from Ipswich, and sent its scream over the town, arousing all people. In the midst of the storm, with light reflecting from the snow, the people every where in the neighborhood supposed their own house in flames, and some even carried their children into the streets before the mistake was discovered. One could hardly tell on which side the fire was, for burning shingles were blowing over the snow for a quarter of a mile.

The fire was evidently the work of an incendiary, as the Herald says no one had been had in the meeting-house since Wednesday evening. The church was a good building, erected in 1768, and rebuilt in 1826. It was of brick, having a chapel and other rooms in the basement, and well-furnished throughout. The loss to the society will probably not fall short of $20,000 —no insurance. A part of the basement was used by Hon. Albert Currier for the storage of tools, frames, falls, &c., valued at two or three thousand dollars. He was also the owner of the house on Berry street next above the church, upon which the wall fell, crushing the building. It was valued at some $600 or $700, and insured. There was also other property lost. Mr. Sumner had a small French organ in the vestry valued at $200. There were also much-prized portraits of Drs. Spring and Dimmick. Mr. Stockman, residing in the house on Titcomb street near the church, had property destroyed to the amount of several hundred dollars. The only insurance we hear of, is that stated above.

Too much credit cannot be given to the firemen, who worked like heroes in getting the engines to the spot, driving them thro' snow, in places several feet deep, through which horses could not pass, and where passages were cleared by shovelling. There was a good supply of water, and most zealously did they exert themselves. We are sorry to add that one of them was much injured while in the performance of his duty. His name was Henry Hewett, aged about 19, who was a member of Company No. 1. A falling brick fractured his skull, and the wound is dangerous.

When discovered, the fire was burning in the tower and through the roof, and soon the whole was enveloped in flames, the lurid glare presenting a frightful spectacle, and threatening great destruction of property; but fortunately the fire was confined within the walls of the Church, only scorching the adjacent buildings. The Church was soon in ruins. In the course of an hour, the flames on the top of the tower had loosened the blind-frames to the upper windows, and one of them came down in Titcomb st., and falling upon Mr. Francis C. Lunt, about 23 years old, crushed him to the earth, causing death in a short time.

The old bell fell into the ruins and melted. When the first persons reached the church after the alarm, there was no fire in the vestry or the lower part of the building, but the upper portion of the tower, and the roof near, were in a blaze. They took hold of the rope to ring the bell, but it gave way, having been burnt off within ten feet of the bell deck. It is evident that the fire did not take near the furnace nor on the end of the building: but did near the organ; and the flames thence passed up through the ventilator to the place where it first burst forth.

WASHINGTON, March 22.—The rumors of the non evacuation of Fort Sumter are supposed to be put forward for political effect. It is positively certain that it will be abandoned speedily. It is also equally certain that Fort Pickens will not be reinforced. All the signs are favorable to a peaceful solution of the national difficulties.

The Republican Senators in caucus today resolved to supersede the present Sergeant-at-arms, Doorkeeper and Assistant Doorkeeper, by a new election.

There is no determination in administration circles relative to an extra session of Congress.

The chartered vessels which recently left New York for government purposes, sailed under sealed orders.

Col. Barbour, Superintendent of the Harper's Ferry Armory, tendered his resignation to-day.

☞ In the California Legislature, at the latest date,—the Assembly had passed a series of strong Union resolutions, that body refusing to concur in the Crittenden compromise resolutions as passed by the Senate.

Five ballotings had been had for Senator in the Legislature. The Republicans had previously nominated T. S. Phelps. James A. McDougal received a partial caucus nomination from the Douglas members.—The last vote stood: Denver 15; McDougal 25; Nugent 16; Phelps 21; Weller 19; scattering 11. Probably no candidate yet balloted for can be elected.

The American Hotel and other buildings in Quincy, Plumas county, had been destroyed by fire.

Encouraging intelligence had been received from the new silver mining region on the Colorado.

☞ The Town House at South Newmarket was damaged badly by fire on the 18th inst. The fire caught from a flue which had been stuffed with old papers.

REV. THOMAS WHITTEMORE, D.D., One of the leading Universalists of the country, died at his residence in Cambridge, Mass., on Thursday, at the age of 61 years. Probably few men in the denomination were so widely known, while the circle of those who held him in high estimation, extended far beyond the denomination, to the public generally. Probably few men in the community were more popular as a man and citizen. He had the rare faculty of pleasing everybody with whom he came in contact.

Mr. Whittemore was born in Boston, January 1, 1800, and baptized in Brattle street Church when two weeks old. At the age of 14 he was apprenticed to a morocco-dresser in Charlestown, and subsequently to a brass-founder, both of which he left. After this, he went to Lynn, where he commenced work on ladies' shoes. After a short time he was bound as an apprentice to Abel Baker, a noted boot-maker of Boston, with whom he lived until he was 21 years of age. While with Mr. Baker he became acquainted with the late Rev. Hosea Ballou, by whose suggestions, he commenced the study of the ministry.—He preached his first sermon in Roxbury, two weeks before attaining his majority, and in April, 1820, was settled in Milford, Mass., where he married the daughter of John Corbett. After one year, he removed to Cambridgeport and took charge of the Universalist Society there. His pastoral relation continued nine years, when he resigned, but has resided there since.

Mr. Whittemore led an active life, both as a writer and preacher. In early life he was joint editor of the Universalist Magazine, and for nearly thirty years was sole editor of the Trumpet, which he originated in 1828. He wrote and published many books, highly valued among his brethren.

He was a clear-headed, sagacious business man; and in the course of his active life accumulated a handsome property. He leaves eight children, four sons and four daughters.

As a preacher Mr. Whittemore was profoundly earnest. Few men could retain the attention of a congregation closer than he. Out of the pulpit he was a *wit;* and with many a tear that shall now fall to his memory, will be mingled a recollection of the joyful emotions he has excited. He will be greatly missed in the domestic, social and business circles, of which he was the centre and soul.

SPECIAL SESSION U. S. SENATE.

FRIDAY, March 22.

Mr. Hale offered a resolution that the Senate elect a Sergeant-at-Arms, Doorkeeper and Assistant. Laid over.

Mr. Douglas' resolution was taken up, and Mr. Bayard concluded his speech.

Mr. Howe of Wisconsin opposed the resolution because it was wholly unnecessary, and he was not convinced of the wisdom of giving to the country the intelligence which was demanded by the resolution.

The new administration has proclaimed and earnest desire and fixed purpose to maintain the authority of the United States, and not the authority of this or that section merely, by peaceful means, if peaceful means will suffice. This is the settled purpose of the government as he understood it, and was it not a purpose which demanded the best energies of every one? It seemed to him that the Senator from Illinois was furnishing aid to the enemies of the country. His (Mr. Howe's) party had done nothing to create the feverish apprehension alluded to by the Senator from Illinois. They have no purpose of trampling upon the rights of any individual in any portion of the country.

He objected to Mr. Douglas' proposition to amend the constitution, on the ground that it would only be approved by a portion of the people, while the constitution to be satisfactory must received the assent of the whole country. We have such a constitution now, and why should not the people continue to be satisfied with it?

Without concluding, Mr. Howe gave way to an executive session. Adjourned.

EXECUTIVE APPOINTMENTS.—*Washington, March 22.*—The Senate confirmed today J. W. Nye, Governor of Nevada; Rufus King, Minister to Rome; Bradford R. Wood, Minister to Denmark; Anson Burlingame, Minister to Austria; Elisha O. Crosby, Minister to Guatemala; J. O. Putman, Consul at Havre; Freeman H. Morse, Consul at London; James H. Anderson, of Ohio, Consul to Hamburg; Francis H. Moody, Receiver of Public Monies at Little Rock, Arkansas; and Lieut. Hartsuff, Assistant Adjutant General, with rank of Captain.

E. Dunnell of Maine has been nominated for Consul at Vera Cruz, and Joshua R. Giddings of Ohio for Consul General to British North America.

Thomas Corwin having withdrawn his declination, was confirmed to-day as Minister to Mexico.

MILLIKEN'S HOTEL.—Mr. Milliken, for many years the keeper of that popular house for good living and lodging, kept on the European plan, has resumed his old place, and will be happy to see his old customers and the public at his House, rear of No. 185 1-2 Washington street, between Bromfield and School streets. This house, under the administration of Mr. Milliken, was one of the most popular homes for travellers in the city. Gentlemen with their families, coming to the city, will find at this house all the comforts and conveniences of the best hotels, and at the most moderate charges. Mr. M. intends it shall now be more deserving than ever of the public approbation. Most of the sleeping rooms are heated with steam. Immediately connected with the house are hot and cold baths.—*Boston Journal.*

TEXAS.—*Galveston, March 20.*—The convention has passed an ordinance declaring vacant the Governor's chair, and also that of the Secretary of State, on account of their refusal to appear before the convention and take the oath. The Lieut. Governor will assume the functions of Gov. immediately.

The Secretary of State has been called upon to hand over the great seal and the official records.

The Legislature met on the 18th.

It is not known what Gov. Houston will do.

PHILADELPHIA, March 21.—The mail train on the Pennsylvania Railroad ran off the track last night, near Altona. The baggage car caught fire and all the mail matter, together with the baggage of 80 passengers, was destroyed. No persons were injured.

WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, NO REMEDY has performed so many or such remarkable cures of the *Throat, Lungs and Chest,*—of *Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma,* or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam.* So generally acknowledged is the superior excellence of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.

Editor of the Norway Advertiser, gives his opinion of this great remedy substantially as follows:

NORWAY VILLAGE, Me., Aug 4, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—For a remedy of such undoubted merit as DR. WISTAR'S BALSAM OF WILD CHERRY, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial and be relieved. Several years since I first became acquainted with this Balsam at a time of distressing cough and cold, which took such firm hold of my lungs as to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain.

In our town this remedy is a great favorite with many, and if all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of the class before the public.

Yours respectfully. GEO. W. MILLET.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

HAIR RESTORATIVE.

The following is a sample of many letters daily received by W. E. HAGAN & CO., Troy, N. Y., who are the Manufacturers and Proprietors of "HEIMSTREET'S HAIR RESTORATIVE," an article of which many of our first citizens speak as being the *cheapest and best* Hair Preparation which has ever been introduced in our market. A combination of Stimulating Spirits and Oil, affording an agreeable *Hair Dressing*, leaving the scalp perfectly free from dandruff, and causing the Hair to have a *rich, glossy appearance.* Two articles in one. A fine "*Hair Dressing,*" and a never-failing Restorative for the *Bald* and *Gray.*—Read the following letter:

ST. LOUIS, MO., June, 1859.

MR. HENRY REYNOLDS,—*Dear Sir:*—I hereby certify that my hair having become *gray,* I used, at your request, HEIMSTREET'S INIMITABLE HAIR RESTORATIVE, (prepared by W. E. HAGAN & CO., Troy, N. Y.,) for several weeks. My hair was in that time restored to its original color, with all its luxuriance and beauty; and I will be much pleased to recommend the article, personally, on any and every occasion, as I know it has merits that the Proprietors do not claim for it in their circulars. Local.

☞ Our first Boston paper, since the storm, came to us over the Concord & Portsmouth railroad, on Saturday forenoon at 11 o'clock.

The train from Concord on Friday, came down within a mile of Newmarket Junction, and there the engine broke down.—Then it became necessary to go back to Concord and get another.

Thus the day was spent,—but on Friday all was right again on that track.

On the Eastern Railroad, the train which left Boston at half past 7 on Friday morning, arrived here Saturday noon, having been 28 hours on the road.

☞ A farmer residing in the vicinity of Portsmouth, says that he has not seen such huge drifts of snow in the roads in the month of March, for the past thirty years. In some roads, the drifts were from eleven to fourteen feet high. A few days of warm sunshine, however, will cause them to grow "beautifully less."

☞ The late storm was terribly tough for the Railroads. An old railroad man tells us he has not seen the like in eighteen winters he has been in the business—the huge snow-ploughs cut through the solid drifts, piled several feet above their tops. The Eastern Railroad was never so long blockaded before.

☞ Philosophers say there is a certain amount of heat in snow. If this be true, we ought to have some awful hot weather after such a snow storm as has just visited us. Probably we shall—next June or July.

THE OFFICES.—To the citizens of Portsmouth, Who shall be Postmaster? is perhaps of more importance, than who shall have all the other places of trust, honor or emolument in the city. We hear of but three applicants for the berth; and the most earnest and sanguine of these, has been in Washington for several days past, to press his "claims." We go in for Vox Populi, and are sorry there has been no meeting of citizens to express their preferences in the matter. Is it too late now?

☞ As is well known to our readers, Messrs. (Albert) Blaisdell & Emerson, have a contract to build a U. S. Custom House at Galveston, Texas; and took out a large gang of hands from Portsmouth, for the purpose. There having been rumors current here, at various times, of interruptions and stopping of the work, we deem it proper to say, that letters received from Mr. Blaisdell, by his family in this city, state that the building is progressing favorably, and will probably be finished about the first of May—and the only cause of complaint is, the total lack of remittances from Government. With the exception of two of the workmen, who have returned hither—one sick, and one injured by a fall—all hands are well, and enjoying themselves.

☞ The ship Liverpool Packet, Crosby master, before reported as having put into Edgartown, Mass., leaky, with masts cut away, &c., is now kept free with one pump, the leak having materially diminished.—The L. P. anchored back of Nantucket during the NE gale of the 19th, the ship dragging towards the Bass Rip; the masts were cut away, but she continued to drag, and struck on the Rip; slipped chains so that she beat over; lost boats, nautical instruments, charts, &c.

RAILROAD ACCIDENTS.—On Wednesday night, as the 6 o'clock train on the Eastern Railroad was backing into the Amesbury depot previous to starting, an Irish boy about 8 years old was run over and instantly killed. No blame is attached to any person.

On Saturday afternoon, 16th, as a train of cars was entering the Beverley depot, a son of J. B. Sias, 13 years old, attempted to jump on, but his foot slipping on the snow he fell beneath the wheels, and one of his legs was so badly crushed as to need immediate amputation.

NEW YORK, March 23.—The Herald Washington correspondent says the Administration will reply to the Southern Commissioners in a few days, stating that it has no power to deal with them, but will refer them to the next Congress.

Dudley Mann, one of the Southern Commissioners to Europe, has arrived in Washington.

An eight million loan is advertised for, which will bear 6 per cent. interest, payable semi-annually, to be reimbursed 20 yrs. from the 1st of January last. No offer is to be received for any fraction of a thousand, nor considered, unless 1 per cent. is deposited, subject to the order of the Secretary of the Treasury. Proposals will be received up to April 2d.

Carl Schurz's nomination as minister to Portugal was sent in to-day.

The Southern Commissioners received advices to-day, that affairs look more peaceable, and any collision is almost impossible.

WASHINGTON, March 23.—It is reported that the Southern Democrats opposed the confirmation of Mr. Burlingame, in the executive session, but that Douglas defended him, and that the vote was thirty-two yeas against eight nays.

NEW YORK, March 22.—The Herald's Washington dispatch says the inconsistencies between Major Anderson's dispatches before and after the inaugural, lead to whisperings in executive circles that the Major may be in complicity with the secessionists.

The President has determined to call an extra session of Congress.

The Tribune's Washington correspondent says the President still withholds the order for the withdrawal of Major Anderson from Fort Sumter.

The U. S. ship John Adams has been ordered home from the East Indies.

A Montgomery dispatch to the Tribune says if the federal troops are not withdrawn from the forts they will be driven out.—Ambassadors are to be sent to all the Democratic conventions of the free States except New England. H. V. Johnson and Mr. Slidell are going to New York to treat with Messrs. Cagger and Dean Richmond. Threats of coercion are laughed at while Washington is kept under arms.

The Washington correspondent of the World says private dispatches from Charleston of Thursday night state that Major Anderson is still in the fort, and no preparations are being made for evacuating it.

The Times' correspondent says Col. Button of Vt. will be special mail agent for New England, and Mr. Holbrook will be reappointed mail agent at large.

The Cabinet had the evacuation of Fort Sumter under consideration to-day.

No armistice has been made between the government and the Southern commissioners.

NEW YORK, March 22.—The Post's Washington correspondent says the Secretary of the Treasury has decided to advertise for an eight million loan.

The Arago brought $416,000 in specie.

The severe snow storm has impeded the railway travel throughout the State, none of the trains having arrived on time, and some being ten hours behind.

The Commercial's Washington dispatch states that A. H. Schultz has been appointed U. S. Marshal for the Southern District of New York, vice Rynders.

Mr. Seward has written a letter to the southern commissioners, reviewing the entire grounds of misunderstanding, with a view to restoring harmony, and closing with the recommendation of a National Convention.

The government has received information of a plot for revolutionizing California and Oregon, and implicating Gen. Johnson and other officers.

4 DAYS LATER FROM EUROPE.

NEW YORK, March 22.—Steamship Arago, from Southampton March 6, arrived this morning.

In the House of Commons, the motion for a select committee to inquire into naval affairs was carried by five majority over the government.

The Times says the new tariff bill of the United States establishes protective duties on a most extravagant scale, and the result will be the almost absolute prohibition of imports from Europe, which will be more detrimental to the interests of America than of Europe.

ITALY.—The bombardment of Civitella and Tronto commenced on the 20th ult.—Gen. Tergola notified Cialdini that the works commenced against the citadel were a violation of the convention between him and Garibaldi, and he would bombard the city.

Cialdini responded that for every inhabitant killed he would order an officer of the garrison of the citadel to be shot, and that he considers Tergola a rebel.

Popular demonstrations were continually taking place at Rome.

POLAND.—Warsaw presents a gloomy appearance, everybody wearing mourning. The Citizens' Committee had issued a proclamation, requesting the maintenance of order.

Over 100,000 persons attended the funeral of those killed in the late disturbances. Troops were kept within the barracks, and everything was orderly. A petition was being signed for the re-establishment of the Polish Constitution.

RUSSIA.—It is said that the emancipation of the serfs will be formally proclaimed during Lent.

The Czar will soon give the project of a constitution for Russia.

A CANARD.—Several of yesterday's papers aroused not a little sympathy and concern for the Crescent, by stating that the owners or captain of the ship Adelaide Bell had sued said paper for $50,000, as damage sustained in our publication about 'that Black Republican flag.' We assure our sympathetic friends that the story is no more than "the baseless fabric of a vision"—a thing never intended on one side or dreamt of on the other.—*New Orleans Crescent, 14th.*

When have married people passed thro' the alphabet of love? When they reach the ba-be!

NEW ORLEANS, March 21.—Another government ship from Vera Cruiz is reported having arrived at Pensacola, making five there.

COLUMBUS, Ohio, March 21.—Mr. Sherman has been elected U. S. Senator.

Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually,* or *annually,* at the option of the insured.

The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.

No reflecting man can sit at his fireside with his young family about him, and feel at ease—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

A VOICE FROM THE WEST!

FROM THE CLEVELAND PLAINDEALER.

UNIVERSAL, UNIVERSAL,

IS THE DEMAND FOR

DR. S. O. RICHARDSON'S

SHERRY WINE BITTERS

The celebrated New England remedy for

Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.

They are used and recommended by the leading Physicians of the country, and all who try them, pronounce them invaluable.

Dr. JAMES L. LEFEERE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."

E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."

Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and will soon make several cures of palpitation of the heart, and general debility.

THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."

GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."

J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fevers and ague, dyspepsia and general debility.

D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

BELLINGHAM'S

Celebrated Stimulating Onguent!

For the Whiskers and Hair.

The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the Agency for, and are now enabled to offer to the American people, the above justly celebrated and world-renowned article.

THE STIMULATING ONGUENT

is prepared by DR. C. P. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of

WHISKERS OR A MUSTACHE

in from three to six weeks. This article is the only one of the kind used by the French, and in London and Paris it is in universal use.

It is a beautiful, economical, soothing, yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp, it will cure BALDNESS, and cause to spring up in place of the bald spots a fine growth of new hair. Applied according to directions, it will turn RED or TOWY hair DARK, and restore GRAY hair to its original color, leaving it soft, smooth and flexible. The "ONGUENT" is an indispensable article in every gentleman's toilet, and after one week's use they would not for any consideration be without it.

The subscribers are the only Agents for the article in the United States, to whom all orders must be addressed.

Price One Dollar a box—for sale by all druggists and Dealers; or a box of the "Onguent," (warranted to have the desired effect,) will be sent to any one who desires it, by mail (direct,) securely packed, on receipt of price and postage, $1.18. Apply to or address

I WISH I WAS IN DIXIE'S LAND.—Many popular Ethiopian melodies have had their day of glory and popularity, but none have exceeded Dixie—and while it is having a run, the public are pleased with all that concerns it. Walter H. Peters thus "points out" the "local habitation" which has supplied us with the name of Dixie:

In the popular mythology of New York city, Dixie's was the negro's paradise on earth, in times when slavery and the slave trade were flourishing institutions of that quarter. Dixie owned a tract of land on Manhattan Island, and also a large number of slaves—and as his slaves increased faster than his land, an emigration ensued, such as has taken place in Virginia and other States.

Naturally the negroes who left it for distant parts, looked to it as a place of unequalled happiness, and it was the "old Virginny" to the negroes of that day. Hence Dixie became synonymous with an ideal locality, combining ineffable happiness and every imaginable requisite of earthly beatitude—and hence the zeal with which they sang—

"Den hee it down and scratch your grabble,
To Dixie Land I'm bound to trabble,
Look away," &c.

GEN. SPINNER ASTONISHED.—The newly appointed Treasurer of the United States took a peep into his office, and inquired of Col. Randolph, the chief clerk, how much money they had on hand. The Colonel blandly replied that there would be an accurate counting of it whenever he was prepared to take the keys. "But can you not give an approximation of the amount on hand?" enquired the new official. "About *sixteen thousand* dollars," was the astonishing answer. General Spinner's appreciation of his position as custodian of the public funds fell below zero.

A young man from the country, wanting a spool of thread, and thinking the door of a store in Rochester, N.Y. was open, walked straight through a plate of glass, which, to his astonishment, fell rattling about his ears. The spool of thread cost him fifty five dollars.

In 1861 the adult women of England numbered six millions; three of these six millions labored for their subsistence, and two of these three millions were unmarried and dependent on their exertions for living.

A "conundrum by induction" must have cost the Knickerbocker a good deal of labor:

"Why is a bee-hive like a bad potato?
Because a bee hive is a bee-holder;
And a bee-holder is a spectator,
And a speck tater is a bad potato!"

☞ Mr. Rhett of South Carolina, has lost two children by scarlet fever, since the meeting of Southern Congress, of which he is a member.

☞ Sixteen post-offices in Texas are not supplied with the mail, the contractors having stopped on account of Indian depredations and other causes.

BLOOD FOOD

CONSUMPTIVES.

An equal and normal circulation of the blood is health. An abnormal, that is to say an excessive or deficient circulation or stagnation of the blood, is disease. To illustrate—torpidity of the Liver is caused by stagnation of the blood in that organ; diseases of the Kidneys, inflammation of the lungs, Disease of the Heart, &c., by the same cause, viz., Improper Circulation; and from the same cause springs all the minor forms of disease. To discover a certain remedy for these three diseases, the first great inquiry is, What causes the blood to circulate?

For centuries it has been a matter of much study among scientific and medical men; and while many experiments have been made and much labor expended upon the inquiry, it has been left to this century, among its other wonderful increase in knowledge, to make this grand discovery also.

Acknowledging that life is the gift of the Creator and that "in Him we live and move and have our being," we still venture the remark that, as the planets move in their sphere, and all vegetable life is governed by certain absolute laws, so animal life is translable to a fixed cause, which may move or destroy, and death the certain effect, follows.

Analysis of the red corpuscles of the blood shows them to be compounds of iron, sulphur and phosphorous.

The air we breathe we know to contain a very large proportion of oxygen.

Oxygen, brought in contact with metal, evolves or emits electricity.

Electricity, brought in contact with a muscular fibre, causes it to contract.

These facts being indisputable, we have now the solution as to the motor or motive power of the heart. The oxygen in the air we breathe, coming in contact with the iron in the red corpuscles of blood, emits electricity, which, coming in contact with the heart, causes it to contract; and hence the power which expels the blood, and sends it tingling through the remotest arteries. What then, are the causes of CONSUMPTION, DROPSY, PALSY, PARALYSIS, ST. VITUS' DANCE, DYSPEPSIA, EPILEPSY, FEVER & AGUE, &c.?—A deficiency of the red corpuscles, rendering the iron, sulphur and phosphorous, which causes a deficiency of electricity, and consequently an abnormal circulation. The blood becomes watery, colds and bronchial complaints and prostration ensue—the sufferer becomes nervous, and subject to rheumatic pains and neuralgia—complaints of the liver and kidneys set in; in short, almost every type of disease but virulent fevers may be traced to this deficiency in the blood, of the corpuscles or red globules.

Old age causes a deficiency of corpuscles, and while we do not pretend to say that we have discovered the "elixir vitæ," we do say that life can be materially prolonged by the use of the

"BLOOD FOOD,"

which restores the red globules and the normal circulation. Consumptive friends of consumptives! sufferers from any organic disease! Unfortunates, who have by excess of the body or mind, reduced the standard of the blood and diminished the red globules! Ladies suffering any of the distresses known as female complaints, be persuaded the "Blood Food" can cure you. It has cured thousands of desperate cases where all hope had been given up. Do not regret it, do not throw away your only hope. The "Blood Food" is an unfailing remedy, give it a trial.

An elaborate treatise, carrying out and fully proving the theory advanced here to be correct, will be mailed to any interested party, on the receipt of two 3 cent postage stamps. Blood Food is sold by all druggists, or where it cannot be had, I will send 6 bottles, free of expense, for $4. Price, single bottle, $1. It is put up in 8 oz. vials in yellow wrappers—the old kind, in small bottles, in red wrappers, having been done away with; and bears the fac-simile signature of Church & Dupont upon the face of the wrapper. Beware of counterfeits and imitations.

SOMETHING MORE VALUABLE
THAN SILVER OR GOLD,
BECAUSE
IT WILL RESTORE THE WEAK,
AND REINSTATE THE BLOOD IN ALL ITS
ORIGINAL PURITY & VIGOR.
It is
PROF. O. J. WOOD'S
RESTORATIVE CORDIAL
—AND—
BLOOD RENOVATOR.

It is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, invigorates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so adapted to *it is and in perfect accordance with the laws of nature, and hence soothe the weakest stomach*, and tone up the digestive organs, relaxed nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. As a *sure* preventive and cure of

CONSUMPTION, BRONCHITIS, DYSPEPSIA INDIGESTION, LOSS OF APPETITE, FAINTNESS, NERVOUS IRRITABILITY, NEURALGIA, PALPITATION OF THE HEART, MELANCHOLY, HYPOCHONDRIA, NIGHT SWEATS, LANGUOR, GIDDINESS, AND ALL THAT CLASS OF CASES SO FEARFULLY FATAL, CALLED FEMALE WEAKNESSES AND IRREGULARITIES,

THERE IS NOTHING ITS EQUAL!

Also Liver Derangements and Torpidity, and Liver Complaints, Diseases of the Kidneys, or any other abnormal derangement of the Urinary Organs.

It will not only cure the debility following CHILLS and FEVER, but prevent all attacks arising from miasmatic influences and cure the disease at once, if already attacked.

TRAVELLERS should have a bottle with them, as it will infallibly prevent any deleterious consequences following upon the change of climate and water.

As it prevents costiveness, and strengthens the digestive organs, it should be in the hands of all persons of sedentary habits.

LADIES not accustomed to much out-door exercise, should always use it.

MOTHERS should use it, for it is a perfect relief, taken a month or two before the final trial—she will pass the dreadful period with perfect ease and safety.

There is no mistake about it!

THE CORDIAL IS ALL WE CLAIM FOR IT!

MOTHERS, TRY IT!

And to you we appeal, to detect the illness or decline not only of your daughters, before it is too late, but also your sons and husbands, for while the former, from false delicacy often go down to a premature grave rather than let their condition be known; in time, the latter are often so seized up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fate. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never-failing affection will prompt you to use the PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR as the remedy which should be always on hand in time of need.

O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St Louis, Mo., and sold by all good Druggists. Price $1 per Bottle.

Read what the Press say, after thoroughly testing the matter, and no one can have doubt.

PROF. WOOD'S Restorative Cordial and Blood Renovator is a genuine medicine of real merit, pleasant to the taste, and invigorating to the system. While it purifies the blood and soothes the nervous irritation, it also strengthens all organs to perform their functions, and resists the assaults of disease. It is a chemical compound so skillfully combined, and withal so palatable, it does not make the lassitude which usually follows excitement. A tonic composed exclusively of vegetable matter, it is absolutely beneficial, and no ill effects can possibly accompany its use. It is an infallible and speedy remedy for Loss of Appetite, Faintness, Nervous Debility, Neuralgia, Falling of the Womb, and other delicate diseases to which women are subject. For Sickness of the Stomach, Bilious Attacks, Liver Complaints, Costiveness, Dyspepsia, Consumption, and a host of evils flesh is heir to, it is a certain cure.—*St. Louis Morning Herald.*

PROF. WOOD'S RESTORATIVE CORDIAL.—It is recorded in the classics that Pereke was once sent to a climate warmer than the West Indies, to procure a sample of the beauty of Proserpine in a box. After some delay the messenger returned, and as soon as he came to of the box was removed, out flew all the ills that flesh is heir to. Fortunately hope was found in the bottom of the box. Prof. Wood's Restorative Cordial is the revelation of the story, for it invigorates the blood, aids the organs of digestion, imparts strength to every system, and fortifies the citadel of health so as to bid defiance to the assaults of disease. It is a healthy tonic, composed entirely of vegetable productions, and while it is pleasant to the taste, and free from intoxication, can possibly follow its use. It is a desideratum in the medical world, and those who are afflicted with loss of appetite, Dyspepsia, Costiveness, Faintness, Neuralgia, Palpitation of the Heart, &c., will here find an infallible panacea.—*St. Louis Daily Express.*

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR is, without question, the best tonic Cordial in the world. To those who are suffering from general debility, we would recommend the use of it, for it is pleasant to the taste, is strengthening to the system, and will at once tend to remove all impurities of the blood, and eradicate the seeds of disease. It can be taken by the weakest stomach, while those in good health will at once feel its exhilarating power. We are confident that after using one bottle of this Cordial, none will be for a day without it.—*N. Y. Leader.*

A PURE, HEALTHY TONIC, and one free from the deleterious and injurious effects sure to follow those in ordinary use, has long been felt to be a desideratum in the medical world. Such a tonic, and one so skillfully combined from the vegetable kingdom as to act in perfect accordance with the laws of Nature, and thus soothe the weakest stomach, and at the same time allay nervous and other irritations, and tone up all the organs of which the human body is composed, is offered in Prof. Wood's Restorative Cordial and Blood Renovator. Hence it is perfectly adapted to old and Young. Reader, try it. Thousands have already done so, and the testimony is universal in its favor.—*New York Atlas.*

☞ Before noticing a patent medicine, we have to be certain that it will prove itself to be all that it is recommended. And we would say that the Restorative Cordial and Blood Renovator of Prof. O. J. Wood, is well worth the test of trial. If it without doubt the first article in the market for purifying the blood and strengthening the system. We have no hesitation in recommending its use to all.—*New Yorker.*

Dyspepsia Remedy

DR. DARIUS HAM'S
AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

To those who from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

Dose,—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion
One dose will give you a good appetite.
A few doses will remove distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any of the complaints, Dyspepsia, Costiveness, Faintness, Neuralgia, Palpitation of the Heart, &c., will here find an infallible panacea.—*St. Louis Daily Express.*

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will work well had feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts. $1.

BININGER'S
OLD KENTUCKY
BOURBON
"1849 RESERVE"

The *established popularity* of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of Kentucky Whiskeys.

Being distilled in 1848, and manufactured expressly for us with great care, it can be relied upon as a pure and unadulterated article, and peculiarly effective for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a curative agent it has a tendency to *recruit* and *strengthen*; while age having contributed its ripening influence, and combined with a peculiar flavor and an oily body, it affords a pleasant incentive to the preservation or recovery of health, through the agreeable medium of a well pleased palate.

Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and sold by all prominent druggists, grocers and town agents. A. M. BININGER & CO.,

OLD DOMINION
WHEAT-TONIC
—FOR—
FAMILY AND MEDICINAL USE.

This natural product of the most nutritious grain, recommends itself as presenting in a concentrated form the nutritive properties of Wheat, and has received the highest encomiums from eminent medicinal authorities, as possessing qualities that are absolutely PARTICULAR; this *desideratum* renders it invaluable to those who are suffering from *Consumption, Lung Complaints, Impaired Strength, Lack of Vital Energy*, and all diseases which, in their incipient stages, require only a generous diet, and an invigorating, nourishing stimulant.

Put up in quart bottles, in iron-bound cases of one and two dozen each, and sold by all prominent Druggists, Grocers and Town Agents.

A CASE.—An English scamp, named John Trowbridge, seduced an Irish girl in her native country; he then came to America, staid in New York a few months, and finally went to Chicago, where he married a young seamstress. He furnished a house in an elegant manner with funds stolen from his employers, but in a few weeks ran away and left his wife dependent upon her needle again. His Irish victim, a young woman of beauty, education, and some fortune, followed the rascal to America, bringing her illegitimate child with her, and proceeding to Chicago, on a hint furnished by the police, she addressed a note to Mr John Trowbridge through the post office, which fell into the deserted wife's hands.—A most affecting scene occurred when the two outraged women met, and identified their base betrayer, by means of two rings of a peculiar pattern, one of which he had presented to each of them.

SLOW AND SURE.—The Dutch galliot Cadzandron, which arrived at Philadelphia from Rotterdam a few days ago, was one hundred and seven days in making the passage. It is made ordinarily by sailing vessels in from twenty-five to thirty days.—The galliot is of the genuine old Dutch build, as described by Washington Irving, and in view of her model the Bulletin says that one hundred and seven days seems rather like a good passage than otherwise.—She was loaded with Holland gin, and it has been suggested that that description of craft was employed in its transportation to ensure a reasonable degree of age to the liquor by the time of its arrival on this side of the Atlantic.

POISON IN PAPER COLORING.—At a recent medical meeting in Boston, Dr. Ainsworth reported a case in which a child was put in great peril by poison sucked from the surface of a green concert ticket, which as shown by Dr. Jackson's analysis, was covered with Scheele's green, or the arsenite of copper. Another instance is given of a lady who, after cutting out figures from a quantity of green boder paper, gave evident symptoms of being poisoned by inhalation of the poisonous dust. Dr. Jackson, in an article in the Medical Journal, treats this subject at length, and concludes that some law should be made preventing the sale of poisonous papers and cards, as well as poisonous matters sometimes used in ornamenting confectionary.

MODERN SUPERSTITION.—Some three years ago, a man named Conrad Walter, aged seventeen, residing in Cincinnati, in a mirthful mood visited a fortune teller to learn his destiny. After rebuking his levity, she told him that when he arrived at the age of twenty, he would either die or be killed. If however, by chance he lived to be twenty-one, life would be embittered by disease and poverty. A couple of weeks since when he was just twenty, he was thrown out of employment, and believing that all parts of the prophecy would be fulfilled, he blew out his brains.

☞ The Memphis Bulletin ventures the following prediction:

The day is as surely coming, as that common sense and reason must prevail over blind passion, when Louisiana will wrest herself from her present incongruous and unnatural association, and return to that fellowship with Tennessee and Kentucky, Arkansas and Missouri, and the other States of the Mississippi Valley, fixed by the Omnipotent Author of Nature. Neither her Slidells nor her Benjamins, nor even the exasperated passions of her people, can permanently maintain a divorce between communities joined together by the hand of God himself.

Captain Garnett, who was sent by the United States government to Europe to observe the artillery improvements going on in the services of the different powers, visited a few months since, "cannon depots" of Paris, and saw the Frenchmen go through their evolutions. He says that their proficiency in gunnery is greater than that of the English. "The French are quick, correct, intelligent, and careful of their pieces, and make admirable shots. Captain Garnet's report will be looked for with great interest.

☞ A Yorkshire man having occasion to go to France, was dumbfounded to find, on reaching Calais, that men, women and children all spoke French. In the height of perplexity which this occasioned, he retreated to bed, and was awakened in the morning by the cock crowing, whereupon he burst into a wild exclamation of astonishment and delight, and exclaimed, "Thank goodness, there's English at last!"

A man in Detroit advertises for a partner in the nursery business. A new way, perhaps, of advertising for a wife.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PEROVIAN BARK, carefully combined with various *tonic* and *stomachic s*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhea, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*but it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, MARCH 26, 1861.

U. S. SENATE—SPECIAL SESSION.

SATURDAY, March 23.

On motion of Mr. Hale, Mr. Foote was unanimously chosen President *pro tempore*.

Mr. Wade presented the credentials of Mr. Sherman of Ohio, elected Senator to supply the place of Mr. Chase, resigned. Mr. Sherman was qualified and took his seat.

Mr. Hale moved to take up his resolution for the election of officers. Agreed to —28 against 13.

Mr. Bright moved its postponement to the first Monday in December, saying that, owing to the small attendance of members on the Democratic side, there could be no fair expression of opinion.

Mr. Breckinridge favored postponement.

Mr. Bright said that during his service here of sixteen years he had never known an officer of the Senate changed for political reasons.

[Very likely this may be true;—*for one party* had held power there all these years, —and has never turned out its *friends*, to put in its *opponents*.]

The motion to postpone consideration of the resolution till the second Monday in December was negatived, 13 against 24.

Mr. Johnson unsuccessfully moved to go into executive session.

Mr. Powell moved to take up Mr. Hale's resolution, heretofore offered, providing for the adjournment of the Senate *sine die* to-day. The *Republicans*, for the first time, were attempting to bring the *contest* for place into the Senate chamber. He looked on these things as despicable enough to destroy any government on earth. He would not lend his presence to such degrading works.

[It makes considerable difference whose ox is gored. Mr. Hale within these same sixteen years, was omitted from all committees, in that Senate, because he did not belong to any *healthy* political organization.—But that was not degrading!]

After some more debate, in which Mr. Powell said: "The good, true, loyal men of the South scorn the offices—they don't want them," Mr. Johnson again moved to go into executive session, which prevailed —26 against 10.

After some time spent in executive session the Senate adjourned.

DISAGREEABLE RUMORS ABOUT CALIFORNIA.—The following extract from a Washington letter seems to confirm some of the recent reports about California:—

"A prominent citizen of California, one of the wealthiest men in that State, and a native of Albany, now in Washington, received by the last overland mail from San Francisco, letters from his commercial correspondents apprising him that a conspiracy was forming for the seizure of the United States Forts on the Pacific and the establishment of a Pacific Republic. The commander of the Pacific military posts is Col. Johnson, a resident of Texas and a relative of John B. Floyd, late Secretary of War. The State Government is now, and always has been, controlled by men of Southern birth—young, ardent and ambitious. The militia is unarmed and unorganized. There are not a thousand muskets in the State under the control of the officers of the militia, hence it will be comparatively easy for the Southern men already in possession of the machinery of the State Government, to possess themselves, with the connivance of Col. Johnson, of the United States Forts, Navy Yard, and other property of the Federal Government."

☞ General Scott recently ordered five companies of United States troops to San Francisco, and the forts are thus abundantly able to resist all attacks. The army officers in the department of the Pacific are believed to be staunch friends of the Union, with the exception of two at present stationed in Utah, whose resignations are daily expected.

AN EXPLOSION AT CHICAGO.—A terrific explosion took place in the Michigan Steam Flour Mills on Tuesday last. A small building, containing the engine, was shattered to fragments, and the bricks hurled in every direction. Huge scraps of the boiler, remnants of the engine, bent and twisted pieces of the flues and rolls of the tin roofing, warped up like a scroll, were thrown to a great distance. Many of the small buildings in the vicinity were covered with the flying debris, and more or less shaken. The engineer was buried in the ruins, but was taken out uninjured, and several other persons met with almost miraculous escapes.

WEBSTER HOUSE, *A. J. Hall*, proprietor; 382 Hanover Street, Boston. This is a large Public House, containing one hundred and thirty rooms; conveniently situated for business men and others visiting Boston. The landlord, Mr. A. J. Hall, is favorably known to many citizens of Portsmouth, as long the gentlemanly proprietor of one of the best appointed, neatest and most inviting Eating Houses in Boston; and we have no hesitation in saying he "can keep a hotel,"—or in advising any of our readers who may at any time have occasion to seek a temporary home in "the city," to call at the Webster House.

☞ The Gilford Manufacturing Company are putting the machinery in their new Brick Mill; when in operation it will give an additional impulse to the business of the place.

NEW YORK CORRESPONDENCE.

NEW YORK, March 23, '61.

Dear Chronicle:—One thing is self-evident, the clerk of the weather has *seceded!* Last week he carried us into summer, put the thermometer at °70, and consigned overcoats and shawls to a year's solitary confinement. This week he has reversed the order of things, and presented us with four snow storms and as many inches of *slush;* which state of things has caused 'Balmoral' stock to *go up* immensely. The idea that 'March comes in like a lion and goes out like a lamb,' is rendered obsolete; for this year the lamb has been placed ahead, and the King of Beasts coming after, has devoured it!

Broadway property holders are considerably agitated, at the prospect of a railroad on that thoroughfare. The bill, which a strong lobby and several contractors are endeavoring to push through the Assembly, proposes to lay a double track along Broadway, from the Battery to Central Park; to compensate the owners of a portion of the stage lines, for the withdrawal of their conveyances, and to pay the Common Council of New York for certain privileges,—but in no way provides for the compensation of the property owners to whose detriment and inconvenience the success of the bill will result.

A remonstrance, headed by N. P. Stewart, and signed by most of the Broadway merchants, has been sent to Albany, together with a diagram, showing that the road will not leave sufficient space, on each side, for goods to be received or delivered. If against all this opposition, the bill *does* pass, it will prove, that, despite their 'independence,' Gothamites can be 'ridden on a rail.'

One of the wonders of New York is the new, five-story, freestone building of Claflin, Mellen & Co., on Worth, West Broadway and Church streets; in which building the firm are hereafter to transact their business of $10,000,000 or $12,000,000 per year.

The edifice is 375 by 70 feet, and on the Worth street side, has nearly two hundred windows. A portion of the first floor—which appears like a small edition of the Thames Tunnel,—is separate from the sales-room, and constitutes a covered archway, the entire length of the building, by which their teams, at all times, have free access to the elevators, which connect with it. There is also a passenger elevator, by which, customers can at any moment be raised to such floors of the building as their wants may require.

Portsmouth has been well represented in the metropolis during the last week. Doctors, merchants, shipmasters,—three of the latter we met at the 'United States,' yesterday. More anon, from NEWINGTON.

A SAD CASE.—Saturday afternoon Gilbert Knowlton, a carpenter, employed on a new building in Franklin street, Boston, fell and suffered a severe contusion of the brain. He was conveyed to the hospital, where he died Sunday morning. He leaves a wife and child. His widow knew nothing of the accident, Sunday morning, and was found seeking for him about the place where he was employed. He had just commenced work there, and his place of residence was not known to his employers or fellow workmen. Learning of the accident, she went to the Hospital just after husband died.

TEXAS AND MEXICO.—The San Antonio Express of the 9th inst. says:—

We learn that some five hundred Mexican troops have arrived opposite Eagle Pass, in anticipation of annoyance from irregular Texan forces. The Mexicans are wide awake.

Gen. J. W. Whitfield, formerly of Kansas, who was a delegate from that Territory to Congress during the latter part of Mr. Pierce's and the first part of Mr. Buchanan's administration, has located in Texas, and takes with him the first negroes which were carried to Kansas, and the last to leave it.

AFFAIRS IN TEXAS.—*New Orleans, March* 23.—Galveston dates to the 22d are received. The Legislature met on the 18th, and the members of the House and Senate took the oath of allegiance to the new Government. A few of the members did so under protest.

Gen. Houston and the Secretary of State had retired from office and surrendered the archives. Houston had issued an appeal to the people denouncing the convention. The latter body had passed a substitute for the army bill, raising only one mounted regiment.

SOUTHERN DISPATCHES.—The Washington States thus hits off the warlike dispatches which the secession members have been in the habit of sending South this winter:

It is said that after an exciting debate in the Senate, Wigfall was understood to have asked Seward privately for a chew of tobacco, and that Seward replied that he had none but *Union twist;* whereupon Wigfall telegraphed to the Southern States that they must prepare for war, as the Republicans would not yield.

☞ The Atlantic Monthly for April is before us, fully equal to any one of its illustrious predecessors. Mrs. Harriet Beecher Stowe's new story is to commence in the May number. Dr. Holmes is to contribute to every number.

☞ The latest news from Europe comes *via* Queenstown, March 10.

The London Times, in reviewing Jefferson Davis's speech, says: "We have never read a speech so difficult to analyze and interpret."

The Bombay mails, of Feb. 12, had reached England. The famine in the Northwest provinces has assumed a most serious character, and it was feared that it would exceed anything of the kind yet experienced.

The failure of the spring crops appeared to be certain. The inhabitants in some sections were starving, four or five hundred dying daily.

All was quiet at Warsaw. It is stated that the number of persons killed by the troops in the recent outbreak was 53.

The banks of Poland, at Warsaw, refusing to make specie payments on the Russian bonds, military forces took possession of the amount required.

It was reported that Prince Napoleon is about to proceed to Turin to negotiate for the withdrawal of the French troops from Rome.

NEW YORK, March 24.—The Herald's Washington correspondent says the President issued an order yesterday to Major Anderson to put his command in readiness to evacuate Fort Sumter on the arrival of a war steamer.

Col. Lamon has been sent to Fort Sumter with an order that if an attempt was made to prevent the evacuation, Major Anderson should remain in the fort and open his batteries upon the city.

It is reported that a steamer has been sent by the Secretary of the Navy to Fort Sumter. Major Anderson is to salute his flag and embark.

The Cabinet have dispatches from Lieutenant Slemmer at Fort Pickens, stating that he is nearly out of provisions, and that he must be supplied soon or he shall have to abandon the fort. Gen. Bragg has notified him that no supplies can be landed until permission is had from Jefferson Davis. The Brooklyn, Sabine, St. Louis and Wyandotte were off the fort. The Cabinet are considering what policy to pursue.

The Herald's Charleston dispatch says that Major Anderson declines receiving verbal orders to retire, and the policy of allowing him to leave with the honors of war was being discussed.

The Charleston Courier of Friday says Surgeon Fox had arrived there, to visit and report to the government the condition of Fort Sumter. He was permitted to visit the fort, accompanied by Capt. Hartstein.

The Courier also notices the arrival of Ex-Congressman Holmes, who says Mr. Seward desired him to say to the people of Charleston that he was in favor of a peaceful settlement, and would do everything in his power to bring about an amicable arrangement. He also says that Gen. Scott gave similar assurances: that he favors such a policy, and that a majority of the Cabinet desire the evacuation of Fort Sumter, as well as Fort Pickens.

NEW YORK, March 25.—The Herald's Washington dispatch says it is believed that the programme in regard to the evacuation of Fort Sumter has been altered since Col. Lamon departed. Col. L. is to examine the stock of provisions, and if the supply be insufficient to maintain the troops now there, he will deliver the President's order to Maj. Anderson to evacuate.

Government is said to have information that Texas had sent commissioners to New Mexico, Arizona, Sonora and Chihuahua to induce the people to join the Southern Confederacy. The prospect is said to be good.

FORT SUMTER.—*New York, March* 25. A Charleston dispatch to the Times says Major Anderson is busy taking an inventory of the government property preparatory to turning it over to the South Carolina authorities.

A dispatch to the World says that Surgeon Fox has returned from Fort Sumter.

WASHINGTON, March 25.—Many New Hampshire politicians have arrived. I. O. Dewey has been appointed Postmaster at Hanover.

Gen. Abbott of N. H. will probably be appointed Consul to Callao.

There are numerous desertions from the U. S. troops here to the Confederate army.

WASHINGTON, March 23.—The Secretary of the Treasury has advertised for proposals till the 2d of April, for eight millions of the stock of the United States, to be issued under the act of February. This sum will be sufficient for the wants of the Treasury during the present fiscal year.

FROM GEORGIA.—*Augusta, Mar.* 24.—The State Convention adjourned last night. There is nothing new from Montgomery. It is generally believed here that Major Anderson evacuated Fort Sumter on Wednesday. Troops from different portions of the South are concentrating at Pensacola.

SOUTHERN TARIFF.—A Montgomery dispatch of the 23d says: The tariff bill published in the Southern papers was not voted on in the Confederate Congress, but simply proposed for the inspection of the Southern people. The Confederated States tariff at present is the same as the old United States tariff. A new and much lower tariff will be made in Congress in May.

A THREATENING LETTER.—The following short and expressive epistle was received by Superintendent Kennedy in New York on Wednesday:

"Sr. If you go on farder with the Sunday law you luk out far yun Body. sam Party wil kil you."

FOUND DEAD.—Two men named Elliott, one an uncle of the other, residents of Mason village, N. H., were found dead in the field a short distance from the house where they lived, Sunday morning. A jug of rum and a couple of codfish were found near by them. It was not cold enough to freeze them, and it is supposed that the liquor was more than usually poisonous.—*Laconia Gazette.*

WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, NO REMEDY has performed so many or such remarkable cures of the *Throat, Lungs and Chest,*—of *Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma,* or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam.* So generally acknowledged is the superior excellence of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.

Editor of the Norway Advertiser, gives his opinion of this great remedy substantially as follows:

NORWAY VILLAGE, Me., Aug 4, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—For a remedy of such undoubted merit as DR. WISTAR'S BALSAM OF WILD CHERRY, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial and be relieved. Several years since I first became acquainted with this Balsam at a time of distressing cough and cold, which took such firm hold of my lungs as to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain

In our town this remedy is a great favorite with many, and if all who suffer would but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.

Yours respectfully, GEO. W. MILLET.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of

SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

To MARRIED LADIES it is peculiarly suited. It will, in a short time, bring on the monthly period to regularity.

In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

For full particulars, get a pamphlet, free, of the agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. feb28 daw3m

HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE.

The following is a sample of many letters daily received by W. E. HAGAN & Co., Troy, N. Y., who are the Manufacturers and Proprietors of "HEIMSTREET'S HAIR RESTORATIVE," an article of which many of our first citizens speak as being the *cleanest and best* Hair Preparation which has ever been introduced in our market. A combination of Stimulating Spirits and Oil, affording an agreeable *Hair Dressing,* keeping the scalp perfectly free from dandruff, and causing the Hair to have a *rich glossy appearance.* Two articles in one. The "*Hair Restorative,*" and a never-failing Restorative for the *Bald* and *Gray.*—Read the following letter:

ST. LOUIS, MO., June, 1859.

MR. HENRY REYNOLDS,—*Dear Sir*:—I hereby certify that my hair having become *gray,* I used, at your request, HEIMSTREET'S INIMITABLE HAIR RESTORATIVE, (prepared by W. E. HAGAN & Co., Troy, N. Y.,) for several weeks. My hair was in that time restored to its original color, with all its luxuriance and beauty, and I will be much pleased to recommend the article, personally, on any and every occasion, as I know it has merits that the Proprietors do not claim for it in their circulars. Respectfully yours,

THE GRAND MASQUERADE BALL

Given at Union Hall in this city, on Thursday evening, 21st inst., was a decided success in point of numbers and brilliancy of of dress; although the severity of the storm caused some uneasiness in getting home in the morning.

The following are some of the prominent characters and dresses assumed for the occasion:

Miss S. C., as Queen Catherine of Spain. Dress of royal purple velvet, trailed, trimmed with heavy border of gold lace and flowers, intermingled with spangles; front open, with white satin, interlaced by brilliants; head dress, tiara of pearls and brilliants.

Miss P. H., as Mary, Queen of Scots.—Dress of Lilac Silk, flowered heavily; front open, with pink satin under skirt, laced with heavy silk cord; waist of red velvet, trimmed with lace; necklace of pearls and brilliants; cape of orange-colored Thibet, trimmed with down; velvet cap, trimmed with pearls.

Miss F. M. H., as Lucretia Borgia. Dress of blue velvet, trimmed with silver fringe; necklace of pearls.

Mrs. W. O. S., as Queen Victoria. Dress of purple silk, flounced heavily with folds of velvet gathered in loops with strings of pearls; pink silk underskirt, trimmed with Point D'Alencon lace; tiara of brilliants.

Miss L. B. B., as a Turkish lady. Dress short, of yellow plush; under-skirt, with blue and silver overskirt; leggings of blue satin, trimmed with spangles; turban of blue satin and silver, trimmed with ostrich feathers and spangles.

Miss A. B. C., as Isabella of Spain.—Dress of scarlet silk, trimmed with Point D'Alencon lace; royal purple velvet bodice, with border of silk flowers and spangles;—head dress of velvet and pearls.

Miss A. S., as Child of the Regiment.—Dress, short, of red thibet, small sleeves, military cap, with band of gold lace, shoulder strap with canteen attached.

Miss A. C., fancy dress. White silk skirt, with pink tarlatan over-skirt, ruffled and looped with rosettes. Very neat.

Miss L. M. Dress of white muslin, trimmed with folds of black velvet.

Miss L. C. Dress of pink silk, trimmed with heavy Honiton lace.

Miss H. C., as Queen Elizabeth of England. Dress of red velvet, trailed, trimmed with points of heavy gold lace; pink velvet loops, with gold spangles; head dress of brilliants.

Miss A. W., as Morning. Dress of white muslin, elegantly trimmed with folds of white silk. Very neat.

Miss S. L., as Night. Dress of black velvet, with heavy border of silver spangles; head dress of black lace, with silver moon and stars radiating from the front. Very handsome.

Mrs. S., as an English lady. Dress of silk brocade.

Mrs. C., as an American lady. Dress of light silk, trimmed with satin flounces.

Miss A. A., as Goddess of Liberty. Dress of red, white and blue muslin, heavily flounced; necklace of pearls; head dress, liberty cap, covered with silver foil, with 34 gold stars. A splendid dress.

Miss N. S., as an Italian Peasant Girl.—Short Dress of blue thibet; low neck and short sleeves; basque of black velvet;—straw hat, with bunch of wheat on front.

Miss E. H., as Lady Jane Grey. Dress of maroon velvet, trailed, front open, with white satin, spangled and corded; bodice of corn-colored satin, with lace front, ruffled with crown of gold and emeralds.

Miss C. P. Fancy dress of white muslin, with narrow border of blue velvet, and flounced with same material.

Miss A. B. T. Fancy dress of white muslin, flounced heavily, and trimmed with narrow pink ribbon.

Miss C. H., as Lady of Lyons. Dress of light blue silk, with dark blue figure.

Miss A. P. Fancy dress of corn-colored silk, with black velvet over-skirt trimmed with heavy black silk lace. Very rich.

Mrs. J. W. B., as Mrs. Col. Dumas.—Dress of light lilac silk, with silk flowers.

Miss C. P., as a Quakeress. Dress of drab thibet, without crinoline, with white muslin handkerchief placed neatly over the shoulder, and pinned in front near the waist. Well designed.

Miss S. F. Plain white muslin dress, double skirt. Very handsome.

Mr. M. E., as Byron's Corsair. Jacket of royal purple velvet, with flowing sleeves, trimmed heavily with gold fringe and spangles; skirt of white satin, edged with gold fringe and covered with spangles; purple velvet leggings, very richly trimmed with the same; slippers of the same material as leggings; cap of red velvet, with heavy gold tassels. Considered the handsomest dress in the room.

Mr. S. F. L., as Spanish Gladiator.—Royal purple jacket and knee breeches of the same, opened at side with green silk and gold, corded with heavy gold tassels; cap of velvet and fur, trimmed with heavy gold braid and tassels; red kid slippers.

Mr. A. W. F., as Charles II. of Spain. Jacket of blue velvet and satin; cape over left shoulder of same material, trimmed with silver lace; knee breeches of same; Kossuth hat, with ostrich feathers; heavy lace collar. A splendid dress.

Lt. F., as Marco Bozarris. Dress of blue velvet, knee breeches of purple velvet, both trimmed heavily with gold bullion fringe.

Mr. D. W. B., as Uncle Ben, from Dixie's Land. Dress of striped patch; large tin buttons; shoes 22 inches in length; banjo of fig drum, and strings of tarred rope.

G. T. V., as a Highlander.

J. H. L., as a Spanish cavalier. Dress of yellow silk, with blue tights, spangled.—Very handsome.

Mr. T. H. R., as Antipodes. Dress—green velvet Tunic, trimmed with gold lace, knee breeches of the same; boots with buff leggins.

Mr. F. A. F., dress—same as the above.

Mr. W. O. S., as Duke of Farrarer.—Dress—velvet Tunic, trimmed with ermine; knee breeches of black velvet, and white stockings.

Mr. F. W., as the Black Prince. Dress of black velvet and white lace.

Mr. E. A. T., as Dame Partington. A good character.

Mr. J. H. H., as King Henry Eighth.—Dress—brown satin Tunic, trimmed with white ermine and silver lace.

Mr. C. C. C., as Knight of 12th Century. Coat of Mail—complete.

Mr. W. L. V., Hungarian Count. Dress of black velvet, trimmed with spangles;—knee breeches of the same; cloak of green velvet, trimmed with ermine; cap of green silk, and gold tassel.

Mr. J. H. J., as Count de Curracoa.—Dress—red velvet Jacket, trimmed with ermine; leggins of same; velvet cap with ostrich feathers; boots with yellow leggins. Made a fine appearance.

G. C. B., as a Greek.

J. E. R., as Claude Melnotte. Dress—Green velvet coat, trimmed with gold lace, buff knee breeches; hat with ostrich feathers.

C. C. M., as Paddy Miles' Boy. A complete Irish costume. Character well assumed.

H. J. B. Spanish Bull Fighter. Green velvet coat, with opened sleeves, trimmed heavily with satin and silver cord; knee-breeches of the same; sash of white satin, trimmed with spangles.

J. H. B. Zouave.

J. J. B., as a Japanese Clerk. Dress—silk tunic cut with innumerable points and small bells; umbrella; red, white and blue Thibet leggins. A fine suit.

E. P. M., as a Turkish Priest. A good disguise.

J. W. L., as a Prussian Nobleman.—Dress—a purple velvet coat, trimmed with gold cord and lace, and made a fine appearance.

L. H., as a West Point Cadet.

J. A. H. A fine costume.

B. B. S., as Daddy Frost, the veteran soldier from Rye.

J. A. W., as Lord Cornwallis. A full English officer's uniform.

N. P. T. An American naval officer, (free dress.)

W. W. C. A Son of Malta.

D. W. A Priest of the Dark Ages.

A. C., Jr. A Live Yankee.

There were many other characters well sustained, but it were almost impossible to procure the names of all. There were representatives present from the Governor's Horse Guards, Goodwin Guards, &c., and all present enjoyed themselves till Morning's dawn bid the merry dancers to seek their homes.

The Grand March, by Turner's Quadrille Band and the Portsmouth Cornet Band, of 24 instruments, assisted by J. Adams, prompter, of Hall's Band, Boston, was a splendid performance and elicited rounds of applause from the party.

The supper, by Major Coburn of the Rockingham House, was all that could be desired; and taken altogether, this was acknowledged to be one of the best Balls ever given on Old Strawberry Bank.

CYPAX.

☞ There have been various rumors of appointments to office here. The latest report says that Hon. T. L. Tullock has been appointed Naval Agent, J. B. Upham, Esq., Collector, and J. P. Morse, Esq., Postmaster, of Portsmouth; but we have no positive information on the subject.

☞ The new ship "City of Montreal" will be launched from the yard of Messrs. Tobey & Littlefield, at 11 1-2 o'clock, this (Tuesday) morning. She is owned by Messrs. Page, Richardson & Co., of Boston.

LIFE INSURANCE.
"IN THE MIDST OF LIFE WE ARE IN DEATH."
The strong man often falters, and falls in the midst of the hurry and business of life. The *wise* man maketh provision for those whom he loveth, against the liability to accident and death.
THE
MUTUAL LIFE INSURANCE CO.
Of New York,
with an accumulated capital of over
SEVEN MILLION DOLLARS,
Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues
POLICIES on lives, payable to the wife, or to the legal representative of the person insured.
POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.
PREMIUMS may be paid, *quarterly, semi-annually*, or *annually*, at the option of the insured.
The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.
The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.
No reflecting man can sit at his fireside with his young family about him, and feel at ease;—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

GROVER & BAKER

SEWING MACHINES.
TO THE LADIES.
CHARLES T. EMERY,
No. 10 Market Sq., Portsmouth,
Having been appointed
SOLE AGENT IN PORTSMOUTH
for the sale of the celebrated and unrivalled Noiseless
GROVER & BAKER
FAMILY AND MANUFACTURING
Sewing Machines,
would invite especial attention to the same.
THE GROVER & BAKER SEWING MACHINE makes the only seam formed by a Sewing Machine, in which each stitch is independently locked, and without dependence on other stitches for strength, and the only seam that will admit of the thread being cut at every fourth stitch without injury to the seam in wear.
THE GROVER & BAKER SEWING MACHINE is adapted to all varieties of fabrics, sewing equally well the finest Swiss Muslin or the heaviest cloth or leather, and requiring no adjustment for any kind of sewing other than the adaptation of needles and thread.
THE GROVER & BAKER SEWING MACHINE makes the only stitch that cannot be unwound, and fastens its own seams, thereby saving time and thread. It will sew common spool cotton, silk and linen thread with equal facility.
THE GROVER & BAKER SEWING MACHINE is so simple that an intelligent child of ten years can readily learn to operate it. It is more easily kept in order than any other machine, and need not be taken apart to be oiled.
THE GROVER & BAKER SEWING MACHINE makes the only stitch that cannot be injured by washing and ironing, and the only stitch that forms an elastic and durable seam. Fabrics put together with this stitch may wear out and drop to pieces from original weakness, or hard usage, but come apart or give way at the seams, they can not; they will hold together when the cloth or calico around them hangs in rags and tatters.
Every Machine Warranted.
PRICES FROM $40 UPWARDS.
☞ Be sure to call and examine.
I have also been appointed agent for
THE UNIVERSAL HEMMER,
Which can be attached to *any* machine, and will turn a hem from 1-16 inch to 2½ inches, without previous basting.
PRICE $5.
ALSO ON HAND, A LARGE AND SELECT ASSORTMENT OF
WATCHES, JEWELRY,
—AND—
SILVER WARE,
Which I invite my customers and the public to call and examine, feeling assured that I can offer
AS LARGE AN ASSORTMENT,
AND SELL AS REASONABLY,

BELLINGHAM'S
Celebrated Stimulating Onguent!
For the Whiskers and Hair.
The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the Agency for, and are now enabled to offer to the American people, the above justly celebrated and world-renowned article.
THE STIMULATING ONGUENT
is prepared by DR. C. P. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of
WHISKERS OR A MUSTACHE
in from three to six weeks. This article is the only one of the kind used by the French, and in London and Paris it is in universal use.
It is a beautiful, economical, soothing, yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp, it will cure SALDNESS, and cause to spring up in place of the bald spots a fine growth of new hair. Applied according to directions, it will turn RED or TOWY hair DARK, and restore GRAY hair to its original color, leaving it soft, smooth and flexible. The "ONGUENT" is an indispensable article in every gentleman's toilet, and after one week's use they would not for any consideration be without it.
The subscribers are the only Agents for the article in the United States, to whom all orders must be addressed.
Price One Dollar a box—for sale by all druggists and Dealers; or a box of the "Onguent," (warranted to have the desired effect,) will be sent to any one who desires it, by mail (direct,) securely packed, on receipt of price and postage, $1.18. Apply to or address

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA.
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND,
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well.—D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

BLOOD FOOD

CONSUMPTIVES.

An equal and normal circulation of the blood is health; an abnormal one, that is to say, an excessive or deficient circulation or stagnation of the blood, is disease. To illustrate—torpidity of the liver is caused by stagnation of the blood in that organ; diseases of the Kidneys, Inflammation of the Lungs, Disease of the Heart, &c., by the same cause, viz. improper Circulation; and from the same cause spring all the minor forms of disease. To discover a certain cure, then, for these diseases, the first great inquiry is, What causes the blood to circulate?

For centuries it has been a matter of much study among scientific and medical men; and while many experiments have been made and much labor expended upon the inquiry, it has been left to this century, among the wonderful increase in knowledge, to make this grand discovery also

Acknowledging that life is the gift of the Creator and that "in Him we live and move and have our being," we still venture the remark that, as the planets move in their spheres, and all vegetable life is governed by certain absolute laws, so animal life is traceable to a fixed cause, which removes or destroys, and death, the certain effect, follows.

Analysis of the red corpuscles of the blood shows them to be compounds of iron, sulphur and phosphorous.

The air we breathe we know to contain a very large proportion of oxygen.

Oxygen, brought in contact with metal, evolves or emits electricity.

Electricity, brought in contact with a muscular fibre, causes it to contract.

These facts being indisputable, we have now the solution as to the motor or motive power of the heart. The oxygen in the air we breathe, coming in contact with the iron in the red corpuscles of blood, emits electricity, which, coming in contact with the heart, causes it to contract; and hence the power which expels the blood, and sends it tingling through the remotest arteries. What, then, are the causes of CONSUMPTION, BROWN'S PALSY, PARALYSIS, ST. VITUS' DANCE, DYSPEPSIA, EPILEPSY, FEVER & AGUE, &c.? A deficiency of the red corpuscles containing the iron, sulphur and phosphorous, which causes a deficiency of electricity, and consequently an abnormal circulation. The blood becomes watery, colds and irritable complaints supervene, the sufferer becomes nervous, and subject to rheumatic pains and neuralgia—complaints of the liver and kidneys set in; in short, almost every type of disease but virulent fevers may be traced to this deficiency in the blood, of the corpuscles or red globules.

Old age causes a deficiency of corpuscles, and while we do not pretend to say that we have discovered the "elixir vitæ," we do say that life can be materially prolonged by the use of the

"BLOOD FOOD,"

which restores the red globules and the normal circulation. Consumptives' friends of consumptives' Sufferers from any organic disease! Unfortunates, who have by excess of the body or mind, reduced the standard of the blood and diminished the red globules! Ladies suffering any of the distresses known as female complaints, be persuaded the "Blood Food" can cure you. It has cured thousands of desperate cases where all hope had been given up. Do not despair, do not throw away your only hope. The "Blood Food" is an unfailing remedy; give it a trial.

An elaborate treatise, carrying out and fully proving the theory advanced here to be correct, will be mailed to any interested party, on the receipt of two 3 cent postage stamps. Blood Food is sold by all druggists, or where it cannot be had, I will send 6 bottles, free of expense, for $6. Price, single bottle, $1. It is put up in 8 oz. vials, in yellow wrappers—the old kind, in small bottles, in red wrappers, having been done away with, and bears the fac-simile signature of Coburn & Dupont upon the face of the wrapper. Beware of counterfeits and imitations.

SOMETHING MORE VALUABLE

THAN SILVER OR GOLD,

BECAUSE

IT WILL RESTORE THE WEAK,

AND REINSTATE THE BLOOD IN ALL ITS ORIGINAL PURITY & VIGOR.

It is

PROF. O. J. WOOD'S

RESTORATIVE CORDIAL

—AND—

BLOOD RENOVATOR.

It is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, renovates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted *as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach*, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetable, and thus thoroughly combining powerful tonic and soothing properties, and consequently can never injure. As a sure preventive and cure of

CONSUMPTION, BRONCHITIS, DYSPEPSIA INDIGESTION, LOSS OF APPETITE, FAINTNESS, NERVOUS IRRITABILITY, NEURALGIA, PALPITATION OF THE HEART, MELANCHOLY, HYPOCHONDRIA, NIGHT SWEATS, LANGUOR, GIDDINESS, AND ALL THAT CLASS OF CASES SO FEARFULLY FATAL to FEMALE WEAKNESSES AND IRREGULARITIES,

THERE IS NOTHING ITS EQUAL!

Also Liver Derangements and Torpidity, and Liver Complaints, Diseases of the Kidneys, or any general derangement of the Urinary Organs.

It will not only cure the debility following CHILLS and FEVER, but prevent all attacks arising from miasmatic influences and cure the disease at once, if already attacked.

TRAVELLERS should have a bottle with them, as it will infallibly prevent any deleterious consequences following upon the change of climate and water.

As it prevents costiveness, and strengthens the digestive organs, it should be in the hands of all persons of sedentary habits.

LADIES not accustomed to much out-door exercise, should always use it.

MOTHERS should use it, for it is a perfect relief, taken a month or two before the final trial—she will pass the dreadful period with perfect ease and safety.

There is no mistake about it!

THE CORDIAL IS ALL WE CLAIM FOR IT!

MOTHERS, TRY IT!

And to you we appeal, to detect the illness or decline not only of your daughters, before it is too late, but also your sons and husbands, for whilst the furnace from false delicacy, often go down to a premature grave rather than let their condition be known in time, the latter are often so unnerved up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the matter is always vigilant, and to you we confidently appeal, for we are sure your never-failing affection will unerringly point out the Great and RESTORATIVE CORDIAL AND BLOOD RENOVATOR as the remedy which should be always on hand in time of need.

O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St. Louis, Mo.

Sold by all good Druggists. Price $1 per bottle.

Read what the Press say, after thoroughly testing the matter, and no one can have doubt.

PROF. WOOD'S Restorative Cordial and Blood Renovator is a genuine medicine of real merit, pleasant to the taste, and invigorating to the system. While it purifies the blood and soothes the nervous irritation, it aids the organs of digestion to perform their functions, and resists the assaults of disease. The skillful compound so skillfully combined, that while it exhilarates it does not provoke the lassitude which usually follows excitement. A tonic composed exclusively of vegetable matter, it is absolutely beneficial, and its ill effects can possibly accompany its use. It is an invaluable and speedy remedy for Loss of Appetite, Faintness, Nervous Debility, Neuralgia, Failings of the Womb, and other delicate diseases to which it is subject. For Sickness of the Stomach, Bilious Attacks, Liver Complaints, Costiveness, Dyspepsia, Consumption, and a host of evils flesh is heir to, it is a certain cure.—*St. Louis Morning Herald.*

PROF. WOOD'S RESTORATIVE CORDIAL.—It is recorded in the classic that Pyrrhus were cured at a climate warmer than the West Indies, by a cure a sample of the beauty of Proserpine in a box. After some delay the messenger returned, and as soon as the top of the box was removed out flew all the ills that flesh is heir to. Fortunately hope was found in the bottom of the box. Prof. Wood's Restorative Cordial revives the recollection of the story, for it invigorates the blood, gives the organs of digestion, imparts strength to the nervous system, and fortifies the citadel of health so as to bid defiance to the assaults of disease. It is a healthy tonic, composed entirely of vegetable productions, and while it is exhilarating as pure wine, no injurious results can possibly follow its use. It is a desideratum in the medical world, and those who are afflicted with loss of appetite, Dyspepsia, Consumption, Paleness, Neuralgia, Palpitation of the Heart, &c., will here find an infallible panacea.—*St. Louis Daily Express*

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR is, without doubt, the best tonic Cordial in the world. To those who are suffering from general debility, we would recommend its use, for it is pleasant to the taste, strengthening to the system, and will at once tend to expel all impurities of the blood, and eradicate all traces of disease. It can be taken by the weakest stomach, while those in good health will find it invigorating and exhilarating powers. We are confident that after using one bottle of this Cordial, none will be for a day without it.—*N. Y. Leader.*

A PURE, HEALTHY TONIC, and one free from the deleterious and injurious effects sure to follow those in ordinary use, has long been felt to be a desideratum in the medical world. Such a tonic, and one so skillfully combined from the vegetable kingdom as to act in perfect accordance with the laws of Nature, and thus soothe the weakest stomach, and at the same time allay nervous and other irritations, and tone up all the organs of which the human body is composed, is offered in Prof. Wood's Restorative Cordial and Blood Renovator. Hence it is perfectly adapted to old and Young. Reader, try it. Thousands have already done so; the testimony is universal in its favor.—*New York Atlas.*

☞ Before noticing a patent medicine, we have to be certain that it will prove itself to be all that it is recommended to be, and we would say that the Restorative Cordial and Blood Renovator of Prof. Wood will stand the test fully, and in fact it is without doubt the first article in the market for purifying the blood and strengthening the system. We have no hesitation in recommending its use to all.—*New Yorker.*

Dyspepsia Remedy

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Sick Headache, Costiveness, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupify.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will immediately revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating effects of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.

One dose will remove all Bad Spirits.

One dose will cure Heartburn.

Three doses will cure Indigestion.

One dose will give you a good appetite.

One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness, &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and give the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is trial, and to induce this, he has put up the Invigorating Spirit in pint bottles, at 50 cents, qts $1.

BININGER'S
OLD KENTUCKY
BOURBON
"1849 RESERVE"

The *established popularity* of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of Kentucky Whiskies.

Being distilled in 1848, and manufactured expressly for us with great care, it can be relied upon as an absolutely pure stimulant, and peculiarly effective for the treatment of Coughs, Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a curative agent it has a tendency to *recreate* and *strengthen*; while age having contributed its genial influence, it is enriched it with a delicious flavor and an oily body, to which is due its horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating effects of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.

One dose will remove all Bad Spirits.

One dose will cure Heartburn.

Three doses will cure Indigestion.

One dose will give you a good appetite.

One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness, &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and give the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is trial, and to induce this, he has put up the Invigorating Spirit in pint bottles, at 50 cents, qts $1.

SLOOP-OF-WAR LEVANT.—The almost certainty now that the U. S. sloop-of-war Levant has been lost in the Pacific, gives a melancholy interest to the following paragraph—foreshadowing her fate, as it were—from one of Mr. Russell's letters from Malta to the London Times, in 1858:

We subsequently visited the U. S. corvette Levant, lying near, and were received with great kindness by the officers. She is a 'box of guns,' and would be a dangerous and crank craft in bad weather, owing to the size of her masts and spars, and the weight of her armament, &c. I do not propose to comment on this, but simply to suggest that a vessel of war should be something more than a 'box of guns,' at least for the sake of those whose home is on board.

☞ Detective Keese, of New York, has seized and retains by order of the Court, bogus and counterfeit notes on twenty-seven banks, amounting to $260,000; also plates, dies, etc. The larger packages contain the following: $30,000 in counterfeit bills on the Bank of Augusta, Me., and $60,000 unsigned counterfeit bills on the State Bank of Ohio. The dies were of 10 cents, $1 and $2 50.

PORK PACKING IN THE WEST.—The pork packing for the season, just completed, shows the number of hogs slaughtered to be 2,155,702, a falling off of 199,943 from the previous year. The weight, however, more than makes up for the reduced number, being an excess of 60,000,000 pounds. The aggregate being 479,312,630 pounds, the increased export from New York since the 1st of January to March 10, was nearly 25,000,000 pounds.

☞ A locomotive and a passenger car on the Hackensack Railroad run into an open draw bridge over the Hackensack river at night, into twenty feet of water.—The locomotive was submerged, but the passenger car only partially at one end, the other end resting on the bridge, and the passengers were saved. The engineer and fireman were slightly injured.

☞ There are fifty-four pawnbrokers' shops in full blast in New York. The largest amount of money kept on loan in any one of them is $150,000. From ninety to ninety-five per cent. of the pledges are redeemed. Most of the shops charge 25 per cent. on all loans. The loans of one concern amount to $360,000 per annum.

☞ George W. Gilman, Esq., of Meredith, proprietor of the Senter House, Centre Harbor, was killed at that place on Tuesday last. Being engaged in removing a shed, he had just arrived from his farm in a sleigh and got out to assist. Having taken hold of a pry, the pry flew back and struck him on the side of the head. He lived about five hours.

DECEPTION PRACTISED ON HORSES.—It is said that in Denmark carriage horses are taught to step high, by the substitution of magnifying glasses for blinders. They mistake every pebble for a boulder, and lift their legs accordingly. Some years ago we had a man about here, of whom it was said, that when he could not buy hay for his horse, he put green spectacles over his eyes, and then served out shavings to him. The animal died before the ingenious experiment had been fully tested.—*Ex.*

☞ It appears from the most recent returns, that the republican party in New Hampshire, have elected all five of the Councillors, and ten of the Senators, making their success more complete than was at first supposed.

☞ A pair of horses belonging to B. J. Cole & Co., of Lake Village, driven by a Mr. Emerson, fell through the ice on N. Found Lake on Saturday morning week, and were drowned. The driver escaped.

☞ Patrick Welsh and Mary, his wife, are in Boston jail for murdering their daughter Catherine, 13 years old. Another daughter is in the same jail, as a common drunkard.

We learn than an Irishman of Newburyport has recently been carried to the Insane Asylum, being before "carried away" by undue religious excitement in the recent religious meetings. It is the first case we have known hereabouts, of that kind, in the Catholic church.—*Newburyport Herald.*

SUICIDE.—Lewis Blaisdell of Amesbury, committed suicide on Wednesday, March 20th, by hanging himself in his barn. The deceased was a farmer in good circumstances, about 60 years of age.

☞ Rev. B. P. Byram, pastor of the First Baptist Church at Amesbury Mills, last Sunday tendered his resignation as pastor of that church, over which he has been settled for eleven years.

QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said *"that it is the best preparation of Bitters that has ever been offered to the public."*
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

WEDNESDAY, MARCH 27, 1861.

RUSSIAN EMANCIPATION.

The progress of this age is towards liberty rational freedom, regulated by law, to be brought about with much *moral* force, and with as little *brute* force as may be.

The struggles of tyranny to rivet the chains will only tend to snap them, some time: and their seeming victories only pave the way to real defeats.

One of the most promising signs of the present time, is the *emancipation of forty millions* of Russian serfs, of which the following account is given in *Le Nord*, a Paris paper. It will be seen they are to *own their homes* in days to come, instead of being themselves a fixture to the soil. A *Constitution* is also to be given to Russia.

"Our correspondent at St. Petersburg sends us an account of the closing sitting of the Council of the Empire, held on the 25th ult., upon the question of the serfs. It was *decided* that the latter should receive their *personal liberty*, and that all the relations between them and their proprietors should cease *at one stroke*; that the peasants on each property shall receive the inclosure, that is, the *house* they inhabit and the kitchen *garden* attached to it; that there shall be allotted them at a price fixed by the government, the fourth of the quantity of ground which was fixed in the plan elaborated by the commissions, that is, from one to two hectares, according to the province. This allocation is *obligatory*, the other territorial arrangements are optional.—The Imperial manifesto which will publish these decisions is already *printed* at St. Petersburg; but it will not appear in the present week, which is that of the Russian carnival. The publication will take place in *Lent*, in about fifteen days perhaps, at a time of meditation and sobriety for the Russian people, the opportuneness of which for the proclamation of emancipation, there is no need to point out."

The *Patrie* and the *Pays* say :—

The Czar will elaborate a project of constitution for Russia as soon as the question of the emancipation of the serfs shall be resolved.

BANK DEPOSITS IN NEW HAMPSHIRE. The official returns give a detailed list of the deposits in the Banks of Circulation and Discount, showing total, $1,132,496 34. It also gives the following list of Deposits in the Savings Banks:

New Hampshire, (Concord), $396,996 52; Pittsfield, 12,050 62; Concord, 36,472 66; Amoskeag, 381,393 02; Manchester Five Cents, 52,664 36; Manchester, 307,447 72; Carroll County, 14,430 71; Norway Plains, 146,608 63; City Savings, 22,449 62; Nashua, 155,568 76; New Ipswich, 66,638 98; Milford, 10,217 30; Cheshire, 700,439 03; Ashuelot, 15,921 55; Walpole, 55,853 00; Sullivan, 172,236 54; Connecticut River, 136,638 33; Peterborough, 15,752 09; Exeter; 73,549 83; Meredith Bridge, 160,261 05; Dover, 87,631 11; Rollinsford, 145,757 06; Somersworth, 164,635 30; Strafford County, 480,121 48; Portsmouth, 1,017,053 46; Newmarket, 31,236 13.

TOTAL, $4,860,024 86.

The amount of deposit in banks of circulation and saving both is $5,992,521 20, or about eighteen dollars and thirty cents for every inhabitant of the State. New Hampshire is called a poor commonwealth, but how many of the Six Nations who have undertaken to set up on their own account can make a similar financial exhibition.

ALMOST A GREAT ROBBERY.—In New York, on Monday morning, an attempt to rob the New York Exchange Bank, was discovered. Some weeks since, some burglars hired the cellar adjoining, and since excavated seventy feet leading into the bank. They had only succeeded in getting one thousand dollars which was in a tin box on top of the safe, when they were disturbed, and escaped. There was nearly half a million dollars in funds and securities in the safe, into which they would undoubtedly have made their way, had not daylight surprised them. A man named Harmon Roberts has been arrested on suspicion of having been concerned in the affair.

Daniel Bartlett and Joseph Myers, well known English burglars, are also implicated in the above robbery.

GEORGE WASHINGTON DIXON.—From our New Orleans exchanges we glean the intelligence of the death of this eccentric notoriety. He closed his earthly pilgrimage in the Charity Hospital, and was interred in all probability, in a pauper's grave. Some years since, this man figured prominently in our city during the heat of election excitements, and was the mouth-piece of many a forlorn hope. As a stump speaker he was wild and erratic; still, he had mind and redeeming qualities that attracted friends, who will doubtless mourn his early decease.—*Porter's N. Y. Spirit.*

Dixon was one of the best singers of the old English songs, and the American patriotic songs, that ever visited Portsmouth. He sung here about 25 years ago or thereabouts.

COL. LAMON AT CHARLESTON.—VISIT TO FORT SUMTER.—*Charleston, March 25.*—Col. Lamon had an interview this morning with Gov. Pickens and General Beauregard, and left with Col. Duryea for Fort Sumter. The opinion prevails that Major Anderson will evacuate the Fort on Wednesday of this week.

Col. Lamon visited Fort Sumter to-day, but nothing definite is known as to the result. He returns to-night. He was well received by the Governor, and is to have an interview with Gen. Beauregard this afternoon.

INTERESTING DEBATE.

In the U. S. Senate, Monday, March 25, on motion of Mr. Hale, his resolution for the election of Sergeant-at-Arms and Door keeper was laid over for the present.

On motion of Mr. Powell, it was resolved that the President be requested to communicate to the Senate the dispatches from Major Anderson since he has been in command of Fort Sumter, if not incompatible with the public interests.

Mr. Douglas' resolution was then taken up, and Mr. Howe resumed his speech.

Mr. Douglas said he wanted to find out whether we are to have peace or war. He believed the policy of the administration to be peace. The threat to collect the revenue and blockade the ports without legal authority was a threat to violate the constitution. Was it wise to delude the people into the belief that the administration is going to do what the constitution does not permit?

Mr. Howe said the Senator from Illinois, instead of summoning the people to provide the necessary means of getting the revenue, summons the government to abandon the revenue.

Mr. Clark said he was one who chose to stand by the constitution as it is, believing it to be better than entertaining compromises.

Mr. Douglas—No doubt the Senator would entertain that opinion, even if disunion was the inevitable consequence, and would prefer war, to amendments to the constitution.

Mr. Clark said he would judge of the amendments when they were proposed, and deprecated war.

Mr. Douglas—Yet, when the question of war or amendments to the constitution is proposed, he understood Mr. Clark to be against all compromises.

Mr. Clark said he distinctly believed that he could stand upon the constitution better than upon anything else, and avoid war by taking that position. The time was not far distant when the laws would be enforced all over the Union, without the use of the bayonet.

Mr. Douglas—Still nobody denies that seven States had expelled the federal authority.

Mr. Clark inquired whether the Post Office Department did not still carry the mails in those States.

Mr. Douglas said he believed they did, but with the consent of those States, but letters might be opened without punishment.

Mr. Clark inquired if the revenue could not be collected on shipboard if Congress should clothe the President with the power.

Mr. Douglas said he supposed it could be, but he had been speaking of the laws as they are. He regarded this as an admission that the Republicans did not mean to collect the revenue until the laws were changed.

Mr. Clark wished Mr. Douglas to take the admission as not including anybody but himself.

Mr. Douglas said he thought the admission was so clear that he might include all the Republicans in it. He said the triumph of the Republicans had brought disunion, and God only knows what consequences were to grow out of it.

Mr. Howe asked Mr. Douglas whether he understood him to say that the election of Mr. Lincoln instead of somebody else had caused the dissolution of the Union.

Mr. Douglas said if *he* had succeeded in defeating the Republicans, thereby rendering it certain that the policy of that party would not be carried out, the southern people would have rested in security, and the Union would not have been dissolved.

Mr. Howe inquired—What policy?

Mr. Douglas replied—Sectional policy. The Republicans make war upon slavery as a great political and moral evil.

Mr. Howe denied that the Republican party was a sectional party. They favored the maintaining of the authority of the whole people of the Union.

Mr. Douglas said the Republican party was based on hostility to slavery. He replied to Mr. Breckinridge, arguing that under the law as it now stands as to every Territory without exception, a man can remove thither with his slave property on equal terms with other property. The Republicans, in organizing the governments for Nevada, Colorado and Dacotah last session, did what they had not done for twelve years before, and what they had so long abused him (Douglas) for wanting to do. They did it from a sense of justice when they got the majority. The only motive he had for wishing to be President was to carry out that policy, and he gave the Republicans credit for adopting it after defeating him. The Senator from Pennsylvania (Mr. Wilmot) had arrived here in time to see the Republicans repudiate the Wilmot proviso, reject the corner stone of their temple, and come up to non-intervention and popular sovereignty.

Mr. Howe said he wished to know why, if Mr. Douglas' principles would save the Union, and the Republicans had adopted them, there was not peace.

Mr. Douglas said that it was because the Republicans would not acknowledge it, and kept the people in the dark.

Mr. Breckinridge said he wished to reply to Mr. Douglas, but the Senate went into executive session. Adjourned.

THE REPUBLICANS AS WALKERS.—The astonished hackmen at Washington say "these black Republicans are poor trash, for they are all walkers. They walk to the White House, they walk to the navy yard, they walk to the Capitol, they walk to Georgetown, they walk the avenue all day, and then walk to a ball, and walk home, and take another walk after they get there to straighten their legs before going to bed. Such chaps are good for shoemakers, but a poor set for hackmen. One of these prairie chickens can walk down any hack in Washington. Guess they all walked in here from California."

☞ Religious liberty of the most unrestricted character has been proclaimed at Naples. All former concordats and treaties with Rome are abrogated, and ecclesiastical power is limited to the punishment of ecclesiastical offences merely.

RESPECT AND COURTESY DUE TO OUR RULERS.—Concerning the too prevalent habit of denouncing those whom we have ourselves voluntarily placed high in office, Porter's N. Y. Spirit well says:—

Our rulers are not novices, hereditary scions of nobility, thrown into public station by the accident of birth; but men selected by, and from the people, over whom they are elected to preside. Chosen on account of their presumed fitness for the stations they are called upon to fill, they have as it were crept step by step to the honorable positions they now occupy. During each successive stage in their onward career, they must have watched and carefully studied the public mind, been faithful in their minor trusts, and shown to their constituents that the confidence reposed in them would in no way be abused. We over have, and we sincerely hope we always may, place implicit trust in the men who are called from among us to guide the Ship of State. Mr. Lincoln and his Cabinet step into power amid a raging storm, and are met at the very threshhold of their administration by obstacles, that by some are deemed to be unsurmountable. If by concession, and statesmanlike diplomacy, these dangers are averted, and through their patriotic efforts, conciliation effected, and our union again cemented by new and stronger ties of brotherhood; an ovation, such as the world never saw, will surely be their reward.

NEW YORK, March 28.—The Herald Washington correspondent says intelligence has been received from Montgomery, that there will be five thousand troops at Pensacola by the 1st of April.

There is a prospect that every dollar of the eight million loan, advertised by Secretary Chase, will be taken at fair rates.

The Postmaster General is experiencing trouble from the new mail agents in Virginia, whom the people along the route threaten to tar and feather. One of the agents has resigned. Several Virginia Republicans have presented themselves for the vacancies, and will serve at all hazards. If the interruption continues, the mails will probably be cut off.

Among the appointments sent into the Senate to-day, are H. Winter Davis, Minister to Russia; Richard Hildreth, Consul to Tripoli; Wm. Clapp of St. Albans, Collector at Burlington, Vt.

Secretary Chase has appointed Lucius E. Crittenden of Vermont as Register in the Treasury department.

General Houston says that civil war in Texas is inevitable, and that Alabama will soon be involved in the same dilemma.

A dispatch to the World says that the President has had several applications from Louisiana for Cadetships at West Point.

The secessionists in Virginia are beginning to despair of passing a direct secession ordinance, and are urging the adoption of the Arkansas plan, to submit the question of secession or co-operation to the people.

WASHINGTON, March 25.—The Senate to-day confirmed Wm. Gilpin, Governor of Colorado; Joshua R. Giddings, Consul General of the British American provinces.

The following confirmations as Second Lieutenants in the Army were made to-day:—W. O. Williams, J. P. Baker, Chas. Tompkins, S. S. Elder, A. Sheridan, Sargent H. P. Pearce.

The following nominations are before the Senate:—H. Barney Collector of New York; T. B. Lawrence, Consul at Florence.

Col. Lamon, who was dispatched to Fort Sumter, will, according to dispatches received to-night, return on Wednesday.

It is not probable that the Republican Senators will again attempt to elect a Sergeant-at-Arms and Doorkeeper during the present session.

Minister Corwin will leave for Mexico on the first of April, from New Orleans.

FROM NEW MEXICO.—*Independence, Mo., March 25.*—The New Mexico mail, with dates of the 11th, has arrived. Capt. Holloway and Lieuts. Boyce and Kelly came as passengers. The latter is on route to join the southern army, having resigned his commission.

The army in New Mexico was well supplied with stores, excepting flour, which was scarce.

Much suffering was anticipated among the people from the scarcity of provisions.

The reports from the San Juan mines had been discovered, but they were not productive.

A CARD FOR NEW HAMPSHIRE.—The Newburyport Herald says:—

The late New Hampshire election indicated no political change in that state. There was a decrease in the whole vote of 4500, of which 2500 was from the Republicans and 2000 from the Democrats. There is not a state in the Union where the parties come up to the mark as in New Hampshire; and there is no state where the masses of voter are so well informed in politics.

ROTHSCHILD was a man of imaginative positiveness. He foresaw that the fate of Europe hung upon the battle of Waterloo, and took his measures to have intelligence of the result twenty-four hours in advance of the British Nation. A carrier pigeon brought him the eventful cypher. He untied the minute legend hid beneath its wing. He hastened to the Stock Exchange, and boldly purchasing consols when people thought him drunk or crazy, he "bagged" a million sterling on the morrow.—*Porter's Spirit.*

OFFICIAL CENSUS OF THE UNITED STATES.—The official census of the United States has just been completed, and it shows a total of thirty-one millions, four hundred and twenty-nine thousand, eight hundred and ninety-one (31,429,891). Of these, three millions nine hundred and fifty-one thousand eight hundred and one are slaves.

☞ Rev. Mr. Dall, Unitarian Missionary to Calcutta, has taken a vacation from his labors to recruit his health, and will visit this country and England before his return, to lay before the people the cause of the East India Unitarian Mission.

☞ Owen Mahoney was found dead in a piece of woods in Franklin, within one mile of Bellingham, on Monday last. He had with him a bottle two-thirds filled with rum, also two bank books, on which there stood to his credit upwards of $800. He was unmarried, and about forty years of age.

FAMINE NEWS CONFIRMED.—*Atchison, Kansas, March 25.*—The Methodist Conference have made a report substantiating the statements of the destitution in Kansas, and asking their friends not to stay their hands until the people are able to realize something from their own resources.

WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, NO REMEDY has performed so many or such remarkable cures of the *Throat, Lungs and Chest*,—of *Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma*, or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam*. So generally acknowledged is the supe for excellence of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.

Editor of the Norway Advertiser, gives his opinion of this great remedy substantially as follows:

NORWAY VILLAGE, Me., Aug 4, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—For a remedy of such undoubted merit as DR. WISTAR'S BALSAM OF WILD CHERRY, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial and be relieved. Several years since I first became acquainted with this Balsam at a time of distressing cough and cold, which took such firm hold of my lungs as to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain

In our town this remedy is a great favorite with many, and it all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.

Yours respectfully, GEO. W MILLET.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. feb28 daw3m

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

To MARRIED LADIES it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

For full particulars, get a pamphlet, free, of the agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE.

The following is a sample of many letters daily received by W. E. HAGAN & CO., Troy, N. Y., who are the Manufacturers and Proprietors of "HEIMSTREET'S HAIR RESTORATIVE," an article of which many of our first citizens speak as being the *cheapest and best* Hair Preparation which has ever been introduced in our market. A combination of Stimulating Spirits and Oil, affording an agreeable *Hair Dressing*, leaving the scalp perfectly free from dandruff, and causing the Hair to have a *rich glossy appearance*. Two articles in one. A fine "*Hair Dressing*," and a never-failing Restorative for the *Bald* and *Gray*.—Read the following letter:

ST. LOUIS, MO., June, 1859.

MR. HENRY REYNOLDS—*Dear Sir*:—I hereby certify that my hair having become *gray*, I used, at your request, HEIMSTREET'S INIMITABLE HAIR RESTORATIVE, (prepared by W. E. HAGAN & CO., Troy, N. Y.) for several weeks. My hair was in that time restored to its original color, with all its luxuriance and beauty; and I will be much pleased to recommend the article, personally, on any and every occasion, as I know it has merits that the Proprietors do not claim for it in their circular. Respectfully yours,

GOVERNMENT OFFICERS.—The following is a statement of some of the offices in New Hampshire, at the disposal of the General Government, with salaries annexed. Compiled from the last Official Register.

Judiciary.—District Judge, $2,000;—District Attorney, $200 and fees; U. S. Marshal, $200 and fees.

Custom-House, Portsmouth.—Collector, $431,60; Naval Officer, $433,03; Surveyor, $388,65; Deputy Collector, $730; 3 Inspectors—1 at $1200, 2 at $1095 each:

The salary of the Inspector at Dover is $200; at Newcastle, $500; Kittery $500.

Light House Keepers.—Boon Island, $600, with two assistants at $300 each;—Whale's Back, $600, with one assistant, at $350; Isle of Shoals, $600, one ass't, $300.

Navy Agency, Portsmouth.—Commissions.

Mail Route Agents.—Twelve are employed on various railways, at a salary of $800 per annum each.

The amount paid for the transportation of the mail is $57,568.53

Postmasters.—Portsmouth, $1,957,81;—Manchester, $1,899,07; Concord, $1,782.

About $1,300 is paid for clerk-hire at the Concord office, $1000 at Manchester, and $500 at Portsmouth.

PORTSMOUTH OFFICES.—Joseph B. Upham has been appointed Collector, and Jonathan Dearborn, Naval Officer, at Portsmouth, N. H. Both are good appointments, of gentlemen by no means rabid or violent as politicians.

It is also reported that Dr. M. F. Wentworth of Kittery, has received the appointment of Naval Storekeeper at this Station. He has certainly "earned" the office, if such a term is to be allowed.

THE LAUNCH.—*Messrs. Editors:*—Having witnessed the launch of the new ship "City of Montreal" from the ship-yard of Messrs. Tobey & Littlefield, this morning, I cannot refrain from expressing through your columns, (if you will allow me the privilege,) my extreme delight on the occasion. As I saw the masterpiece of labor and skill glide from the spot on which she was reared, safely into the water, and then gazed with admiration upon her beautiful model and magnificent appearance, I could but congratulate her builders on their great success. This ship is owned by Messrs. Page, Richardson & Co., of Boston, and is the fourth ship launched from the yard of Messrs. T. & L. within the past year; three of which have been purchased by the above named owners.

Much credit is due to these men of enterprise, who in such times of alarm and discouragement continue in their educated and legitimate business, while nearly the whole country seems paralyzed with fear.

The result of their endeavors thus far is conclusive evidence that they are equal to the business in which they have engaged. If their pecuniary means at the commencement were limited, their ability was abundant, and although they have had to compete with men of fortune, yet they have, by eminent faculties, personal independence and principles of honor, continued to prosper; their ships now afloat are reflecting credit upon them; and justice requires me to say that our city is greatly indebted to them.

The working men in our midst surely have reason to congratulate them on their success; for the unceasing prosecution of their enterprise, gave employment to them when there was no other to be had.

The continued patronage of Messrs. Page, Richardson & Co., and of R. H. Tucker, Esq., (merchants of large practical experience) speak credit to their ships:—and a just and discriminating community cannot fail to appreciate such efforts of both merchants and ship-builders.

We learn that Messrs. T. & L. have a frame of the same model of the ship just launched, and that they purpose continuing their business as heretofore. With their conveniences and facilities (not surpassed in America) they can offer great inducements in building ships in the most efficient manner and with great despatch. C.

Portsmouth, March 26.

ANOTHER VETERAN GONE.—Died in this city, on Tuesday, March 25th, Mr. STEPHEN PEARSE, aged 82 years. Mr. P. was well and widely known as an honest and reliable trader, who carried on the grocery business for about three score years on the Parade, now known as Market Square.

Funeral to-morrow (Thursday) afternoon at 3 o'clock, from the St. John's Church.

☞ We learn that Mr. Wm. F. Fernald of this city, the builder of the famous bark "Fury," has a contract to build a schooner, of about two hundred tons, for parties in this city and at Cape Neddick, Me.

☞ A considerable amount of gold, of foreign coinage, has recently been forwarded by a bank in New Orleans to a Philadelphia bank, for the purpose of having it converted into American coin at the United States Mint—the reason assigned for not having it coined at the New Orleans Mint, being a want of confidence in the latter institution since it has fallen into the hands of the secessionists.

For the Chronicle.

HAMPTON FESTIVAL.—The Republican Ladies of Hampton, on Monday evening last, provided a bountiful entertainment for the Republicans and others who had aided in the recent triumph of sound principles in this State. Three extension tables, tastefully arranged and well provided, occupied the lower room of the Town House. The beautiful Hall above, was well filled with gentlemen and ladies.

Mr. Morris Hobbs presided, and introduced Gov. Goodwin, who addressed the company, and was followed by Hon. W. H. Y. Hackett. At nine o'clock the crowd repaired to the supper room below, and partook of a repast which reflected great credit upon the ladies who prepared it.

After supper, the company returned to the Hall, where prolonged cheers were given for Messrs. Goodwin and Hackett.—Thus ended a successfully executed plan of celebrating the triumph of Republicanism in New Hampshire. **

It is very natural that a man who is fast should often find himself in a tight place.

Would you save yourself from suffering after eating, or from acidity of the stomach, or burning sensation or indigestion? Use Herrick Allen's Gold Medal Saleratus.—Never use soda if you can procure this article. It will strengthen weak stomachs and relieve dyspepsia; is a saving in the quantity of flour, &c. Try it. Grocers and Druggists most all sell it.

Sold at wholesale, by Israel Nash & Co., Boston; and Sumner, Swasey & Currier, Newburyport.

A Distressing Cough, causes the friends of the sufferer as much pain as the sufferer himself. *Dr. Wistar's Balsam of Wild Cherry* will certainly cure coughs, colds, arrest consumption, and that speedily. When did it ever fail?

THE INFANTILE CORDIAL.—We notice our druggists have received a supply of DR. EATON'S INFANTILE CORDIAL, which every mother should have. It is said to contain no paregoric or opiate of any kind whatever, and of course must be invaluable for all infantile complaints It is also said that it will allay all pain, and soften the gums in process of teething, and at the same time regulate the bowels. Let all mothers and nurses, who have endured anxious days and sleepless nights, procure a supply and be at once relieved.

Atwood's Quinine Tonic Bitters.—the best Aromatic Tonic ever offered to the public.—All the Druggists have it. See advertisement.

LIFE INSURANCE.
"IN THE MIDST OF LIFE WE ARE IN DEATH."
The strong man often falters, and falls in the midst of the hurry and business of life. The wise man makes provision for those whom he loveth, against the liability to accident and death.
THE
MUTUAL LIFE INSURANCE CO
Of New York,
with an accumulated capital of over
SEVEN MILLION DOLLARS,
Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues
POLICIES on lives, payable to the wife, or to the legal representative of the person insured.
POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.
PREMIUMS may be paid, *quarterly, semi-annually*, or *annually*, at the option of the insured.
The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.
The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.
No reflecting man can sit at his fireside with his young family about him, and feel at ease;—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

BLOOD FOOD

CONSUMPTIVES.

An equal and normal circulation of the blood is health. An abnormal, that is to say, an excessive or deficient circulation or stagnation of the blood, is disease. To illustrate—torpidity of the Liver is caused by stagnation of the blood in that organ; diseases of the Kidneys, Inflammation of the Lungs, Disease of the Heart, &c., by the same cause, viz., Improper Circulation; and from the same cause springs all the minor forms of disease. To discover a certain cure, then, for these diseases, the first great inquiry is, What causes the blood to circulate?

For centuries it has been a matter of much study among scientific and medical men; and while many experiments have been made and much labor expended upon the inquiry, it has been left to this century, among Another wonderful increase in knowledge, to make the grand discovery also

Acknowledging that life is the gift of the Creator and that "in Him we live and move and have our being," we still venture the remark that, as the planets move in their spheres, and all vegetable life is governed by certain absolute laws, so animal life is traceable to a fixed cause, which removes or destroys, and death, the certain effect, follows.

Analysis of the red corpuscles of the blood shows them to be compounds of iron, sulphur and phosphorous.

To air we breathe we know to contain a very large proportion of oxygen.

Oxygen, brought in contact with metal, survives or emits electricity.

Electricity, brought in contact with a muscular fibre, causes it to contract.

These facts being indisputable, we have now the solution as to the motor or motive power of the heart. The oxygen in the air we breathe, coming in contact with the iron in the red corpuscles of blood, emits electricity, which, coming in contact with the heart, causes it to contract; and hence the power which expels the blood, and sends it tingling through the remotest arteries. What, then, are the causes of CONSUMPTION, DROPSY, PALSY, PARALYSIS, DYSPEPSIA, DYSPEPSIA, EPILEPSY, FEVER & AGUE, &c.?—a deficiency of the red corpuscles containing iron, sulphur and phosphorous, which causes a deficiency of electricity, and hence an abnormal circulation. The blood becomes watery, colds and kindred complaints and prostration ensue—the sufferer becomes nervous, and subject to rheumatic pains and neuralgia—complaints of the liver and kidneys set in; in short, almost every type of disease but virulent fevers may be traced to this deficiency in the blood, of the corpuscles or red globules

Old age causes a deficiency of corpuscles, and while we do not pretend to say that we have discovered the "elixir vitæ," we do say that life can be materially prolonged by the use of the

"BLOOD FOOD,"

which restores the red globules and the normal circulation. Consumptive! friends of consumptives! Sufferers from any organic disease! Unfortunates, who have by excess of the body or mind, reduced the standard of the blood and diminished the red globules! Ladies suffering any of the distresses known as female complaints, be persuaded the "Blood Food" can cure you. It has cured thousands of desperate cases where all hope had been given up. Do not reject it, do not throw away your only hope. The "Blood Food" is an unfailing remedy; give it a trial.

An elaborate treatise, carrying out and fully proving the theory advanced here to be correct, will be mailed to any interested party, on the receipt of two 2 cent postage stamps. Blood Food is sold by all druggists, or where it cannot be had, I will send 6 bottles, free of expense, for $4. Price, single bottle, $1. It is put up in 5 oz. vials, in yellow wrappers, like the old kind, in small boxes, in red wrappers, having been done away with; and bears the fac-simile signature of Church & Dupont upon the face of the wrapper. Beware of counterfeits and imitations.

SOMETHING MORE VALUABLE

THAN SILVER OR GOLD,

BECAUSE

IT WILL RESTORE THE WEAK,

AND REINSTATE THE BLOOD IN ALL ITS

ORIGINAL PURITY & VIGOR.

It is

PROF. O. J. WOOD'S

RESTORATIVE CORDIAL

—AND—

BLOOD RENOVATOR.

It is precisely what its name indicates, for, while it cleanses the blood, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and then, restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted as *to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach*, and tone up the digestive organs, and allay all nervous and cerebral irritations. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. As a cure preventive and cure of

CONSUMPTION, BRONCHITIS, DYSPEPSIA INDIGESTION, LOSS OF APPETITE, FAINTNESS, NERVOUS IRRITABILITY, NEURALGIA, PALPITATION OF THE HEART, MELANCHOLY, HYPOCHONDRIA, NIGHT SWEATS, LANGUOR, GIDDINESS, AND ALL THAT CLASS OF CASES SO FEARFULLY FATAL, CALLED FEMALE WEAKNESSES AND IRREGULARITIES.

THERE IS NOTHING ITS EQUAL!

Also Liver Derangements and Torpidity, and Liver Complaints, Diseases of the Kidneys, or any general derangement of the Urinary Organs.

It will not only cure the debility following CHILLS and FEVER, but prevent all attacks arising from miasmatic influences and cure the disease at once, if already attacked.

TRAVELLERS should have a bottle with them, as it will infallibly prevent any deleterious consequences following upon the change of climate and water.

As it prevents costiveness, and strengthens the digestive organs, it should be in the hands of all persons of sedentary habits.

LADIES not accustomed to much out-door exercise, should always use it.

MOTHERS should use it, for it is a perfect relief, taken a month or two before the final trial—she will pass the dreadful period with perfect ease and safety.

There is no mistake about it!

THE CORDIAL IS ALL WE CLAIM FOR IT!

MOTHERS, TRY IT!

And to you we appeal, to detect the illness or decline not only of your daughters, before it is too late, but also your sons and husbands, for while the former, from false delicacy, often go down to a premature grave rather than let their condition be known; in time, the latter are often so mixed up with the excitement of business that if it were not for you they would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always watchful to you we confidently appeal; for we are sure your never-failing affection will unerringly point you to PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR as the remedy which should be always on hand in time of need.

O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St Louis, Mo., and sold by all good Druggists. Price $1 per bottle.

Read what the Press say, after thoroughly testing the matter, and so one can have doubt.

PROF. WOOD'S Restorative Cordial and Blood Renovator is a genuine preparation of real merit, pleasant to the taste, and invigorating to the system. While it purifies the blood and soothes the irritated nerves, it stimulates the organs of digestion to perform their functions, and resists the assaults of disease. It is a chemical compound so skillfully combined, that while it exhilarates it does not provoke the lassitude which usually follows excitement. A tonic composed exclusively of vegetable matter, it is absolutely beneficial, and no ill effects can possibly accompany its use. It is an infallible and speedy remedy for Loss of Appetite, Faintness, Nervous Debility, Neuralgia, Failing of the Womb, and other delicate disorders to which women are subject. For sickness of the Stomach, Billious Attacks, Liver Complaints, Costiveness, Dyspepsia, Consumption, and a thousand others it is here to, it is a certain cure.—*St. Louis Morning Herald.*

PROF. WOOD'S RESTORATIVE CORDIAL.—It is recorded in the classics that Psyche was once sent on a climbing searchers into the realms of Pluto to procure a sample of the beauty of Proserpine in a box. After some delay the messenger returned, and at some cost to the top of that box was removed, out flew all the ills that flesh is heir to. Fortunately hope was found in the bottom of the box. Prof. Wood's Restorative Cordial revives the old collection of the story, for it invigorates the blood, aids the organs of digestion, imparts strength to the nervous system, and fortifies the citadel of health so as to bid defiance to the assaults of disease. It is a healthy tonic, composed entirely of vegetable preparations, while it is exhilarating as pure wine, no injurious results can possibly follow its use. It is a desideratum in the medical world, and those who are afflicted with loss of appetite, Dyspepsia, Consumption, Faintness, Neuralgia, Palpitation of the Heart, &c., will here find an infallible panacea.—*St. Louis Daily Express*

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR is, without doubt, the best tonic Cordial in the world. To those who are suffering from general debility, we would recommend its use. For it is pleasant to the taste, is strengthening to the system, and will at once tend to remove all impurities of the blood, and eradicate all traces of disease. It can be taken by the weakest stomach, while those in good health will at once feel its exhilarating power. We are confident that after using one bottle of this Cordial, none will be for a day without it.—*N. Y. Leader.*

A PURE, HEALTHY TONIC, and one free from the deleterious and injurious effects sure to follow those in ordinary use, has long been felt to be a desideratum in the medical world. Such a tonic, and one so skilfully combined from the vegetable kingdom as to act in perfect accordance with the laws of Nature, and thus soothe the weakest stomach, and at the same time allay nervous and other irritations, and tone up all the organs of which the human body is composed, is offered in Prof. Wood's Restorative Cordial and Blood Renovator. Hence it is perfectly adapted to old and broken down, yet it Thousands have already done so; the testimony is universal in its favor.—*New York Atlas.*

☞ Before noticing a patent medicine, we have to be certain that it will prove itself to be all that it is recommended. And we would say that the Restorative Cordial and Blood Renovator of Prof. Wood will stand the test fully, and that it is without doubt the first article in the market for purifying the blood and strengthening the system. We have no hesitation in recommending its use to all.—*New Yorker.*

Dyspepsia Remedy

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.
One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.
One dose will remove the most distressing pains of Colic, either in the stomach or bowels.
Two doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.
Persons who are seriously afflicted with any Kidney Complaint, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the effects of too much liquor, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of youth and beauty to the cheeks.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the second stage.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

BININGER'S OLD KENTUCKY BOURBON "1849 RESERVE"

The *established popularity* of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary class of Kentucky Whiskeys.

Bottled in bond in 1848, and manufactured expressly for us with great care, it can be relied upon as a *strictly pure* stimulant, and peculiarly effective for the treatment of Lung Complaint, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

Its curative agent it has a tendency to *recruate* and *strengthen*; while age having contributed its genial charm, and enriched it with a delicious flavor and an oily body, it affords a pleasant incentive to the preservation of recovery of health, through the agreeable medium of a well pleased palate.

Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and sold by all prominent druggists, grocers and town agents. A. M. BININGER & CO.,

(Established 1778.)

BININGER'S OLD DOMINION WHEAT-TONIC

—FOR—

FAMILY AND MEDICINAL USE.

This natural product of the most nutritious grain, recommends itself as presenting in a *concentrated* form the *nutritive* properties of *Wheat*, and has received the highest encomiums from eminent medicinal authorities, as possessing qualities that are absolutely FATTENING; this *desideratum* renders it invaluable to those who are *suffering from Consumption, Lung Complaint, Impaired Strength, Lack of Vital Energy*, and all diseases which, in their incipient stages, require only a general diet, and a nourishing, invigorating, nourishing stimulant.

Put up in quart bottles, in iron-bound cases of one and two dozen each, and sold by all prominent Druggists, Grocers and Town Agents.

SLOOP-OF-WAR LEVANT.—The almost certainty now that the U. S. sloop-of-war Levant has been lost in the Pacific, gives a melancholy interest to the following paragraph—foreshadowing her fate, as it were —from one of Mr. Russell's letters from Malta to the London Times, in 1858:

We subsequently visited the U. S. corvette Levant, lying near, and were received with great kindness by the officers. She is a 'box of guns,' and would be a dangerous and crank craft in bad weather, owing to the size of her masts and spars, and the weight of her armament, &c. I do not propose to comment on this, but simply to suggest that a vessel of war should be something more than a 'box of guns,' at least for the sake of those whose home is on board.

☞ Detective Keese, of New York, has seized and retains by order of the Court, bogus and counterfeit notes on twenty-seven banks, amounting to $260,000; also plates, dies, etc. The larger packages contain the following: $30,000 in counterfeit bills on the Bank of Augusta, Me., and $60,000 unsigned counterfeit bills on the State Bank of Ohio. The dies were of 10 cents, $1 and $2 50.

PORK PACKING IN THE WEST.—The pork packing for the season, just completed, shows the number of hogs slaughtered to be 2,155,702, a falling off of 199,943 from the previous year. The weight, however, more than makes up for the reduced number, being an excess of 60,000,000 pounds. The aggregate being 479,312,630 pounds, the increased export from New York since the 1st of January to March 10, was nearly 25,000,000 pounds.

☞ A locomotive and a passenger car on the Hackensack Railroad run into an open draw bridge over the Hackensack river at night, into twenty feet of water.—The locomotive was submerged, but the passenger car only partially at one end, the other end resting on the bridge, and the passengers were saved. The engineer and fireman were slightly injured.

☞ There are fifty-four pawnbrokers' shops in full blast in New York. The largest amount of money kept on loan in any one of them is $150,000. From ninety to ninety-five per cent. of the pledges are redeemed. Most of the shops charge 25 per cent. on all loans. The loans of one concern amount to $360,000 per annum.

☞ George W. Gilman, Esq., of Meredith, proprietor of the Senter House, Centre Harbor, was killed at that place on Tuesday last. Being engaged in removing a shed, he had just arrived from his farm in a sleigh and got out to assist. Having taken hold of a pry, the pry flew back and struck him on the side of the head. He lived about five hours.

DECEPTION PRACTISED ON HORSES.—It is said that in Denmark carriage horses are taught to step high, by the substitution of magnifying glasses for blinders. They mistake every pebble for a boulder, and lift their legs accordingly. Some years ago we had a man about here, of whom it was said, that when he could not buy hay for his horse, he put green spectacles over his eyes, and then served out shavings to him. The animal died before the ingenious experiment had been fully tested.—*Ex.*

☞ It appears from the most recent returns, that the republican party in New Hampshire, have elected all five of the Councillors, and ten of the Senators, making their success more complete than was at first supposed.

☞ A pair of horses belonging to B. J. Cole & Co., of Lake Village, driven by a Mr. Emerson, fell through the ice on N. Found Lake on Saturday morning week, and were drowned. The driver escaped.

☞ Patrick Welsh and Mary, his wife, are in Boston jail for murdering their daughter Catherine, 13 years old. Another daughter is in the same jail, as a common drunkard.

We learn than an Irishman of Newburyport has recently been carried to the Insane Asylum, being before "carried away" by undue religious excitement in the recent religious meetings. It is the first case we have known hereabouts, of that kind, in the Catholic church.—*Newburyport Herald.*

SUICIDE.—Lewis Blaisdell of Amesbury, committed suicide on Wednesday, March 20th, by hanging himself in his barn. The deceased was a farmer in good circumstances, about 60 years of age.

☞ Rev. B. P. Byram, pastor of the First Baptist Church at Amesbury Mills, last Sunday tendered his resignation as pastor of that church, over which he has been settled for eleven years.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is not can be any better general remedy.
One of the very best Physicians in Boston has said: "*Atwood's is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

WEDNESDAY, MARCH 27, 1861.

RUSSIAN EMANCIPATION.

The progress of this age is towards liberty rational freedom, regulated by law, to be brought about with much *moral* force, and with as little *brute* force as may be.

The struggles of tyranny to rivet the chains will only tend to snap them, some time: and their seeming victories only pave the way to real defeats.

One of the most promising signs of the present time, is the *emancipation of forty millions* of Russian serfs, of which the following account is given in *Le Nord*, a Paris paper. It will be seen they are to *own their homes* in days to come, instead of being themselves a fixture to the soil. A *Constitution* is also to be given to Russia.

"Our correspondent at St. Petersburg sends us an account of the closing sitting of the Council of the Empire, held on the 25th ult., upon the question of the serfs. It was *decided* that the latter should receive their *personal liberty*, and that all the relations between them and their proprietors should cease *at one stroke*; that the peasants on each property shall receive the inclosure, that is, the *house* they inhabit and the kitchen *garden* attached to it; that there shall be allotted them at a price fixed by the government, the fourth of the quantity of ground which was fixed in the plan elaborated by the commissions, that is, from one to two hectares, according to the provinces. This allocation is *obligatory*, the other territorial arrangements are optional.—The Imperial manifesto which will publish these decisions is already *printed* at St. Petersburg; but it will not appear in the present week, which is that of the Russian carnival. The publication will take place in *Lent*, in about fifteen days perhaps, at a time of meditation and sobriety for the Russian people, the opportuneness of which for the proclamation of emancipation, there is no need to point out."

The *Patrie* and the *Pays* say :—

The Czar will elaborate a project of constitution for Russia as soon as the question of the emancipation of the serfs shall be resolved.

BANK DEPOSITS IN NEW HAMPSHIRE. The official returns give a detailed list of the deposits in the Banks of Circulation and Discount, showing total, $1,132,496 34. It also gives the following list of Deposits in the Savings Banks:

New Hampshire, (Concord), $396,996 52; Pittsfield, 12,050 62; Concord, 36,472 66; Amoskeag, 381,393 62; Manchester Five Cents, 52,664 36; Manchester, 307,447 72; Carroll County, 14,430 71; Norway Plains, 146,608 63; City Savings, 22,449 62; Nashua, 155,568 76; New Ipswich, 66,638 98; Milford, 10,217 30; Cheshire, 700,439 03; Ashuelot, 15,921 55; Walpole, 55,853 00; Sullivan, 172,236 54; Connecticut River, 136,638 33; Peterborough, 15,752 09; Exeter, 73,549 83; Meredith Bridge, 160,261 05; Dover, 87,631 11; Rollinsford, 145,757 06; Somersworth, 164,635 30; Strafford County, 480,121 48; Portsmouth, 1,017,053 46; Newmarket, 31,256 13.

TOTAL, $4,860,024 86.

The amount of deposit in banks of circulation and saving both is $5,992,521 20, or about eighteen dollars and thirty cents for every inhabitant of the State. New Hampshire is called a poor commonwealth, but how many of the Six Nations who have undertaken to set up on their own account can make a similar financial exhibition.

ALMOST A GREAT ROBBERY.—In New York, on Monday morning, an attempt to rob the New York Exchange Bank, was discovered. Some weeks since, some burglars hired the cellar adjoining, and since excavated seventy feet leading into the bank. They had only succeeded in getting one thousand dollars which was in a tin box on top of the safe, when they were disturbed, and escaped. There was nearly half a million dollars in funds and securities in the safe, into which they would undoubtedly have made their way, had not daylight surprised them. A man named Harmon Roberts has been arrested on suspicion of having been concerned in the affair.

Daniel Bartlett and Joseph Myers, well known English burglars, are also implicated in the above robbery.

GEORGE WASHINGTON DIXON.—From our New Orleans exchanges we glean the intelligence of the death of this eccentric notoriety. He closed his earthly pilgrimage in the Charity Hospital, and was interred in all probability, in a pauper's grave. Some years since, this man figured prominently in our city during the heat of election excitements, and was the mouth-piece of many a forlorn hope. As a stump speaker he was wild and erratic; still, he had mind and redeeming qualities that attracted friends, who will doubtless mourn his early decease.—*Porter's N. Y. Spirit.*

DIXON was one of the best singers of the old English songs, and the American patriotic songs, that ever visited Portsmouth. He sung here about 25 years ago or thereabouts.

COL. LAMON AT CHARLESTON.—VISIT TO FORT SUMTER.—*Charleston, March 25.*—Col. Lamon had an interview this morning with Gov. Pickens and General Beauregard, and left with Col. Duryea for Fort Sumter. The opinion prevails that Major Anderson will evacuate the Fort on Wednesday of this week.

Col. Lamon visited Fort Sumter to-day, but nothing definite is known as to the result. He returns to-night. He was well received by the Governor, and is to have an interview with Gen. Beauregard this afternoon.

INTERESTING DEBATE.

In the U. S. Senate, Monday, March 25, on motion of Mr. Hale, his resolution for the election of Sergeant-at-Arms and Door keeper was laid over for the present.

On motion of Mr. Powell, it was resolved that the President be requested to communicate to the Senate the dispatches from Major Anderson since he has been in command of Fort Sumter, if not incompatible with the public interests.

Mr. Douglas' resolution was then taken up, and Mr. Howe resumed his speech.

Mr. Douglas said he wanted to find out whether we are to have peace or war. He believed the policy of the administration to be peace. The threat to collect the revenue and blockade the ports without legal authority was a threat to violate the constitution. Was it wise to delude the people into the belief that the administration is going to do what the constitution does not permit?

Mr. Howe said the Senator from Illinois, instead of summoning the people to provide the necessary means of getting the revenue, summons the government to abandon the revenue.

Mr. Clark said he was one who chose to stand by the constitution as it is, believing it to be better than entertaining compromises.

Mr. Douglas—No doubt the Senator would entertain that opinion, even if disunion was the inevitable consequence, and would prefer war, to amendments to the constitution.

Mr. Clark said he would judge of the amendments when they were proposed, and deprecated war.

Mr. Douglas—Yet, when the question of war or amendments to the constitution is proposed, he understood Mr. Clark to be against all compromises.

Mr. Clark said he distinctly believed that he could stand upon the constitution better than upon anything else, and avoid war by taking that position. The time was not far distant when the laws would be enforced all over the Union, without the use of the bayonet.

Mr. Douglas—Still nobody denies that seven States had expelled the federal authority.

Mr. Clark inquired whether the Post Office Department did not still carry the mails in those States.

Mr. Douglas said he believed they did, but with the consent of those States, but letters might be opened without punishment.

Mr. Clark inquired if the revenue could not be collected on shipboard if Congress should clothe the President with the power.

Mr. Douglas said he supposed it could be, but he had been speaking of the laws as they are. He regarded this as an admission that the Republicans did not mean to collect the revenue until the laws were changed.

Mr. Clark wished Mr. Douglas to take the admission as not including anybody but himself.

Mr. Douglas said he thought the admission was so clear that he might include all the Republicans in it. He said the triumph of the Republicans had brought disunion, and God only knows what consequences were to grow out of it.

Mr. Howe asked Mr. Douglas whether he understood him to say that the election of Mr. Lincoln instead of somebody else had caused the dissolution of the Union.

Mr. Douglas said if *he* had succeeded in defeating the Republicans, thereby rendering it certain that the policy of that party would not be carried out, the southern people would have rested in security, and the Union would not have been dissolved.

Mr. Howe inquired—What policy?

Mr. Douglas replied—Sectional policy. The Republicans make war upon slavery as a great political and moral evil.

Mr. Howe denied that the Republican party was a sectional party. They favored the maintaining of the authority of the whole people of the Union.

Mr. Douglas said the Republican party was based on hostility to slavery. He replied to Mr. Breckinridge, arguing that under the law as it now stands as to every Territory without exception, a man can remove thither with his slave property on equal terms with other property. The Republicans, in organizing the governments for Nevada, Colorado and Dacotah last session, did what they had not done for twelve years before, and what they had so long abused him (Douglas) for wanting to do. They did it from a sense of justice when they got the majority. The only motive he had for wishing to be President was to carry out that policy, and he gave the Republicans credit for adopting it after defeating him. The Senator from Pennsylvania (Mr. Wilmot) had arrived here in time to see the Republicans repudiate the Wilmot proviso, reject the corner stone of their temple, and come up to non-intervention and popular sovereignty.

Mr. Howe said he wished to know why, if Mr. Douglas' principles would save the Union, and the Republicans had adopted them, there was not peace.

Mr. Douglas said that it was because the Republicans would not acknowledge it, and kept the people in the dark.

Mr. Breckinridge said he wished to reply to Mr. Douglas, but the Senate went into executive session. Adjourned.

THE REPUBLICANS AS WALKERS.—The astonished hackmen at Washington say "these black Republicans are poor trash, for they are all walkers. They walk to the White House, they walk to the navy yard, they walk to the Capitol, they walk to Georgetown, they walk the avenue all day, and then walk to a ball, and walk home, and take another walk after they get there to straighten their legs before going to bed. Such chaps are good for shoemakers, but a poor set for hackmen. One of these jeanie chickens can walk down any hack in Washington. Guess they all walked in here from California."

☞ Religious liberty of the most unrestricted character has been proclaimed at Naples. All former concordats and treaties with Rome are abrogated, and ecclesiastical power is limited to the punishment of ecclesiastical offences merely.

RESPECT AND COURTESY DUE TO OUR RULERS.—Concerning the too prevalent habit of denouncing those whom we have ourselves voluntarily placed high in office, Porter's N. Y. Spirit well says:—

Our rulers are not novices, hereditary scions of nobility, thrown into public station by the accident of birth; but men selected by, and from the people, over whom they are elected to preside. Chosen on account of their presumed fitness for the stations they are called upon to fill, they have as it were crept step by step to the honorable positions they now occupy. During each successive stage in their onward career, they must have watched and carefully studied the public mind, been faithful in their minor trusts, and shown to their constituents that the confidence reposed in them would in no way be abused. We ever have, and we sincerely hope we always may, place implicit trust in the men who are called from among us to guide the Ship of State. Mr. Lincoln and his Cabinet step into power amid a raging storm, and are met at the very threshhold of their administration by obstacles, that by some are deemed to be unsurmountable. If by concession, and statesmanlikke diplomacy, these dangers are averted, and through their patriotic efforts, conciliation effected, and our union again cemented by new and stronger ties of brotherhood; an ovation, such as the world never saw, will surely be their reward.

NEW YORK, March 28.—The Herald Washington correspondent says intelligence has been received from Montgomery, that there will be five thousand troops at Pensacola by the 1st of April.

There is a prospect that every dollar of the eight million loan, advertised by Secretary Chase, will be taken at fair rates.

The Postmaster General is experiencing trouble from the new mail agents in Virginia, whom the people along the route threaten to tar and feather. One of the agents has resigned. Several Virginia Republicans have presented themselves for the vacancies, and will serve at all hazards. If the interruption continues, the mails will probably be cut off.

Among the appointments sent into the Senate to-day, are H. Winter Davis, Minister to Russia; Richard Hildreth, Consul to Tripoli; Wm. Clapp of St. Albans, Collector at Burlington, Vt.

Secretary Chase has appointed Lucius E. Crittenden of Vermont as Register in the Treasury department.

General Houston says that civil war in Texas is inevitable, and that Alabama will soon be involved in the same dilemma.

A dispatch to the World says that the President has had several applications from Louisiana for Cadetships at West Point.

The secessionists in Virginia are beginning to despair of passing a direct secession ordinance, and are urging the adoption of the Arkansas plan, to submit the question of secession or co-operation to the people.

WASHINGTON, March 25.—The Senate to-day confirmed Wm. Gilpin, Governor of Colorado; Joshua R. Giddings, Consul General of the British American provinces.

The following confirmations as Second Lieutenants in the Army were made today:—W. O. Williams, J. P. Baker, Chas. Tompkins, S. S. Elder, A. Sheridan, Sargent H. P. Pearce.

The following nominations are before the Senate:—H. Barney Collector of New York; T. B. Lawrence, Consul at Florence.

Col. Lamon, who was dispatched to Fort Sumter, will, according to dispatches received to-night, return on Wednesday.

It is not probable that the Republican Senators will again attempt to elect a Sergeant-at-Arms and Doorkeeper during the present session.

Minister Corwin will leave for Mexico on the first of April, from New Orleans.

FROM NEW MEXICO.—*Independence, Mo., March 25.*—The New Mexico mail, with dates of the 11th, has arrived. Capt. Holloway and Lieuts. Boyce and Kelly came as passengers. The latter is on route to join the southern army, having resigned his commission.

The army in New Mexico was well supplied with stores, excepting flour, which was scarce.

Much suffering was anticipated among the people from the scarcity of provisions.

The reports from the San Juan mines had been discovered, but they were not productive.

A CARD FOR NEW HAMPSHIRE.—The Newburyport Herald says:—

The late New Hampshire election indicated no political change in that state. There was a decrease in the whole vote of 4500, of which 2500 was from the Republicans and 2000 from the Democrats. There is not a state in the Union where the parties come up to the mark as in New Hampshire; and there is no state where the masses of voter are so well informed in politics.

ROTHSCHILD was a man of imaginative positiveness. He foresaw that the fate of Europe hung upon the battle of Waterloo, and took his measures to have intelligence of the result twenty-four hours in advance of the British Nation. A carrier pigeon brought him the eventful cypher. He untied the minute legend hid beneath its wing. He hastened to the Stock Exchange, and boldly purchasing consols when people thought him drunk or crazy, he "bagged" a million sterling on the morrow.—*Porter's Spirit.*

OFFICIAL CENSUS OF THE UNITED STATES.—The official census of the United States has just been completed, and it shows a total of thirty-one millions, four hundred and twenty-nine thousand, eight hundred and ninety-one (31,429,891). Of these, three millions nine hundred and fifty-one thousand eight hundred and one are slaves.

☞ Rev. Mr. Dall, Unitarian Missionary to Calcutta, has taken a vacation from his labors to recruit his health, and will visit this country and E gland before his return, to lay before the people the cause of the East India Unitarian Mission.

☞ Owen Mahoney was found dead in a piece of woods in Franklin, within one mile of Bellingham, on Monday last. He had with him a bottle two-thirds filled with rum, also two bank books, on which there stood to his credit upwards of $800. He was unmarried, and about forty years of age.

FAMINE NEWS CONFIRMED.—*Atchison, Kansas, March 25.*—The Methodist Conference have made a report substantiating the statements of the destitution in Kansas, and asking their friends not to stay their hands until the people are able to realize something from their own resources.

WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, no remedy has performed so many or such remarkable cures of the *Throat, Lungs and Chest*,—of *Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma*, or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam*. So generally acknowledged is the superior excellence of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.

Editor of the Norway Advertiser, gives his opinion of this great remedy substantially as follows:

NORWAY VILLAGE, Me., Aug 4, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—For a remedy of such undoubted merit as DR. WISTAR'S BALSAM OF WILD CHERRY, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial and be rewarded. Several years since I first became acquainted with this Balsam at a time of distressing cough and cold, which took such firm hold of my lungs as to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain

In our town this remedy is a great favorite with many, and it all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.

Yours respectfully, GEO. W MILLET.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

To MARRIED LADIES it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

For full particulars, get a pamphlet, free, of the agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. feb28 dawdm

STRONG TESTIMONY.

HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE.

The following is a sample of many letters daily received by W. E. HAGAN & CO., Troy, N. Y., who are the Manufacturers and Proprietors of "HEIMSTREET'S HAIR RESTORATIVE," an article of which many of our first citizens speak as being the *cheapest and best* Hair Preparation which has ever been introduced in our market. A combination of Stimulating Spirits and Oil, affording an agreeable *Hair Dressing*, leaving the scalp perfectly free from dandruff, and causing the Hair to have a *rich glossy appearance*. Two articles in one. A fine "*Hair Dressing*," and a never-failing Restorative for the *Bald* and *Gray*.—Read the following letter:

ST. LOUIS, MO., June, 1859.

MR. HENRY REYNOLDS,—*Dear Sir:*—I hereby certify that my hair having become *gray*, I used, at your request, HEIMSTREET'S INIMITABLE HAIR RESTORATIVE, (prepared by W. E. HAGAN & CO., Troy, N. Y.) for several weeks. My hair was in that time restored to its original color, with all its luxuriance and beauty; and I will be much pleased to recommend the article, personally, on any and every occasion, as I know it has merits that the Proprietors do not claim for it in their circulars. Respectfully yours,

G. W. WALLACE,

GOVERNMENT OFFICERS.—The following is a statement of some of the offices in New Hampshire, at the disposal of the General Government, with salaries annexed. Compiled from the last Official Register.

Judiciary.—District Judge, $2,000;—District Attorney, $200 and fees; U. S. Marshal, $200 and fees.

Custom-House, Portsmouth.—Collector, $431,60; Naval Officer, $433,03; Surveyor, $388,65; Deputy Collector, $730; 3 Inspectors—1 at $1200, 2 at $1095 each:

The salary of the Inspector at Dover is $200; at Newcastle, $500; Kittery $500.

Light House Keepers.—Boon Island, $600, with two assistants at $300 each;—Whale's Back, $600, with one assistant, at $350; Isle of Shoals, $600, one ass't, $300.

Navy Agency, Portsmouth.—Commissions.

Mail Route Agents.—Twelve are employed on various railways, at a salary of $800 per annum each.

The amount paid for the transportation of the mail is $57,568.53

Postmasters.—Portsmouth, $1,957,81;—Manchester, $1,899,07; Concord, $1,782.

About $1,300 is paid for clerk-hire at the Concord office, $1000 at Manchester, and $500 at Portsmouth.

PORTSMOUTH OFFICES.—Joseph B. Upham has been appointed Collector, and Jonathan Dearborn, Naval Officer, at Portsmouth, N. H. Both are good appointments, of gentlemen by no means rabid or violent as politicians.

It is also reported that Dr. M. F. Wentworth of Kittery, has received the appointment of Naval Storekeeper at this Station. He has certainly "earned" the office, if such a term is to be allowed.

THE LAUNCH.—*Messrs. Editors*:—Having witnessed the launch of the new ship "City of Montreal" from the ship-yard of Messrs. Tobey & Littlefield, this morning, I cannot refrain from expressing through your columns, (if you will allow me the privilege,) my extreme delight on the occasion. As I saw the masterpiece of labor and skill glide from the spot on which she was reared, safely into the water, and then gazed with admiration upon her beautiful model and magnificent appearance, I could but congratulate her builders on their great success. This ship is owned by Messrs. Page, Richardson & Co., of Boston, and is the fourth ship launched from the yard of Messrs. T. & L. within the past year; three of which have been purchased by the above named owners.

Much credit is due to these men of enterprise, who in such times of alarm and discouragement continue in their educated and legitimate business, while nearly the whole country seems paralyzed with fear.

The result of their endeavors thus far is conclusive evidence that they are equal to the business in which they have engaged. If their pecuniary means at the commencement were limited, their ability was abundant, and although they have had to compete with men of fortune, yet they have, by eminent faculties, personal independence and principles of honor, continued to prosper; their ships now afloat are reflecting credit upon them; and justice requires me to say that our city is greatly indebted to them.

The working men in our midst surely have reason to congratulate them on their success; for the unceasing prosecution of their enterprise, gave employment to them when there was no other to be had.

The continued patronage of Messrs. Page, Richardson & Co., and of R. H. Tucker, Esq., (merchants of large practical experience) speak credit to their ships:—and a just and discriminating community cannot fail to appreciate such efforts of both merchants and ship-builders.

We learn that Messrs. T. & L. have a frame of the same model of the ship just launched, and that they purpose continuing their business as heretofore. With their conveniences and facilities (not surpassed in America) they can offer great inducements in building ships in the most efficient manner and with great despatch. c.

Portsmouth, March 26.

ANOTHER VETERAN GONE.—Died in this city, on Tuesday, March 25th, Mr. STEPHEN PEARSE, aged 82 years. Mr. P. was well and widely known as an honest and reliable trader, who carried on the grocery business for about three score years on the Parade, now known as Market Square.

Funeral to-morrow (Thursday) afternoon at 3 o'clock, from the St. John's Church.

☞ We learn that Mr. Wm. F. Fernald of this city, the builder of the famous bark "Fury," has a contract to build a schooner, of about two hundred tons, for parties in this city and at Cape Neddick, Me.

☞ A considerable amount of gold, of foreign coinage, has recently been forwarded by a bank in New Orleans to a Philadelphia bank, for the purpose of having it converted into American coin at the United States Mint—the reason assigned for not having it coined at the New Orleans Mint, being a want of confidence in the latter institution since it has fallen into the hands of the secessionists.

For the Chronicle.

HAMPTON FESTIVAL.—The Republican Ladies of Hampton, on Monday evening last, provided a bountiful entertainment for the Republicans and others who had aided in the recent triumph of sound principles in this State. Three extension tables, tastefully arranged and well provided, occupied the lower room of the Town House. The beautiful Hall above, was well filled with gentlemen and ladies.

Mr. Morris Hobbs presided, and introduced Gov. Goodwin, who addressed the company, and was followed by Hon. W. H. Y. Hackett. At nine o'clock the crowd repaired to the supper room below, and partook of a repast which reflected great credit upon the ladies who prepared it.

After supper, the company returned to the Hall, where prolonged cheers were given for Messrs. Goodwin and Hackett.—Thus ended a successfully executed plan of celebrating the triumph of Republicanism in New Hampshire. ✲✲

It is very natural that a man who is fast should often find himself in a tight place.

Would you save yourself from suffering after eating, or from acidity of the stomach, or burning sensation or indigestion? Use Herrick Allen's Gold Medal Saleratus.—Never use soda if you can procure this article. It will strengthen weak stomachs and relieve dyspepsia; is a saving in the quantity of flour, &c. Try it. Grocers and Druggists most all sell it.

Sold at wholesale, by Israel Nash & Co., Boston; and Sumner, Swasey & Currier, Newburyport.

A Distressing Cough, causes the friends of the sufferer as much pain as the sufferer himself. *Dr. Wistar's Balsam of Wild Cherry* will certainly cure coughs, colds, arrest consumption, and that speedily. When did it ever fail?

THE INFANTILE CORDIAL.—We notice our druggists have received a supply of DR. EATON'S INFANTILE CORDIAL, which every mother should have. It is said to contain no paregoric or opiate of any kind whatever, and of course must be invaluable for all infantile complaints. It is also said that it will allay all pain, and soften the gums in process of teething, and at the same time regulate the bowels. Let all mothers and nurses, who have endured anxious days and sleepless nights, procure a supply and be at once relieved.

Atwood's Quinine Tonic Bitters.—the best Aromatic Tonic ever offered to the public.—All the Druggists have it. See advertisement.

LIFE INSURANCE.
"IN THE MIDST OF LIFE WE ARE IN DEATH."
The strong man often falters, and falls in the midst of the hurry and business of life. The wise man maketh provision for those whom he loveth, against the liability to accident and death.
THE
MUTUAL LIFE INSURANCE CO
Of New York,
with an accumulated capital of over
SEVEN MILLION DOLLARS,
Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues
POLICIES on lives, payable to the wife, or to the legal representative of the person insured.
POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.
PREMIUMS may be paid, *quarterly, semi-annually*, or *annually*, at the option of the insured.
The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.
The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.
No reflecting man can sit at his fireside with his young family about him, and feel at ease;—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

BLOOD FOOD

CONSUMPTIVES.

An equal and normal circulation of the blood is health. An abnormal, that is to say, an excessive or deficient circulation or stagnation of the blood, is disease. To illustrate—hospitality of the Liver is caused by stagnation of the blood in that organ; diseases of the Kidneys, Inflammation of the Lungs, Disease of the Heart, &c., by the same cause, viz., Improper Circulation; and from the same cause spring all the minor forms of disease. To discover a certain cure, then, for these diseases, the first great inquiry is, What causes the blood to circulate?

For centuries it has been a matter of much study among scientific and medical men; and while many experiments have been made and much labor expended upon the inquiry, it has been left to this century, among its other wonderful increase in knowledge, to make this grand discovery also

Acknowledging that life is the gift of the Creator and that "in Him we live and move and have our being," we still venture the assertion that, as the planets move in their spheres, and all vegetable life is governed by certain absolute laws, so animal life is traceable to a fixed cause, which removes or destroy, and death, the certain effect, follows.

Analysis of the red corpuscles of the blood shows them to be compounds of iron, sulphur and phosphorus.

The air we breathe we know to contain a very large proportion of oxygen.

Oxygen, brought in contact with metal, evolves or emits electricity.

Electricity, brought in contact with a muscular fibre, causes it to contract.

These facts being indisputable, we have now the solution as to the mysterious motive power of the heart. The oxygen in the air we breathe, coming in contact with the iron in the red corpuscles of blood, emits electricity, which, coming in contact with the heart, causes it to contract; and hence the power which expels the blood, and sends it tingling through the remotest organ. What, then, are the causes of CONSUMPTION, DROPSY, PALSY, PARALYSIS, ST. VITUS' DANCE, DYSPEPSIA, EPILEPSY, FEVER & AGUE, &c.?—a deficiency of the red corpuscles containing the iron, sulphur and phosphorous, which causes a deficiency of electricity, and consequently an abnormal circulation. The blood becomes watery, colds and bronchial complaints and prostration ensue—the sufferer becomes nervous, and subject to rheumatic pains and neuralgia—complaints of the liver and kidneys set in; in short, almost every type of disease but virulent fevers may be traced to this deficiency in the blood, of the corpuscles or red globules.

Old age causes a deficiency of corpuscles, and while we do not pretend to say that we have discovered the "elixir vite," we do say that life can be materially prolonged by the use of the

"BLOOD FOOD,"

which restores the red globules and the normal circulation. Consumptives! friends of consumptives! Sufferers from any organic disease! Unfortunates, who have by excess of the body or mind, reduced the standard of the blood and diminished the red globules! Ladies suffering any of the distresses known as female complaints, be persuaded the "Blood Food" can cure you. It has cured thousands of desperate cases where all hope had been given up. Do not reject it, do not throw away your only hope. The "Blood Food" is an unfailing remedy; give it a trial.

An elaborate treatise, carrying out and fully proving the theory advanced here to be correct, will be mailed to any interested party, on the receipt of two 3 cent postage stamps. Blood Food is sold by all druggists, where it cannot be had, I will send 6 bottles, free of expense, for $4. Price, single bottle, $1. It is put up in 8 oz. vials, in yellow wrappers—the old kind, in small bottles, in red wrappers, having been done away with; and bears the fac-simile signature of Church & Dupont upon the face of the wrapper. Beware of counterfeits and imitations.

SOMETHING MORE VALUABLE

THAN SILVER OR GOLD,

BECAUSE

IT WILL RESTORE THE WEAK,

AND REINSTATE THE BLOOD IN ALL ITS ORIGINAL PURITY & VIGOR.

It is

PROF. O. J. WOOD'S

RESTORATIVE CORDIAL

—AND—

BLOOD RENOVATOR.

It is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating and cheering; strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and redirects the system, invigorated to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted *as to act in perfect accordance* with the delicate stomach, even the weakest stomach, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. As a sure preventive and cure of

CONSUMPTION, BRONCHITIS, DYSPEPSIA INDIGESTION, LOSS OF APPETITE, FAINTNESS, NERVOUS IRRITABILITY, BILIOUS NEURALGIA, PALPITATION OF THE HEART, MELANCHOLY, HYPOCHONDRIA, NIGHT SWEATS, LANGUOR, GIDDINESS, AND ALL THAT CLASS OF CASES SO DEEPLY AND FEARFULLY FATAL, CALLED FEMALE WEAKNESSES AND IRREGULARITIES,

THERE IS NOTHING ITS EQUAL!

Also Liver Derangements and Torpidity, and Liver Complaints, Diseases of the Kidneys, or any general derangement of the Urinary Organs.

It will not only cure the debility following CHILLS and FEVER, but prevent all attacks arising from miasmatic influence and cure the disease at once, if already attacked.

TRAVELLERS should have a bottle with them, as it will infallibly prevent any deleterious consequences following upon the change of climate and water.

As it prevents costiveness, and strengthens the digestive organs, it should be in the hands of all persons of sedentary habits.

LADIES not accustomed to much out-door exercise, should always use it.

MOTHERS should use it, for it is a perfect relief, taken a month or so before the final trial; she will pass the dreadful period with perfect ease and safety.

There is no mistake about it!

THE ORDITAL IS ALL WE CLAIM FOR IT!

MOTHERS, TRY IT!

And to you we appeal, to detect the illness or decline not only of your daughters, before it is too late, but also your sons and husbands, for while the former, from false delicacy, often go down to a premature grave rather than let their condition be known, yet at time, the latter are often so mixed up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never-failing affection will unerringly point you to PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR as the remedy sought for which should be always on hand in time of need.

O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St. Louis, Mo., and sold by all good Druggists. Price $1 per bottle.

Read what the Press say, after thoroughly testing the matter, and no one can have doubt.

PROF. WOOD'S Restorative Cordial and Blood Renovator is a genuine medicine of real merit, pleasant to the taste, and invigorating to the system. While it purifies the blood and soothes the nervous irritation, it aids the organs of digestion to perform their functions, and strengthens the seats of disease. It is a chemical compound so skillfully combined, that while it exhilarates it does not provoke the lassitude which usually follows excitement. A tonic composed exclusively of vegetable matter, it is absolutely beneficial, and no ill effects can follow its continued use. It is an infallible and speedy remedy for Loss of Appetite, Faintness, Nervous Debility, Neuralgia, Failing of the Womb, and other delicate diseases to which women are subject. For Sickness of the Stomach, Bilious Attacks, Liver Complaints, Costiveness, Dyspepsia, Consumption, and a host of evils flesh is heir to, it is a certain cure.—*St. Louis Morning Herald.*

PROF. WOOD'S RESTORATIVE CORDIAL.—It is recorded in the classics that Psyche was once sent to a climate warmer than the West Indies, to procure a sample of the beauty of Proserpine in a box. After some delay the messenger returned, and as soon as the top of the box was removed, out flew all the life that had been in it. Fortunately hope was found in the bottom of the box. Prof. Wood's Restorative Cordial revives the rejuvenated, and gives, for it is composed of the blood, aids the organs of digestion, imparts strength to the nervous system, and fortifies the citadel of health so as to bid defiance to the assaults of disease. It is a healthy tonic, composed entirely of vegetable productions, and while it is exhilarating, yet so free from intoxication, no harm can possibly follow its use. It is a desideratum in the medical world, and those who are afflicted with loss of appetite, Dyspepsia, Costiveness, Faintness, Neuralgia, Palpitation of the Heart, &c., will here find an infallible panacea.—*St. Louis Daily Express.*

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR is, without doubt, the best tonic Cordial in the world. To those who are suffering from general debility, we would recommend its use, for it is pleasant to the taste, is strengthening to the system, and will so purify and renovate all impurities of the blood, and eradicate all traces of disease. It can be taken by the weakest stomach, while those in good health will at once feel its exhilarating power. We are confident that after using one bottle of this Cordial, none will be for a day without it.—*N. Y. Leader.*

A PURE, HEALTHY TONIC, and one free from the delete rious and injurious effects sure to follow those in ordinary use, has long been felt to be a desideratum in the medical world. Such a tonic, and one so skillfully combined from the vegetable kingdom as to act in perfect accordance with the laws of Nature, and thus soothe the weakest stomach, and at the same time allay nervous and other irritations, and tone up all the organs of which the human body is composed, is offered in Prof. Wood's Restorative Cordial and Blood Renovator. Hence it is perfectly adapted to old and Young. Reader, try it. Thousands have already done so; the testimony is universal in its favor.—*New York Atlas.*

☞ Before noticing a patent medicine, we have to be certain that it will prove itself to be all that it is recommended. And we would say that the Restorative Cordial and Blood Renovator of Prof. Wood's is entitled to the best faith, for it is without doubt the first article in the market for purifying the blood and strengthening the system. We have no hesitation in recommending its use to all.—*New Yorker.*

Dyspepsia Remedy

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirum Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the languishing and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible disease, called the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.

One dose will remove all Bad Spirits.

One dose will cure Heartburn.

Three doses will cure Indigestion.

One dose will give you a good appetite.

One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by taking a few doses, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the effects of poisonous liquors, in violent headaches, sickness of stomach, weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

BININGER'S OLD KENTUCKY BOURBON "1849 RESERVE"

The *established popularity* of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of Kentucky Whiskeys.

Being distilled in 1849, and manufactured expressly for Medicinal purposes, it can be relied upon as a *strictly pure* stimulant, and peculiarly effective for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a curative agent it has a tendency to *recreate* and strengthen the vital energies, imparting a genial charm, and enriched it with a delicious flavor and an oily body, it affords a pleasant incentive to the convalescent, or recovery of health, through the agreeable medium of a well pleased palate.

Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and sold by all prominent druggists, grocers and town agents. A. M. BININGER & CO.,

BININGER'S OLD DOMINION WHEAT-TONIC

—FOR—

FAMILY AND MEDICINAL USE.

This natural product of the most nutritious grain, recommends itself as presenting in a *concentrated* form the *nutritive* properties of *Wheat*, and has received the highest encomiums from eminent medical men, as a tonic, for invalids, children that are absolutely FATTENING; this *desideratum* renders it invaluable to those who are suffering from *Consumption, Lung Complaints, Impaired Strength, Lack of Vital Energy*, and all diseases which, in their incipient stages, require only a generous diet, and an invigorating, nourishing stimulant.

Put up in quart bottles, in iron-bound cases of one and two dozen each, and sold by all prominent Druggists, Grocers and Town Agents.

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA.

GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well.—D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1855, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, did last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic*, and cannot fail to meet the wants of the debilitated.

It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.

One of the very best Physicians in Boston has said *"Ask it is the best pr paration of Bitters that has ever been offered to th public."*

Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

For further particulars reference is made to the printed circulars.

DO YOU WANT A MUSTACHE?
DO YOU WANT A MUSTACHE?
BELLINGHAM'S
Celebrated Stimulating Onguent!
For the Whiskers and Hair.

The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the Agency for, and are now enabled to offer to the American people, the above justly celebrated and world-renowned article.

THE STIMULATING ONGUENT
is prepared by DR. C. P. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of
WHISKERS OR A MUSTACHE
in from three to six weeks. This article is the only one of the kind used by the French, and in London and Paris it is in universal use.

It is a beautiful, economical, soothing, yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp, it will cure BALDNESS, and cause to spring up in place of the bald spots a fine growth of new hair. Applied according to directions, it will turn RED or TOWY hair DARK, and restore GRAY hair to its original color, leaving it soft, smooth and flexible. The "ONGUENT" is an indispensable article in every gentleman's toilet, and after one week's use they would not for any consideration be without it.

The subscribers are the only Agents for the article in the United States, to whom all orders must be addressed.

Price One Dollar a box—for sale by all druggists and Dealers; or a box of the "Onguent," (warranted to have the desired effect,) will be sent to any one who desires it, by mail (direct,) securely packed, on receipt of price and postage, $1.18. Apply to or address

A VOICE FROM THE WEST!
FROM THE CLEVELAND PLAINDEALER
UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS
The celebrated New England remedy for
Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.

They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.

Dr. JAMES L. LEPEERE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."

E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."

Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.

THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."

GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."

J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.

D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, MARCH 28, 1861.

☞ One great correction has just been made, in the right quarter. The Charleston, S. C. Mercury, thus corrects the impression that a new tariff on European goods has been adopted:—

"The scheme of a tariff recently telegraphed from Montgomery in synopsis, and then published in full in many papers, tho' not in the Mercury, has *no authority* beyond the recommendation of a *single* member of the Congress, at whose request it was published for consideration. It has not even the endorsement of the Committee on Finance, or Ways and Means."

This takes all the wind out of the learned discussion which has been going on in the papers, as to the effect of this *new tariff*, which as yet has no existence;—and with which the Mercury finds great fault.—It will not be so easy to pass a southern tariff bill, as it was to secede.

The tariff of the seceders, *now* in operation, is the U. S. tariff of 1857;—and its operation on the South is very hard,—as all northern goods now have to pay just as *other foreign* goods do,—for the benefit of the new government.

News Articles, now-a-days, like potatoes and buckwheat-cakes, should be served up hot,—for they spoil in a day. The Washington dispatch to the N. Y. World, March 25, says:

The secessionists in Virginia despair of passing a direct ordinance for secession, and are urging the adoption of the Arkansas plan, to submit to the people the question of secession or co-operation.

The next day's mail, however, brought along Arkansas newspapers, showing that the *Arkansas plan* did not pass at all;—though one set of dispatches said it did, by giving 30 votes against it, when it really was 39 against, to 35 for it. The Arkansas *plan* was, for the people to vote on the secession ordinance, if it passed the convention.—But it did not pass.

Not so Fast.—A dispatch some time ago, stated that the whole Cotton Confederacy Loan, of $15,000,000, was taken, or to be taken, by banks in New Orleans. But now, on the contrary, it appears by an advertisement of the Secretary of the Treasury of the Southern Confederacy that *no portion* of the loan of $15,000,000, authorized by the Montgomery Congress, has *yet* been *offered* to the public. That officer gives notice that one-third of the amount will be offered to the public on the 17th of the ensuing month, to be issued in sums ranging from $50 to $1000. Books of subscription are to be opened at the cities and principal interior towns, and current *bank notes* of the place will be received at their value in coins. The debt is secured by a duty of one-eighth of a cent per pound, or about 62 cents per bale on all cotton exported.

Coal in Cincinnati. — The School Board of Cincinnati on Monday night contracted for any amount of coal between twenty-five thousand and thirty-five thousand bushels, to be delivered at the school houses for *seven and eleven sixteenths cents* per bushel. When it is considered that portions of this coal has to be hauled a great distance, some idea of the cheapness of black diamonds in Cincinnati may be had.

☞ The tariff of the Cotton Confederacy cannot pass and go into operation under two months, and there is not much probability of heavy imports at New Orleans during the summer. All the apprehensions about the diversion of trade from its natural and recognized centres are exaggerated, and intended to excite prejudice against the new tariff of the United States.

Privilege to Slaves in Charleston.—By the old municipal regulations in Charleston, no slave was allowed to be in the street, without a pass from his master, after St. Michael's bell had rung for nine o'clock. Within a short time these regulations have been amended, extending the time from nine to a quarter of 10 P. M.

☞ The correspondent of the Washington Star writes from Richmond, Va., that Gov. Wise informed the secessionists, in a meeting which they held on the night of March 20, that if they were not for immediate action, he would have nothing to do with them.

☞ Mr. Daniel Lunt of Newbury, a passenger in the steamer Massachusetts from South Carolina, has furnished the editor of the Newburyport Herald with a ripe orange, which he plucked from a tree in Florida, and also potatoes grown in that State the present year.

☞ Ship John Land, at Holmes Hole, from Manilla, has the crews of one English and two American ships on board, picked up at sea. Seventy men, all told.

DOUGLAS AND BRECKINRIDGE.

The interesting debate in the U. S. Senate, was continued on Tuesday, March 26, by the two defeated candidates for the presidency, Douglas and Breckinridge.

Every reader who knows anything of the Crisis, and the irrepressible conflict, will read their remarks with interest.

The consideration of Mr. Douglas' resolution was resumed.

Mr. Breckinridge spoke at some length. He said if the Republican statesmen remain firm in their determination, there can be no other result than to drive the border States into a union with the Confederated States. If the border slave States should hold a convention, which seemed probable, and the non-slaveholding States should deem it their duty to reject the propositions such convention might make, a disruption of the Union was inevitable to the extent of fifteen States, and at no distant day they would be the largest confederacy.

Mr. Douglas replied to Mr. Breckinridge, reciting points in his former speech to show that the *slaveholding States have no complaint to make*, as they have their just proportions and rights in all the Territories, and that there is an equitable division on the line of 37, a half degree further south than is claimed in Mr. Crittenden's propositions. The Senator from Kentucky had not attempted to dispute this, and he knew the Territories of Colorado, Nevada and Dacotah had been organized on the basis of the Kansas-Nebraska bill. All these Territories were organized on the non-intervention principle, leaving the people to decide the slavery question, subject only to the constitutional limitation, leaving it to the courts to decide what that limitation is. This is all the South ever asked.

Although the Republicans had abandoned some of their essential principles, he (Douglas) did not believe the best interests of the country would be promoted by the exercise of their power. Still, he preferred a Union under a Republican administration to none at all, inasmuch as they have recognized the rights of the South in the Territories, and not attempted to repeal the slave code of New Mexico. This fact should be proclaimed by every loyal Union man. It was all he asked. He demanded that every fact and truth that could be uttered should be uttered by every man to allay sectional strife and to calm the irritable in the slaveholding States, and restore reason, in order that we may hereafter succeed in securing such *constitutional guarantees* as shall prevent civil strife and restore the Union. (Applause.)

Mr. Breckinridge replied, saying he regretted that he had not seen the evidence that the Republicans had abandoned their principles. The Union could not be saved by persuading the people that Republicans have abandoned the principles to which they still adhere. Such declarations are calculated to produce *injurious effects*. The President recognized qualified property in slave labor within slave States, but at the same time in his inaugural he recognizes the enunciation in the Chicago platform that the normal condition of all the Territories is freedom. This is the conviction and principle of the majority on this floor, as well as the President and his party. Was it not belittling to say that the Republicans had abandoned their essential principles, when all their machinery is levelled against slavery? He would be glad to see the Republicans *driven from power* in order that these questions might be adjusted on constitutional principles.

Mr. Douglas said that Mr. Breckinridge would not go back to Kentucky and tell his people that they stand better in respect to the Territories than ever before, while he (Breckinridge) would not deny that this was the case. He (Douglas) desired that Kentucky and every other State should know the fact. He, too, desired to put the Republican party out of power, but he would not foster unkind feelings in the South for party purposes. He would tell the truth about the Republicans even if it operated to their credit.

Mr. Breckinridge suggested that Douglas now ask the Republicans here the reason for omitting in the Territorial bills any allusion to the prohibition of slavery.

Mr. Douglas replied that he had said they so acted from patriotic considerations, to prevent any further disruption of the Union. He wanted to crush down every disunionist in Kentucky. (Applause.) He wanted to strengthen his (Breckinridge's) hands. The senator had told them of his devotion to the Union, and he (Douglas) wanted to save to the country the valuable services of the Senator from Kentucky for the next six years. He wanted to strengthen his hands and the hands of every other man, and to show that Kentucky is safe even under a Republican administration. He wanted to put down secession in every State of the Union.

The question was then taken on Mr. Grimes' motion to lay Mr. Douglas' resolution upon the table. Carried, 23 against 11.

Mr. Breckinridge asked leave to introduce the following resolution, and if no objection was made, he would ask a vote upon it now:

"*Resolved*, That the Senate recommend and advise the removal of the United States troops from the limits of the Confederate States."

Mr. Sumner—Let it lie over.

Mr. Clingman said he had a similar resolution with an additional point, recommending the abstaining from all attempts to collect the revenue within the seceded States. He said if the troops are withdrawn, there ought to be forbearance shown as to the collection of the revenue.

The resolution laid over, and the Senate, after an executive session, adjourned.

☞ A dispatch to the New York World says the Secretary of the Treasury has very encouraging advices from Wall street, that the new loan will be taken on much more favorable terms than the late loan obtained by Secretary Dix—in fact it is expected to realize very near par.

☞ The Vice President of the United States, the last Postmaster General, the present Secretary of the Interior, and the present Secretary of War, were all printers.

Ex-Secretary Floyd.—We have seen some defence or apology for this distinguished traitor, in some Northern paper, we think. Now read what ex-Secretary Floyd was enabled to accomplish for the benefit of the seceded States, as faithfully set forth by the Southern Confederacy, published at Atlanta, Ga. Such an overwhelming sense of gratitude as is here exhibited, is as uncommon as it is astonishing:

But for the foresight and firmness and patriotic providence of John B. Floyd, in what stress and peril would the cotton States have been floundering this day. He saw the inevitable doom of the Union, or the doom of his own people. For many months past, from his standpoint, he had an expanded field of vision, which enabled him to see the great danger which threatened us, but which was hid below the horizon from the eyes of most of us. When his faithful loyalty to his own persecuted people began its labors in our defense, in what a condition were the Southern States?—The North had the heavy guns, the light arms, the powder and ball, just as the North had everything else that belonged to the common government.

How quietly were men shifted from our soil who might have been here to-day to murder us at Abraham Lincoln's order.—How slender the garrisons became in the Southern forts, which were made for us, and belonged to nobody else, but which a savage enemy now rages and chafes to get possession of. Who sent 37,000 stand of arms to Georgia? How came 60,000 more prime death-dealing rifles at Jackson, Mississippi? And, in short, why have we anything at all in the South to mail the strong hands of her sons with at this hour, when every heart, and head and arm of her children are needed in her defense? Truth demands it of us, to declare that we owe to John B. Floyd an eternal tribute of gratitude for all this. Had he been less the patriot that he was, we might now have been disarmed, and at the mercy of cutthroats and plunderers.

☞ The Confederate States need fifteen millions, and will pay eight per cent. for it. South Carolina also needs a little million or so, and offers eight per cent. Louisiana will give the same for a few millions. Florida is in the market to borrow, and will scarce hesitate to promise any required percentage; and Mississippi also requires a loan. With a modest recollection of old debts unpaid, the last named State proposes ten per cent., and to make the operation perfectly safe and sure, offers as security "the uncompromising integrity of a chivalrous people."

Meantime, a New Orleans paper informs us that "the agents of Europeans who have sent their capital to Louisiana for profitable investment, have been notified to withdraw the same and return it to its owners, who, with an ignorant blindness characteristic of the old world people, stupidly prefer the three or four per cents. of their rotten governments to the eight, ten, twelve or more offered in this region of inexhaustible resources."

☞ The Frankfort (Ky.) Commonwealth says of the evacuation of Fort Sumter:

"Such a course would most effectually knock the wind out of secession, because it would remove the last cause of excitement. The tariff on whisky and the withdrawal of the troops will leave the precipitators without capital, and in four months secession will be as flat as Simms' speech."

Lady Franklin and Florence Nightingale.—Lady Franklin is worthy of all reverence for her devotion as a wife. So is Florence Nightingale, her neice, for her noble philanthropy in the Camp.—Brave, dutiful, affectionate women: two perfect and complete roses of modern womanhood! Their examples will stimulate unborn souls to deeds of mercy and philanthropy.—*Prisoner's Friend.*

☞ Rev. John M. Putnam resigned the pastorate of the Congregational Church at Dunbarton, on the 17th inst. He has occupied that position 30 years. Rev. Washington Coburn was ordained pastor of the Baptist Church in that town Feb. 28th.

☞ The Nashua Telegraph reports that a gentleman from Alstead, Cheshire county, who has measured the snow that has fallen in that part of New Hampshire this winter, makes it ten feet five inches so far.

☞ The Charleston Mercury thinks a public rejoicing of the city over the evacuation of Fort Sumter would be indecorous, but suggests for such an event, "a delicate illumination, with a positive prohibition of fire-crackers."

☞ A letter from Rome says an enthusiastic young Frenchman recently had an audience, to offer his sword to his Holiness. The Pope told him it was useless to attempt to defend a cause already lost.

An unsophisticated lady seeing, for the first time, the queer looking unfinished dome of the Capitol, said; "I suppose those are the gas works." "Yes, madam," replied a gentleman friend, "they manufacture gas there for the whole nation."—*Boston Courier.*

It is probable that not less than a million men are now in pursuit of the sixty thousand great and small offices within the gift of the Government.

Charleston, March 26.—The State Convention met to-day, agreeably to adjournment.

Mr. Shingler offered a resolution that all supplies, provisions and mail facilities for Fort Sumter be immediately cut off. It will be considered to-morrow.

There will be a discussion upon the constitution of the southern confederacy, but it will probably be ratified.

The general impression is that Mr. Shingler's resolution will be voted down.

A Methodist Secession.—*Baltimore, March* 25.—The Methodist Conference adjourned to Staunton, Va., after adopting a plan of separation from the northern church by a majority of 83. The Bishop was not in the chair, but afterwards declared the action of the convention void. Forty-five of the members *declined* to vote, and thirty-five were *absent*.

From Virginia.—*Richmond, Va., Mar.* 26.—In the convention to-day, Mr. Preston favored making a distinct demand upon the North with the alternative of separation. He believed President Lincoln was full of hope from both sections. Mr Wise took the ground that the guarantees demanded were insufficient. Mr. Nelson spoke against secession for existing causes.

A boy went into a baker's shop for a twopenny loaf, and conceiving it to be diminutive in size, remarked to the baker that he did not believe it was weight. "Never mind that," said the man of dough, "you have *the less to carry*." "True," replied the lad, and throwing three halfpence on the counter, left the shop. The baker called after him, saying that he had not left money enough. "Never mind that," said young sharpy, you will have *the less to count.*'

WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, no remedy has performed so many or such remarkable cures of the *Throat, Lungs and Chest*,—of *Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma*, or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam*. So generally acknowledged is the superiority of its remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.

Editor of the Norway Advertiser, gives his opinion of this great remedy substantially as follows:

Norway Village, Me., Aug. 4, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—For a remedy of such undoubted merit as Dr. Wistar's Balsam of Wild Cherry, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial and be relieved. Several years since I first became acquainted with this Balsam at a time of distressing cough and cold, which took such firm hold of my lungs as to render me unfit for business. A few operation produced a speedy and permanent cure, after trying various other remedies in vain

In our town this remedy is a great favorite with many, and if all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.

Yours respectfully, GEO. W. MILLET.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of

SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

To Married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

For full particulars, get a pamphlet, free, of the agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. daw3m

HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE.

The following is a sample of many letters daily received by W. E. Hagan & Co., Troy, N. Y., who are the Manufacturers and Proprietors of "Heimstreet's Hair Restorative," an article of which many of our first citizens speak as being the *cheapest and best* Hair Preparation which has ever been introduced to our market. A combination of Stimulating Spirits and Oil, affording an agreeable *Hair Dressing*, leaving the scalp perfectly free from dandruff, and causing the Hair to have a *rich glossy appearance*. Two articles in one. A fine "*Hair Dressing*," and a never-failing Restorative for the *Bald* and *Gray*.—Read the following letter:

St. Louis, Mo., June, 1859.

Mr. Henry Reynolds,—*Dear Sir*:—I hereby certify that my hair having become *gray*, I used, at your request, Heimstreet's Inimitable Hair Restorative, (prepared by W. E. Hagan & Co., Troy, N. Y.,) for several weeks. My hair was in that time restored to its original color, with all its luxuriance and beauty; and I will be much pleased to recommend the article, personally, on any and every occasion, as I know it has merits that the Proprietors do not claim for it in their circulars. Respectfully yours,

☞ It is a fact which may be regarded by some as singular—that our report of the Masquerade, created a greater extra demand for the Chronicle, than any event for years — State or Presidential Elections, President's Messages, or what not. It was equal to a murder or crim. con. trial.

Those who failed to obtain copies of the Daily, can procure the report of the Ball, in the Weekly Chronicle, on Friday morning.

☞ We observe that a gas light is being placed on the south-west corner of the Brick Market, in accordance with a recent vote of the Board of Aldermen. This will afford a good light for that dark alley leading to the City Marshal's Office and the Watch-house, and will also lend its cheerful rays to guide the fortunate pedestrian who has no occasion to "turn in" thither.

☞ The immense pile of snow which fell a week ago, has nearly disappeared.—It seemed to be old Winter's last struggle for life; and proved a failure, Spring gaining the mastery. We doubt not, as soon as possible after her inauguration, she will throw off the white mantle which covers the slumbering Earth, break the frigid icebonds which enchain it, and cause the grass to grow, the flowers to bloom, and reveal the hidden beauties which usher in the glorious Springtime.

N. B.—All this will take place, if the weather is favorable; if not, it will be postponed till fair weather.

☞ Charles Johnson, *alias* Stevens, was brought before the Police Court, on Monday, charged with stealing a coat from Moses & Downie; tried, considered guilty, and was bound over for trial at the next term of the Supreme Judicial Court at Exeter. Failing to obtain sureties, he was committed to jail. We learn that he has been up to these tricks for some years.

☞ To-morrow is Good Friday — and that being the closing day of Lent, we take it for granted that butchers will do a good business for a while, dealing out meat to the hungry ones who have kept their appetites in subjection for forty days. Z.

☞ Austria is endeavoring to strengthen its tottering empire on a basis of federal liberty. The constitution published by the Vienna Gazette contains the main elements of a representative government, and is more liberal than that of the French empire: for the two chambers have a right to initiate measures, which those of the latter have not, and the Emperor of Austria cannot withhold his sanction from any laws passed unanimously by the peers and deputies. So much for Solferino and the emancipation of the Italians.

☞ The Nashville Banner explains the contradictory dispatches about secession in Arkansas. There was an error in copying, 30 being written for 39. The real vote was—for Union 39, for Secession 34, the question being on the conditional adoption of an ordinance which, *if it had been carried*, would have been submitted to the people for ratification.

☞ A valuable horse was standing near the Beaulieu station on the southwestern line, a few days since, while the train was approaching. The animal appeared greatly frightened by the noise of the train, and it soon afterwards fell down dead; its body was opened, and it was discovered that a blood vessel near the heart was ruptured in consequence, it is believed, of excitement from fear. So says our English paper.

TEXAS.—*New Orleans, March* 26.—Gov. Houston of Texas, on the 18th, gave up his office to Lieutenant-Governor Clark, but still claims to be the Chief Executive. He has published an address, protesting against all the acts of the convention in the name of the people. The legislature was expected to clash with the convention, and Houston and Clark would both send in messages. Houston would address the citizens of Austin on the 21st.

☞ A duel was fought last week at Fort McRae, between a Charlestonian and a resigned midshipman, with Sharp's rifles.—The Charlestonian was badly wounded in the groin.

☞ A private letter from Charleston, S. C., says that on Monday of last week they were visited by one of the severest snow storms ever known there.

☞ Mr. B. B. Bunker of Dover, has been appointed District Attorney for Nevada.

☞ Madame the Duchess of Gallifet went to a fancy ball, in Paris, in the costume of a tulip! A lively Princess appeared on the same occasion as a butterfly.

Every anniversary of a birth-day is the dispelling of a dream.

Prentice thinks the first part of married life is the shine of the honeymoon; the rest too often common moonshine.

☞ In Canada, they appoint 1868 as the year for the second advent.

"Matrimony has many pains," said Dr. Johnson, "but celibacy has no pleasures."

VIRGINIA.—*Richmond, March* 27.—In the convention yesterday, Mr. Hall offered the constitution of the Confederated States as a substitute for the report of the Committee on Federal Relations. Mr. Wise called for its reading. Mr. Clemens intimated that Mr. Wise's purpose was delay. Mr. Wise said the imputation was unfounded. Some excitment followed. The substitute was was read, and a dbate onsued which continued until 11 o'clock with much confusion and excitement.

LOUISIANA.—*New Orleans, March* 26.—In the convention to-day, resolutions were introduced, favoring free trade with the Western States, slave and free, by the Confederated States. An ordinance was passed transferring the property of the former government to the Southern Confederacy. A banking ordinance was passed, prohibiting the issue of notes of less than $10.

NEW YORK, March 27.—The Herald's Washington correspondent says Fort Pickens will be abandoned within thirty days.—He also says the Southern commissioners dine to-night with the foreign Ambassadors at Corcoran's. They are on the most friendly terms with the French and English Ambassadors.

John S. Millson of Va., if he will accept it, can get a most important foreign mission.

Would you save yourself from suffering after eating, or from acidity of the stomach, or burning sensation or indigestion? Use Herrick Allen's Gold Medal Saleratus.—Never use soda if you can procure this article. It will strengthen weak stomachs and relieve dyspepsia; is a saving in the quantity of flour, &c. Try it. Grocers and Druggists most all sell it.

Sold at wholesale, by Israel Nash & Co., Boston; and Sumner, Swasey & Currier, Newburyport.

A Distressing Cough, causes the friends of the sufferer as much pain as the sufferer himself. *Dr. Wistar's Balsam of Wild Cherry* will certainly cure coughs, colds, arrest consumption, and that speedily. When did it ever fail?

THE INFANTILE CORDIAL.—We notice our druggists have received a supply of DR. EATON'S INFANTILE CORDIAL, which every mother should have. It is said to contain no paregoric or opiate of any kind whatever, and of course must be invaluable for all infantile complaints. It is also said that it will allay all pain, and soften the gums in process of teething, and at the same time regulate the bowels. Let all mothers and nurses, who have endured anxious days and sleepless nights, procure a supply and be at once relieved.

GROVER & BAKER

SEWING MACHINES.

TO THE LADIES.

CHARLES T. EMERY,

No. 10 Market Sq., Portsmouth,

Having been appointed

SOLE AGENT IN PORTSMOUTH

for the sale of the celebrated and unrivalled Noiseless

GROVER & BAKER

FAMILY AND MANUFACTURING

Sewing Machines,

would invite especial attention to the same.

THE GROVER & BAKER SEWING MACHINE is the only seam formed by a Sewing Machine, in which each stitch is independently locked, and without dependence on other stitches for strength, and the only seam that will admit of the thread being cut at every fourth stitch without injury to the seam in wear.

THE GROVER & BAKER SEWING MACHINE is adapted to all varieties of fabrics, sewing equally well the finest Swiss Muslin or the heaviest cloth or leather, and requiring no adjustment for any kind of sewing other than the adaptation of needles and thread.

THE GROVER & BAKER SEWING MACHINE sews from ordinary spools without rewinding, and fastens its own seams, thereby saving time and thread. It will sew common spool cotton, silk and linen thread with equal facility.

THE GROVER & BAKER SEWING MACHINE is so simple that an intelligent child of ten years can readily learn to operate it. It is more easily kept in order than any other machine, and need not be taken apart to be oiled.

THE GROVER & BAKER SEWING MACHINE makes the only stitch that cannot be injured by washing and ironing, and the only stitch that forms an elastic and durable seam. Fabrics put together with this stitch may wear out and drop to pieces from original weakness, or hard usage, but come apart or give way at the seams, they cannot; they will hold together when the cloth or calico around them hangs in rags and tatters.

Every Machine Warranted.

PRICES FROM $40 UPWARDS.

☞ Be sure to call and examine.

I have also been appointed agent for

THE UNIVERSAL HEMMER,

Which can be attached to *any* machine, and will turn a hem from 1-16 inch to 2½ inches, without previous basting.

PRICE $5.

ALSO ON HAND, A LARGE AND SELECT ASSORTMENT OF

WATCHES, JEWELRY,

—AND—

SILVER WARE,

Which I invite my customers and the public to call and examine, feeling assured that I can offer

AS LARGE AN ASSORTMENT,

AND SELL AS REASONABLY,

LIFE INSURANCE.

"IN THE MIDST OF LIFE WE ARE IN DEATH."

The strong man often falters, and fails in the midst of the hurry and business of life. The *wise* man maketh provision for those whom he loveth, against the liability to accident and death.

THE

MUTUAL LIFE INSURANCE CO

Of New York,

with an accumulated capital of over

SEVEN MILLION DOLLARS,

Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually, or annually*, at the option of the insured.

The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.

No reflecting man can sit at his fireside with his young family about him, and feel at ease;—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OXLAND, Ind., 8th June, 1860.

J. C. AYER & CO. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it would come out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and disfigured beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was induced to try the Gospel Messenger that you had prepared as an alterative (Sarsaparilla) for I knew from your reputation that any thing you made must be good. I went to Cincinnati and got it, and used it till it cured me. I feel, it is my duty to send you this testimony, a temporal growth, and used about three bottles, and now I have a healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone out of my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened his life, by the use of the AYER preserving use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; says he cured the common *Erysipelas by it occasionally.*

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a Goitre—a bad case swelling on the neck, which I had endured 20 years ever two years."

Leucorrhea or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. S. Channing, of New Orleans, writes us that he most cheerfully complies with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many hundred cases of Leucorrhoea by it, and some Ulceration of the uterus, which had all the appearance of cancer, has entirely disappeared under the use of this medicine.

Edward S. Marrow, of Newbury, Ala., writes: "A dangerous ovarian tumor on one of the females in my family, which had defied all the medical skill in reach, was at length been completely cured by your Extract of Sarsaparilla. Our physicians thought nothing but extirpation would afford relief, but he refused the knife, and took Sarsaparilla as the last resort before cutting, and expected effectual. After taking your remedy right steadily no symptom of the disease appeared."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1858.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have obtained with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have witnessed effects truly wonderful in the cure of Syphilis and Mercurial *Disease.* One of my patients had syphilitic ulcers in his throat, which were resisting his potions and the use of mercury, when I gave your Sarsaparilla, and he cured him in five weeks. Another was attacked by secondary symptoms in his nose, and I the alterative had taken away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, and continues without some disfigurations to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. Mercury was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable cures with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

LAWRENCE, PERSON CO., N. C., 1st Feb., 1857.

DR. J. C. AYER: Sir, I have been afflicted with a painful *Chronic Rheumatism* for a long time, which baffled the skill of the ablest physicians, and I was in fact, ignorant of a remedy I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FERAU.

John Y. Gotchell, of St. Louis, writes: "I have been afflicted for years with an *Affection of the Liver*, which destroyed health. I tried everything that promised relief, but failed to relieve me; and I have been a broken down man for some years from no other cause than derangement of the Liver. My friend, your agent, the Rev. Mr. Fowler, advised me to try your Sarsaparilla, because he said he knew it, and saw things you made was worth trying. By the blessing of God I was cured by use, and have enjoyed good health so to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of Sarsaparilla, but we have never known a case that did not do good. Some of these may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it seems idle now to publish its virtues. Its wonderful and unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized portions of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy to their belief of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the efficacy of this remedy, we need but to prove them to assure them that it has now all the virtue that it did have when making the cures which have won so strongly upon the confidence of mankind.

PROFESSOR WOOD'S

HAIR RESTORATIVE!

SEE WHAT OTHERS SAY OF IT.

A Distinguished St. Louis Physician Writes:

ST. LOUIS, July 10, 1860.

O. J. WOOD, Esq.—*Dear Sir:*—Allow me the pleasure and satisfaction of transmitting to you the beneficial effects of your Hair Restorative, after a trial of 5 years. I commenced using your Restorative in the year 1855, since which time I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one third gray. A few applications stopped its falling, and in three weeks there was not a gray hair to be found, neither has there been up to this time.

After my hair was completely restored, I continued its use by applying two or three times a month. My hair has ever continued healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the facts above mentioned will be of any particular advantage to you, or even flattering compliments, at this late day, as I am well aware they are all well known already, and even more wonderful ones throughout the Union. I have recommended my friends in telling the greater part of the time the past three years, and have taken pleasure in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people who pronounced it a humbug; saying they had used it and without effect. In every instance, however, it proved, by probing the matter, that they had not used your article at all, but had used some article, said to be as good, and selling at about half the price. I have noticed two or three articles myself advertised as above, which I consider worthless and humbug, it is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently some of these charlatans have not brains enough to write an advertisement, as I notice they have copied yours, word for word, in some instances, merely inserting some name in place of yours.

I have, within the past five years, seen and talked with more than two thousand persons that have used your preparation with perfect success—some for baldness, gray hair, scalp in bad condition and every disease the scalp and head are subject to.

I called to see you, personally, at your original place of business, but learned you were now living in New York.

You are at liberty to publish this, or to refer parties to me. Any communication addressed to me, care box No. 1920, will be promptly answered. Yours truly, JAMES WHITE, M. D.

WOOD'S HAIR RESTORATIVE has acquired a reputation from actual test and experiment which cannot be enhanced by newspaper puffs, said to be an old article, but with new attributes, and is now in the hands of every one who has been extensively used, and we believe in every case with very desired result, and receives the universal indorsement of all who have tried it. We therefore recommend it as one of those few genuine *nostrums* which accomplish all they profess, and all the bald and gray could desire.—*Columbia Spy.*

PROF. WOOD'S HAIR RESTORATIVE.—In another column will be found an advertisement of this well known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cutaneous eruptions, and prevents the hair from falling off. We have seen many authentic testimonials in proof of these assertions, some of which are from gentlemen whom we have known for many years as persons of the most reliable character. Don't due till you have tried the Restorative.—*Boston Olive Branch.*

WOOD'S HAIR RESTORATIVE.—We are not in the habit of puffing every new discovery, for in nine cases out of ten they are quack nostrums;—but we take great pleasure in recommending Prof. Wood's article to all who desire a good preparation for gray. Our well known contributor, Finley Johnson, Esq., has experienced the benefit of its application, and joins with us in speaking of its virtues. Let all try it, and bald heads will be as rare as snow in summer.—*Baltimore Patriot.*

WOOD'S HAIR RESTORATIVE.—Unlike most specifics, this is proved, by unimpeachable evidence, to possess great efficacy as a restorer of the hair to its pristine vigor. Where the hair has fallen from old age, or disease of sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all classes, the ingredients are such as to effectually eradicate dandruff and other impurities which operate so injuriously to the hair. It also has curative powers of another description. In many cases pimples and other disfigurements of the skin disappear wherever it is used. We have heard of numerous cases the trial of this remedy, and its effects can only be beneficial, as the compound, if it does not cause a growth, is an unpleasant one. The

SONG SHOULD BREATHE.

Song should breathe of scents and flowers;
Song should like a river flow;
Song should bring back scenes and hours
That we loved—ah, long ago!

Song from baser thoughts should win us;
Song should charm us out of woe;
Song should stir the heart within us
Like a patriot's friendly blow.

Pains and pleasures, all man doeth,
War, and peace, and ill, and wrong—
All things that the soul subdueth,
Should be vanquished, too, by Song.

Song should spur the mind to duty;
Nerve the weak and stir the strong;
Every deed of truth and beauty
Should be crowned by starry Song!

IRON CLAD SHIPS.—It is more than probable that, and without much further delay, if we intend to have a national and naval force worthy of our power and pretensions, we shall have to follow suit, and build iron-cased vessels, as France and England have done, and are doing. Before the end of this year, France will have *eight* and England *six* such vessels. How many are *we* to have?

Much depends, of course, upon the state of our Treasury. It will cost no trifle to provide us with half a dozen vessels like Napoleon's *La Gloire*, or Victoria's mammoth *Warrior*. The cost of the former is a secret which the Emperor discloses to nobody. The Warrior's cost will not be exactly known until she is wholly completed, and fit for sea, but it is estimated at about $5,000,000. We know, therefore, what a squadron of such thunderers would cost *us*. Can we retain our position without them? *U. S. Naval Gazette.*

THE SLAVE TRADE was commenced by a foreign power. It was introduced to this land by foreigners. It has been prosecuted generally by foreigners ever since.—It is mostly carried on by foreigners now. These are the facts of history. They are abundantly susceptible of proof.

Much stress is frequently laid on the complicity of certain New England parties, especially of one or two families in Rhode Island, in the slave trade of former years. But here the fact is overlooked that these guilty persons were foreign born, educated under foreign influences, and controlled almost wholly by foreign prejudices. The same is true in nearly every other case of the kind that has occurred.

It is equally susceptible of proof that in ninety-nine instances out of every hundred, *foreign capital* is the agent employed in the slave trade. Foreigners, accustomed to wrong views with regard to slavery, and consequently, with regard to the slave trade, have for years resided in the seaports of America for the sole purpose of employing foreign capital in the prosecution of this piratical traffic. They have hired their alien subordinates as their infamous occasions have required. Not unfrequently, parties have participated who have *called themselves*, or been called, Americans—but generally without the slightest right, by birth or citizenship. In every instance where the facts have been elicited, it has been found that these *soi disants* never had any just claim to the high title of an American citizen.—*U. S. Naval Gaz.*

☞ A team loaded with 6000 pounds of powder attempted to cross the railway near Auburn, Me., lately and got stuck midway. The driver discovered the regular afternoon train rapidly approaching, but he had gone too far with his team to think of backing off, and to succeed in clearing the track in time to prevent a horrible catastrophe seemed equally doubtful; but putting whip to his horses he managed to cross the rails barely in time to allow the fire lunged engine a free track with not an inch to spare!

A Massachusetts man, who has been out to Charleston to visit his sister, says the children all wondered how uncle could bear to live among those terrible people. On inquiry he found the terrible people were understood to be the working people, who, he was informed, were all dirty, all starving, all desperate, and so degraded that they can only hide themselves in dens, and die like heathens.—*Boston Traveller.*

A work is announced by Dr. Tick, called "Memory, and how to aid it." The name is a bad one for a lecture on Mnemonics—for, so far as we have seen, those who have most to do with Tick are the people of shortest memory.

Some tasteful individual very correctly remarks that the best lip salve in creation is a kiss; the remedy should be used with great care, however, as it is apt to bring on an *affection of the heart.*

It is the best proof of the virtues of a family circle, to see a happy fireside.

It is supposed the fellow who "*left* the house," was not able to take it with him.

BELLINGHAM'S
Celebrated Stimulating Ongunent!
For the Whiskers and Hair.
The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the Agency for, and are now enabled to offer to the American people, the above justly celebrated and world-renowned article.
THE STIMULATING ONGUENT
is prepared by DR. C. P. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of
WHISKERS OR A MUSTACHE
in from three to six weeks. This article is the only one of the kind used by the French, and in London and Paris it is in universal use.
It is a beautiful, economical, soothing, yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp, it will cure BALDNESS, and cause to spring up in place of the bald spots a fine growth of new hair. Applied according to directions, it will turn RED or TOWY hair DARK, and restore GRAY hair to its original color, leaving it soft, smooth and flexible. The "ONGUENT" is an indispensable article in every gentleman's toilet, and after one week's use they would not for any consideration be without it.
The subscribers are the only Agents for the article in the United States, to whom all orders must be addressed.
Price One Dollar a box—for sale by all drug gists and Dealers; or a box of the "Onguent," (warranted to have the desired effect,) will be sent to any one who desires it, by mail (direct,) securely packed, on receipt of price and postage, $1.18. Apply to or address

UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS
The celebrated New England remedy for
Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.
They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.
Dr. JAMES L. LEPERE writes from Navarre, Stark Co., O. "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."
E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."
Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.
THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."
GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."
J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.
D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, MARCH 29, 1861.

THE NEW PHILOSOPHY OF GOVERNMENT.—Mr. Stephens, Vice President of the new Confederacy,—in a late speech, repudiates the old *exploded* ideas of *Jefferson* and others, and says:—

The prevailing ideas entertained by him and most of the leading statesmen at the time of the formation of the old Constitution, were, that the enslavement of the African was in violation of the laws of nature; that it was *wrong* in principle, socially, morally and politically.

Our new government is founded upon exactly the opposite idea: its foundations are laid, its corner-stone rests upon the great truth that the negro is not equal to the white man. That *slavery*—subordination to the superior race—is his *natural* and normal condition.

This, our new government, is the first, in the history of the *world*, based upon this great physical, philosophical and moral truth.

The speech was made in Savannah. We know very well, that Jefferson, Adams, Washington, Franklin, and their compeers, deemed slavery a wrong, and that in the most solemn manner they declared the *self-evident* truth that all men are created *equal*: but we never supposed they meant that George III. was created equal in wisdom to Solomon, or that an East India Coolie was created equal in strength to Samson. Their own words in the same sentence, show in what respects the equality of men was an inalienable *right*, viz. to life, liberty, and the pursuit of happiness.

On this idea, they founded their political church, and their doctrine was, that the strong *ought not* to oppress the weak.

But by the *opposite doctrine*, not only *ought* the black man to be a slave, in Mr. Stephens's new government,—but every *inferior* white man in New England *ought* to be enslaved also,—and *our* government *ought* to be so changed, that our aristocracy may buy and sell all the rest of us—a condition of things for which Uncle Toby thinks the people hereabouts are not yet quite prepared.

Moreover, Human Nature is very much the same now, as it was in the days when the Egyptians enslaved the whole race of Israelites whom they deemed inferior; and the Divine Nature exactly the same as it was when God brought out Israel with a strong hand and a mighty arm, after the Egyptians had suffered manifold difficulties and plagues. And it does not require anything like the power of divination, to see that trouble follows sin, and goes with it, as surely as fire burns gunpowder. Mr. Jefferson, stigmatized by some persons as an infidel, saw clearly, and foretold plainly, that the slavery in his own country, would breed just such traitors, tyrants, thieves and destroyers, as we see to-day. And the *end* is not yet.

☞ There seems to be as much uncertainty about Fort Sumter now, as there has been at any time; and at Washington, the President keeps his own counsel.

A dispatch says:

The prospect of an extra session of Congress is not encouraging. Many Republican Senators are opposed to it, and the administration has not given the subject any consideration as yet.

The Lighthouse Board have almost entirely suspended operations, owing to a lack of funds.

Col. Lamon has returned from his official visit to Fort Sumter.

☞ Merchants in Southern cities are complaining of the hardship of having to pay five per cent. premium for gold with which to pay duties on their imports. One of the Georgia papers asks:—

"Why is it that our banks, who control the cotton, have not an abundance of specie with which to enable our merchants to pay their duties? Will some of our merchants who are familiar with commercial and banking operations inform us why, with the immense influx of specie from Europe, it commands a premium of five per cent. in Savannah?"

TREASON DEFINED IN FLORIDA.—An act just passed by the Florida Legislature declares that in the event of any actual collision between the troops of the late Federal Union and those in the employ of the State of Florida, it shall be the duty of the Governor of the State to make public proclamation of the fact, and thereafter the act of holding office under the Federal Government shall be declared treason, and the person convicted *shall suffer death*.—This act was approved by the Governor of the State on the 14th ult.

☞ The clause in the permanent constitution of the Confederate States prohibiting the African slave traffic was adopted in the Montgomery Congress by the vote of four States to two. South Carolina and Florida opposed the restriction, while Georgia, Alabama, Louisiana and Mississippi advocated it.

☞ The Nantucket Inquirer states, with natural pride in the climate, that among the 600 legal voters in the town, 130 are upwards of 70 years of age.

PROGRESS IN EUROPE.

Austria has a constitution, and a unanimous parliament an pass laws without the emperor's consent. Italy is emancipated from the Bourbons, and with the exception of Rome itself, mostly from the temporal rule of the Pope.

And in this very season of Lent, now closing, the greatest emancipation of human beings ever effected at one time, has been accomplished in Russia, by the zeal and wisdom of the Czar, seconded at the last by his nobles and other influential classes, though against their former opposition, over which he has triumphed by his great firmness, mildness, and strong reasoning powers.

The emancipation act was passed in the Carnival,—but its publication was deferred till Lent, — and the London Illustrated News of March 2, gives this notice of it.

"To morrow morning nearly forty million of the human family who to-night will retire to bed as slaves, will rise up free. A nation will be born in a day. The 3d of March, the anniversary of the Emperor of Russia's accession to the throne, and as it happens also, the Christian day of rest, has been fixed upon, we are told by the Independence Belge, for the emancipation of serfs throughout the Russian empire.

"This age has not witnessed a revolution approaching to it in magnitude. The event is too vast, both in itself and its issues, to be grasped by the most gigantic imagination. It is, moreover, as beneficent as it is great. It marks, and for centuries yet to come, it will mark, the onward movement of humanity.

"The emancipation of our own slaves in the West India islands sinks into comparative insignificance beside it. The extinction of slavery in the United States of America would be dwarfed into small proportions by its towering importance.

"More hearts will be made glad to-morrow, more bosoms will throb with deep emotions of gratitude and joy, more countenances will beam with the consciousness of self-respect, in response to the proclamation of Alexander II, than have ever been similarly and simultaneously effected by a single act of authority since the world began."

☞ Returns from *every* town in New Hampshire, show that for Governor, Berry has 35,449, Stark 31,461, scat. 195. Whole vote for Governor, 67,103. Berry's majority over all, 3791. Berry's plurality over Stark, 3986.

Mr. Marston's majority, in Congressional District No. 1, will be about 1300; Mr. Mr. Rollins', in District No. 2, about 1000; Mr. Edwards', in District No. 3, about 1700.

The Democrats have majorities in the three counties of Belknap, Carroll and Coos, electing their county officers there.

THE VIRGINIA CONVENTION.—*Richmond, Va, March 27.*—In the convention late last night, Mr. Hill's substitute (the constitution of the Confederated States) was rejected—ayes, 78; nays, none.

The convention debated until the recess, an amendment to the first resolution declaring that the States, when the federal constitution was formed were independent sovereignties, and inserting "and still are sovereign."

A long debate ensued on the amendment, and, pending action, the committee rose.

A motion was made to terminate the debate on Monday. After a violent discussion, it was lost by 4 majority. Adj.

CALIFORNIA ITEMS, from San Francisco, March 13.

The Governor vetoed the bill changing the venue in the murder trial of Horace Smith from San Francisco to Placer county, but both Houses passed it over the veto.

The Legislature continued to ballot for U. S. Senator.

Com. Cunningham died on the 13th.

The sloop-of-war Wyoming arrived at Honolulu on the 10th, in search of the Levant. It was believed, from the occurrence of gales, that the Levant is lost.

☞ The funeral of Rev. Dr. Whittemore, at Cambridge, on Tuesday, was attended by a great multitude. The services were by Rev. Messrs. Moor, Skinner, Miner, Greenwood and Eaton,—and they were opened by a dirge, and by the singing of a hymn entitled "Anastasis," which was composed by Dr. Whittemore, and selected from the "Gospel Harmonist." It commenced with the significant lines:

In the dust I'm doomed to sleep,
But shall not sleep forever;
Fear, may for a moment weep,
Christian courage, never.

☞ The State Department is about transferring to the several States a notification of the passage by Congress of the proposed amendment to the Constitution. The Legislature of this State will be one of the first called upon to act on it.

"THE SANITARIUM" is the title of a handsomely printed monthly, just issued in Boston, under the editorial management of C. M. Rollins. It is a "journal of moral, mental and physical culture," and is filled with excellent reading. So good a publication should receive general patronage.

NEW ORLEANS, March 27.—The convention has adopted an ordinance dividing Louisiana into six Congressional districts; also an act transferring the public funds to the Confederated States. The act abolishing the free banking and general charter system passed. Adjourned *sine die*.

GOOD FRIDAY,

Which is to-day, is the anniversary of the crucifixion of the Saviour, and is termed Good, in allusion to the benefits conferred on the world by his death. Its celebration has been attended in different churches with peculiar rites. In most churches a sepulchre used to be constructed, and a crucifix was carried thither in a procession and deposited as in a tomb. The American Cyclopædia says that Good Friday is the only day in the year on which mass is not celebrated in the Roman Catholic churches.—In the north of England it is customary to eat on this day herb puddings in which a principal ingredient is the "passion dock." In several English counties a small loaf of bread is baked on the morning of this day, and put by until the next year, to be used in morsels as a medicine.

The Saxons named it "long Friday," because of the protracted religious services on that day; and the Germans term it *Stiller Freitag*, on account of the solemn stillness observed in the churches.

4 DAYS LATER FROM EUROPE.

NEW YORK, March 28.—The steamship City of Baltimore, from Liverpool the 13th, and Queenstown the 14th inst., arrived this morning.

The French Papists publish dispatches announcing the threatening attitude of the Musselmen towards Christians in Syria.

Count Cavour has presented a project of law, proclaiming the Kingdom of Italy to the lower branch of the Italian Parliament.

All is quiet at Warsaw, but agitation, though muffled, was increasing. Russian troops continued to arrive.

Naples, March 13.—An encounter has taken place between a French regiment and seven hundred Papal Zouaves. A French colonel was killed and forty-three men were wounded.

Romano has tendered his resignation as Minister of the Interior at Naples.

NEW YORK, March 28.—A dispatch to the World says the sloop of-war Cumberland has arrived in Hampton Roads.

The government of the Confederated States has a dispatch that Fort Sumter would be evacuted to-day.

A special dispatch from Charleston to the Herald says there is no change in the aspect of affairs at Fort Sumter.

President Davis has made a proclamation on South Carolina for a purpose unknown; he has also called 500 from Florida and 2000 from Georgia.

A dispatch to the Herald from New Orleans says the convention passed an ordinance permitting insurance companies to invest their capital in bonds of the Confederated Government.

The Florida convention has ratified the Confederated Constitution. The Mississippi convention will ratify it unanimously, but is divided on the question of its reference to the people.

NEW YORK, March 28.—The Washington correspondent of the Tribune says orders were sent on the 14th inst., to land the 400 troops on board the steamer Brooklyn, to reinforce Fort Pickens. No intelligence of the execution of the order has reached the government, as all communications have been cut off by the secessionists.

The Tribune also says that orders were sent ten days ago, to retain a portion of the dispersed troops in Texas, subject to the order of Gov. Houston in repressing any attempt to overthrow the State authorities.

THE INDIANS AFTER THE TEXAN REBELS.—THE SOUTHERN LOAN.—*New York, March 26.*—The Washington correspondent of the Express says Governor Houston has written to the President that the Indians are threatening Texas, and asking of the federal government if it can or will afford relief.

It is *reported* that Mr. Riggs, the Washington banker, *contemplates* an investment in *part*, of the Confederate States loan.

It was *reported*, days ago, that New Orleans bankers *had* taken the whole of it;—but it was not true.

INDIANS KILLING THE REBELS.—LATER FROM TEXAS.—*New Orleans, March 26.*—The Texas Legislature has passed a resolution approving of the act of the convention deposing Gov. Houston. A bill has been passed to raise a regiment of mounted riflemen to protect the frontier.

Since the departure of the federal troops, the Indians in large numbers have been devastating and driving back the settlers.

TROOPS FOR PENSACOLA.—*Memphis, Tenn., March 27.*—Five hundred Mississippi troops passed through this city to-day *en route* for Pensacola. A military reception was given to them, and considerable enthusiasm was manifested.

Mobile, Ala., March 27.—Advices say that troops and munitions are constantly moving to Pensacola. Several companies are expected from northern Alabama.

New Orleans, March 27.—Two companies of Zouaves left for Pensacola to-day, on active service.

NEW YORK, March 27.—The Post states that W. J. Ree, who left for Europe in the Arabia, on Wednesday, is a defaulter to his creditors to the amount of thirty or forty thousand dollars.

Dispatches from Washington to the Post state that Mr. Barney has been unanimously confirmed as Collector of New York; that Mr. Holloway has been confirmed as Commissioner of Patents, 24 against 9, and also that Mr. Lane has been nominated as District Judge of Alabama, at the suggestion of ex-Congressman Cobb of that State.

A STEAMBOAT TROUBLE.—The New Orleans True Delta has the following development of a new trouble:

The new law of the Confederate States, requiring steamboats for "foreign" ports to take out clearances, went into effect yesterday, and created no little comment and excitement on the wharf. The most important feature seems to be the fee, which the custom house officials never fail to exact.

SPECIAL SESSION U. S. SENATE.

Wednesday, March 27.—The Chair submitted a message from the President, stating that he considers it inexpedient to communicate to the Senate Major Anderson's dispatches at present.

Mr. Breckinridge moved that his resolution advising the withdrawal of the federal troops from the seceded States, be considered. He intended to make no remarks, as he had already expressed his views, but desired that the vote should be regarded as a test question.

Mr. Fessenden said he supposed there would be no objection, but reminded the Senator that there was not a quorum present.

On motion of Mr. Hale the Senate went into executive session.

When the doors opened, Mr. Breckinridge moved to take up the resolution he offered yesterday, saying that, if the motion prevailed, he would accept Mr. Clingman's substitute. He asked for the yeas and nays, as he should consider it a test question as to whether or not the Senate was willing to express an opinion.

Mr. Rice deemed it improper for the Senate to advise the President on matters which rest upon him by law. If the seceded States are determined to remain out of the Union, he was in favor of their doing so in peace. He would give them the forts and arsenals for the sake of peace, but they were not in possession of Key West and Tortugas and never will be. These points are needed for us and not for them. The commerce of the North will never yield these, and he would not give them up under any circumstances.

Messrs. Clark, Simmons and Ten Eyck opposed taking up the resolution.

Mr. Trumbull said he would vote to take up the resolution, not considering himself thereby committed on its passage.

Mr. Douglas favored taking up the resolution with a view to offer an amendment to bring it within the scope it ought to take.

Mr. Doolittle opposed taking up the resolution.

Mr. Breckinridge said he did not assume that it would be a test vote, but thought it might be so regarded.

Mr. Wade hoped the resolution would be taken and *dismissed*. He did not hesitate to say that the Senate ought, under existing circumstances, to express an opinion. He was anxious this subject should be fully discussed now. Seven States had gone out of the Union, and were domineered over by an usurpation. The people in those States had no voice in the government that had been erected, and a military despotism tramples their rights under foot. If they had the power they would call upon us to vindicate their rights, and the constitution clothes us with the authority to do it.

After further debate the vote was taken, and it was decided *not to take* up the resolution, 19 to 10.

There not being a quorum present, motion was made to adjourn and go into executive session.

Mr. Breckinridge said that after giving the Republicans an opportunity to confirm the nominations, and thus discharged his duty, he would move that the Senate adjourn *sine die*. Disagreed to.

☞ By telegraph to the Boston Journal, we learn that Mr. Joseph P. Morse has received the appointment of Postmaster of this city, and will enter upon his duties immediately. The following are some other New Hampshire Post Office appointments:

Robert N. Corning, Concord; Albin Beard, Nashua; Merrill H. Dodge, Mason Village; Israel L. Packard, Canterbury; Abner Peabody, Mason; Samuel Burnham, Dunbarton; Thomas D. Little, Salisbury; Wm. B. Morrill, Exeter; Nathaniel Low, Dover; Thomas E. Hatch, Keene.

He who will take up another's time and fortune in his service, though he has no prospect of rewarding his merit toward him, is as unjust in his dealings as he who takes up goods of a tradesman without intention or ability to pay him.

A Dutchman expresses his surprise that men can consent to loaf about the rumshops as they do, when a good dose of arsenic can be bought for sixpence.

WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, NO REMEDY has performed so many or such remarkable cures of the *Throat, Lungs and Chest*,—of *Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma*, or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam*. So generally acknowledged is the supe for excellence of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.

Editor of the Norway Advertiser, gives his opinion of this great remedy substantially as follows:

NORWAY VILLAGE, Me., Aug 4, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—For a remedy of such undoubted merit as DR. WISTAR'S BALSAM OF WILD CHERRY, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial and be relieved. Several years since I first became acquainted with this Balsam at a time of distressing cough and cold, which took such firm hold of my lungs as to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain

In our town this remedy is a great favorite with many, and if all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of the class before the public.

Yours respectfully, GEO. W. MILLET.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great debility to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

TO MARRIED LADIES it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

For full particulars, get a pamphlet, free, o the agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. feb28 dawâm

HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE.

The following is a sample of many letters daily received by W. E. HAGAN & CO., Troy, N. Y., who are the Manufacturers and Proprietors of "HEIMSTREET'S HAIR RESTORATIVE," an article of which many of our first citizens speak as being the *cheapest and best* Hair Preparation which has ever been introduced in our market. A combination of Stimulating Spirits and Oil, affording an agreeable *Hair Dressing*, leaving the scalp perfectly free from dandruff, and causing the Hair to have a *rich glossy appearance*. Two articles in one. A fine "*Hair Dressing*," and a never-failing Restorative for the *Bald* and *Gray*.—Read the following letter:

ST. LOUIS, MO., June, 1859.

MR. HENRY REYNOLDS,—*Dear Sir*:—I hereby certify that my hair having become *gray*, I used, at your request, HEIMSTREET'S INIMITABLE HAIR RESTORATIVE, (prepared by W. E. HAGAN & CO., Troy, N. Y.,) for several weeks. My hair was in that time restored to its original color, with all its luxuriance and beauty; and I will be much pleased to recommend the article, personally, on any and every occasion, as I know it h s merits that the Proprietors do not claim for it in their circulars. Respectfully yours,

LIFE INSURANCE.

"In the midst of Life we are in Death."

The strong man often falters, and falls in the midst of the hurry and business of life. The wise man maketh provision for those whom he loveth, against the liability to accident and death.

THE

MUTUAL LIFE INSURANCE CO

Of New York,

with an accumulated capital of over

SEVEN MILLION DOLLARS,

Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representatives in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually, or annually*, at the option of the insured.

The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.

No reflecting man can sit at his fireside with his young family about him, and feel at ease;—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

WHALES, it appears, have got into Behring's Straits, after escaping harpooning in Baffin's Bay; in one or two instances a fish harpooned in the Atlantic has been captured soon after in the Pacific; so there can be only a short distance between them, as the whale cannot remain long under water.—*Naval Gaz.*

Were an inhabitant of this earth, to ascend into the air one hundred and sixty millions of miles, the fixed stars would still appear no larger than luminous points. Incredible as this assertion may appear, it is not a chimerical idea, but a fact which is effectually proved; for about the 10th of December we are more than one hundred and sixty millions of miles nearer the northern part of the heavens than we are on the 10th of June; and yet we never perceived any increase of magnitude in the stars.

This is the sum of all science—Perhaps.

This is the sum of all morality—Love what is good and practice it.

This is the sum of all creeds—Believe what is true, and do not tell all you believe.

Eastern Sayings.

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system disarranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness, and unless sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the systems from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing painful aggravation, suffering, and disease. While in this condition, opposed by the derangements, take Ayer's Pills, and see how speedily they restore the natural action of the system, and with it the too-long feeling of health again. What is true and so apparent in this trivial and common complaint, is true in every one of the dreaded and dangerous diseases. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1855.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her neck and head that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cortergolt, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR BRO. AYER: I cannot answer you what complaints I have cured with your Pills better than to say *all that we ever treat with a purgative medicine.* I have placed my reliance on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to strike from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PRESLE,
Clerk of Monongahela House.

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked and decisive. In this respect they have proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely pray that we have at last got a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, Washington, D. C., 7th Feb., 1855.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and must bestow upon them the best cathartic we employ. Their regulating action on the liver is quick and decided, more decidedly so than any other cathartic we have, and I speak of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO RALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Gunn, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best results of experience I ever found. Their selective effect upon the liver makes them an excellent remedy, when given in small doses for *Bilious Dysentery and Diarrhœa.* Their easy operation makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best medicine I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WILBRAH, Wyoming Co., N. Y., Oct. 25, 1854.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN C. MITCHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Stanford, Canada.

You speak cautious in said of your Pills for the cure of costiveness. If cathartics of your character do not cure it as effectually as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although but a minor ill in itself, is the proximate of others that are worse. I believe it frequent to originate in the liver, but your Pills effect that organ and cure the disease.

From Mrs. E. Sharp, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural purgation when wholly or partially suppressed, and also very effectual to cleanse the stomach and coated tongue. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hamlin, of the Methodist Episc. Church.

PLEASANT HOME, Savannah, Ga., Jan. 8, 1855.

HONORED SIR: I should be wanting for the cause of sugar skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on severe suffering amounting almost to paralysis of the lower limbs. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in this place, I tried your Cathartic Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SPRING CHAPEL, Baton Rouge, La., 8 Dec., 1855.

DR. AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that has afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skillful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

SOMETHING MORE VALUABLE

THAN SILVER OR GOLD.

BECAUSE

IT WILL RESTORE THE WEAK,

AND REINSTATE THE BLOOD IN ALL ITS ORIGINAL PURITY & VIGOR.

It is

PROF. O. J. WOOD'S

RESTORATIVE CORDIAL

—AND—

BLOOD RENOVATOR.

It is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted *as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach,* and yet so diagreeable to the taste, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, a combination which never injures. As a sure preventive and cure of

CONSUMPTION, BRONCHITIS, DYSPEPSIA INDIGESTION, LOSS OF APPETITE, FAINTNESS, NERVOUS IRRITABILITY, NEURALGIA, PALPITATION OF THE HEART, MELANCHOLY, HYPOCHONDRIA, NIGHT SWEATS, LANGUOR, GIDDINESS, AND ALL THAT CLASS OF CASES SO FEARFULL, FATAL TO CALLED FEMALE WEAKNESSES AND IRREGULARITIES,

THERE IS NOTHING ITS EQUAL!

Also Liver Derangements and Torpidity, and Liver Complaints, Diseases of the Kidneys, or any general derangement of the Urinary Organs.

It will not only cure the debility following CHILLS and FEVER, but prevent all attacks arising from miasmatic influences and cure the disease at once, if already attacked.

CHAWBERS should have a bottle with them, as it will infallibly prevent any deleterious consequences following upon the change of climate and water.

As it prevents costiveness, and strengthens the digestive organs, it should be in the hands of all persons of sedentary habits.

LADIES not accustomed to much out-door exercise, should always use it.

MOTHERS should use it, for it is a perfect relief, taken a month or two before the final trial—she will pass the dreadful period with perfect ease and safety.

There is no mistake about it!

THE CORDIAL IS ALL WE CLAIM FOR IT!

MOTHERS, TRY IT!

And to you we appeal, to detect the illness or decline not only of your daughters, before it is too late, but also your sons and husbands, for while the former, from false delicacy, often go down to a premature grave rather than let their condition be known; in time, the latter are often so inflated up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their sad fall. But the latter is in his prime, and to you we confidently appeal; for we are sure your never failing affection will unerringly point you to PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR as the remedy which should be always on hand in time of need.

O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St. Louis, Mo., and sold by all good Druggists. Price $1 per bottle.

Read what the Press say, after thoroughly testing the matter, and no one can deny:

PROF. WOOD'S Restorative Cordial and Blood Renovator is a genuine medicine of real merit, pleasant to the taste, and invigorating to the system. While it purifies the blood and soothes the nervous irritation, it aids the organs of digestion to perform their functions, and resists the assaults of disease. It is a chemical compound so skillfully combined, that while it exhilarates it does not provoke the lassitude which usually follows excitement. A tonic composed exclusively of vegetable matter, it is absolutely free from alcohol, and no ill effects can possibly accompany its use. It is an infallible and speedy remedy for Loss of Appetite, Faintness, Nervous Debility, Neuralgia, Pallids of the Womb, and other delicate diseases to which women are subject. For Sickness of the Stomach, Bilious Attacks, Liver Complaints, Costiveness, Dyspepsia, Consumption, and a host of evils flesh is heir to, it is a certain cure.—*St. Louis Morning Herald.*

PROF. WOOD'S RESTORATIVE CORDIAL.—It is recorded in the classics that Psyche once consented to a climate warmer than the West Indies, to procure a sample of the beauty of Proserpine in a box. After some delay the messenger returned, and as soon as the top of the box was removed, out few all the ills that flesh is heir to. Fortunately hope was found in the bottom of the box. Prof. Wood's Restorative Cordial receives the collection of the story, for it invigorates the blood, aids the organs of digestion, imparts strength to the nervous system, and fortifies the citadel of health so as to bid defiance to the assaults of disease. It is a healthy tonic, composed entirely of vegetable productions, and yet is as exhilarating as pure wine, no injurious results can possibly follow its use. It is a desideratum in the medical world, and those who are suffering with loss of appetite, Dyspepsia, Consumption, Faintness, Neuralgia, Palpitation of the Heart, &c., will find in it an infallible panacea.—*St. Louis Daily Express*

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR is, without doubt, the best tonic Cordial in the world. To those who are suffering from general debility, we would recommend its use, as it will speedily bring about a strengthening to the system, and will at once tend to remove all impurities of the blood, and eradicate all traces of impure blood. It can be taken by the weakest stomach, while those in good health will at once feel its exhilarating power. We are confident that after using one bottle of this Cordial, none will be for a day without it.—*N. Y. Leader.*

A PURE, HEALTHY TONIC, and one free from the deleterious and injurious effects sure to follow those in ordinary use, has long been felt to be a desideratum in the medical world. Such a tonic, and one so skillfully combined from the vegetable kingdom as to act in perfect accordance with the laws of Nature, and thus soothe the weakest stomach, and at the same time allay nervous and other irritations, and tone up all the organs of which the human body is composed, is offered in Prof. Wood's Restorative Cordial and Blood Renovator. Hence it is perfectly adapted to old and Young. Reader, try it. Thousands have already done so; the testimony is universal in its favor.—*New York Atlas.*

☞ Before noticing a patent medicine, we have to be certain that it will prove itself to be all that it is recommended. And we would say that the Restorative Cordial and Blood Renovator of Prof. Wood will stand the test fully, and in fact it is without doubt the first article in the market for purifying the blood and strengthening the system, and we have no hesitation in recommending its use to all.—*New Yorker.*

Dyspepsia Remedy

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirum Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who from the injudicious use of liquors, have become dejected, with shaken nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirits, distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, distress in the stomach, weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the monthly system, and bring back the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the Invigorating Spirit in pint bottles, at 50 cents, qts $1.

BININGER'S
GENUINE
Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to the profession and the public, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the medical profession as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling reasonable rates, a Brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

MOTHERS

It must be obvious not only to you, but to every attentive and intelligent person, that the first diseases of infants arise chiefly from a disordered condition of their bowels, and in this connection, we present to your notice, for the alleviation and cure of these diseases, a remedy known as

Dr. EATON'S INFANTILE CORDIAL,

Prepared from a formula used by Dr. Eaton with remarkable success during several years' practice. We know it to be a most reliable and efficacious remedy for infantile complaints, and one trial alone will convince you of its superiority over every other preparation of the kind. It is particularly recommended

FOR CHILDREN TEETHING,

And at this period of infantile life, when your anxious hearts are pained by witnessing the sufferings of your little one, it will be found invaluable in *Softening the Gums, Reducing Inflammation* and *Relieving all Pain. FOR DISEASES AT TENDING TEETHING*, such as *Diarrhœa, Dysentery, Griping in the Bowels, Acidity of the Stomach, Wind, Colic, and Child in the Head*, we confidently offer this as a certain relief and cure in every case when given in time. It will invariably regulate the stomach and bowels, and its importance in this respect can hardly be estimated.

IN CONVULSIONS,

From which more infants are said to die than from any other disease, the little sufferer is relieved *instantaneously*, as if by magic; and in this dread complaint alone, its intrinsic value is such that it has been recommended from one family to another, until the name of DR. EATON'S INFANTILE CORDIAL has become "familiar as a household word." We now ask your attention to a subject of vital interest to yourself, as well as to your suffering child. DR. EATON'S INFANTILE CORDIAL contains

NO MORPHINE OR OPIATE,

Of any kind, or of whatever nature, a fact which we are fully warranted in saying cannot be said of any other preparation for infantile diseases, at this time before the public. We find that throughout the country, Mothers are becoming convinced of this truth, and of the sad and blighting consequences which are certain to result from the use of narcotics administered in the form of quieting remedies—their continued administration being invariably followed by stupefaction and constipation of the bowels, ending oftentimes in convulsions. Here in DR. EATON'S INFANTILE CORDIAL differs from every other remedy. It

DOES NOT CONSTIPATE

The Bowels, neither does it act by deadening the sensibilities of your children, but naturally, thro' its rare medicinal qualities, by removing all pain and cause of pain. We earnestly recommend you, therefore, to lose no time in procuring a bottle, that you may have at hand a remedy which will never fail to relieve your child in time of need. *It is perfectly harmless, and cannot injure the most delicate infant.*

Take none but DR. EATON'S INFANTILE CORDIAL. *This you can rely upon.* Price 25 cts per bottle.

A LION'S LOVE FOR A BLACK TIGRESS. The Philadelphia North American records the following singular case:

In one compartment of the cage in which the animals perform at Van Amburgh's beautiful menagerie, is a huge, tawny Asiatic lion. His room-mate is a black female tiger. The tiger is small compared to the regal lion, but is highly valued as a zoological curiosity, and the only specimen of the black tiger in this country. She was purchased by Mr. Van Amburgh some two years ago, and has lived with the lion ever since. The attachment between the two is something remarkable. When other animals are in the same cage, and any affront is offered to the little tiger, she runs under the belly of the lion, and woe be to the animal that dares approach her. No matter how hungry he may be, the lion never touches his share of their daily meat until his little chum has selected her share, and even this he never entirely consumes until certain that she has had enough. All the animals are as fat as moles, but this black tiger is aldermanic in her proportions, and no remedy exists for the matter. She has been twice removed from the lion, but until she was returned the generous beast would take neither food nor rest, while the frantic manner in which he dashed at the bars was a sufficient warning that the further detention of the tigress would be a dangerous matter. Should his mate die, the lion would probably pine to death. Once, when she was taken away a lioness was substituted. The lion instantly fell upon her, and, at a single bite, broke her spine, and crushed some of her ribs. Careful nursing saved her life, and she is still living, but with her hinder parts immovably paralyzed.

A NICE PLOT.—The Tribune's Washington correspondent says:—

A letter was received from a member of the Montgomery Cabinet, by the principal banking house here, stating confidently that the writer expected to dine at Washton next winter in his official capacity, and be regularly established at this capital.—The game is to make a bold stroke, by which the south will be consolidated, and then, by the aid of the northern Democracy, to force the constitution of the southern confederacy upon all the States but New England. This scheme may appear chimerical, but it is seriously entertained, and has an organized support in the North to-day. It is a short mode of amending the constitution, which the conspirators know could not be accomplished through Congress or a convention of the States. The managers of this revolution never expected to stay out permanently. But they have organized the machinery so as to provide for that contingency, and to hood-wink the public if it did not happen. They require to be watched carefully. Their allies in New York are capable of any deperate resort.

How much of this may be true we cannot say exactly: but the exemption of New England is most honorable to these little working States, which have rarely been more quiet, industrious, and self-possessed, than at the present moment. The pressure of the day is felt here, certainly; but nothing like some former pressures; and we wait patiently to see future events unfold themselves.

OFFICE SEEKING AT MONTGOMERY.—The Washington correspondent of the New York Commercial writes:—

"The news from Montgomery indicates anything but a pleasant state of affairs there, so far as the office seekers are concerned. Many of the bold and patriotic seceders from here, who a month ago resigned good positions in the departments, are in Montgomery at the present time, penniless and homeless, without sufficient money to enable them to redeem their trunks and carpet bags, which hotel proprietors have seized to satisfy depend demands. The town is filled to overflowing with office seekers, many of whom are from the North. Prominent among the latter is George N. Saunders, who, I am informed, will not be gratified with an official position, either high or low. Southern secessionists have no confidence in him or in northern politicians generally. These distinguished self-sacrificing patriots will find that the southern confederacy was not formed for the purpose of pensioning off broken down Democratic politicians from the North, but for the case of the chivalrous sons of the South."

UNFORTUNATE CHILD.—"I declare mother," said a pretty girl, "'tis too bad! You always send me to bed when I am not sleepy, and make me get up when I am sleepy!"

A gentleman of Boston, stated a few days since that letters had been received here inquiring on what terms twenty thousand pre.sbeos could be manufactured for the use of the new army of the southern confederacy. Where is Judge Sprague?—*Traveller.*

"Matchless misery" has been defined to be, having a cigar and nothing to light it with.

A strutting coxcomb asked a barber's boy if he ever shaved a monkey? "No, sir, but if you will please sit down, I'll try."

Lindley Murray, the grammarian used often to leap across Barding Slip, twenty one feet, with a pair of fowls in his hands, as he came from market.

DO YOU WANT A MUSTACHE?
BELLINGHAM'S
Celebrated Stimulating Onguent!
For the Whiskers and Hair.

The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the Agency for, and are now enabled to offer to the American people, the above justly celebrated and world-renowned article.

THE STIMULATING ONGUENT
is prepared by DR. C. P. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of
WHISKERS OR A MUSTACHE
in from three to six weeks. This article is the only one of the kind used by the French, and in London and Paris it is in universal use.

It is a beautiful, economical, soothing, yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp, it will cure BALD NESS, and cause to spring up in place of the bald spots a fine growth of new hair. Applied according to directions, it will turn RED or TOWY hair DARK, and restore GRAY hair to its original color, leaving it soft, smooth and flexible. The "ONGUENT" is an indispensable article in every gentleman's toilet, and after one week's use they would not for any consideration be without it.

The subscribers are the only Agents for the article in the United States, to whom all orders must be addressed.

Price One Dollar a box—for sale by all druggists and Dealers; or a box of the "Onguent," (warranted to have the desired effect,) will be sent to any one who desires it, by mail (direct,) securely packed, on receipt of price and postage, $1.18. Apply to or address

A VOICE FROM THE WEST!
FROM THE CLEVELAND PLAINDEALER
UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS
The celebrated New England remedy for
Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.

They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.

Dr. JAMES L. LEPEERE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."

E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, became prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."

Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.

THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, had been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles I was completely restored, and am now in robust health."

GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."

J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.

D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

SATURDAY, MARCH 30, 1861.

THE DAILY CHRONICLE.

THE DAILY CHRONICLE, from this date, will be only $3 per year, when paid in advance; 6 cents per week; 1 cent, single copy. For bills which have been paid on other terms, in advance, allowance of the excess will be made in future settlements, if desired.

To all new subscribers, the paper will be furnished from this time to Jan. 1, 1862, three quarters of a year, for only $2 in advance. tf

DIRECT TRADE.—The Charleston Mercury concludes an editorial on "Direct Trade," with the following significant language:—

There is but one solitary stumbling block in the way of *direct trade*. A reconstruction of the slave States with any of the free, northern, importing States, will at once, in our judgment, strike "direct trade" to the ground. New York has the track. She has the accumulated capital, and she has the custom. Nor can any possible efforts at the South divert her trade from her, except through the operation of two distinct nationalities. This will do it, as we have shown, most effectually, and nothing else will. Any political connection with New York will again bind us, very vassals in commerce, at the wheels of her triumphal car. Her rod will again be over us; and, with her accumulated capital and established business, no power can arrest it. Let us look well to this matter in the future.—There are specks upon the southern horizon that ere long may become dark and muttering clouds. We fear reconstruction on the basis of the new constitution.

RESIGNATION OF SOUTHERN OFFICERS. The resignation of Southern officers of the Army and Navy continues. Those of Capt. Frazier of Mississippi, and Lieut. O'Bannon of South Carolina, were received at Washington on Wednesday. The large number of these resignations gives more confirmation than anything else to the belief that the seceded States are determined at all events to maintain their independence. These are desirable life offices, with good provision for the invalid list and for old age, and they are eagerly sought for. It is no light thing which causes them to be so generally surrendered.

The Administration is somewhat perplexed as to the course to be pursued with the soldiers, many of whom are believed to have Southern proclivities so strongly that they cannot be trusted in an emergency.—*Traveller.*

We think there need not be the least *perplexity* about them. Let them go, and fill their places with faithful men, of which we have enough.

CONTEMPT OF THE PEOPLE.—The action of the several conventions at the South, in refusing to submit their labors to the approval of the people, finds ready apologists, and is freely justified. A few persons only, who are known as opponents of secession, condemn it, and thus the first step is taken to deprive the people of their rights. Having once assumed powers not belonging to them, and not meeting with any serious opposition, the leaders of the revolution will find it necessary to go further, and, unless the people imitate the example set them, in bringing about another overturn, they will soon be divested of all their political rights, except such as it may suit their masters to give them.—*Atlas.*

AN ESTATE IN HAMPSHIRE CO., MASS. The Hampshire Gazette says the will of Austin Smith of Hatfield, Mass., bequeathed the bulk of his property to his sister Sophia. No estimate was made of the amount of his fortune. Mr. Smith has always been taxed for $100,000, and once, when the assessors were inclined to increase the amount, he became angry and threatened to leave the town; whereupon the assessors relented. It is believed the property is worth $300,000.

☞ The late Mrs. Winans, wife of the owner of the famous cigar steamship of Baltimore, had for years been in the habit of distributing $25,000 to $30,000 annually among the poor. At the period of her death she was supplying some seventy to eighty indigent families. It was touching in the extreme to behold these sorrow-stricken dependents cluster in and around the church at the funeral, and follow in the cortege.

DEATH OF HON. FREDERICK G. STARK. Judge Stark died at Manchester, Tuesday evening, at the age of sixty-eight years—This event has not been unanticipated, as he has been in failing health for some time past. Judge Stark has been one of the most active, best known and most respected business men in that community.

☞ The Melbourne (Australia) Herald states that in less than a quarter of a century, the population of Australia has increased from 170,000 to 530,000 persons, and in ten years 23,000,000 ounces of gold have been exported.

The Augusta, Ga., papers say that after the late storm there every tree was robed in ermine; and what was a lovely spectacle, was to see the delicate purple and crimson blooms on the fruit trees, peeping through this unnatural covering, and contrasting finely with its intense, spotless whiteness.

☞ Jeremiah Booth Dinman, a native of Bristol, R. I., and a great wanderer over the country, perished from exposure, in Foster, a few days since. He was quite old and intemperate.

THE STARS AND STRIPES.—The existing national difficulties have furnished the flag makers of this city a rich harvest, and from present appearances, the crop is not half gathered. In the early history of the secession movement each of the disaffected States chose a flag to wave over their lands, and as the troubles increased, so the varieties in the combination of bunting grew more and more numerous. Owing to the inability of having them made at the South, the orders were forwarded to this city, and the flag makers were busily employed in filling them. Over one thousand flags were dispatched within one month.—When the seven States entered into a compacts, a Confederated flag was adopted, and the result was, that all the former flags were useless, and consequently, the orders for the new style came in very rapidly.—Last week, a firm in Fulton street sent off by steamer two hundred and forty of the Confederated ensigns. The southern dealers send back the genuine original flags, and say, "You can allow us for them; or at any rate we do not want them." Notwithstanding the large number of United States flags returned, they find ready sale for them, owing to the fact that hotels, saloons and even private residences, in various sections of the country, now desire to display the good old Stars and Stripes. It is said that the reason that the flags are not made at the South, is, that the moths get into the original packages and before they are made up they are ruined. As yet no jack has been adopted to accompany the flag. This will be done shortly, and then there will be another chance for the flag makers.—*N. Y. World.*

DEATH UNDER PECULIAR CIRCUMSTANCES.—Mr. Stephen H. Payne, a clerk in the Brooklyn Post Office, came to his death in a very singular manner, Friday afternoon. The deceased, in company with a young man named Smith, also employed in the Post Office, left at noon to go home to dinner. On the way, being about twenty feet in advance of Smith, Payne turned round and threw a snow ball at him. The force used in throwing the ball caused him to fall heavily upon the sidewalk, and in fifteen minutes thereafter he was a corpse caused by the rupture of a blood vessel.

RESULTS OF THE STORM.—A gentleman from Marshfield, says that twelve dead bodies have been found on Scituate and Marshfield shore, who lost their lives in the storm of last week. Five of these bodies are to be buried in a little burial ground near the residence of Luther Hatch, Esq., in the north easterly section of Marshfield. Many years ago, as many and even more lives were lost in the same neighborhood, but there has been no destruction of life there by shipwreck for at least twenty years. *Post.*

☞ The Cape Argus (Cape of Good Hope) announces the arrival at that port of the ship Conrad from London, having on board about one thousand singing birds of different species. The Argus says:

"There were several lost during the passage, but those now being landed appear quite fresh and lively. If the experiment of acclimating them succeeds, what a pleasing addition to the families of the feathered denizens of our gardens and woods will they not prove?"

THE U.S. TROOPS AT WASHINGTON.—It is not deemed prudent to remove, at present, the soldiers of the regular army, and the marines, who were concentrated at Washington before the inauguration, in all to the number of 1200 or more. It is announced that they will not in any event be sent out of the city, until after the Virginia convention has decided upon its action, and perhaps not even then. Their removal might encourage some violent foray of reckless adventurers from Maryland or Virginia.—*Traveller.*

☞ A letter received in New York from Galveston says it is of no use for parties in the North to draw short time notes on their customers in Texas. They cannot pay them. There is no money in the country for that purpose. People are struggling for bread, and will save what little money they have, to buy their families food until they can raise another crop.

COERCION AT THE SOUTH—The Atlanta (Georgia) Intelligencer copies a letter from J. A. Stewart, of Atlanta, to the Nashville Democrat, in which the writer denounces the secessionists, and says, "such men as this man Stewart must leave this community, peaceably if they may, forcibly if we must. His presence is highly dangerous; he disseminates treason and scatters incendiary documents."

☞ The Peterborough (N.H.) Transcript says that a gentleman named Monion, about 80 years old, was found dead on the floor at his residence in that place, one day recently, by his wife, who had been absent during the afternoon. It is supposed that he died of heart disease.

Louisiana has a fancy block of marble at the Washington monument to enter that barbarous pile, with the following inscription on its side. Presented by the state of Louisiana—ever faithful to the constitution and Union. A beautiful and appropriate grave stone that will make.

The census returns indicate that a surprisingly large proportion of the leading men of Ohio—whether in professions, in commercial pursuits, in educational enterprises, in scientific agriculture, or in the scale of general wealth—are Natives of New England.

☞ Powow River Bank has declared a semi-annual dividend of 4 1-2 per cent., payable on Monday next.

A man at Penn Yan, N. Y. has invented a machine that husks, shells, cleans, and puts corn into bags.

U. S. SENATE—SPECIAL SESSION

SENATE ADJOURNED.

WASHINGTON, March 28.—Mr. Trumbull offered a resolution that in the opinion of the Senate, the true way to preserve the Union is to enforce the laws of the Union; that resistance to their enforcement, whether under the name of anti-coercion or any other name, is an encouragement to disunion, that it is the duty of the President to use all the means in his power to hold and protect the public property of the United States and enforce the laws thereof as well in the States of South Carolina, Georgia, Florida, Mississippi, Alabama, Louisiana and Texas as within the other States of the Union.

He said he offered this resolution as expressive of his views, and wished it to be printed, and would be glad if he could have a vote upon it.

Mr. Bright said that all on his side of the chamber would be glad to have a vote now.

Mr. Sumner moved that the Senate go into Executive session, which after some debate was agreed to.

On opening the doors Messrs. Baker and Bright were appointed a committee in accordance with a resolution to wait on the President and inform him that the Senate was ready to adjourn.

Several executive messages were received, and the Senate again went into executive session; subsequently the resolution involving six or seven thousand dollars for the purchase of the annals of Congress and register of the debates, was discussed and postponed until December.

The President having no further communications to make, the Senate, at 4 o'clock, adjourned *sine die.*

FEDERAL APPOINTMENTS.—*New York, March* 28.—A special dispatch to the Commercial says the President has appointed Carl Schurz Minister to Spain, in place of Cassius M. Clay, who willingly consented to be transferred to Russia.

James S. Harvey, the Washington correspondent of the Philadelphia North American and New York Tribune, has been nominated for Minister to Portugal; James L. Pike, of Maine, the Washington correspondent of the Tribune, Minister to Holland, and George Fogg, of New Hampshire, Minister to Switzerland.

FOREIGN FLEETS COMING TO THE UNITED STATES.—*New York, March* 29. A Paris letter to the Times says that the French and English governments are fitting out a powerful fleet of war steamers for the United States. The suggestion came from England. France will furnish three first-class frigates, and the English contingent or perhaps be larger. The fleet will sail with sealed orders. Spain is also preparing to send a formidable force to the gulf, though not working in concert with England and France.

NO ESCAPE FROM PUNISHMENT.—A correspondent of the Portland Argus writing from Wisconsin, at the residence of Gen. Jones who acted as second in the Cilley duel, says, "learning I was from Maine, the Gen. alluded to the affair, expressed admiration for Mr. Cilley, and deep regret for the unhappy termination of the issue. It may not be generally known that the latter portion of the life of the murderer was unhappy in the extreme. Graves died the victim to regrets and the most horrible of horrors. Two years he passed in sleepless nights, with rooms lighted and with watching friends, whom he was unwilling to have for a moment leave his presence. He consumed the hours of night in walking to and fro, in frightful starts, in moans and groans and tears, and in wild exclamations. At length, worn out with mental anguish, grief unmitigated, and wasting watchfulness, the unhappy man expired. Thus I had it from the lips of a clergyman, his neighbor, and thus was avenged the manes of the murdered Cilley."

JAMAICA.—Accounts from this island state that the cost of the importation of coolies is hereafter to be provided for by a tax upon the whole property of the island, instead of as heretofore only upon the planters who require immigrant labor. A bill is before the government proposing an importation of 10,000 coolies, and raising for this purpose $750,000 by loan. The revenue returns for the past year show a gratifying increase. The amount for the last quarter was $315,000, being an increase of 65,000 over the last quarter of 1860. The revenue for the year was $1,175,000, against $958,000 in 1859.

A ship with coolies from Calcutta has recently arrived, and two other ships are on the way with very large cargoes.

The people of the island were turning their attention towards the culture of cotton.

COAL ASHES.—In the ashes of anthracite coal, says Prof. Norton, there are in every one hundred pounds from four to eight pounds of valuable inorganic material, of a nature suitable for adding to any soil requiring manures.

The editor of the Germantown Telegraph says:—"We consider anthracite coal ashes to be most valuable when applied either to low ground, a little moist and heavy, or to clay moulds. They have a very good effect in making them permanently more friable and productive. Our own experience satisfies us of this. On light soils, or those inclining to sand, we regard coal ashes as quite undesirable. In such localities the best use to put them to, is to evacuate your garden avenues six inches, and fill them in and roll them down, and you will have a hard, dry, pleasant walk, a little superior to anything yet tried. It is always compact and always dry.—For carriage ways too, they cannot be surpassed.

The "State of Matrimony" is one of the United States. It is bounded by a ring on one side and a cradle on the other. The climate is sultry till you pass the tropics of housekeeping, when equally weather sets in with such power as to keep all hands as cool as cucumbers. For the principal roads leading to this interesting state, consult the first pair of feminine eyes you run against.

"Let go the jib there! quick! let go!" shouted the captain of an eastern packet to a raw hand, as a sudden squal came up.—"What's all that yelling about?" inquired Jonathan; "I ain't touching yer jib!"

FROM TEXAS.—*Galveston, March* 26.—The Convention elected Ford as Colonel, and Bayer as Lieut. Colonel of the regiment of Rangers to serve a year on the frontier, in addition to the one ordered by Secretary Walker.

Governor Houston and Hon. A. J. Hamilton, made speeches at Austin on the 21st, violently denouncing the Convention of the Confederacy and their Constitution.

In Committee of the Whole on the 22d, the Convention adopted the Constitution almost unanimously, and the vote on engrossing the ordinance, was nearly unanimous for it.

DEATHS.

☞ The funeral services of Miss Olive E. Adams will take place on Sunday afternoon, at the Methodist Church on State St. Friends and relatives are invited without further notice.

In Rye, March 29th, Capt. SAMUEL J. LOCKE, aged 71 years. He has represented the town in the N. H. Legislature the last two years.

In New Jersey, Mrs. MARY ABBY PIERCE, aged 35 years, 5 months, wife of Mr. Frederick Pierce, and daughter Nathan Spinney, of South Eliot.

WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, NO REMEDY has performed so many or such remarkable cures of the *Throat, Lungs and Chest,*—of *Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma,* or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam.* So generally acknowledged is the supe. rior excellence of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.

Editor of the Norway Advertiser, gives his opinion of this great remedy, substantially as follows:

NORWAY VILLAGE, Me., Aug 4, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—For a remedy of such undoubted merit as DR. WISTAR'S BALSAM OF WILD CHERRY, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial and be relieved. Several years since I first became acquainted with this Balsam at a time of distressing cough and cold, which took such firm hold of my lungs as to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain

In our town this remedy is a great favorite with many, and if all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.

Yours respectfully, GEO. W. MILLET.

Prepared by SETH W. FOWLE & CO., Boston;

PRESTON, KIMBALL, HUTCHINGS, J. H. THACHER, N. P. THACHER, Portsmouth; JAMES P. JACKER, Greenland; S. HANSON, Jr., New Market; PORTER & THING and WM. B. SAFFORD, Exeter; J. W. GREEN, Hampton Falls; and by dealers everywhere. e25 4w

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. feb28 daw3m

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

To MARRIED LADIES it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

For full particulars, get a pamphlet, free, of the agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. feb28 daw3m

HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE.

The following is a sample of many letters daily received by W. E. HAGAN & CO., Troy, N. Y., who are the Manufacturers and Proprietors of "HEIMSTREET'S HAIR RESTORATIVE," an article of which many of our first citizens speak as being the *cheapest and best* Hair Preparation which has ever been introduced in our market. A combination of Stimulating Spirits and Oil, affording an agreeable *Hair Dressing*, leaving the scalp perfectly free from dandruff, and causing the Hair to have a *rich, glossy appearance.* Two articles in one. A fine "*Hair Dressing*," and a never-failing Restorative for the *Bald* and *Gray.*—Read the following letter:

ST. LOUIS, MO., June, 1859.

MR. HENRY REYNOLDS,—*Dear Sir*:—I hereby certify that my hair having become *gray*, I used, at your request, HEIMSTREET'S INIMITABLE HAIR RESTORATIVE, (prepared by W. E. HAGAN & CO., Troy, N. Y.) for several weeks. My hair was in that time restored to its original color, with all its luxuriance and beauty; and I will be much pleased to recommend the article, personally, on any and every occasion, as I know it has merits that the Proprietors do not claim for it in their circulars. Respectfully yours,

☞ It will be seen by a notice in another column, that the price of the Daily Chronicle is to be but $3 per year, in advance, hereafter. After testing the matter at both $4 and $3 for several years, we are convinced that the cheaper rate will work more for our interest, as well as that of subscribers, advertisers, and the public generally. When we change that opinion, we shall again alter the price—higher or lower. We shall give our reasons for this change, more at length, in a day or two. PUB.

☞ In the Board of Aldermen on Thursday evening, a committee was appointed to purchase a lot of paving stones for the purpose of paving Islington street, and for use elsewhere, whenever needed.

The committee on Gaslights,—to whom was referred the petition of the Brodhead M. E. Society, for a light in front of their chapel on Court street,—deemed it inexpedient to grant said request.

A communication was received from Mr. Dennis Libbey, offering for sale the Old South Church, at the sum of one thousand dollars. Laid on the table.

The City Treasurer was authorized, under direction of the Mayor, to overdraw a sum not exceeding two thousand dollars, for the purpose of paying sundry city bills.

It was voted that the reports of the several School Committees be published, as usual.

In *City Council*, Horton D. Walker was elected Assessor of Taxes, vice Henry M. Grant, resigned.

BIRDS.—The merry little birds have come, and are hailing every morning's sun with their sweet warbling notes. How refreshing, after the dreary stillness of a long, cold winter! Get up early on some of these fine mornings, and take a walk out of town about a mile, and your ear will be greeted by the robin's early song, and the sparrow's melodious notes, which admit of no discount. Robins are supposed to migrate in autumn to the South, and from thence they return at the first of Spring.—This year, they are early in their arrival, possibly on account of the troublous times in the Southern Confederacy, but probably because they anticipate an early Spring.—Don't harm them, boys, they serve to dispel gloomy feelings, and drive away dull care. A. B.

☞ Hon. Thomas L. Tullock, Secretary of State in New Hampshire, is to be Navy Agent at Portsmouth. This is settled. G. J. Prescott, who is favorably known to the voters of the First District of Maine, is to be Master Machinist at the Portsmouth Navy Yard. And it is *reported* that Samuel Rowell has obtained the appointment of Master Painter, and Samuel Reynolds that of Master Mason at the same Yard.

THE CANDIDATES.—The street rumor gives the following list of candidates for the offices of Inspectors of Customs, viz.:—J. D. Pillow, John H. Moran, D. S. Randall, C. C. Whittemore, John Hodgdon, 2d, E. M. Brown, O. P. Kennard, Reuben Rand, jr., John Clark.

Deputy Collector—J. M. Edmonds, S. R. Marston.

Weigher and Guager—Wm. Conn, and some of the above candidates for Inspectors.

☞ The Journal learns that the Christian Society, worshipping at the Hanover Street Chapel, have extended a call to Rev. T. O. Wyman, of Western New York, to become their pastor.

☞ The annual meeting for the choice of School Committee in District No. 2, is to be held this afternoon, at 3 o'clock, at the School-house in State Street.

☞ For the class supper of the Freshmen of Tufts College, Ezekiel Fitzgerald of Portsmouth, has been chosen President; E. D. White of Nashua, Poet; S. J. Hill, Manchester, Historian.

FORT KEARNEY, March 28.—The Pony Express, from San Francisco 16th, passed here this afternoon.

The legislature adjourned to the 19th, in consequence of McDougal receiving 32 votes for Senator, which led his opponents to believe that if another ballot was taken he would be elected.

A brisk emigration continued to the various gold and silver mines.

RICHMOND, VA., March 29.—The second resolution before the convention reads, "African slavery is the vital part of the social system of the State wherein it exists." Ex-Gov. Wise moved to add, "and of the political system of the federal government." Lost—37 to 90. The resolution was then adopted.

ST. LOUIS, March 88.—The following joint resolution passed the House yesterday, 62 against 42:—

Resolved, That it is inexpedient for the General Assembly to take any steps for calling a National Convention to propose amendments to the constitution, as recommended by the State Convention.

☞ According to the National Republican, the P. T. Herbert who is working to get Arizona out of the Union, is the ex-member of Congress from California, who killed an Irish waiter at Willard's Hotel, in Washington, five years ago.

WASHINGTON, March 28.—The following Postmasters are confirmed:—J. T. Haines at Great Falls; J. O. Dewey at Hanover; Wm. B. Morrill, Exeter; Nathaniel Low, Dover; Thomas E. Hatch, Keene; Joseph P. Morse at Portsmouth; Albin Beard, Nashua; Robert N. Corning at Concord.

No question has been taken by the Senate on the proposition by Great Britain to submit the San Juan dispute to arbitration.

Nesmith opposed any mode of settlement involving the possible loss of the Island to the United States.

Mr. Sumner intended replying, but the subject now goes over to the next session.

Contrary to expectation, the President made no nominations to fill the vacancy in the Supreme Court.

Archibald, the late Chief Engineer of the Navy, received a dispatch from Mr. Mallory, offering him a similar position under the Confederated States, which was promptly declined.

No orders have been issued or will be at present, to land troops at Fort Pickens, and the statements to that effect are untrue.

Joseph S. Wilson has been appointed Chief Clerk of the Land Office.

The War Department has received the resignation of Capt. Gorcas of the Ordnance Department.

RICHMOND, VA., March 28—The amendments proposed yesterday in the Convention were defeated—7 to 47.

The rumor of the transfer of guns to Fort Monroe, was the basis of the resolutions in the House protesting against any movement of arms or increase of armament by the government within the limits of Virginia. There was a long debate and several substitutes were offered with no action.

GROVER & BAKER

SEWING MACHINES.
TO THE LADIES.
CHARLES T. EMERY,
No. 10 Market Sq., Portsmouth,
Having been appointed
SOLE AGENT IN PORTSMOUTH
for the sale of the celebrated and unrivalled Noiseless
GROVER & BAKER
FAMILY AND MANUFACTURING
Sewing Machines,
would invite especial attention to the same.

THE GROVER & BAKER SEWING MACHINE makes the only seam formed by a Sewing Machine, in which each stitch is independently locked, and without dependence on other stitches for strength, and the only seam that will admit of the thread being cut at every fourth stitch without injury to the seam in wear.

THE GROVER & BAKER SEWING MACHINE is adapted to all varieties of fabrics, sewing equally well the finest Swiss Muslin or the heaviest cloth or leather, and requiring no adjustment for any kind of sewing other than the adaptation of needles and thread.

THE GROVER & BAKER SEWING MACHINE sews from ordinary spools without rewinding, and fastens its own seams, thereby saving time and thread It will sew common spool cotton, silk and linen thread with equal facility.

THE GROVER & BAKER SEWING MACHINE is so simple that an intelligent child of ten years can readily learn to operate it. It is more easily kept in order than any other machine, and need not be taken apart to be oiled.

THE GROVER & BAKER SEWING MACHINE makes the only stitch that cannot be injured by washing and ironing, and the only stitch that forms an elastic and durable seam. Fabrics put together with this stitch may wear out and drop to pieces from original weakness, or hard usage, but come apart or give way at the seams, they cannot; they will hold together when the cloth or calico around them hangs in rags and tatters.

Every Machine Warranted.

PRICES FROM $40 UPWARDS.
☞ Be sure to call and examine.

LIFE INSURANCE.
"IN THE MIDST OF LIFE WE ARE IN DEATH."
The strong man often falters, and falls in the midst of the hurry and business of life. The wise man maketh provision for those whom he loveth, against the liability to accident and death.
THE
MUTUAL LIFE INSURANCE CO
Of New York,
with an accumulated capital of over
SEVEN MILLION DOLLARS,
Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues
POLICIES on lives, payable to the wife, or to the legal representative of the person insured.
POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.
PREMIUMS may be paid, *quarterly, semi-annually, or annually*, at the option of the insured.
The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.
The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.
No reflecting man can sit at his fireside with his young family about him, and feel at ease;—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

Morning Chronicle.

☞ During the last carnival in Paris, the Countess Walewski gave a masked ball.—The great effect of the evening is said to have been the "Quadrille des Patineurs," in which the dancers were costumed in short skirts, wide trousers, and high boots, to which skates were affixed. The dance was so managed that each person in the promenade seized the end of a rose-colored ribbon, a number of which radiated from an ornamented pole held in the centre, and then away went short skirts trimmed with swans' down, smart boots, furred vests and skin caps, in a whirl which for effect and vivacity made the "Quadrille des Patineurs" the lion of all the dances of the season.

disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how delightfully quickly the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar causes, these and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons

From a Forwarding Merchant of St. Louis, Feb. 4, 1858.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feel that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and to her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach

From Dr. Edward Boyd, Baltimore.

DEAR BRO. AYER: I cannot answer you what complaint I have cured with your Pills better than to say all that we your fend with a proprietary medicine. I place your Cherry Pectoral on an effectual cathartic in my daily contact will disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1858.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PRERLE, *Clerk of Allegheny Co. Commr'rs.*

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver most decisive and decided. They are in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice we have at last a purgative pill which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, Washington, D. C., 7th Feb., 1858.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their ready taking action on the liver is quick and decided, consequently they are an admirable disturber of the derangements of that organ. Indeed, I have seldom found a case of bilious disorder or obstinate that it did not readily yield to them. Personally yours, ALFRED BALL, M. D., *Physician of the Marine Hospital.*

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses to bilious dysentery and diarrhœa. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Cathartic Pills extensively among my family and among those I am called to visit to distribute. To regulate the organs of digestion and purify the blood, they are the very best cathartic I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARREN, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the *fountains of the blood.*

JOHN G. MEAGHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Lumbago, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of such cases. If others of our profession, who do not use them as we do, knew as I have, they should join me in giving them to the benefit of the multitudes who suffer from these complaints, which, although bad enough in itself, is the precursor of others that are worse. I believe on Hostetter's testimonials to the liver, but your Pills affect that organ and cure the disease.

From Mr. E. Sanford, Physician and Druggist, Boston.

I took one or two large doses of your Pills, taken at the proper time, are excellent promoters of the natural secretions when wholly or partially suppressed, and also very effectual to cleanse the stomach and bowels of morbid matter. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church.

NEW ORLEANS, Fulton Street, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be unpardonable for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on extreme rheumatism, which, notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Mr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By perseverance in the use of them, I am now entirely well.

SENATE CHAMBER, Salem Bridge, La., 3 Ter., 1858.

DR. AYER: I have been afflicted with a Dyspepsia. Pills of Hypocondriac Gout—a painful disease that has afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful misery it causes that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.

PROFESSOR WOOD'S

HAIR RESTORATIVE!

SEE WHAT OTHERS SAY OF IT.

A Distinguished St. Louis Physician Writes:

ST. LOUIS, July 10, 1859.

O. J. WOOD, Esq.—*Dear Sir*:—Allow me the pleasure and satisfaction of transmitting to you the beneficial effects of your Hair Restorative, after a trial of 5 years. I commenced using your Restorative in January, 1854, since which time I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one third gray. A few applications stopped its falling, and in three weeks there was not a gray hair to be found, neither has there been up to this time.

After my hair was completely restored, I continued its use by applying two or three times a month. My hair has ever continued healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the facts above mentioned will be of any particular advantage to you, or operate favorably for your sale, this late day, as I am well aware they are all well known already, and even more wonderful ones throughout the country. I have spent my time in travelling the greater part of the time the past three years, and have taken pleasure in recommending your Restorative, and exhibiting my hair as my own case. In several instances I have met with people who pronounced it a humbug; saying they had used it and without effect. In every instance, however, it proved, by probing the matter, that they had not used your article at all, but had some other worthless article, also as good, and selling at about half the price. I have noticed two or three articles myself advertised as above, which I have exhibited my hair to, and it is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently, some of these charlatans have not brains enough to write an advertisement, as I notice they have copied yours, word for word, in most instances, merely inserting some name in place of yours.

I have, within the past five years, seen and talked with more than two thousand persons that have used your preparation with perfect success—some for baldness, gray hair, scald head, dandruff, and every disease the scalp and head are subject to.

I called to see you, personally, at your original place of business here, but learned you were now living in New York.

Too are at liberty to publish this, or to refer parties to me. Any communication addressed to me, care box No. 1920, will be promptly answered. Yours truly, JAMES WHITE, M. D.

WOOD'S HAIR RESTORATIVE has acquired a reputation from actual test and experiment which cannot be enhanced by newspaper puffs. In our own vicinity it has been extensively used, and we believe in every case with every desired result, and receive the universal indorsement of all who have tried it. We therefore recommend it as one of those few genuine *nostrums* which accomplish all they profess, and all the bald and gray could desire.—*Columbia Spy.*

PROF. WOOD'S HAIR RESTORATIVE.—In another column will be found an advertisement of this well known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cutaneous eruptions, and prevents the hair from falling off. We have seen many authentic testimonials in proof of these assertions, some of which were from gentlemen whom we have known for many years as persons of the most reliable character. Don't dye till you have tried the Restorative.—*Boston Olive Branch.*

WOOD'S HAIR RESTORATIVE.—We are not in the habit of recommending patent nostrums; but nine cases out of ten they are quack nostrums;—but we take great pleasure in recommending Prof. Wood's article to all who may need it. It is an article of merit, and will do what it is claimed for it. Our well known contributor, Finley Johnson, Esq., has experienced the benefit of its application, and joins with us in speaking of its virtue. Let all try it, and bald heads will be as rare as snow in summer.—*Baltimore Patriot.*

WOOD'S HAIR RESTORATIVE.—Unlike most specifics, this is proved, by unimpeachable evidence, to possess great efficacy as a restorer of the hair to its pristine vigor. Where the head had become almost bald from a malady of sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all cases, its ingredients are such as to effectually eradicate dandruff and other impurities which operate so injuriously to the hair. It also has curative powers of another description. In many cases pimples and other disfigurements of the skin disappear wherever it is used. There is no hazard attaching to the use of this remedy, and its effects can only be beneficial, as the compound, if it does not cause a manifest improvement, is incapable of doing harm, as its component elements are perfectly innocuous.—*Boston Transcript, April 22, 1859.*

WARREN SPRINGS, Perry Co., Fla., June, 7, '50.

PROF. WOOD—*Dear Sir*:—I was induced more than a year ago to try your valuable Hair Restorative to clean my head of dandruff. I had suffered from it for years, and had never been able to get anything to do me any good until I saw your advertisement in a Harrisburgh paper. I bought one bottle, and as now my hair has ceased to need it to universal use, for it has completely removed all dandruff from my head, and an application once in two weeks keeps my head free from falling and other unpleasantness. I must also state that my hair had become quite white in places, and by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used two bottles of the Restorative, no one has any knowledge of it, as I allow a few gray hairs to remain, in order to have an appearance comport with my age. My head is now of less trouble to me in keeping it clean, &c., than at any time since I have been a child. I consider your preparation of great value, and, altho' I do not like to expose myself, I consider it my duty to say so. You can use this, if you think it could in any shape you think proper, if it is worth anything to you. Yours, &c., H. H. ETTER.

ALL HAIR DYES ABANDONED—WOOD'S GREAT ARTICLE IN THE FIELD.—Prof. Wood stands on an eminence no chemist, whose attention has been turned to inventing a hair tonic, has ever before reached. His fame is world-wide, and thousands who have worn wigs or been bald for years, are now, through the use of his preparation, wearing their own natural and luxuriant head covering. So much for chemistry. Prof. Wood studied out the human hair, its properties, its diseases, and how to restore its decayed vitality; he saw, as in his own case, that gray hair is unnatural unless the age of the individual had reached fourscore, and he believed that the hair could be re-vitalized. He tried his own case—it was bald and wholly gray at 37—he restored his own hair—and the article he did it with he gave to the world. Get WOOD'S HAIR RESTORATIVE, and take nothing else.—*N. Y. Day Book.*

Dyspepsia Remedy

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Costiveness, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupify.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, and constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.

One dose will remove all Bad Spirits.

One dose will cure Heartburn.

Three doses will cure Indigestion.

One dose will give you a good appetite.

One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual system, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

BININGER'S
OLD DOMINION
—FOR—
WHEAT-TONIC
FAMILY AND MEDICINAL USE.

This natural product of the most nutritious grain, recommends itself as presenting in a *concentrated* form the *nutritive* properties of *Wheat*, and has received the highest encomiums from eminent medical authorities, as possessing qualities that are absolutely FATTENING; this *desideratum* renders it invaluable to those who are suffering from *Consumption, Lung Complaints, Impaired Strength, Lack of Vital Energy*, and all diseases which, in their incipient stages, require only a generous diet, and an invigorating, nourishing stimulant.

Put up in quart bottles, in iron-bound cases of one and two dozen each, and sold by all prominent Druggists, Grocers and Town Agents.

BININGER'S
OLD KENTUCKY
BOURBON
"1849 RESERVE"

The *established popularity* of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of American Whiskies.

Being distilled in 1848, and manufactured expressly for us with great care, it can be relied upon as a *strictly pure* stimulant, and peculiarly effective for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a curative agent it has a tendency to *recreate and strengthen*; while age having contributed its genial charm, and enriched it with a delicious flavor and an oily body, it affords a pleasant incentive to the preservation or recovery of health, through the agreeable medium of a well pleased palate.

Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and sold by all prominent druggists, grocers and town agents. A. M. BININGER & CO.,

MOTHERS

It must be obvious not only to you, but to every attentive and intelligent person, that the first disease of infancy arises from a disordered condition of their bowels, and in this connection, we present to your notice, for the alleviation and cure of these diseases, a remedy known as

Dr. EATON'S INFANTILE CORDIAL,

Prepared from a formula used by Dr. Eaton with remarkable success during several years' practice. We know it to be a most reliable and efficacious remedy for infantile complaints, and one trial alone will convince you of its superiority over every other preparation of the kind. It is particularly recommended

FOR CHILDREN TEETHING,

And at this period of infantile life, when your anxious hearts are pained by witnessing the sufferings of your little ones, it will be found invaluable in *Softening the Gums, Allaying Inflammation* and *Relieving all Pain. FOR DISEASES ATTENDING TEETHING*, such as *Diarrhœa, Dysentery, Griping in the Bowels, Acidity of the Stomach, Wind, Colic*, and *Cold in the Head*, we confidently offer this as a certain relief and cure in every case when given in time. It will invariably regulate the stomach and bowels, and its importance in this respect can hardly be estimated.

IN CONVULSIONS,

From which more infants are sold to die than from any other disease, the little sufferer is relieved *instantaneously*, as if by magic; and in this dread complaint alone, its intrinsic value is such that it has been recommended from one family to another, until the name of DR. EATON'S INFANTILE CORDIAL, has become "familiar as a household word." We now ask your attention to a subject of vital interest to yourself, as well as to your suffering child. DR. EATON'S INFANTILE CORDIAL contains

NO MORPHINE OR OPIATE,

Of any kind, or of whatever nature, a fact which we are fully warranted in stating cannot be said of any other preparation for infantile diseases, at this time before the public. We find that throughout the country, Mothers are becoming convinced of this truth, and of the fearful and blighting consequences which are certain to result from the use of narcotics disguised in the form of quieting remedies; their constant administration being invariably followed by stupefaction and constipation of the bowels, ending oftentimes in convulsions. Hence in DR. EATON'S INFANTILE CORDIAL differs from every other remedy. It

DOES NOT CONSTIPATE

The Bowels, neither does it act by deadening the sensibilities of the system, but naturally, thro' its rare medicinal qualities, by removing all pain and cause of disease. We earnestly recommend you, therefore, to lose no time in procuring a bottle, that you may have at hand a remedy which will never fail to relieve your child in time of need. *It is perfectly harmless, and cannot injure the most delicate infant.*

Take none but DR. EATON'S INFANTILE CORDIAL. *This you can rely upon.* Price 25 cts. per bottle.

HARPER'S FERRY.—A correspondent writing to the Philadelphia Press, from Harper's Ferry, and signing himself "One that Knows" denies the truth of the statement that valuable improved arms are being sold there under an order given by Secretary Floyd during his term of office. The correspondent says:

"The only arms that have been, or are being sold here, are a lot of Hall's rifles, which were made about the year 1832, and were condemned as unserviceable during the Florida war. They had been lying, boxed up in the arsenal for 17 years.

These arms are breech-loaders, but, in the battle field, are about as apt to injure the shooter as the one shot at.

When some of them were sent to a company in the Florida war, the captain sent word to the department, "For God's sake send me arms which will give the man who stands behind as good a chance as the one he shoots at!"

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA.

GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pains to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can truthfully say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 60 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound:"—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—M. K. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic s*; and cannot fail to meet the wants of the debilitated.

It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhœa, dysentery and cholera morbus, the public have long proved there is nor can be any better general remedy.

One of the very best Physicians in Boston has said "*but it is the best preparation of Bitters that has ever been offered to the public.*"

Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

For further particulars reference is made to the printed circulars.

BELLINGHAM'S
Celebrated Stimulating Onguent!
For the Whiskers and Hair.

The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the Agency for the above celebrated article, which is now offered to the American people, the above justly celebrated and world-renowned article.

THE STIMULATING ONGUENT

is prepared by DR. C. P. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of

WHISKERS OR A MUSTACHE

in from three to six weeks. This article is the only one of the kind used by the French, and in London and Paris it is in universal use.

It is a beautiful, economical, soothing, yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp, it will cure BALDNESS, and causes to spring up in place of the bald spots a fine growth of new hair. Applied according to directions, it will turn RED or TOWY hair DARK, and restore GRAY hair to its original color, leaving it soft, smooth and flexible. The "ONGUENT" is an indispensable article in every gentleman's toilet, and after one week's use they would not for any consideration be without it.

The subscribers are the only Agents for the article in the United States, to whom all orders must be addressed.

Price One Dollar a box—for sale by all druggists and Dealers; or a box of the "Onguent," warranted to have the desired effect, will be sent to any one who desires it, by mail (direct,) securely packed, on receipt of price and postage, $1.18. Apply to or address

A VOICE FROM THE WEST!
FROM THE CLEVELAND PLAINDEALER

UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS
The celebrated New England remedy for
Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.

They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.

Dr. JAMES L. LEPEISE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."

E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."

Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.

THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."

GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, all the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."

J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.

D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

Morning Chronicle.

Portsmouth, N. H.

MONDAY, APRIL 1, 1861.

THE DAILY CHRONICLE.

The DAILY CHRONICLE, from this date, will be only $3 per year, when paid in advance; 6 cents per week; 1 cent, single copy. For bills which have been paid on other terms, in advance, allowance of the excess will be made in future settlements, if desired.

To all new subscribers, the paper will be furnished from this time to Jan. 1, 1862, three quarters of a year, for only $2 in advance. tf

☞ As a part of the history of the times, we copy the following item from the "Christian Era," a Baptist paper printed in Boston, and edited, we think, by a minister:

Rev. Thomas Whittemore.—Mr. Whittemore, one of the oldest ministers in the Universalist denomination, has gone to his reward. He now knows of his doctrine, whether it be true or false; and we may well say that no man has labored more unceasingly to promulgate his faith than he. Both as a preacher and editor, he has been diligent in the service of his master.—Would that his influence could pass away with him.

We have the charity to believe that the editor or writer who penned the above singular obituary notice, had no personal knowledge of Mr. Whittemore's life and conversation, but judged him from a sectarian and prejudiced standpoint.

The sort of half-prayer that his influence might pass away, is a suitable finale to the exhibition of the writer's courtesy and charity; and the little item, as a whole, offers a curious illustration of the text, Isa. 65:5, "Stand by thyself, come not near to me, for I am holier than thou."

The editor of the Concord Statesman says of Mr. Whittemore, "He was universally respected."

COMPLIMENT TO DOUGLAS AND HIS SUPPORTERS.—The Mobile Tribune, in some remarks upon the recent course of Senator Douglas, says:

"If he had not divided his party by his refusal to yield anything to its necessities, Mr. Lincoln would not have been President, and the disintegration would not have taken place."

There speaks out the sentiments of the master, that Douglas would not yield to the *necessities* of the party—that is, concessions to slavery. They must yield to this necessity, or the party is defeated, that necessity overruling every other consideration. The Douglas men have flattered themselves that they were in no way responsible for the present condition of the country; but how much satisfaction will it afford them to be told by the same authority that benefit may be derived from the election of Mr. Lincoln, with this language:

"If he had been defeated, the disruption would only have been deferred, and to a time when we might have been incapable of resisting the power of the coercion spirit of the North."

RETRIDCTIVE JUSTICE.—After the attack of the Charlestonians on the Star of the West, a brisk controversy was carried on through the columns of the local press concerning the person who was entitled to the credit of firing the first shot at that vessel. The end of the dispute was the recognition of one St. Clair Morgan as the man who did the deed. St. Clair Morgan wore his laurels proudly, but after enjoying the praises of all Charleston for a season, he betook himself to Florida. At Pensacola, on the 21st inst., he had a deadly quarrel with an officer of Capt. O'Hara's company, belonging to Bragg's army. A challenge was given, a duel was fought, and Morgan fell dead on the first shot. The ball from his antagonist's pistol entered the lower part of the abdomen and passed entirely through his body. So dies St. Clair Morgan—the first man who fired a hostile shot in the South.

DR. BELLINGHAM'S ONGUENT.—The American agency for this universally famous article for stimulating the growth of beard, whiskers, or scalp hair, is now confided exclusively to the highly respectable firm of Messrs. Horace L. Hegoman & Co. of New York, thus giving the American purchaser a double guarantee of its usual recommendatory merits. The announcement of the New York agency is a welcome feature in our advertising columns. 1t

NEW YORK, March 29.—The case of the steamer Bienville has been arranged, and she will sail on Monday, her regular day.

The Post's Washington dispatch says that orders have gone West to confiscate all goods introduced from Southern ports without payment of the regular U. S. duties.—The same authority says it is reported that Fort Pickens was reinforced over a week ago, during the night, by several hundred troops from Government ships.

The opinion is general in Washington that an extra session of Congress must be called.

Secretary Chase has remitted the forfeiture of the schooner Restless, on the payment of costs, charges and expenses.

☞ Edson H. Nott of Royalton, Vt., a student at the Academy, aged 20 years, died on Tuesday of last week, from the effects of injuries received in jumping from the platform at that place.

For the Chronicle.

STORMY REMINISCENCES.

Messrs. Editors:—The recent severe snow storm, so late in the season, has called back to the mind of the writer, memories of other severe storms. It was our fortune to live, some years ago, about forty miles back in the country, in one of the rough and poor townships of our Granite State. It is well known that in the winter we have rain storms here, on the seaboard, which farther back are part or all snow. The spring of 1850 was one memorable to the writer. On the 6th day of April a much-loved school-mate was called to the higher life, and on the 9th we followed her dust to its home. The ground was then bare, but on the evening of the 12th we had six inches of snow, and on the 14th another fall of damp snow commenced, and continued till the 15th, when there were twenty inches of snow on the ground, in many places badly drifted. This was the middle of April, yet a week of clear, cold weather followed, after which the snow rapidly disappeared, but the roads were impassable for days.

The next fall, snow fell on the shores of Lake Winnipiseogee on the 27th of October, which did not go off till the next spring, making less than six months from the final disappearance in spring to its permanent return in the fall. To the southwest of Winnipiseogee, in Gilford and Alton, is a high ridge of hills or mountains, some of them rising more than a thousand feet above the lake. On these mountains are often piled down immense quantities of damp snow, when we have here, (and sometimes even at the foot of the hill) rain.

The winter of 1854–5, the writer was teaching school in one of these mountain districts. That winter, if we remember rightly, there was no sleighing of any amount here, and even at Dover there was very little snow. But there was never more on these mountains than during that winter. Of one storm, the heaviest snow storm I ever saw, I copy an account from memoranda made at the time. On the evening of the 17th Jan., 1855, a drizzling rain began, which froze as fast as it fell; about midnight it changed to snow, accompanied by a strong wind; on the 18th, it rained and snowed alternately, and at dusk about a foot of mingled snow, ice and hail had fallen. During the night of the 18th it seemed to come in one continuous cloud, and it snowed fast all the 19th, and cleared up in the evening. During the same winter we had had heavy falls of snow, before. Imagine a high, hilly country covered with six feet of snow, drifted and piled in every possible way, and you have some idea of our situation. In this single storm we had four feet of solid snow. Every exertion was made to clear the road, and three days after the storm the writer succeeded in reaching Alton corner, 3 1-2 miles distance, on foot. No horse could have got through there. At Alton they had 2 1-2 feet of snow, and at Farmington (nine miles farther down,) there were nine inches, while at Dover it was all rain.

The next winter, 1855–6, was the worst our railroads ever knew. Snow fell and drifted, storm after storm, and it was near the first of April before it began to think of moving. But the singularity of this winter was, that north and south of us, the fall of snow was light. While we had four or five feet of snow, in Northern New Hampshire there was hardly enough to make sleighing. In Dover, for two successive Sabbaths in February, the church bells were not rung on account of snow storms.

These storms, if memoranda are not made of them, soon pass away from our memory, and each hard winter and each severe storm we set down at the time as unprecedented.

ALEXIS.

FROM HAVANA.—*New York, March* 29. Steamer Quaker City from Havana 25th, has arrived.

There is much excitement on the subject of the annexation of San Domingo to Spain. It seems that a system of Spanish emigration has been going on at that island, the emigrants being instructed, when the proper time arrived, to hoist the Spanish flag and invoke the aid of Spain. This was done on the 16th inst., much to the astonishment of the blacks and natives there. When the news reached Havana the frigate Blanca was fully armed and with a large number of regular troops were dispatched to San Domingo, sailing on the 22d. Two screw frigates were soon to follow with 5000 regulars. A large naval and military force is said to be on its way from Spain to Cuba. It is said that Hayti will soon share the same fate as that of San Domingo with the consent of France.

The U. S. steamer Mohawk arrived at Havana on Sunday.

Business at Havana is depressed. One million of dollars is said to be on the way from Spain to aid the metalic circulation of the Island.

Mayor Moody of Belfast was inaugurated on Monday last. After being sworn into office, he addressed the City Council as follows: "Gentlemen of the City Council—I presume that those who voted for me on Monday last knew that I was not a talking man but a working man; and now, gentlemen, I am here ready to go to work."

TRENTON, N. S., March 29.—F. F. Frelinghuysen has been appointed Attorney General of this State, vice Wm. L. Dayton.

PEACE OR WAR.—The idea that the North intends subjugating the South has been so thoroughly inculcated in the seceding States, that it might fairly be inferred that they felt they deserved it; and it shows what they would probably do, if they had the power. The National Intelligencer has the following, comprising a Southern letter and comments upon it:

"We are constantly receiving from our correspondents in the seceding States, warm invocations in behalf of peace between the federal government and the States which have renounced its authority. We append the following extract from the communication of a subscriber in Alabama, who may be regarded as the representative of a class of minds which seem to be haunted by the apprehensions of aggressive measures for the 'subjugation of the South:'"

GREENSBORO', Ala., March 18, 1861.

Can you indulge an old subscriber in a few reflections on the absorbing topics of the day? It is unnecessary to preface that every subject takes its appearance from the stand-point from which it is seen. To us at the South it seems absolutely inconceivable that any portion of the American people could so soon have forgotten the fundamental principle that all just governments derive their authority from the consent of the governed, as to undertake a war against us. It has long been our proud boast that while the unreasoning hordes who composed the armies of the European powers were led to the slaughter,—to promote not their own interests, but the interests or ambition of reigning powers,—in free America the people were sovereign, their interests were to be consulted, and war, if ever waged, would be for their protection or defence.—Now the proposition is gravely considered of waging a war upon a supposed weaker tier of States, because in the exercise of their sovereign rights they have seen proper to withdraw themselves from the evil to come—under Black Republican rule.

The Intelligencer gives the following answer, which would satisfy reasonable men. But it will be seen only to a limited extent:

We may say to our correspondent, in all frankness and sincerity, that we are not apprized of any designs on the part of the federal government against the peace of the seceded States. The rumors to that effect derive all their currency from the sensation press in the interest of secession, and are obviously meant to 'fire the Southern heart,' and keep alive the sentiment of polical hate. So far from meditating the "military subjugation" of the South, the administration is desirous to avoid the very appearance of practicing anything like a constraint on public opinion, and, as evidence of this disposition, we understand that the troops about to leave Texas, instead of being distributed at points in Virginia and North Carolina, where it might otherwise have been most convenient to station them, have all been ordered further North, where their presence can irritate no excited sensibilities, and give rise to no panic fears.

BUSINESS.—Lazell, Perkins & Co., of Bridgewater, are forging a flat steamboat crank weighing 16,000 pounds, which is for the Novelty Iron Works, New York, and is go into a steamship to run between Panama and San Francisco. They have recently put in a new hammer 10,140 pounds, and a mammoth slotting machine, weighing 45 tons, that largest in the world. Their Track Plate Mill is busy, and they are now running 18 nail machines. Notwithstanding the general depression of business, this company now have orders which will keep them in full blast, for at least three months to come.

Wm. Mason & Co., of Taunton, are reported to have orders for work which will keep their present force busy for a year to come; other companies in that town engaged in iron and machine manufacture are holding back for the present on account of the uncertainty of realizing payments.—*Fall River News.*

PENNSYLVANIA METHODIST CONFERENCE.—*Philadelphia, Mch* 29.—The Methodist Conference to-day adopted a report repealing the chapter on slavery inserted in the discipline at the last Conference, leaving future Conferences to make their own regulations on the subject.

The Conference also concurred in the resolution of the East Baltimore conference requesting the General Conference to repeal the chapter on slavery.

During the discussion on the various resolutions there was much excitement. The church was crowded.

The Watchman says that about 50 very nice sheep were put in a car a few days ago, at the Montpelier depot to be taken to market, but next morning it was found that during the night the dogs had made an onslaught on them, and five or six were found with their feet and legs missing. The wool, blood and sawdust found upon certain dogs plainly pointed out the rascals.

☞ The pail factory of Mr. Merryfield, in Fitzwilliam, N. H., was burned on the 22d inst. Loss $6000, on which there is no insurance.

VIRGINIA STATE CONVENTION.—*Richmond, March* 28.—The resolution to terminate the debate in Committee of the Whole on Tuesday, was violently opposed in the Convention to day. Mr. Rives spoke seven hours in favor of the Union. No action was taken. Adj.

☞ In Tamworth, on Wednesday last, a lad named Wedgewood, aged ten years, had his arm cut off by a circular saw in Lord's mill.

☞ The wife and mother of a humble family in Great Barrington, all of whom were employed in a factory there, have lately come in possession of an English legacy of $500,000.

AN ACTIVE BUSINESS.—The Richmond Enquirer of Friday, March 22, has notices of auction sales of one hundred and seventy-five slaves, to come off on that day.

WASHINGTON, March 29.—J. G. Palfrey, of Cambridge, is appointed Postmaster of Boston. Messrs. Pangborn and Phelps were the principal contestants, though in an entirely friendly spirit.

The recent arrival of ordnance in Richmond from the Bellona foundry, caused an intense excitement, many being apprehensive that it was to be sent to Fort Monroe, and that this movement was accelerated by the present condition of public affairs. Information from the Ordnance Bureau is to the effect that the cannon were contracted for three years ago, and the contractor merely delivered them recently in order to receive his pay.

The receipts of the Treasury last week were $600,000. Net balance on hand, $1,588,000.

The appointment of Mr. Harvey as Minister to Portugal was without solicitation, and was unanimously confirmed by the Senate.

Lieut. H. N. Harrison of the Navy, died here to-day.

G. W. Lane, recently confirmed District Judge of Northern Alabama, it is said, will endeavor to hold his Court in Athens in the Union part of the State.

Texas will not be much the gainer by taking possession of the United States property on the frontier. The United States government expend about $3,000,000 annually in keeping up its military defences in that State. This expense Texas now will have upon her own treasury.—*Bath Times.*

THE INFANTILE CORDIAL.—We notice our druggists have received a supply of DR. EATON'S INFANTILE CORDIAL, which every mother should have. It is said to contain no paregoric or opiate of any kind whatever, and of course must be invaluable for all infantile complaints. It is also said that it will allay all pain, and soften the gums in process of teething, and at the same time regulate the bowels. Let all mothers and nurses, who have endured anxious days and sleepless nights, procure a supply and be at once relieved.

Atwood's Quinine Tonic Bitters,—the best Aromatic Tonic ever offered to the public.—All the Druggists have it. See advertisement.

WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, NO REMEDY has performed so many or such remarkable cures of the *Throat, Lungs and Chest,*—of *Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma,* or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam.* So generally acknowledged is the supe for excellence of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.

Editor of the Norway Advertiser, gives his opinion of this great remedy substantially as follows:

NORWAY VILLAGE, Me., Aug 4, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—For a remedy of such undoubted merit as DR. WISTAR'S BALSAM OF WILD CHERRY, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial and be relieved. Several years since I first became acquainted with this Balsam at a time of distressing cough and cold, which took such hold of my lungs as to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain

In our town this remedy is a great favorite with many, and if all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.

Yours respectfully, GEO. W. MILLET.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. feb28 daw3m

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

TO MARRIED LADIES it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Hardness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

For full particulars, get a pamphlet, free, o the agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. feb28 daw3m

STRONG TESTIMONY.

HEIMSTREET'S INIMITABLE
HAIR RESTORATIVE.

The following is a sample of many letters daily received by W. E. HAGAN & Co., Troy, N. Y., who are the Manufacturers and Proprietors of "HEIMSTREET'S HAIR RESTORATIVE," an article of which many of our first citizens speak as being the *cheapest and best* Hair Preparation which has ever been introduced in our market. A combination of Stimulating Spirits and Oil, affording an agreeable *Hair Dressing*, leaving the scalp perfectly free from dandruff, and causing the Hair to have a *rich glossy appearance.* Two articles in one. A fine "*Hair Dressing*," and a never-failing Restorative for the *Bald* and *Gray.*—Read the following letter:

ST. LOUIS, MO., June, 1859.

MR. HENRY REYNOLDS,—*Dear Sir:*—I hereby certify that my hair having become *gray*, I used, at your request, HEIMSTREET'S INIMITABLE HAIR RESTORATIVE, (prepared by W. E. HAGAN & Co., Troy, N. Y.) for several weeks. My hair was in that time restored to its original color, with all its luxuriance and beauty; and I will be much pleased to recommend the article, personally, on any and every occasion, as I know it has merits that the Proprietors do not claim for it in their circulars. Respectfully yours,

SCHOOL COMMITTEES.—The first and third School Districts in Portsmouth held their annual meetings on Friday evening; and the second district on Saturday afternoon; they chose the following committees:

District No. 1.—Horace Webster, John S. Harvey, John H. Bailey, Oliver F. Gerrish, James Garland.

District No. 2.—R. O. Treadwell, L. D. Spalding, S. H. Goodall, N. F. Mathes, J. M. Edmonds, A. J. Patterson, A. Sherburne.

District No. 3.—John E. Rider, Woodbury Gerrish, Benjamin Russell, Richard Walden, Samuel Clark, Warren Rand, Langdon Whidden.

The High School Committee are Horace Webster, R. O. Treadwell, and John E. Rider.

P. S.—The election of School Committee in the second district, we learn, is considered illegal, on account of several ballots having only the initials of the Christian names, instead of being written in full.

If illegal, the choice rests with the Board of Aldermen, who will doubtless confirm the choice.

☞ The School at Portsmouth Plains, which has been for a year and a half under the care of Rev. Samuel Hoyt, gave an exhibition of scholarship, elocution and singing, on Friday evening last, which was very interesting and pleasant to the spectators and friends of the school, and highly creditable to the teacher and scholars, between whom there appeared the most hearty co-operation and mutual good understanding.

For the Chronicle.

GAS PIPES AND SUGAR.—*Messrs. Editors:*—I see that the Gazette finds fault with the new tariff, in respect to two articles, viz. that the duty is high on gas pipes and negro blankets. Perhaps it may be so;—our own iron-founders can make as many as we want, and as good as need be.

The people of New Hampshire and Maine do not buy negro-blankets,—and if they are wanted in South Carolina, they can get them there under *their* new tariff, when they get it ready.

But the people of New Hampshire and Maine do buy sugar, every family almost. And the new tariff *reduces* the duty on sugar.—The price, by retail, was *lowered* here recently, in part because of the reduction in the duty.

In Portsmouth, where *one* person will pay higher for a gas-pipe, at least *twenty* persons will pay a lower price for sugar.

BOB SHORT.

☞ Some changes of time are made on the Eastern Railroad, this day, so that the afternoon trains from Boston and Portland meet in this city at *half-past five.*

☞ From Mr. Shores' bookstore, we have a sample of the Mount Vernon Initial Stationery, viz., a case containing 1 quire paper, 4 sizes, ruled and stamped with initial; 25 envelopes, stamped with initial; 6 pens; 1 penholder; all for 25 cents.

☞ An advertiser, whose card has been in the Chronicle every day for eight years, has just told us that every *dollar* he has paid for advertising has brought back *ten.*

NEW YORK, March 30.—The Herald's Washington correspondent says the government has finally determined to abandon Fort Sumter as soon as a vessel to take Anderson's command can reach Charleston harbor. At last accounts the garrison had only supplies for a few days.

It is positively denied that any order has been given for the reinforcement of Fort Pickens.

The Times' dispatch says Judge Burton of Ky. will decline the Chief Justiceship of Dacotah, and will probably receive a better appointment.

Minister Corwin goes to Mexico in the steamer Tennessee, from New Orleans April 14.

The Postmaster General has issued orders for a supply of letter paper to be cut, gummed and embossed with three-cent postage stamp, combining in one both letter sheet and envelop.

NEW YORK, March 30.—Gen. Miramon who arrived in the Quaker City, it is said, is en route for Spain to urge the acquisition of Mexico.

Prince Alfred left the Barbadoes on the 12th for St. Vincent.

Orders have been received to get the storeship Release ready for sea. It is believed that she will take surplies to the Gulf Squadron.

FROM OUR SOUTHERN GEOGRAPHY.—*South Carolina.*—A vast empire, bounded on the North by the Arctic Ocean, East by Fort Sumter, South by the Tortugas, and West by the Pacific. The population is limited, the productions incalculable, its resources inexhaustible. The people are happy because the better half of them are slaves. Its chivalry awes the world by valiant deeds; its navy defies the battle and the breeze.—*Vanity Fair.*

☞ It is said that there is a great scarcity of hay at Deer Island, in many instances the cattle having had no hay for ten days, being kept alive by browse and a little meal.

☞ Wm. B. Randolph, First Lieutenant in the revenue service, stationed at Key West, has been promoted to the rank of Captain by the President of the United States for doing his duty as a loyal officer to the flag of his country and the Union.

CONFEDERATES AND UNITED STATESMEN.—The southern recessionists must be admitted to be blest with at least the philosophical virtue of self-knowledge. They term their new league the "Confederated States of America." Thus they call themselves by what they doubtless feel to be their right name. They are confederates in the crime of upholding slavery. A correct estimate of their moral position is manifest in that distinctive denomination of theirs—"Confederate States." This title is a beautiful antithesis to that of the United States of America. The more doggedly confederate slave mongers combine, the more firmly good Republicans should unite. *Punch.*

☞ The venerable Judge Lemuel Shaw died in Boston Saturday morning, aged 81.

Would you save yourself from suffering after eating, or from acidity of the stomach, or burning sensation or indigestion? Use Herrick Allen's Gold Medal Saleratus.—Never use soda if you can procure this article. It will strengthen weak stomachs and relieve dyspepsia; is a saving in the quantity of flour, &c. Try it. Grocers and Druggists most all sell it.

Sold at wholesale, by Israel Nash & Co., Boston; and Sumner, Swasey & Currier, Newburyport.

A Distressing Cough, causes the friends of the sufferer as much pain as the sufferer himself. *Dr. Wistar's Balsam of Wild Cherry* will certainly cure coughs, colds, arrest consumption, and that speedily. When did it ever fail?

DEATHS.

GROVER & BAKER

SEWING

MACHINES.

TO THE LADIES.

CHARLES T. EMERY,

No. 10 Market Sq., Portsmouth,

Having been appointed

SOLE AGENT IN PORTSMOUTH

for the sale of the celebrated and unrivalled Noiseless

GROVER & BAKER

FAMILY AND MANUFACTURING

Sewing Machines,

would invite especial attention to the same.

THE GROVER & BAKER SEWING MACHINE makes the only seam formed by a Sewing Machine, in which each stitch is independently locked, and without dependence on other stitches for strength; and the only seam that will admit of the thread being cut at every fourth stitch without injury to the seam in wear.

THE GROVER & BAKER SEWING MACHINE is adapted to all varieties of fabrics, sewing equally well the finest Swiss Muslin or the heaviest cloth or leather, and requiring no adjustment for any kind of sewing other than the adaptation of needles and thread.

THE GROVER & BAKER SEWING MACHINE sews from ordinary spools without rewinding, and fastens its own seams, thereby saving time and thread It will sew common spool cotton, silk and linen thread with equal facility.

THE GROVER & BAKER SEWING MACHINE is so simple that an intelligent child of ten years can readily learn to operate it. It is more easily kept in order than any other machine, and need not be taken apart to be oiled.

THE GROVER & BAKER SEWING MACHINE makes the only stitch that cannot be injured by washing and ironing, and the only stitch that forms an elastic and durable seam. Fabrics put together with this stitch may wear out and drop to pieces from original weakness, or hard usage, but come apart or give way at the seams, they cannot; they will hold together when the cloth or calico around them hangs in rags and tatters.

Every Machine Warranted.

PRICES FROM $40 UPWARDS.

☞ Be sure to call and examine.

I have also been appointed agent for

THE UNIVERSAL HEMMER,

Which can be attached to any machine, and will turn a hem from 1-16 inch to 2½ inches, without previous basting.

PRICE $5.

ALSO ON HAND, A LARGE AND SELECT ASSORTMENT OF

WATCHES, JEWELRY,

—AND—

SILVER WARE,

Which I invite my customers and the public to call and examine, feeling assured that I can offer

AS LARGE AN ASSORTMENT,

AND SELL AS REASONABLY,

As can be Purchased Elsewhere.

LIFE INSURANCE.

"IN THE MIDST OF LIFE WE ARE IN DEATH."

The strong man often falters, and falls in the midst of the hurry and business of life. The wise man maketh provision for those whom he loveth, against the liability to accident and death.

THE

MUTUAL LIFE INSURANCE CO

Of New York,

with an accumulated capital of over

SEVEN MILLION DOLLARS,

Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually, or annually*, at the option of the insured.

The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.

No reflecting man can sit at his fireside with his young family about him, and feel at ease:—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

For tables of rates, or any other information, apply to

Agent of Mutual Life Ins. Co., of New York.

TOWN ROADS AND BRIDGES.—At the recent annual town meeting at Hanover, N. H., J. S. Woodman, Professor of Civil Engineering in Dartmouth College, made some suggestions in regard to the best way of managing the town roads and bridges, which the Selectmen considered so important that they authorized him to print them in connection with their report. The plan he suggests will be of interest to the tax payers in all our towns. It is as follows:

"Let a suitable surveyor be appointed for each district for three or five years. Let the necessary tax for summer and winter be fixed for the same period and collected like other taxes. Let such a person be made surveyor of the district at the college, a shall be qualified and willing to address himself to the subject of road making and such other branches of engineering as are most useful to the community. Let him be appointed Town Engineer for the same period, with a small annual salary, paid proportionately from the road money of the districts. Let the pay per day for all those officers, while actually occupied upon their duties, be fixed beforehand. Let particular accounts of receipts and expenditures, showing times, places and persons, be kept and deposited annually with the town records. Let him have certain powers, in connection with the surveyors and selectmen, of leaving portions of the money unexpended for any one year to use the next, or to be taken from one district to another, for important and desirable improvements.

Let the engineer examine all the roads in town two or three times a year with the district surveyor. Let him consult with and advise them on all their duties, and attend to all engineering work. Let him make it a special study to be informed on all subjects necessary to the conduct of office, and such other branches of engineering as are most valuable to the community. Let him endeavor to disseminate information, excite inquiry and create a proper interest in these much neglected matters.

The influence of good roads upon the comfort and general prosperity of the community is very great, and not appreciated. I have little doubt that some such system as this suggested, would put all these interests of the town, in a few years, in better condition with one half the usual expenditure, than the present system with the whole. The effect of one intelligent supervisor devoted to these particular subjects must be conspicuous.

Some such plan would require no change in the laws, or present expenditure, or considerable deviation from the general methods now pursued.—And there is little doubt it would bring about a marked improvement in our highways, such a general interest in the wholesome subjects of domestic and social comfort and convenience, and such an elevation in all desirable respects, as would well reward us and constrain other towns to follow our example."

THE STORM SOUTH.—The storm of the 21st appears to have been quite as severe in New York and vicinity as in this section. The city railroads were blocked and rendered impassable, while the steam trains in all directions were greatly obstructed, some of them being detained for ten to fifteen hours. On Long Island there were drifts nearly as high as the cars. Navigation on the Hudson was completely suspended.

A severe snow storm has also been experiences in Virginia and North Carolina. The Baltimore Sun says:

"A snow storm of unusual violence, especially for the spring of the year, set in on the night of the 18th in various portions of the South. At Wilmington North Carolina, and in southwestern Virginia, snow fell to the depth of four inches, and the merry jingle of sleigh-bells startled the 'oldest inhabitant;' while at Norfolk and Portsmouth, Virginia at noon on the 19th, it had been snowing thirty two hours. The ground was then covered to the depth of twelve inches. Not a few people then took upon the storm as an extraordinary and unexpected 'northern invasion.' The snow, however, under the genial influences of a bright sun rapidly 'evacuated.' Sleighs were out in both Richmond and Petersburg on Tuesday. The snow at Wilmington, N. C., was preceded by a violent storm of thunder and lightning. Early vegetables and fruits in that region, it is feared, are all killed."

CONGRESS.—In connexion with speculations as to the probability of an extra session of Congress is given the subjoined list of States which are yet to elect Representatives for the new Congress. I will be seen that the Border States are almost entirely unrepresented, from their practice of holding their elections with reference to the customary time for the opening of the session, and not with reference to the beginning of a Congress. The list of States yet to elect in a House of two hundred and thirty-eight members is as follows:

Connecticut,	1st Monday in April	4
Rhode Island,	1st Wednesday "	2
Virginia,	4th Thursday in May	13
North Carolina,	1st Thursday in August	8
Tennessee,	" "	10
Alabama,	1st Monday "	7
Kentucky,	" "	10
Texas,	" "	2
California,	Tuesday after 1st Monday in Sept.	2
Georgia,	1st Monday in October	8
Mississippi,	" "	5
Louisiana,	1st Monday in November	4
Maryland,	1st Wednesday "	6

Making in all 81 members yet to be elected, of whom 26 are from States which have seceded.

THAN SILVER OR GOLD,

BECAUSE

IT WILL RESTORE THE WEAK,

AND REINSTATE THE BLOOD IN ALL ITS ORIGINAL PURITY & VIGOR.

It is

PROF. O. J. WOOD'S

RESTORATIVE CORDIAL

—AND—

BLOOD RENOVATOR.

It is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted *as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach*, and tone up the digestive organs, and allay all nervous irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed of the purest vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. As a cure preventive and cure of

CONSUMPTION, BRONCHITIS, DYSPEPSIA INDIGESTION, LOSS OF APPETITE, FAINTNESS, NERVOUS IRRITABILITY, NEURALGIA, PALPITATION OF THE HEART, MELANCHOLY, HYPOCHONDRIA, NIGHT MARES, LANGUOR, GIDDINESS, AND ALL THAT CLASS OF CASES SO FEARFULLY FATAL, CALLED FEMALE WEAKNESSES AND IRREGULARITIES.

THERE IS NOTHING ITS EQUAL!

Also Liver Derangements and Torpidity, and Liver Complaints, Diseases of the Kidneys, or any general derangement of the Urinary Organs.

It will not only cure the debility following CHILLS and FEVER, but prevent all attacks arising from miasmatic influences and cure the disease at once, if already attacked.

TRAVELLERS should have a bottle with them, as it will infallibly prevent any deleterious consequences following upon the change of climate and water.

As it prevents costiveness, and strengthens the digestive organs, it should be in the hands of all persons of sedentary habits.

LADIES not accustomed to much out-door exercise, should always use it.

MOTHERS should use it, for it is a perfect relief, taken a month or two before the final trial—she will pass the dreadful period with perfect ease and safety.

There is no mistake about it!

THE CORDIAL IS ALL WE CLAIM FOR IT!

MOTHERS, TRY IT:

And to you we appeal, to detect the illness or decline not only of your daughters, before it is too late, but also your sons and husbands, for while the former, from false delicacy, often go down to a premature grave rather than let their condition be known; in time, the latter are often so mixed up with the excitement of business that if it were not for you they too would

Lately a rich Frenchman of Paris ran off with the fascinating wife of an American gentleman, to Switzerland. The unfortunate husband, instead of following up the absconding parties, installed himself immediately in a magnificent chateau owned by his rival, and wrote him the following letter as an explanation of the extraordinary step he has taken:—"You have appropriated my wife, and I have taken possession of your chateau. I hope you will have an agreeable journey in the land of William Tell, although it is somewhat cold in the midst of the Helvetian Glaciers. My wife, I hope, is taking lessons *de chant*. I have had your favorite hothouse of oranges removed because it obstructed my view of the beautiful little lake. I think you will appreciate my position, while you are enjoying your own."

A good story is told of an osler, who was sent to the stable to bring forth a traveller's horse. Not knowing which of the two strange horses in the stalls belonged to the traveller, and wishing to avoid the appearance of ignorance in his business, he saddled both animals and brought them to the door. The traveller pointed out his own horse saying—"That's my nag."

"Certainly, yer honor, I know that very well, but I didn't know which was the other gentleman's."

A BABY—The judge, jury and sentence of every well regulated family. A thing that squeaks at midnight, and will not be comforted by any quantity of sop. A biped, called by its mother "de ille rosy, posy, pinkum pink, bless its heart!" and very frequently "toted" to the tune of "Here we go up, up, up-e, and here we go down, down, down-e." By bachelors called "brat," and by Tupper, the proverbial philosopher, delicately alluded to as a "well spring," &c.

☞ Rosa Bonheur has for a while laid aside her pencil, and been trying her hand at sculpture, in which her labors have been attended with the most complete success. Her works consist of statuettes of animals in bronze.

IMPERIAL REVERSES. — When Louis Napoleon put down the Red Republic he was, according to the priest paper, the "Savior of Society." Now the Bishop of Poitiers calls him Pontius Pilate. According to that prelate he is the Pilate of the Creed; whereas only the other day the French clergy regarded him as the pilot who weathered the storm.—*Punch.*

SALT LAKE is probably the saltest body of water on the globe. Three barrels of this water are said to yield a barrel of salt. The water is of a light green color for about ten or twenty rods, and then dark blue. No fish can live in it, no frogs abide, and but very few birds are seen dipping in it.

☞ The Rome (Ga.) Southerner says four wealthy planters from Maryland, one owning a hundred slaves, passed thro' that place a few days ago, on their way to Alabama to purchase plantations, with the intention of settling in the Confederated States.

"Mary, my love," said a not very attentive husband to his wife at the dinner table, "shall I help you to a piece of the heart?" "I believe," said she, "that a piece of the heart was all that I ever got." There was a commotion among the dishes.

"Are dose bells ringing for fire?" inquired Simon of Tiberius. "No, indeed," answered Tibo; "dey ab got plenty of fire, and the bells are now ringing for water."

Mr. Seward said—and very truly:—"A Union upheld by force would be despotism." How much less despotism is it to break down a Union by force, and infidelity to official trust.—*Bath Times.*

BELLINGHAM'S
Celebrated Stimulating Onguent!
For the Whiskers and Hair.

The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the Agency for, and are now enabled to offer to the American people, the above justly celebrated and world-renowned article,

THE STIMULATING ONGUENT

is prepared by DR. C. P. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of

WHISKERS OR A MUSTACHE

in from three to six weeks. This article is the only one of the kind used by the French and in London and Paris it is in universal use.

It is a beautiful, economical, soothing, yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp, it will cure BALDNESS, and cause to spring up in place of the bald spots a fine growth of new hair. Applied according to directions, it will turn RED OR TOWY hair DARK, and restore GRAY hair to its original color, leaving it soft, smooth and flexible. The "ONGUENT" is an indispensable article in every gentleman's toilet, and after one week's use they would not for any consideration be without it.

The subscribers are the only Agents for the article in the United States, to whom all orders must be addressed.

Price One Dollar a box—for sale by all druggists and Dealers; or a box of the "Onguent," (warranted to have the desired effect,) will be sent to any one who desires it, by mail (direct,) securely packed, on receipt of price and postage, $1.18. Apply to or address

A VOICE FROM THE WEST!
FROM THE CLEVELAND PLAINDEALER

UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS
The celebrated New England remedy for
Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.

They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.

Dr. JAMES L. LEPEERE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."

E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, bound up my prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."

Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.

THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."

GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."

J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia, and general debility.

D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

AMENDING THE CONSTITUTION.

The numerous petitions sent to Congress, and the long debates in that body in respect to amending the Constitution in order to guarantee slavery, seem to be a waste of time, and entirely superfluous, inasmuch as no constitutional mode has yet been proposed, and probably will not be, for its amendment in either of the only two modes by which it can be amended, without a resort to a revolutionary measure. By the 5th article of the Constitution, Congress, whenever two-thirds of both Houses shall deem it *necessary*, shall propose amendments to the Constitution, and shall call a Convention for proposing amendments which shall be valid when ratified by the Legislatures of three-fourths of the several States; or Congress shall call a Convention for proposing amendments, which shall be valid to all intents and purposes, as part of the Constitution, when ratified by the Legislatures of three-fourths of the several States, or by Conventions in three-fourths thereof, as the one or the other mode of ratification may be proposed by Congress.

Congress may deem it expedient and necessary that more specific or other authority should be delegated to it by the people of the States, in order to carry out the objects of the Government; in which case, two-thirds of both Houses agreeing, a Convention shall be called;—or on the application of the people through their Representatives, by the Legislatures of two-thirds of two-thirds of the several States, it would be the imperative duty of Congress to call a Convention, in order that such amendments may be made as the general will of the people, expressed by their Representatives, may demand.

We thus see the wise precaution of the framers of that instrument to guard against any hasty amendments, and further, that no amendments can be made, after being specifically proposed, and, in the first instance, agreed upon, unless they shall be finally ratified by the Legislatures of three-fourths of the several States, or by Conventions of the people in three-fourths thereof. One or two years would doubtless elapse before any amendment could be finally ratified.

Under such circumstances the Slave States do not propose amendments. One reason probably is that they have no belief that the free States would agree to so reconstruct the Constitution that it should be based upon human servitude, instead of freedom. And it is very certain that two-thirds of both Houses of Congress do not deem it "necessary" to amend it at all, especially for an inglorious purpose. The late Judge Story said :—

"Of a constitution so wisely contrived, so strongly raised, and so highly finished, it is hard to speak with that praise which is justly and severely its due; the thorough and and attentive contemplation of it, will furnish its best panegyric. To sustain, to repair, to beautify this noble pile, is a charge intrusted principally to the people and their constitutional representatives in all the branches of the government."

Mr. Jefferson, in laying down the most essential principles, speaks of the "preservation of the General Government *in its whole constitutional vigor*, as the sheet-anchor of our peace at home, and safety abroad." Mr. Madison speaks of the "support of the constitution, which is the cement of the Union, as well in its limitations as in its authorities."

From Mount Vernon's silent tomb, we seem to hear a voice of warning and admonition—it is the voice of the "Father of his Country" to all who still enjoy the blessings of their free institutions, to guard, protect, and defend, in its original purity and vigor, the glorious Constitution as the palladium of their liberties. *Esto perpetua.*

PAX.

There is probably not much disposition among the free States to change the constitution,—but in the others, many people sigh for *change*, and are very likely to get more than they bargained for.

The Columbus (Ga.) Sun ventures the assertion that the disunionists would unhesitatingly prefer a constitutional monarchy rather than return into the Union.

Exactly so.—Some one of their number to be king,—and the *constitution* to be regarded when the slave power is pleased, and disregarded when it is displeased.

TAKING A "NECESSARY OF LIFE" AT THE SOUTH.—In Georgia, the price of brandy has advanced to fifteen cents a glass, in the bar-rooms, in consequence of the new southern tariff on imported liquors.

The more ladies practice walking, the more graceful they become in their movements.

☞ D. U. Martin, the vegetarian wheryman, (now of the firm of Butler & Martin, phrenologists, at Boston,) happening to take cold recently, was threatened with a fever; he tried a few doses of starvation, eating nothing but a small pear from Sunday morning till Friday afternoon, when his pulse was down to 38; he then ate three common sized apples, and in two hours after his pulse was up to 50. He had lost some 14 pounds in this time, and in a week afterwards he had gained 20 pounds, and was fully restored to health without a particle of medicine. His chief diet is apples, and he has found no difficulty in keeping warm on that fare the past winter, even camping out in the woods and sleeping on a snow bed at night, with a rubber coat and blanket.

☞ At the Unitarian Church in Bangor, after a portion of the congregation had assembled for the services of Good Friday Eve, the evergreen trimmings and wreaths with which the great chandelier was decorated took fire from one of the gas burners, and a pyramid of flame at once arose from ten to fifteen feet high, and the fire dropping upon the pews beneath, a conflagration involving the entire building was for a few minutes threatened. Water and snow were procured as soon as possible, but several of the pews were nearly destroyed before the fire could be extinguished.

☞ At a trial of speed, in New Orleans, on the 8th and 9th ult., Ethan Allen and Reindeer trotted to saddle, and Emma and Gladiator paced to wagons. The purse was $2000, best 3 in 5 mile heats, "to go as they pleased"—that is, as to rig or harness, of course. They went *seven* heats. Emma won the first, sixth and seventh heats, and the money; Ethan the second and fifth.—Time — 2:32, 2:24, 2:43, 2:44, 2:39, 2:36, 2:35. The track was heavy, which was against Ethan's short gait, and in favor of the high-blooded Wagner pacing mare.

☞ A beautiful Congregational Chapel was lately dedicated in the westerly part of Portland, costing, with the land, $5000, and having an invested fund of $2000. It is the fruit of a legacy from a young lady of High street Church to her pastor, Rev. Dr. Chickering, for a free church, and to accommodate a Sunday School in which she had been a teacher. The original amount has been doubled by private subscriptions, and a substantial and elegant building of stone and brick, with a slate-roof and spire, erected the past season under the personal superintendence of the legatee, who has now placed the property, without a dollar of indebtedness, in the hands of a Board of Trustees, charged to carry out the instructions of the testatrix.

☞ Parson Brownlow, of the Knoxville, (Tenn.) Whig, does not seem to desire So. Carolina's return to the Union. He says:

"South Carolina has drawn more money from the National Treasury than any other State in the Union, according to her population. She has had a larger representation in Congress than any other State of no greater white population. And she has paid less into the National Treasury than any other State of equal population, consuming less of foreign importations. She has been a tax upon the General Government, and to get rid of her and her burdens is a God-send. Let her go, and God in his mercy forbid that she should ever return!"

☞ The Newburyport Herald mentions another victim of the North Church fire.—On Sunday morning, Mr. Henry Goodwin, an operative in the Bartlett Mills, and a fireman, died from inflammation of the bowels, caused by a strain received at the North Church fire. He was about twenty years old, of steady habits and excellent character. The incendiary has another death to answer for.

FRANK SANBORN, the Concord schoolmaster of attempted abduction fame, occupied the Music Hall, Boston, on Sunday. He sketched the history of slavery in St. Domingo, and argued that its abolition there was a political necessity, as it would ultimately be in this country. To charge servile insurrection to abolitionists he said, is as reasonable as it would be to accuse the board of health with inventing cholera.

COTTON FROM THE SOUTH.—Within three days last week, eighteen thousand bales of cotton have passed through Buffalo *en route* for Boston. The cost of transportation per bale from Memphis to Boston is $4,40. This is cheaper than it can be shipped via New Orleans, and the difference in time is about thirty days in favor of the Northern route.

☞ Four hundred and thirty-seven deceased Chinamen were returned to China by the ship Moonlight, from San Francisco. They are not dead-headed as one might suppose, but their ghostly passages are paid by the Companies that brought them out and engaged to return them dead or alive.

TEXAS.—*Galveston, March* 29. — The Texas Convention ratified the Southern Confederacy, their being only two negative votes, and adjourned *sine die*, without referring the question of its adoption to the *people*. All is quiet in Texas.

VICIOUS "ANIMALS."—The "Spirit of the Times" of this week has an elaborate and interesting article on "Rarey's System of Horse Taming," from the pen of "Acorn," its valuable Boston correspondent. That experienced writer makes the following reflections on the application of the "system" to two branches of the human family :—

I conscientiously believe that Mr. Rarey's system of kindness, affection and gentleness, can be applied with success to members of the human family; the only material difference in treatment would be to dispose of *the strap*, when the system is applied to the latter. Many children have bad tempers, vicious tricks, and unruly propensities, through improper and harsh treatment, whom, with kindness, affection, gentleness, and patience, would become mild and amiable.

The same with women: I have known many a high-spirited, proud, but kind-hearted and affectionate woman, converted into a termagant by harsh, unkind, unongenial husbands; the result of which to both parties, is a life of unhappiness, domestic strife and misery. In this relation, the philosophy, the theory, and the practice of Mr. Rarey's humane system, can be studied and carried out to meliorate the condition of the human family, as well as that of the animal creation.

The "irrepressible African" threatens to set the new Negro Confederacy by the ears, even at this early stage of its existence. The Mongomery Congress, fully realizing that the corner stone of the new confederacy is slavery, were of course ready to promote direct immigration from Africa, but Jefferson Davis saw at once that such a step would alienate the border slave-breeding States beyond hope, and so put his official veto upon the scheme. The South Carolinians are indignant at the premature strangling of their darling project, and threaten to repudiate the new government. On the other hand, those who are opposed to the reopening of the African slave trade, dilate upon the effrontery of its advocates in thrusting the obnoxious measure upon the public at every opportunity. Thus there are already two parties on the slave question in the new oligarchy, and an "irrepressible conflict" is destined to exist between the advocates of cheap negroes and the opponents of the slave trade.

☞ An official investigation into the practices of the New York harbor masters, shows that they have been for years in the habit of demanding and obtaining money from merchants and shipmasters, for the privilege of desirable berths at the wharves for their vessels.

☞ An elegantly bound Bible was presented to the Star in the East Lodge of Free Masons, by the ladies of Exeter, on Thursday evening of last week. A letter from the lady donors was read, and an appropriate reply was made by Charles G. Conner, Esq., Master of the Lodge.

☞ Albert Henry Randolph, son of Dr. P. B. Randolph, while playing near a saw mill, at Shaker Village, Canterbury, on the 28th inst., had his hand drawn in between two moving pieces of lumber, and crushed so badly that amputation was rendered necessary.

ILLINOIS BANKS IN DISREPUTE.—*Chicago, Ill., March* 30.—The banks of this city throw out on Monday the notes of 32 Illinois banks. The banks have a circulation of about three and a half millions, based upon *Mississippi, Louisiana* and Tennessee stocks. The present market value of the securities of these notes is 80 to 90 cents on a dollar.

Thomas P. Shallcross, Special Agent of the Post Office Department, was removed to-day by order of President Lincoln, for alleged arrears running through a longer period than the present quarter.

☞ It is said that upwards of forty police officers, charged with drunkenness, disorderly behavior, unofficer-like conduct, neglecting their duties, etc., were put on trial before the New York Board of Police Commissioners, on Saturday.

☞ The Belfast Age states that 111,000 bushels of potatoes have been purchased in that city since last fall, for shipping. An average price of forty-six cents per bushel has been paid.

☞ The Indians are making great havoc among the people of Texas, killing some and running off with stock. Cortenas was waiting for the departure of the troops to renew his raids on a larger scale.

☞ The Daniel Webster landed two companies of troops each at Fort Jefferson, Tortugas, and Fort Taylor, Key West, on Saturday.

☞ Hon. Henry R. Jackson declines the appointment of Judge of the District Court for the district of Georgia, tendered him by President Davis.

☞ The Baltimore City Council have voted an appropriation of $30,000 for the purpose of giving the "unemployed" of the city some work to do on public parks.

☞ Governor Pickens of South Carolina is suffering from the gout, and quite ill from recent nervous excitement.

☞ Rev. James J. Peck of the Baptist Church in Walnut street, Exeter, is to close his pastoral labors there, next Sunday.

☞ Rev. Jonathan Curtis, formerly of Epsom, N. H., died recently at Chicopee Falls, Mass., aged 73.

The worst kind of tax on a man's temper—tacks left sticking up inside his boots.

3 DAYS LATER FROM EUROPE.

The steamship Africa, from Liverpool 16th, via Queenstown 17th, brought £110,000 in specie.

The Duchess of Kent, mother of the Queen, died March 9.

The London Times asks where the Confederate States are to negotiate their proposed loan, seeing that one-fifth their population is pledged to repudiation. It says President Davis is a man who laughed at the dupes in the Mississippi bonds.

The details of the surrender of the Citadel of Messina show that it was unconditional. After four days firing, over 5000 men were made prisoners, and 300 cannon taken. Civatella del Tronto would not be able to resist much longer.

The Italian Chamber of Deputies have unanimously approved of the assumption of the title by Victor Emanuel of King of Italy.

Warsaw continued apparently tranquil, but a late dispatch says the excitement was unabated. The Polish deputation said they accepted the Emperor's rescript, but were far from being satisfied.

In one of the Washington churches, last Sunday, a pretty occurrence took place.—After service, a young man who carries the collection plate, as usual, put his hand into his vest pocket to place upon it a piece of money before starting to collect. He dropped as he supposed, a quarter on the plate, and without looking at it, passed around among the congregation. Instead of silver, however, he had inadvertently placed a conversation lozenge in the centre of the plate, and all were astonished at seeing the lozenge with the words staring them in the face, "Will you marry me ?"

WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, no remedy has performed such wonderful and remarkable cures of the *Throat, Lungs and Chest,*—of *Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma,* or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam.* So generally acknowledged is the superior excellence of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.

Editor of the Norway Advertiser, gives his opinion of this great remedy substantially as follows:

NORWAY VILLAGE, Me., Aug 4, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—For a remedy of such undoubted merit as DR. WISTAR'S BALSAM OF WILD CHERRY, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial and be relieved. Several years since I first became acquainted with this Balsam, at a time of distressing cough and cold, which took such firm hold of my lungs as to render me unfit for business, and its operation proved a speedy and permanent cure, after trying various other remedies in vain

In our town this remedy is a great favorite with many, and if all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.

Yours respectfully, GEO. W. MILLET.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great irritability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. feb28 daw3m

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

To MARRIED LADIES it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

For full particulars, get a pamphlet, free, of the agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containg over 50 pills, by return mail. feb28 daw3m

HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE.

The following is a sample of many letters daily received by W. E. HAGAN & CO., Troy, N. Y., who are the Manufacturers and Proprietors of "HEIMSTREET'S HAIR RESTORATIVE," an article of which many of our first citizens speak as being the *cheapest and best* Hair Preparation which has ever been introduced in our market. A combination of Stimulating Spirits and Oil, affording an agreeable *Hair Dressing*, leaving the scalp perfectly free from dandruff, and causing the Hair to have a *rich glossy appearance*. Two articles in one. A fine "*Hair Dressing*," and a never-failing Restorative for the *Bald* and *Gray*.—Read the following letter:

ST. LOUIS, Mo., June, 1859.

MR. HENRY REYNOLDS,—*Dear Sir*:—I hereby certify that my hair having become *gray*, I used, at your request, HEIMSTREET'S INIMITABLE HAIR RESTORATIVE, (prepared by W. E. HAGAN & Co., Troy, N. Y.,) for several weeks. My hair was in that time restored to its original color, with all its luxuriance and beauty; and I will be much pleased to recommend the article, personally, on any and every occasion, as I know it is a merits that the Proprietors do not claim for it in their circulars. Respectfully yours,

☞ On Sunday last, the rite of baptism by immersion was administered to four persons, at the foot of Salter street, by Rev. W. Pratt, of the Second Advent Church. A large crowd was in attendance, a portion of which seemed bent on making as much noise as possible, to the annoyance of those who regard order and decency.

APRIL 1ST.—The following colloquy occurred on one of our streets, on Monday, between a Mickey and his heir apparent, of about eight years.

Father—"Pat, go into ther house—yer mither wants yer."—*Son*—"An wat duz she want ?"—*Father*—"I dunno; go in wid yer."—*Son*—"Arrah, there, an ye can't come none of yer April fools on this child, —not to-day."

Another.—"Last week was bad weather for the race, wasn't it ?" What race ?"—"Why, the human race !"

WASHINGTON ITEMS.

WASHINGTON, March 29.—[Dispatch to the N. Y. Times.]—The strenuous efforts heretofore made to prepare Maryland to join in the secession movement, are admitted now to have failed utterly. An intelligent citizen of that State, now here, informs me that there need be no distrust of the loyalty of the masses of the people there. It is very well know that the secession movement in Maryland was led and controlled by a small clique of men of desperate fortunes, political and personal, who desired revolution and anarchy, in the hope that in some way opportunity might be afforded them to retrieve their individual ruin. Having failed, they are worse off than before. It is a well known fact that their organ, the Baltimore Sun, has been seriously crippled in circulation and business by its disunion services.

WASHINGTON, March 31.—It is understood that the further consideration of the Diplomatic and Consular appointments will be deferred to give time for the consideration of other matters by the President. It is said that no uneasiness is felt by the Confederate State commissioners, either in regard to the evacuation of Fort Sumter or the reinforcement of Fort Pickens, and that they are satisfied on both points.

The force in the census and pension bureaus will be reduced by the first of July to the extent of 80 or 100 clerks, as the legal necessity for their further employment will then cease to exist. Removals and appointments of clerks in other branches of the public service continue, including four on Saturday in the Adjutant General's office.

WASHINGTON, March 31.—A strong impression prevails here that the Secretary of the Treasury will not accept bids for the proposed loan, unless within a small fraction of the fair market rates.

The news from Virginia to-day is indicative of secession.

The following Postmasters for New Hampshire have been appointed: David A. Watkins, Newport; Clinton Blake, Hill; Oliver M. Brooks, Dalton.

NEW YORK, April 1.—A dispatch to the World says orders have been forwarded by the Treasury to the principal cities on the Mississippi and Ohio rivers, instructing the Surveyors to appraise all foreign goods not having paid duties.

A dispatch to the Tribune says the opponents of secession in the Richmond Convention have a clear majority of 20.

A Montgomery dispatch to the Tribune says if Sprague is elected Governor of Rhode Island, that State leaves the Union and becomes the commercial depot and summer residence for the Southerners.

The Tribune says that at several recent meetings of the Cabinet, an energetic policy relative to Fort Sumter was urged, and the idea of reinforcement is now entertained in quarters hitherto regarding it as impracticable. Several leading naval offices believe that Fort Sumter could be reinforced with an ordinary risk by steamers in the night.

A dispatch to the Herald says Tortugas and Key West have been reinforced by troops from Texas, and Fort Pickens will also be reinforced without delay.

In consequence of the disaffection about the new tariff, the collection of the revenue, and the movements at Forts Sumter and Pickens, an extra session of Congress will be called.

NEW YORK, March 31.—Key West advices to the 26th have been received. The steamer Crusader was there and would soon sail for Pensacola with stores for the fleet. The steamer General Rusk had landed troops from Texas at Forts Jefferson and Taylor. Both of these forts are now on a war footing, with all sorts of supplies for a year.

Judge Marvin, of the U. S. District Court of Florida was about to resign and remove to New York to attend to Underwriters business in the Courts. He is a strong Union man.

RICHMOND, Va., March 31.—The House was in session all last night, considering the joint resolution relative to the movement of troops and arms within the State, growing out of the proposed transfer of guns from the Bellona Foundry. The Senate's amendments were finally passed, authorizing the Governor to call out the public guard to arrest the contemplated removal, and directing him to employ a needful force to resist any attempt to remove the same beyond the reach and control of the State government.

NEW YORK, April 1.—Sidney (New South Wales) dates of Jan. 21 state that ship Superior of New Bedford was seized at Treasury Island Sept. 16, by natives. All but six of the crew were killed, and the vessel burnt. The six were made captives, and Capt. Mair, of British schooner Ariel, succeeded in obtaining the release of three, the others still remaining in captivity.—When burnt, the Superior had on board 150 bbls. sperm oil and 150 bbls. whale oil. The total number murdered was 26.

In the northern portion of Mississippi people are suffering for the want of food In Smith county recently the Court appropriated $5000, and sent an agent to Illinois to purchase corn. Upon his arrival in that State the people gave him supplies for nothing; Springfield contributing 13,000 bushels, Jacksonville 10,000 bushels, and Peoria 2000 bushels. A southern paper in recording this calls it "international kindness."

A couple of travellers stopping at the Hotel Francais, in the city of Cordova, the capital of the Argentine Confederation, were surprised and amused by noticing on the bill of fare, "Eggs on horseback." Determined to know what it meant, they called for the equestrian dish, when it was steak with two eggs on the top of it.

Cigarittos done up in very neat wrappers, each one ornamented with a flag of the Confederated States, have just been imported into New Orleans from Havana.

GROVER & BAKER

SEWING MACHINES.

TO THE LADIES.

CHARLES T. EMERY,

No. 10 Market Sq., Portsmouth,

Having been appointed

SOLE AGENT IN PORTSMOUTH

for the sale of the celebrated and unrivalled Noiseless

GROVER & BAKER

FAMILY AND MANUFACTURING

Sewing Machines,

would invite especial attention to the same.

THE GROVER & BAKER SEWING MACHINE makes the only seam formed by a Sewing Machine, in which each stitch is independently locked, and without dependence on other stitches for strength, and the only seam that will admit of the thread being cut at every fourth stitch without injury to the seam in wear.

THE GROVER & BAKER SEWING MACHINE is adapted to all varieties of fabrics, sewing equally well the finest Swiss Muslin or the heaviest cloth or leather, and requiring no adjustment for any kind of sewing other than the adaptation of needles and thread.

THE GROVER & BAKER SEWING MACHINE sews from ordinary spools without rewinding, and fastens its own seams, thereby saving time and thread. It will sew common spool cotton, silk and linen thread with equal facility.

THE GROVER & BAKER SEWING MACHINE is so simple that an intelligent child of ten years can readily learn to operate it. It is more easily kept in order than any other machine, and need not be taken apart to be oiled.

THE GROVER & BAKER SEWING MACHINE makes the only stitch that cannot be injured by washing and ironing, and the only stitch that forms an elastic and durable seam. Fabrics put together with this stitch may wear out and drop to pieces from original weakness, or hard usage, but come apart or give way at the seams, they cannot; they will hold together when the cloth or calico around them hangs in rags and tatters.

Every Machine Warranted.

PRICES FROM $40 UPWARDS.

☞ Be sure to call and examine.

I have also been appointed agent for

THE UNIVERSAL HEMMER,

Which can be attached to *any* machine, and will turn a hem from 1-16 inch to 2½ inches, without previous basting.

PRICE $5.

LIFE INSURANCE.

"IN THE MIDST OF LIFE WE ARE IN DEATH."

The strong man often falters, and falls in the midst of the hurry and business of life. The *wise* man maketh provision for those whom he loveth, against the liability to accident and death.

THE

MUTUAL LIFE INSURANCE CO

Of New York,

with an accumulated capital of over

SEVEN MILLION DOLLARS,

Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually*, or *annually*, at the option of the insured.

The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.

No reflecting man can sit at his fireside with his young family about him, and feel at ease—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

as at any other store in the city.
Portsmouth, March 19, 1861.

NOTICE.

Having relinquished to ALFRED STAVERS my interest in the GROCERY BUSINESS, I would respectfully return my thanks to my friends and the public for their liberal patronage, requesting a continuance of the same to my son, who will be pleased to wait on them at the old stand, No. 12 Market street, west side.
JOHN STAVERS.
Portsmouth, March 16, 1861.

The subscriber having taken the Stock and Stand as above, offers for sale a full and general assortment of all the articles usually kept in a first-class Grocery Store, wholesale and retail, at prices as low as can be found elsewhere. The patronage of his friends and the public is respectfully solicited. ALFRED STAVERS.

From the Journal

IT MUST BE SO.—Mr. Breckinridge, late Vice President, and the secession candidate for President in 1860—now a Kentucky Senator, has made a speech in the extra session. He mustn't disappoint his friends, and he hasn't. "Look," he says, "at the present *anxious* and distracted situation of the country." He likes the general spirit of the Inaugural, but "what the President deems his duty to pursue must result in blood-shed, unless essentially modified." So says John Tyler of Virginia, and Mr. Mason agrees with Mr. Tyler and Mr. Breckinridge. These gentlemen and Mr. Breckinridge seem to speak for other border States They must have *their rights*—all well enough when in the majority, but insufferable when in a minority! If the 27 undertake to coerce, Virginia, and probably other States will—go over—to help their *distressed* brethren in the seceding States. It is very sad that they had to rebel, being a minority—we are really sorry—but if you don't let them do just what they choose, as partners of a firm they have violently dissolved, taking with them what property they could get held on, instead of first declaring a quiet dissolution and division—why we shall feel obliged to go over with them! Mr. Hale of N. H. very quietly told Mr. Breckinridge that he "was unable to understand the charge of Northern aggression, and he attributed all the clamor to the fact that the *outs* are now *in*, and the *ins*, *out*! nothing else on earth!" Well, we can afford to let Tyler and Co. *talk*, and their Masters, the people, who have a deeper interest, may consent to another Convention; but further secession will not be submitted to. There are too many and too great interests at stake, for Virginia to lay open her extensive frontier to the inevitable consequences.

Then we have the very polite, forward and gentlemanly Senator Douglas, well known throughout the country, who danced with Mrs. Lincoln on the evening of the inauguration, and who a very few days after, in the Senate, expressed his great dissatisfaction at the state of things, (as might be expected;) and, leader like, calls for information, that he and others may be enlightened as to the course of policy to be pursued by the new administration. He is dictatorial, as if it was expected his great failure had qualified him for, and so it was expected of him to see that the Douglas party, particularly, were not further *damaged*. Senator Wilson with other Republican Senators had remained silent for several days, but at length deemed it proper to remind the gentleman of his own position, in one of the severest tissue of remarks in reply, which the Senate had heard for a long time, "I beg leave to say to that Senator, that here and in the country he is clothed with no power to dictate to us or any considerable body of men. He stands here quite alone, and he is hardly more power before the nation.—The administration will take its own time to declare its own policy. That Senator assumes to be the alarmist of the country, and he is about the only man that is alarmed. The administration, now responsible for the Government, will, in its own time, and in its own way, declare its own policy, and do what this nation placed the President in power to do what this nation expects the administration to do, and disclose its policy through men in whom it has *confidence*." Mr. Douglas, so long a majority dictator, really does not know how to behave in his new position.

VIRGINIA.—The secession leaders in Virginia find that they will have to resort to other than fair and honest means in order to get the "Old Dominion" out of the Union. They cannot get the Convention to pass a direct ordinance of secession, notwithstanding the important advantages which Ex-Gov. Wise and others of his school are sure will result from going into the "Southern Confederacy." They are now pressing the adoption of the Arkansas plea, which submits to the people secession or co-operation. Even if this gets through the Convention, the people will show their devotion to the Union by an overwhelming vote. It is thought if Ex-Gov. Wise should write to the people another letter of about his usual length, the cause of the Union would be strengthened and the majority against secession be considerably increased.

When our State Senate lacks fire in its debates, they will only have to stir up the minority to create a flame. Our Democratic friends did not probably have any incendiary intent in their selection of candidates for Senators, but it is a curious fact that the only two they elected bear the names of *Burn*-ham and *Burns*.

"LINCOLN WITH WHISKERS."—An excellent engraving, published by B. B. Russell of Boston, is for sale by Mr. Shores. See a copy in his window.

Messrs. Mason and Hunter, of Virginia, left the Senate and went home in the midst of Executive nominations, disgusted probably with secondary and unavailable influence.

ATWOOD'S

QUININE TONIC

BITTERS,

The Best Aromatic Tonic ever offered to the Public.

RECOMMENDED BY THE FACULTY

For Its Superior Medicinal Qualities.

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic* s, and cannot fail to meet the wants of the debilitated.

It is a mild tonic to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhea, dysentery and cholera morbus, the public may rest assured there is not can be any better general remedy.

One of the very best Physicians in Boston has said "*has it is the best preparation of Bitters that has ever been offered to the public.*"

Put up in half-pint as well as quart bottles, in order that all may contribute themselves of its superior merits.

For further particulars reference is made to the printed circulars.

SOMETHING MORE VALUABLE

THAN SILVER OR GOLD,

BECAUSE

IT WILL RESTORE THE WEAK,

AND REINSTATE THE BLOOD IN ALL ITS ORIGINAL PURITY & VIGOR.

It is

PROF. O. J. WOOD'S

RESTORATIVE CORDIAL

—AND—

BLOOD RENOVATOR.

It is precisely what its name indicates, for, while pleasant to the taste, it is revitalizing, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders system invulnerable to the attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all, so chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted *as to act in perfect accordance with the laws of nature*, and so gently to soothe the *stomach*, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly reliable in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combined, powerful to heal and soothing properties, and consequently can never injure. As a sure preventive and cure of

CONSUMPTION, BRONCHITIS, DYSPEPSIA INDIGESTION, LOSS OF APPETITE, FAINTNESS, NERVOUS IRRITABILITY, GENERAL DEBILITY, PITATION OF THE HEART, MELANCHOLY, HYPOCHONDRIA, NIGHT SWEATS, LANGUOR, GIDDINESS, AND ALL THAT CLASS OF EASES SO FEARFULLY FATAL, CALLED FEMALE WEAKNESSES AND IRREGULARITIES,

THERE IS NOTHING ITS EQUAL!

Also Liver Derangements and Torpidity, and Liver Complaints, Diseases of the Kidneys, or any general derangement of the Urinary Organs.

It will not only cure the debility following CHILLS and FEVER, but prevent all attacks arising from malaria, by eradicating once and cure the disease at once, if already attacked.

TRAVELLERS should have a bottle with them, as it will infallibly prevent any deleterious consequences following upon the change of climate and water.

As it prevents costiveness, and strengthens the digestive organs, it should be in the hands of all persons of sedentary habits.

LADIES not accustomed to much out-door exercise, should always use it.

MOTHERS should use it, for it is a perfect relief, taken a month or two before the final trial—she will pass the dreadful period with perfect ease and safety.

There is no mistake about it!

THE CORDIAL IS ALL WE CLAIM FOR IT!

MOTHERS, TRY IT!

And to you we appeal, to detect the illness or decline not only of your daughters, where it is too late, but also your sons and husbands, for while the former, from false delicacy, often go down to a premature grave rather than let their condition be known, the latter, if married are often so mixed up with the excitement of business that if it were not for you they too would drift on in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your sons and husbands will unerringly point you to PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR as the remedy which should be always on hand in time of need.

O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St Louis, Mo., and sold by all good Druggists. Price $1 per bottle.

Read what the Press say, after thoroughly testing the matter, and no one can have doubt.

PROF. WOOD'S Restorative Cordial and Blood Renovator is a genuine medicine of real merit, pleasant to the taste, and harmless to the system. While it purifies the blood and soothes the nervous irritation, it aids the organs of digestion to perform their functions, and resists the assaults of disease. It is a chemical compound so skillfully combined, that while it exhilarates it does not provoke the lassitude which usually follows excitement. A tonic composed exclusively of vegetable matter, it is absolutely beneficial, and no effects can possibly accompany its use. It is an infallible and speedy remedy for Loss of Appetite, Faintness, Nervous Debility, Neuralgia, Falling of the Womb, and other delicate diseases to which women are subject. For Sickness of the Stomach, Bilious Attacks, Liver Complaints, Costiveness, Dyspepsia, Consumption, and a host of evils flesh is heir to, it is a certain cure.—*St. Louis Morning Herald.*

PROF. WOOD'S RESTORATIVE CORDIAL.—It is recorded in the classics that Psyche was once sent to a climate warmer than the West Indies, to procure a sample of the beauty of Proserpine as a box. After some delay the messenger returned, and as soon as the top of the box was removed, out flew all the ills that flesh is heir to. Fortunately hope was found in the bottom of the box. Prof. Wood's Restorative Cordial' revives the recollection of its efficacy, for it invigorates the blood, aids the organs of digestion, imparts strength to the nervous system, and fortifies the citadel of health so as to bid defiance to the assaults of disease. It is a healthy tonic, composed entirely of vegetable productions, and while it is exhilarating as pure wine, no injurious results can possibly follow its use. It is recommended in the medical world, and those who are afflicted with loss of appetite, Dyspepsia, Consumption, Faintness, Neuralgia, Palpitation of the Heart, &c., will here find an infallible panacea.—*St. Louis Daily Express*

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR is, without doubt, the best tonic provided in the world. Those who have suffering from general debility, we would recommend its use, for it is pleasant to the taste, is strengthening to the system, and will once more to remove all impurities of the blood, and eradicate all traces of disease. It can be taken by the weakest stomach, while those in good health will at once feel its exhilarating power. We are confident that after using one bottle of this Cordial, none will be for a day without it.—*N. Y. Leader.*

A PURE, HEALTHY TONIC, and one free from the deleterious and injurious effects sure to follow those in ordinary use, has long been felt to be a desideratum in the medical world. Such a tonic, and one so skilfully combined from the vegetable kingdom as to act in perfect accordance with the laws of Nature, and thus soothe the weakest stomach, and at the same time allay nervous and other irritations, and tone up all the organs of which the human body is composed, is offered in Prof. Wood's Restorative Cordial and Blood Renovator. Hence it is rapidly gaining the ear of the Young. Reader, try it. Thousands have already done so; the testimony is universal in its favor.—*New York Atlas.*

☞ Before noticing a patent medicine, we have to be certain that it will prove itself to be all that it is recommended. And we would say that the Restorative Cordial and Blood Renovator of Prof. Wood will stand the test fully, and in fact it is without doubt the first article in the market for purifying the blood and strengthening the system. We have no hesitation in recommending its use to all.—*New Yorker.*

Dyspepsia Remedy

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupify.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.

One dose will remove all Bad Spirits.

One dose will cure Heartburn.

Three doses will cure Indigestion.

One dose will give you a good appetite.

One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

BININGER'S

GENUINE

Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring for Family use and Medicinal purposes, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy of the natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling reasonable rates, a Brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

Its mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

MOTHERS

It must be obvious not only to you, but to every attentive and intelligent person, that the first diseases of infants arise chiefly from a disordered condition of their bowels, and in this connection, we present to your notice, for the alleviation and cure of these diseases, a remedy known as

Dr. EATON'S INFANTILE CORDIAL,

Prepared from a formula used by Dr. Eaton with remarkable success during several years' practice. We know it to be a most reliable and efficacious remedy for infantile complaints, and one trial alone will convince you of its superiority over every other preparation of the kind. It is particularly recommended

FOR CHILDREN TEETHING,

And at this period of infantile life, when your anxious hearts are pained by witnessing the sufferings of your little ones, it will be found invaluable in *Softening the Gums, Reducing Inflammation and Relieving all Pain. FOR DISEASES ATTENDING TEETHING*, such as *Diarrhea, Dysentery, Griping in the Bowels, Acidity of the Stomach, Wind, Colic*, and *Cold in the Head*, we confidently offer this as a certain relief and cure in every case when given in time. It will invariably regulate the stomach and bowels, and its importance in this respect can hardly be estimated.

IN CONVULSIONS,

From which more infants are said to die than from any other disease, the little sufferer is relieved *instantaneously*, as if by magic; and in this critical complaint alone, its intrinsic value is such that it has been recommended from one family to another, until the name of DR. EATON'S INFANTILE CORDIAL has become "familiar as a household word." We now ask your attention to a subject of vital interest to yourself, as well as to your suffering children. DR. EATON'S INFANTILE CORDIAL contains

NO MORPHINE OR OPIATE,

Of any kind, or of whatever nature, a fact which we are fully warranted in stating cannot be said of any other preparation for infantile diseases, at this time before the public. We find that throughout the country, Mothers are becoming convinced of this truth, and of the sad and blighting consequences which are certain to result from the use of narcotics disguised in the form of quieting remedies; their continued administration being invariably followed by stupefaction and constipation of the bowels, ending oftentimes in convulsions. Here, in DR. EATON'S INFANTILE CORDIAL differs from every other remedy. It

DOES NOT CONSTIPATE

The Bowels, neither does it act by deadening the sensibilities of your children, but naturally, thru' its rare medicinal qualities, by removing all pain and cause of disease. We earnestly recommend you, therefore, to use no time in procuring a bottle, that you may have at hand a remedy which will never fail to relieve your child in time of need. *It is perfectly harmless, and cannot injure the most delicate infant.*

Take none but DR. EATON'S INFANTILE CORDIAL. *This you can rely upon.* Price 25 cts. per bottle.

ANECDOTE OF A DOG.—A gentleman of San Francisco owns a dog which has betrayed several remarkable instincts, no training ever having been resorted to for the purpose of indoctrinating him into the requirements of the biped race. This dog possesses a rather small physical development, with one of the most unquiet and angry dispositions that it is well possible to conceive. He never beholds a strange dog, no matter what his size may be, but he immediately commences a quarrel, and as a matter of course gets whipped very often. His courage seems to be anything but subdued by his frequent reverses, and he is just as ready to "pitch in" now as ever.

His master was once conversing with another gentleman on Montgomery street, when his surly tyke espied a huge canine on the opposite sidewalk. With bristling back and tail as rigid as a ramrod, our hero ran across the street and rushed up to his gigantic adversary as if he intended to swallow him at a gulp. The gentleman who was conversing with his master observed that his dog would probably get badly used up in the encounter which seemed likely to follow; "he is used to it," said the owner, but immediately noticed that his tyke, instead of attacking as usual, suddenly dropped his head, clapped his tail between his legs, and sneaked off. Instead of returning to his master, he ran down Merchant street, entered the Market and went straight up to a huge bull dog with which he appeared on friendly terms—for even he had friends—and after an apparent confab of a few seconds, the pair trotted off together in the direction of Montgomery street, where they met the dog whose colossal dimensions had terrified tyke, and they did not leave him until they had whipped him badly. The same dog has been in the habit of bringing the newspaper to his master while at breakfast; but lately the gentleman discontinued his paper for a short period, and tyke was at his wits' end for the nonce. In his distress, he has adopted the expedient of rushing out into the street and stealing a paper from one of the neighbors, which he regularly deposited with his master, who followed the dog, detected him in the act and informed his neighbor of the circumstance. *Wilkes' Spirit.*

☞ The whole number of Ministers of different denominations in New Hampshire is 589, divided as follows; Methodists 147, Trinitarian Congregationalists 177, Unitarians 12, Presbyterians 5, Episcopalians 11, Baptists 67, Free Will Baptists 114, Christians 29, Universalists 20, Roman Catholics 3, Swedenborgians 1, Second Advent 2, Church of God 1.

☞ Mr. A. B. Dickinson, of New York, the newly appointed Minister to Nicaragua, was an applicant for the office of *Marshal in Nebraska.* His handwriting being indistinct, the Secretary of State thought he asked for the post of *Minister in Nicaragua,* and being a friend, appointed him minister instead of marshal. So they say.

☞ Joseph G. Hernandez, (the "button man,") for assaulting Miss Fanny W. May with a loaded pistol, with intent to kill, was found guilty by the Supreme Court, Boston, and sentenced to five years' hard labor in State Prison, the first day thereof to be solitary confinement.

Mr. Breckinridge has defined his position in the U. S. Senate, and declares the right of secession, but is very earnest while making his declarion, to ascertain what the administration is going to do. Those who declare for secession are fearful that President Lincoln will disappoint them by doing nothing.

An old Commodore in the Navy being asked his opinion of secession, replied:—"Let the whole slave-holding region go, the free States are better off without them, and can build a government which will be the admiration of the world."

A new party has been organized in New Orleans, called the Southern American party.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonics* and *stomachics*, and cannot fail to meet the wants of the debilitated.

It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhea, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.

One of the very best Physicians in Boston has said "*but it is the best preparation of Bitters that has ever been offered to the public.*"

Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

For further particulars reference is made to the printed circulars.

DO YOU WANT A MUSTACHE?
BELLINGHAM'S
Celebrated Stimulating Onguent!
For the Whiskers and Hair.

The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the Agency for, and are now enabled to offer to the American people, the above justly celebrated and world-renowned article.

THE STIMULATING ONGUENT
is prepared by DR. C. P. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of
WHISKERS OR A MUSTACHE
in from three to six weeks. This article is the only one of the kind used by the French, and in London and Paris it is in universal use.

It is a beautiful, economical, soothing, yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp, it will cure BALDNESS, and cause to spring up in place of the bald spots a fine growth of new hair. Applied according to directions, it will turn RED or TOWY hair DARK, and restore GRAY hair to its original color, leaving it soft, smooth and flexible. The "ONGUENT" is an indispensable article in every gentleman's toilet, and after one week's use they would not for any consideration be without it.

The subscribers are the only Agents for the article in the United States, to whom all orders must be addressed.

Price One Dollar a box—for sale by all druggists and Dealers; or a box of the "Onguent," (warranted to have the desired effect!) will be sent to any one who desires it, by mail (direct,) securely packed, on receipt of price and postage, $1.18. Apply to or address

A VOICE FROM THE WEST!
FROM THE CLEVELAND PLAINDEALER
UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS
The celebrated New England remedy for
Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.

They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.

Dr. JAMES L. LEFEERE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."

E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."

Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.

THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."

GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."

J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.

D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

NO GREAT FLEET AFTER ALL.—The English and French Legations at Washington, pronounce the report started by the New York papers, of a fleet fitting out in England and France for the waters of the United States, is without any foundation. The English and French Ministers are of opinion, that if any such movement was to be made they would have been informed of the fact. It is known, moreover, that the instructions which the English Government have given their agents in the United States were explicit and positive, not to interfere in any manner whatever with affairs here, but scrupulously to avoid complications which might look or tend to sympathy with either section. The English and French Governments have had in contemplation for some time, owing to the great activity prevailing in the slave trade, the propriety of strengthening their squadron on the African coast: the alarming increase of this traffic has frequently been brought before the attention of the English Ministry, and the Ministry have directed the attention of Spain to this matter. It is more than probable, therefore, that this powerful fleet which, it is alleged, is fitting out, consists only of one or two vessels destined for those waters.

OUR COUNTRY. — *Messrs. Editors:*— What are we going to do with this country of ours, which has got itself into such a scrape? Hang the politicians? Why, they are all hanging *themselves* so close to the pot-hooks in the government spoils kitchen, that there's no chance to put a "half-hitch" around any of their necks.—The first thing should be peace. Let us hope there will be no civil (or *un*-civil) war. Principles, either public or partizan, are useful only so far as they advance the general good; and hence, what principle is there that is not secondary to the great interests of the prosperity and welfare of the whole country—the "greatest good of the greatest number?" To avoid the evils of war, we should concede everything.—You might damage the South, but could never subdue them, by force,—not to mention the possibility of the North coming out second-best in a fight, which contingency is not impossible, for I imagine your fire side heroes would not be actively available in the event of such a contest.

I am inclined to believe that had secession been gracefully acquiesced in at first, and then negotiations entered into for reconstruction, a popular reaction would have rolled the disunited seven up the hill again, with a guaranty from their reparative associates, of their rights, which sooner or later must be acknowledged. I.

New York, April 1st.

STRAY MONEY LETTERS.—During the past year, 9,790 stray letters, containing money to the aggregate of $52,154.86, (being an average of $5,02 1-2 to each letter,) were received at the Dead Letter Office at Washington. The Intelligencer says:

More than nine tenths of the above letters and money have been sent out and delivered to the writers thereof. Those letters containing money, the owners of which cannot be found, are filed, to await the application of the owners. If not called for before June next, the bank notes contained in the letters will be sold for specie, and the specie deposited in the United States Treasury. But the letter and draft for the amount contained in it, less the discount, may be obtained, on proper application, at any time thereafter.

Mr. W. C. Moore of Saundersville, Tenn., bought a plantation in Alabama, and all his negroes agreed to go except one. Of course force had to be used upon him, and while they were attempting to handcuff him he drew a knife and made a terrible wound in the neck of Mr. Moore. The negro then turned upon Mr. Moore's aged father, who was killed instantly, his head being severed from his body. The negro was shot three times before he would give up the knife, whereupon he was immediately hung.

This surely was a dreadful occurrence among "the happiest and most contented peasantry in the world."

The grand jury of Greene county, Georgia, have issued a presentment requesting the Legislature to enact a law by which any citizen of that county who subscribes to the New York Post and Tribune, the Cleveland Plaindealer, or any other publication of a like character, may be fined and imprisoned.

This is the kind of liberty allowed by the slave power.

☞ Rev. Mr. Warren, a Methodist minister of Boston, late of the Bromfield St. Church, is to go to Germany, where he will preside over a college—the first instance, we believe, on record, of a yankee presiding over a German College.

CONNECTICUT ELECTION took place Monday, April 1st. The candidates for Governor were Buckingham, republican, Loomis, democrat. All the parties in the State, except the republican, it is understood, went for Loomis and the democratic candidates for Congress.

A Hartford dispatch of April 1, midnight, says the Republicans have elected their State ticket by an *increased majority*, and carried both branches of the Legislature.—They have carried the first and third Congressional districts, and *lost* the second, with the fourth not fully heard from. In Hartford county, Buckingham's vote was 8283, and the majority against him is 65; last year it was 210.

Two of the Congressmen had very small majorities, less than 100, when chosen two years ago.

☞ The Duchess of Kent, mother of Queen Victoria of England, died on the morning of March 16th, at Frogmore, in the presence of her Majesty the Queen, and his Royal Highness the Priace Consort, and some of the other branches of the youthful Royal family. As soon as the fact of the death of the royal lady became known, the great bell of St. Paul's Cathedral was tolled, as is customary on the death of members of the royal family. The cause of her death was cancer. She was in her seventy-sixth year, having been born in 1786.

Queen Victoria was her only child; and by her birth, the line of succession to the English Crown, was brought into her line, where heirs are rapidly multiplying.

☞ A Newburyport correspondent of the Boston Atlas says; in speaking of the North Church fire:—

"The society intend rebuilding on the old site, and will, during the time, use the Second Baptist Church, on Green street, that society being without a minister, and intending to merge with the First Baptist Society. This church will be offered for sale. It is a comparatively new building, the Society having been organized but a few years.

There is considerable excitement in this city at the rumor that Rev. Mr. Guinness, the revivalist, having become a believer in "modern spiritualism," as it is termed, is writing a book upon the subject. He preached in nearly all our churches during the past season to crowded houses, spending a number of weeks, the last meeting being held in the North Church, just burnt. The statement is well authenticated.

☞ Stephen Girard, who was one of the shrewdest business men of the age, thus puts on record his opinion of advertising: I have always considered advertising, liberally and long, to be the great medium of success, and prelude to wealth. And I have made it an invariable rule, too, to advertise in the *dullest times*, long experience having taught me that money thus spent is well laid out; as, by keeping my business continually before the public, it has secured me many sales that I would otherwise have lost.

THE SUNDAY LAW IN BOSTON.—The police report only sixteen liquor saloons as having been open for business, last Sunday, and there was much less drunkenness than usual on the Sabbath. The efforts for the suppression of Sunday drinking seem thus far to have been attended with success.

☞ Auguste Callet has published a work on the existence of hell and eternal punishment. His principal point is, that the idea not only involves an eternity of suffering, but an eternity of depravity in the sufferer, which last condition implies its toleration and consent! Callet, so reasoning, goes in strong for purgatory, as being much more reasonable.

CALIFORNIA.—*San Francisco, March* 21.—Steamer Golden Age sailed for Panama to-day with 260 passengers and $1,100,000 in specie.

Mr. McDougal was elected Senator last evening, receiving 56 of the 111 votes thrown. He was afterwards furnished with a certificate of election by the Governor, but subsequently the Clerk made an affidavit that 113 votes were cast, leaving McDougal one vote short of an election. An investigation is proposed by a joint special committee.

McDougal was the Douglas candidate.

NAVAL.—A letter has been received from an officer on board the U. S. frigate Niagara, dated Aden, January 16th, stating that they expect to arrive at Boston, in the Niagara, between the 15th of April and 1st of May.

BUSINESS REVIVING. — The Atlantic Corporation, at Lawrence, started upon full time on Tuesday morning of last week, and the Washington Mills were to commence on full time on April 1.

☞ Dunning McNair, whom the Republicans have superseded as Sergeant-at-Arms of the U. S. Senate, is the man who stood by when Senator Sumner was assaulted by Bully Brooks.

☞ A hog raised by John Roberts, of Brooks, Me., and on exhibition at Bangor, weighs 1616 lbs. He girts seven feet 6 inches. Age, three years.

☞ The Georgia Legislature is asked to enact a law by which persons who subscribes to Northern Republican papers shall be fined and imprisoned.

☞ Enoch F. Conner, of Lancaster, has a calf, one year old, which weighs 1270 lbs.

The Canadians are lionizing the fugitive negro, Anderson, lately set at liberty there. He has been put under a colored instructor, and after proper training is to be taken to England, where, as he has done *nothing more* than kill a man, he will be made much of.—*Boston Post.*

He *has* done something *more*; he *seceded* from his master, from slavery; and when running off was about to be *coerced* back into slavery by a man who would seize and iron him; but Anderson slew him and escaped to Canada. There he was claimed as a fugitive criminal, charged with murder:—but on some technical ground he got clear, and is a freeman. The *real* ground probably was, that such a homicide was deemed justifiable, as in self-defence;—and on this account, the technical flaw was made effectual to his freedom and safety.

The Traveller understands that a well known furniture dealer in Boston is now engaged in the manufacture of a set of parlor furniture for Hon. Mr. Davis of Mississippi, the President of the southern confederacy.

This fact, and such facts, which are neither few nor strange, show that the talk of a cessation of trade or intercourse, has not much foundation in truth, if indeed it has any.

We have trade with Canada, Hayti and Cuba. Why not with Cottondom?

MONTGOMERY, ALA., April 1.—Active efforts are making to complete the railway to Pensacola to facilitate the transportation of troops to the Gulf. It will be completed in a few days.

Nothing of importance has transpired at Pensacola It is believed that provisions are scarce at Fort Pickens.

Troops, provisions and amunition are flowing into the confederatel army in large numbers and quantity. Two thousand troops are expected at Montgomery this week.

The rumor of the reinforcement of Fort Pickens is authentically pronounced unfounded.

NORFOLK, Va., April 1.—The frigate Cumberland came up the harbor yesterday, and exchanged salutes with the receiving ship Pennsylvania.

During an affray between James T. Land and William Guistead, while at a *parade* near London Bridge, Princess Anne County, on Saturday, the former was killed by a bayonet stab. Both were respectable farmers, with families

ST. LOUIS, April 1.—The city election has resulted in the election of the anti-Republican ticket by 2000 to 3000 majority. The unconditional Union ticket was unsuccessful in but two wards.

Two Germans were killed by lightning yesterday.

Two Irishmen were stabbed in a political melee on Saturday night, and have since died.

NEW YORK, April 1.—The Commercial understands that orders have been received at the Custom House to collect duties on foreign merchandize arriving from ports in the Confederated States, when the proof of previous payment cannot be furnished.

The Commercial also states there is quite a pressure of depositors at the office of the U. S. Assistant Treasurer, and the indications are that at least double the whole amount wanted will be bid for. The current report is that the government will accept the best bids beyond 92, and the impression is that there will be bids higher than that to absorb the whole.

VIRGINIA LEGISLATURE.—*Richmond, Va., April* 1.—The Senate agreed to the House amendment relative to the transfer of the Bellona guns. Nine Senators presented a protest against the passage of the resolutions into a law; but the Senate refused to permit it to be entered upon the journal.

WASHINGTON, April 1.—The President has appointed George Little, Marshal for North Carolina; David L. Philips, Marshal, and Lawrence Weldon, District Attorney for Northern Illinois.

DUNKIRK, N. Y., April 1.—Two steamers with full cargoes from Cleveland, Sandusky and Toledo have arrived. The navigation is entirely clear hence to the western lakes.

CINCINNATI, April 1.—The city election passed off quietly. The Democratic Union ticket is elected by 2000 majority.

A MOST EXCELLENT THING IN WOMAN.—There is one part of woman's education often forgotten or neglected—the culture and formation of a gentle voice. It is a great gift of nature, to be aided by culture—an instrument of powerful influence for good.

TWO DAYS LATER FROM EUROPE.

NEW YORK, April 2.—The London Times, referring to President Lincoln's inaugural, says his expressions are studiously cautious, but really amount to the fact that he will retake the forts, &c.

Advices from Warsaw announce that reforms have been proclaimed by the Czar for Poland. Every town is to have elective municipal councils.

The Russian manifesto, proclaiming the emancipation of the serfs, was published on the 17th. The proprietors of landed property are to preserve the right attached to the same, but must cede to the peasants for permanent use the dwelling with ground attached, which will be allotted to them by law in consideration of payment of dues.—The peasants are permitted by law, to own their dwellings and land, the landlord consenting; they then became landed proprietors.

WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, NO REMEDY has performed so many or such remarkable cures of the *Throat, Lungs and Chest*,—of *Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma*, or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam*. So generally acknowledged is the superior excellence of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.

Editor of the Norway Advertiser, gives his opinion of this great remedy substantially as follows:

NORWAY VILLAGE, Me., Aug 4, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—For a remedy of such undoubted merit as Dr. WISTAR'S BALSAM OF WILD CHERRY, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial and be relieved. Several years since I first became acquainted with this Balsam at a time of distressing cough and cold, which took such firm hold of my lungs as to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain

In our town this remedy is a great favorite with many, and if all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.

Yours respectfully, GEO. W. MILLET.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE.

The following is a sample of many letters daily received by W. E. HAGAN & CO., Troy, N. Y., who are the Manufacturers and Proprietors of "HEIMSTREET'S HAIR RESTORATIVE," an article of which many of our first citizens speak as being the *cheapest and best* Hair Preparation which has ever been introduced in our market. A combination of Stimulating Spirits and Oil, affording an agreeable *Hair Dressing*, leaving the scalp perfectly free from dandruff, and causing the Hair to have a *rich glossy appearance*. Two articles in one. A fine "*Hair Dressing*," and a never-failing Restorative for the *Bald* and *Gray*.—Read the following letter:

ST. LOUIS, MO., June, 1859.

MR. HENRY REYNOLDS,—*Dear Sir*:—I hereby certify that my hair having become gray, I used, at your request, HEIMSTREET'S INIMITABLE HAIR RESTORATIVE, (prepared by W. E. HAGAN & CO., Troy, N. Y.,) for several weeks. My hair was in that time restored to its original color, with all its luxuriance and beauty; and I will be much pleased to recommend the article, personally, on any and every occasion, as I know it h s merits that the Proprietors do not claim for it in their circulars. Respectfully yours,

G. W. WALLACE,

ANOTHER GREAT SNOW STORM came upon us Monday night, April 1, continuing through Tuesday; quantity about a foot.—A very great storm, says one, for so late a day in the Spring. Yea, verily, so it is, but by no means without example. Four years ago, exactly, we had a similar storm of snow, April 1, lasting all night. And in 1821, April 20, we had a fall of snow, very level and very heavy, so that there was something like 9 inches on the ground, in the morning of April 21. We had also a fine fall of snow in April, 1837, the 5th or 6th, making good sledding for a few hours.

☞ "Indemnity for the past"—pay up. "Security for the future"—pay down. A good maxim for Governments or individuals—and one we have long since adopted. And so it is of no more use for people at a distance, to send us orders for advertising, or papers, unless accompanied by the cash, than it is to try to "call spirits from the vasty deep" or anywhere else, unless you have the requisite faith—for they *won't come*, and we shan't.

☞ At a meeting of Portsmouth Division No. 17, of the Sons of Temperance, in this city, Monday evening, the following officers were installed for the ensuing three months: Francis Reed, W. P.; Meshach Bell, W. A.; Warren L. Swett, R. S.; Asa Walker 2d, A. R. S.; Joshua Wetherell, F. S.; A. C. Hoyt, T.; F. W. Rogers, C.; Henry T. Yeaton, Con.; Josiah Brown, A. C.; E. Brackett, I. S.; Chester B. Goodwin, O. S.; Jonathan Hall, P. W. P.

This institution is now in a very flourishing condition, numbering upwards of two hundred members.

☞ "The price of liberty is eternal vigilance"—and even then, you can't be sure of getting it, judging from recent events. The price of the Daily Chronicle is only 1 cent, or $3 per year in advance. Too cheap to pay for stealing now—either itself, or the reading of it. See our premium offer, to new subscribers, under editorial head.

HORSE GUARDS. — Company C. has leased Rechab Hall, Market Street, Portsmouth, for their Armory; and it is to be at once fitted up and put in good order for their occupancy. It is spacious and well adapted for the purpose, having two fine ante-rooms; and will accommodate the entire regiment, whenever occasion offers.—Recruits are being gathered in Great Falls and Portsmouth, and the third Company will no doubt appear with full ranks to escort Gov. Berry. M. C. Burleigh of Great Falls, is Captain; H. F. Wendell, Portsmouth, First Lieutenant: Frank W. Miller, Portsmouth, Second Lieutenant.

☞ In one of the churches in this city, on Sunday last, while the minister was reading the hymn, a well-dressed and respectable looking man walked in, up the aisle in front of the preacher, and stood still, looking him intently in the face. After the hymn was read the pastor motioned to the stranger to be seated, and he immediately sat down upon the rostrum, and remained there until the prayer was commenced, when he suddenly jumped up; and fixing his eyes upon the man of God, looked at him until he had got thro' with his petition. He then handed the minister a three-cent piece, and unceremoniously departed.

☞ Now is the time to buy Clothing cheap—judging from our advertising columns. Among the rest, it will be seen that Moses & Downie are to make a "change in business," and so offer their large stock very low; and that Mr. Walker, in Daniel street, offers an assortment of Cloths and Clothing at Auction to-day.

☞ The train for Concord, on the C. & P. Railroad, leaves Portsmouth at *half past* four o'clock, for the present.

☞ Ship Cygnet, (of Boston,) Moses master, at New York from Manilla, via Bermuda, arr Batavia Oct. 18, passed Angier Nov. 8, touched at St. Helena Jan. 10. Feb. 20, in a heavy gale from the NNW, bore up for Bermuda, ship leaking badly, and starboard pump entirely disabled; port pump nearly so. Arrived at Bermuda Feb. 24; repaired and left March 17; March 22, had a heavy gale from WNW, and lost two close-reefed topsails.

ACCIDENT IN SALEM.—A young Irish woman, about twenty-three years of age, fell under the cars at the Eastern Railroad depot in Salem, Monday morning, about 9 o'clock, and both of her legs were cut off above the knees. She is not expected to survive.

☞ The Phrenological Journal for April contains an article on Heart Disease and Apoplexy, and attributes the modern increase of these diseases to the increased use of coffee, tobacco and spices.

☞ It is said that Indian Corn contains four times the amount of fat that is usually found in wheat.

NEW YORK, April 2.—Gen. Scott says that the administration has never entertained any idea of abandoning Fort Monroe, and the principles announced in the inaugural will not be abandoned, and if military necessity be accepted as to Fort Sumter, it will be for reasons which will not be held to apply elsewhere.

Advices from Virginia say that great efforts are being made to carry that State out of the Union.

A smile and a frown are equally ineffaceable in memory's page. Yet how different the impression; how telling the contrast: one coming laden with the sweets of Christianity, the other breathing the venom and hatred of a churl.

Would you save yourself from suffering after eating, or from acidity of the stomach, or burning sensation or indigestion? Use Herrick Allen's Gold Medal Saleratus.—Never use soda if you can procure this article. It will strengthen weak stomachs and relieve dyspepsia; is a saving in the quantity of flour, &c. Try it. Grocers and Druggists most all sell it.

Sold at wholesale, by Israel Nash & Co., Boston; and Sumner, Swasey & Currier, Newburyport.

A Distressing Cough, causes the friends of the sufferer as much pain as the sufferer himself. *Dr. Wistar's Balsam of Wild Cherry* will certainly cure coughs, colds, arrest consumption, and that speedily. When did it ever fail?

GROVER & BAKER

SEWING

MACHINES.

TO THE LADIES.

CHARLES T. EMERY,

No. 10 Market Sq., Portsmouth,

Having been appointed

SOLE AGENT IN PORTSMOUTH

for the sale of the celebrated and unrivalled Noiseless

GROVER & BAKER

FAMILY AND MANUFACTURING

Sewing Machines,

would invite especial attention to the same.

THE GROVER & BAKER SEWING MACHINE makes the only seam formed by a Sewing Machine, in which each stitch is independently locked, and without dependence on other stitches for strength, and the only seam that will admit of the thread being cut at every fourth stitch without injury to the seam in wear.

THE GROVER & BAKER SEWING MACHINE is adapted to all varieties of fabrics, sewing equally well the finest Swiss Muslin or the heaviest cloth or leather, and requiring no adjustment for any kind of sewing other than the adaptation of needles and thread.

THE GROVER & BAKER SEWING MACHINE sews from ordinary spools without rewinding, and fastens its own seams, thereby saving time and thread. It will sew common spool cotton, silk and linen thread with equal facility.

THE GROVER & BAKER SEWING MACHINE is so simple that an intelligent child of ten years can readily learn to operate it. It is more easily kept in order than any other machine, and need not be taken apart to be oiled.

THE GROVER & BAKER SEWING MACHINE makes the only stitch that cannot be injured by washing and ironing, and the only stitch that forms an elastic and durable seam. Fabrics put together with this stitch may wear out and drop to pieces from original weakness, or hard usage, but come apart or give way at the seams, they cannot; they will hold together when the cloth or calico around them hangs in rags and tatters.

Every Machine Warranted.

PRICES FROM $40 UPWARDS.

☞ Be sure to call and examine.

I have also been appointed agent for

THE UNIVERSAL HEMMER,

Which can be attached to any machine, and will turn a hem from 1-16 inch to 2½ inches, without previous basting.

PRICE $5.

LIFE INSURANCE.

"IN THE MIDST OF LIFE WE ARE IN DEATH."

The strong man often falters, and falls in the midst of the hurry and business of life. The wise man maketh provision for those whom he loveth, against the liability to accident and death.

THE

MUTUAL LIFE INSURANCE CO

Of New York,

with an accumulated capital of over

SEVEN MILLION DOLLARS,

Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually*, or *annually*, at the option of the insured.

The long experience of this excellent institution, like the *hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.

No reflecting man can sit at his fireside with his young family about him, and feel at ease—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

REMOVAL.

BENJ. CARTER, Jr., having removed his FAMILY GROCERY BUSINESS from Water street to the commodious store

No. 15 Daniel Street,

recently occupied by Mr. H. F. GERRISH, would most respectfully solicit the patronage of his old customers, and the public generally, in his new location—to invite which, he will constantly keep a well selected stock of fresh goods of the best qualities, and guarantees to sell

AS LOW FOR CASH,

as at any other store in the city.

Portsmouth, March 19, 1861.

NOTICE.

Having relinquished to ALFRED STAVERS my interest in the GROCERY BUSINESS, I would respectfully return my thanks to my friends and the public for their liberal patronage, requesting a continuance of the same to my son, who will be pleased to wait on them at the old stand, No. 12 Market street, west side.

JOHN STAVERS.

Portsmouth, March 16, 1861.

The subscriber having taken the Stock and Stand as above, offers for sale a full and general assortment of all the articles usually kept in a first-class Grocery Store, wholesale and retail, at prices as low as can be found elsewhere. The patronage of his friends and the public is respectfully solicited. ALFRED STAVERS.

Portsmouth, March 16, 1861. mch19

NOTICE.

The subscriber gives notice that he has been duly appointed Administrator of the estate of SAMUEL BATSON, late of New Castle, in the County of Rockingham, deceased.

All persons indebted to said estate are requested to make payment; and all having claims, to present them for adjustment.

Dated at Portsmouth, N. H., March 20, 1861.

AYER'S CATHARTIC PILLS.

Are you sick, feeble, or languishing? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some form of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how direct they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in relation to the dangerous and dangerous diseases. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and surely, and many of them, surely cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cirtbright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effected in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach

From Dr. Edward Boyd, Baltimore.

DEAR DR. AYER: I cannot answer you what complaints I have cured with your Pills better than to say all that *other* trust with a purgative medicine. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I know of, and I shall now rely upon them as being the most reliable purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., Feb. Feb, 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their mild yet searching action on the liver is quick and decided, combining qualities of an admirable remedy for derangements of that organ. Indeed, I have seldom failed to cure bilious disease so effectually that it did not really yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhoea, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the bowels makes them an excellent remedy, when given in small doses for bilious dysentery and diarrhoea. Their sugar-coating makes them a very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit to disorders of the stomach, to regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

YOURS, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountain of the blood.

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Medical Chemist.

Too much cannot be said of your Pills for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should be grateful for publishing it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the precursor of others that are worse. I believe my diseases to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Sweet, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural action when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church.

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and inclined me to apprehend neuralgic pains, which ended in chronic rheumatism. Notwithstanding, I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec. 1855.

DR. AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that had afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

SOMETHING MORE VALUABLE

THAN SILVER OR GOLD,

BECAUSE

IT WILL RESTORE THE WEAK,
AND REINSTATE THE BLOOD IN ALL ITS
ORIGINAL PURITY & VIGOR.

It is

PROF. O. J. WOOD'S

RESTORATIVE CORDIAL

—AND—

BLOOD RENOVATOR.

It is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted *as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach*, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by languor or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. As a sure preventive and cure of

CONSUMPTION, BRONCHITIS, DYSPEPSIA INDIGESTION, LOSS OF APPETITE, FAINTNESS, NERVOUS IRRITABILITY, NEURALGIA, PALPITATION OF THE HEART, MELANCHOLY, HYPOCHONDRIA, NIGHT SWEATS, LANGUOR, GIDDINESS, AND ALL THAT CLASS OF CASES SO FEARFULLY FATAL, CALLED FEMALE WEAKNESSES AND IRREGULARITIES,

THERE IS NOTHING ITS EQUAL!

Also Liver Derangements and Torpidity, and Liver Complaints, Diseases of the Kidneys, or any general derangement of the Urinary Organs.

It will not only cure the debility following CHILLS and FEVER, but prevent all attacks arising from miasmatic influence and cure the disease at once, if already attacked.

TRAVELLERS should have a bottle with them, as it will invariably prevent any deleterious consequences following upon the change of climate and water.

As it prevents costiveness, and strengthens the digestive organs, it should be in the hands of all persons of sedentary habits.

LADIES not accustomed to much out-door exercise, should always use it.

MOTHERS should use it, for it is a perfect relief, taken a month or two before the final trial—it will render the dreadful period with perfect ease and safety.

There is no mistake about it!

THE CORDIAL IS ALL WE CLAIM FOR IT!

MOTHERS, TRY IT!

And to you we appeal, to detect the illness or decline not only of your daughters, before it is too late, but also your sons and husbands, for while the former, from false delicacy, often go down to a premature grave rather than let their condition be known in time, the latter are often so mixed up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal, for we are sure your never-failing affection will unerringly point you to PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR as the remedy which should be always on hand in time of need.

O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St Louis, Mo., and sold by all good Druggists. Price $1 per bottle.

Read what the Press say, after thoroughly testing the matter, and no one can have doubt.

PROF. WOOD'S Restorative Cordial and Blood Renovator is a genuine medicine of real merit, pleasant to the taste, and invigorating to the system. While it purifies the blood and soothes the nervous irritation, it aids the organs of digestion to perform their functions, and resists the assaults of disease. It is a chemical compound so skillfully combined, that while it exhilarates it does not produce the lassitude which usually follows excitement. A tonic composed exclusively of vegetable matter, it is absolutely beneficial, and no ill effects can possibly accompany its use. It is an infallible and speedy remedy for Loss of Appetite, Faintness, Nervous Debility, Neuralgia, Failing of the Vital Powers, and other delicate diseases to which women are subject. For Sickness of the Stomach, Bilious Attacks, Liver Complaints, Costiveness, Dyspepsia, Consumption, and a host of evils flesh is heir to, it is a certain cure.—*St. Louis Morning Herald.*

PROF. WOOD'S RESTORATIVE CORDIAL.—It is recorded in the classics that Psyche was once sent to a climate warmer than the West Indies, to procure a sample of the beauty of Proserpine in a box. After some delay the messenger returned, and as soon as the top of the box was removed, out flew all the ills that flesh is heir to. Fortunately hope was found in the bottom of the box. Prof. Wood's Restorative Cordial revives the recollection of the story, for invigorated by the blood, aids the organs of digestion, imparts strength to the nervous system, and fortifies the citadel of health so as to bid defiance to the assaults of disease. It is a healthy tonic, composed entirely of vegetable productions, and while it is exhilarating as pure wine, no injurious effects can possibly follow its use. It is a desideratum in the medical world, and those who are afflicted with loss of appetite, Dyspepsia, Consumption, Fainting, Neuralgia, Palpitation of the Heart, &c., will here find an infallible panacea.—*St. Louis Daily Express.*

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR is, without doubt, the best tonic Cordial in the world. Those who find themselves suffering from general debility, we would recommend its use, for it is pleasant to the taste, is strengthening to the system, and will at once tend to remove all impurities of the blood, and eradicate all traces of disease. It can be taken by the weakest stomach, while those in good health will find it an exhilarating power. We are confident that after using one bottle of this Cordial, none will be for a day without it.—*N. Y. Leader.*

A PURE, HEALTHY TONIC, and one free from the deleterious and injurious effects sure to follow those in ordinary use, has long been felt to be a desideratum in the medical world. Such a tonic, and one so skillfully combined from the vegetable kingdom as to act in perfect accordance with the laws of Nature, and thus soothe the weakest stomach, and at the same time allay nervous and other irritations, and tone up all the organs of which the human body is composed, is offered in Prof. Wood's Restorative Cordial and Blood Renovator. Hence it is perfectly adapted to old and feeble. Reader, try it. Thousands have already done so; the testimony is universal in its favor.—*New York Atlas.*

☞ Before noticing a patent medicine, we have to be certain that it will prove itself to be all that it is recommended to be, or we would say that the Restorative Cordial and Blood Renovator of Prof. Wood will stand the test fully, and in fact it is without doubt the best article in the world for purifying the blood and strengthening the system. We have no hesitation in recommending its use to all.—*New Yorker.*

Dyspepsia Remedy

DR. DARIUS HAM'S
AROMATIC INVIGORATING SPIRIT

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other disorders of the Stomach and Bowels in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and that peculiar shaking, constitution broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately be happy and in vigorating efficacy of Dr. Ham's Invigoratin, Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigoratin, it will take off the load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

BININGER'S
GENUINE
Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception, it is now necessary for those requiring it for Family use and Invalids, that it should be of undoubted purity and efficacy.

With a view to supplying the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling reasonable rates, a Brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy,"

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

Morning Chronicle.

DON'T GET DISCOURAGED.—Don't get discouraged! Who ever gained anything by drawing down the corners of his mouth when a cloud came over the sun, or letting his heart drop like a dead weight into his shoes when misfortune comes upon him? Why, man, if the world knocks you down and jostles past you in its great race, don't sit whining under people's feet, but get up, rub your elbows, and begin again. There are some people whom, even to look at, is worse than a dose of camomile tea. What if you do happen to be a little puzzled on the dollar and cent question? others beside you have stood in exactly the same spot, and struggled bravely out of it, and you are neither halt, lame nor blind, that you cannot do likewise. The weather may be dark and rainy—very well—laugh between the drops and think cheerily of the blue sky and sunshine that will surely come to-morrow. Business may be dull, make the most of what you have, and look forward to something more hopeful. If you catch a fall, don't lament over your bruises, but be thankful that no bones are broken. If you can't afford roast beef and plum pudding, eat your codfish joyfully, and bless your God for the indigestion and dyspepsia you have escaped. The luckiest fellow that ever lived might have woes enough if he set himself seriously to work looking them up. They are like invisible specks of dust; you don't see them till you put on your spectacles. But then, is it worth while to put on your spectacles to discover what is a great deal better let alone?

Don't get discouraged, little wife! Life is not long enough to spend in inflaming your eyes and reddening your nose because the pudding won't bake, and your husband says the new shirts you worked over so long, "set like meal bags." Make another pudding—begin the shirts anew! Don't feel "down in the mouth" because dust will settle and clothes wear out, and crockery will get broken. Being a woman don't procure you an exemption from trouble and care; you have got to fight the battle of life as well as your husband, and it will never do to give it up without a bold struggle. Take things as they come, good and bad together, and when you feel inclined to cry, just change your mind and laugh! Keep the horrors at arm's length. Never turn a blessing round to see if it has got a dark side to it, and always take it for granted that things are blessings until they prove to be something else.

Never allow yourself to get discouraged, and you'll find the world a pretty comfortable sort of a place after all.—*Life Illustrated.*

☞ A Washington item in the New York Times says:

It is decided that neither Mr. Fogg, Minister to Switzerland, nor Pike, Minister Resident to the Hague, can have Secretaries. They are entitled to them by law, but there have never been any appointed, and the administration has no right to appoint to fill vacancies existing previous to the adjournment of the Senate.

PROTRACTED SLEIGHING.—The Bangor Union says:

We have now had uninterrupted sleighing since the 26th of November, a period of one hundred and twenty-six days. It is still good in the country, and by no means entirely gone in the city. Central street still boasts of good three feet of snow and ice. Other streets, however, more exposed to the sun, are quite bare, and wheels are used nearly as much as runners.

RECIPE FOR A HAPPY HOME.—These things are requisite to create a "happy home" Integrity must be the architect, and industry the upholsterer. It must be warmed by affection, and lightened up cheerfulness; and industry must be the ventilator, renewing the atmosphere and bringing in fresh salubrity day by day.

An alderman was heard the other day getting off the following speciman of what may be called "corporation" logic: "All human things are hollow; I am a human thing, therefore I am hollow. It is contempible to be hollow, therefore I'll stuff myself as full as I'm able.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic*, and cannot fail to meet the wants of the debilitated.

It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.

One of the very best Physicians in Boston has said "*he is the best jr paredcion of Bitters that has ever been offered to th public.*"

Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

For further particulars reference is made to the printed circulars.

DO YOU WANT A MUSTACHE?
BELLINGHAM'S
Celebrated Stimulating Onguent!
For the Whiskers and Hair.
The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the Agency for, and are now enabled to offer to the American people, the above justly celebrated and world-renowned article.
THE STIMULATING ONGUENT
is prepared by DR. C. P. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of
WHISKERS OR A MUSTACHE
in from three to six weeks. This article is the only one of the kind used by the French, and in London and Paris it is in universal use.
It is a beautiful, economical, soothing, yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp, it will cure BALDNESS, and cause to spring up in place of the bald spots a fine growth of new hair. Applied according to directions, it will turn RED or TOWY HAIR DARK, and restore GRAY hair to its original color, leaving it soft, smooth and flexible. The "ONGUENT" is an indispensable article in every gentleman's toilet, and after one week's use they would not for any consideration be without it.
The subscribers are the only Agents for the article in the United States, to whom all orders must be addressed.
Price One Dollar a box—for sale by all druggists and Dealers; or a box of the "Onguent," (warranted to have the desired effect,) will be sent to any one who desires it, by mail (direct,) securely packed, on receipt of price and postage, $1.18. Apply to or address

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA.
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well.—P. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 90 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

THURSDAY, APRIL 4, 1861.

A MINISTER COMPLIMENTED.—At St. Paul, Minn., recently, a Rev. Mr. Fiske declared "that John Brown was a second Jesus Christ." Some sensible men assembled to consider certain political matters concerning the domestic interests of Minnesota, and in view of the above, adopted the following:—

"*Whereas*, The Rev. Mr. Fisk, of St. Paul, has declared from the pulpit "that John Brown was a second Jesus Christ", therefore,

"*Resolved*, That Mr. Fisk has made himself a *second Balaam's ass*; provided, however, nothing herein contained is intended to slander the original ass by intimating that Mr. Fisk is his lineal descendant.

We cut the above from a New Hampshire paper, where the joke is doubtless regarded as very nice. And so it is;—but the pith of it is not at the expense of Mr. Fisk nor of the ancient ass that Balaam rode, but it bears against those whom the paper calls *sensible men*, who seem never to have read the Old Testament, nor to have any knowledge of the New.

Balaam's Ass, as we read the story about him in the 22d chapter of Numbers, was a very sensible beast, and by reverence, sagacity and faithfulness, saved her master's life, as the angel testified, while yet she faithfully rebuked her master's presumption, cruelty and folly.

The "sensible men" may look at a portrait, if they please, in II. Peter 2: 15, 16, where the apostle condemns people who "speak evil of things which they understand not, whose heart is exercised with *covetous practices*; which have forsaken the right way and are gone astray, following the way of Balaam, who *loved the wages* of unrighteousness, but was reproved for his iniquity: —the dumb ass, speaking with man's voice, forbade the madness of the prophet."

This animal, so honorably mentioned in both the Old and New Testaments, is no emblem of folly, but of wisdom. The "sensible men" might take a few lessons from her, to their own advantage, and to that of the community.

PORTLAND MUNICIPAL ELECTION.—At the municipal election in Portland, on Tuesday, Wm. W. Thomas (Rep) received 2438 votes for Mayor, and Joseph Howard (Dem.) 2263. The vote last year was, Jewett (Rep.) 2372, Howard (Dem.) 2420. The islands have not been heard from, but they will probably reduce the majority a trifle. The Republican majority is 175; last year the Democratic majority was 48. The Republicans have elected 5 out of the 7 Aldermen, and 15 out of the 21 Councilmen.

This election was put, by both parties, distinctly on national grounds. The Argus, on election day said,

We "believe that the success of the Democratic Union ticket will tend to give strength to the friends of the Union in the slave States—will tend to conciliation, &c. How can any patriot hesitate where he will stand? how can he hesitate to support the Democratic Union ticket.

The Advertiser of the same day said:

The satisfaction and joy which the election, rightly concluded, will carry to the hearts of the Republicans in the City, will not stop there. All through the State, and New England, reaching even to Washington, the true *Union men* will feel that a good thing has been done, at a most fitting time.

☞ The North American Review for April, 1861,—is on our table. Among its contents appears an article from the editor, on Slavery, its Origin and Remedy. As a part of this article has already been published in the papers, with parts of answers, —it is but just to say, that the *whole* article, as it stands in the Review, is much less likely to be misinterpreted, or to mislead the reader, than the *part* which appeared in the papers. The article embraces matter of much interest.

The whole number before us is one of even more than the usual freshness and life;—a very different affair from some old quarterlies over which we used to doze a little.

THE NEW LOAN.—For the new U. S. loan of eight millions, thirty millions were bid, of which $26,000,000 came from New York, and $1,800,000 from Boston.—The bids ranged from 90c to par. The average accepted bids are about 93 1-2. None were accepted below 93.17. A Washington dispatch of April 2, says it is believed that the heavy bids for the loan were mainly in consequence of assurances from high quarters of a pacific policy on the part of the Administration.

☞ S. S. Bean of Bradford, N. H., has been appointed to a clerkship in the Treasury Department.

☞ Rev. T. H. Miller is to preach at Nottingham, Sunday, April 14.

FINANCIAL HERE.—The Snow Banks are going into liquidation. When?

ALL FOOL'S DAY.

NEW YORK, April 1st.

Dear Chronicle: — Nowhere in New England is "April Fool's Day" observed with the zest which attends it in this city.—"Fooling" is practiced on Broadway, on our avenues and by-streets; and persons of every age and grade of society, parade the walk — all unconscious of their added charms—in the condition of the old lady's cow, who one day went astray, and

"When she did come home at night,
She had two *tails* behind her!"

Ribbons, papers and strings are pendant from coat-tails and shawls, on discovering which the victim's looks seem to say, "what's fun for you is death to me."

As an indication of the march of civilization, we have a "ten-cent" "woolly horse show" on Broadway, corner of Howard street. Soon will the glory of our marble palaces vanish, if railroads and Chatham street shows are to adorn Broadway and its edifices. But store-owners now-a-days are not particular as to the pursuits of their tenants, for almost every block shows two or more notices of "store to let."

To-day the new tariff goes into operation, and what more fitting day could be assigned? Surely nothing more foolish in its provisions, or more ambiguous in its requirements, could be devised. While it pleases the manufacturers, it disgusts the brokers, importers and retailers. The old saying is, "every dog must have have his day;" why not an exorbitant tariff? A better way to "raise a revenue" would be to place it out of the reach of such men as Cobb, Floyd & Co. At least so thinks

NEWINGTON.

FROM THE SOUTH.—*Montgomery, Ala., April 2.*—W. H. Ward, editor of the Key of the Gulf, has arrived from Pensacola.—He states that the steamer Gen. Rusk had arrived and landed at Key West, March 25th, 200 troops, and had on board 100 for Tortugas. Steamer Crusader had reached Key West with sealed orders, under charge of Capt. Craven, with marines.

The Brooklyn was going into Key West on the 26th, and there is no doubt she left her troops at Fort Pickens.

The Texas Commissioners had stipulated that the troops on the Gen. Rusk should be landed at New York. The commanders of the three companies on board signed a document exonerating the captain of the steamer from all blame for deception.

Mr. Ward further states that arrivals at Key West on the 26th, reported that the Spanish flag had been hoisted by the French and Spaniards at St. Domingo.

It was reported at Havana that the English and French fleet had sailed for Vera Cruz. Object unknown.

This Havana report is the same just contradicted, and amounts to nothing.

THREATENED INVASION OF TEXAS BY 3,000 MEXICAN TROOPS.—*New Orleans, April 2.*—Texas advices state that Col. Ford has been reliably informed from Matamoras that Gen. Ampudia, with 3,000 Mexicans, is 60 miles off, marching on Brownsville. Ampodia has dispatched expresses with hand-bills and placards announcing that Texas rightly belonged to Mexico, that she would no longer have the support of the Federal Government, and now was the time to take her. Reinforcements in large numbers were rapidly coming in to him. Col. Ford has ordered all the heavy guns and ordnance stores at Brazos Island to be removed from the scene of the anticipated difficulties.

SEIZURE OF IMPORTS FOR WRONG APPRAISEMENT.—*New York, March 2.*—Several seizures of Buenos Ayrean cargoes have lately been made at this port, the Collector claiming that wrong appraisements had been made at the ports of that Republic, although such cargoes were certified to by Consular certificates. The value of the goods as involved in the question, which has been transferred to the Treasury Department, is over five million.

APRIL SNOW STORMS. — One of our friends, an Assistant Clerk of the Weather, gives us the following memoranda of a few April Storms in past years.

1. April 19, 1821—2 feet fell in Portsmo.
2. " 19, 1848—7 inches of snow fell.
3. " 6, 1852 — Tremendous snow storm. Ten or twelve inches on a level, and five feet drifts. Cars stopped.
4. April 15, 1854—2 or 3 inches fell.
5. " 17, 1854 — Tremendous snow storm. Four inches; and two feet drifts. Sleighing here and in New York.

TUFTS COLLEGE.—The principal parts of the Junior Exhibition of Tufts College, to take place May 28th, have been assigned as follows:—valedictory by Aaron Lovell of East Abington; salutatory by B. F. Heald of Sumner, Me.; philosophical orations by E. H. Dearborn of South Weare, N. H., and A. G. Longfellow of Winthrop, Me.

Ralph Waldo Emerson will deliver the oration before the literary societies on commencement day, July 10th, and B. P. Shillaber the poem.

WASHINGTON, April 3.—Secretary Chase only accepts bids for the new loan at 94 and over, which have been received to the amount of $3,099,000. There is, therefore, no chance for fresh bids.

Capt. Fox, who was recently dispatched to Fort Sumter, returned here to-day.

Ex-Gov. Wise telegraphs that the Virginia convention will adopt an ultimatum to be presented to the border States.

John L. Carlton of Bath, N. H., has been appointed an Examiner in the Patent Office, in place of Amos B. Little of the same State, who has been in office 17 years.

The officers and crew detached from the U. S. steamer Powhatan have been ordered back.

☞ The Democratic party in Connecticut have elected two Congressmen, probably.

THE ART UNION.—We make the following extracts from a private letter received from a friend in New York. Referring to the Cosmopolitan Art Association, he says:

"Mr. Cowan very politely showed me the working rooms of the establishment, in the rear of the office. I was surprised, as well as pleased, to see the operations in the engraving and printing departments. The art of steel engraving is really a very interesting and wonderful process. Few who admire the fine prints on paper, know of the patient toil of the ingenious artizan, as he bends for days and weeks over the metal plate, cutting or working in its surface the lines and dots which are to produce the beautiful impressions which adorn so many walls.

I was kindly allowed the privilege of a look at the new plate for next year's enterprise. A few trial copies of the print have been struck off, etchings only,—that is, outline impressions, without the finer shadings, which the engravers are now working on the plate.

You can promise your subscribers the best picture yet. Both the subject and execution are, I think, more beautiful than any of the former ones, not excepting our favorite "Saturday Night." The representation is a picnic scene. In the foreground, under arching trees, is a graceful, happy group of old and young, engaged in a rural merry-making, while the perspective is composed of a vista of trees and a stream winding through light sunny meadows.

It is as "line and stipple" engraving, which, you know, is executed by the slow and difficult process of tracing the lines both by tools and acids—a curious art, much more expensive and perfect in its results than the mezzotint. The plate of this will cost $5000, which would be the cost of the engraving if only one copy were issued.

The "Cosmopolitan" is achieving a great work in creating a popular love for the beautiful in art. What caviller can find grounds for objecting, on account of the extra feature of gift paintings, to an enterprise which embellishes thousands of American homes with the most costly engravings, at a third of their market value—and by cultivating their tastes, improves also the morals of the people? It is the lovers of the beautiful in art and nature who do most to elevate themselves and those around them. Yours, I."

New York, April 1st.

WASHINGTON, April 2.—The Southern Commissioners disbelieve the rumor relative to the reinforcement of Fort Pickens, and have so advised the government at Montgomery.

Commodore Pendergrast is named in one of the reports as ordered to superintend the landing of the of the troops at Norfolk.

The War Department has received the resignation of Capt. Winder, appointed from Maryland.

A Federal company of Sappers and Miners leave here to-morrow for Fort Hamilton, New York, and two artillery companies under Captains Magender and Barry will probably go to the same point within a week.

The Post Office Department has under consideration the proposition of the Baltimore and Ohio Railroad to change their schedule so as to secure the arrival of the mails here from the South earlier, and thro' a connection at New York with the Sound steamers, for Boston and New England generally. The change is to take place on the 15th.

Gen. Lane, just before leaving for Oregon, wrote to a friend here, saying—"I am out of politics, but I will urge the Democracy of Oregon to adopt the Constitution of the Confederated States, as their platform."

NEW YORK, April 2.—A letter from the Secretary of the Treasury to the Collectors, says that in consequence of the warehouses of the Government in the ports of South Carolina, Georgia, Alabama, Mississippi, Louisiana, Florida and Texas, having been usurped, it is impracticable to continue the privilege of bonding goods to those ports, and Collectors are instructed that no entries for transportation in and to said ports can be permitted.

The Post's Washington dispatch says the question of the reinforcement of Fort Sumter is still open, and its reinforcement is not considered improbable.

NEW YORK, April 3.—A dispatch to the Times says the administration is pressed with great earnestness by the North and West to reinforce Fort Sumter at any cost. It is reported that Maj. Anderson's supplies will be cut off on Wednesday.

Orders have been given to get the Powhattan ready for service immediately.

A dispatch to the World says the new minister to Belgium took out a protest to European governments against the recognition of the Confederate States.

Senator Nesmith has left for Oregon, understanding from the President that no extra session will be called.

The troops on the Brooklyn were to reinforce Fort Pickens, and were doubtless landed some days ago.

Mr. Kalbfleisch, Democrat, was elected Mayor in Brooklyn yesterday, by 4500 majority.

ST. LOUIS, April 2.—The Republican publishes a letter dated Los Vegas, New Mexico, 12th, detailing an attempt to seize Fort Maray by a party of Americans, with Gov. Roucher at their head. But later arrivals, as well as the Sante Fe mail of the 18th, deny any knowledge of such a movement.

CHARLESTON, April 2.—The Convention is in secret session discussing the Constitution. It will doubtless be ratified to-morrow by a large majority.

A man with knowledge but without energy, is a house furnished but not inhabited; a man with energy but no knowledge, is a house dwelt in but unfurnished.

WISTAR'S BALSAM WILD CHERRY.
In the whole history of medical discoveries, NO REMEDY has performed so many or such remarkable cures of the *Throat, Lungs and Chest,—of Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma*, or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam*. So generally acknowledged is the superior excellence of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.
Editor of the Norway Advertiser, gives his opinion of this great remedy substantially as follows:
NORWAY VILLAGE, Me., Aug 4, 1860.
Messrs. S. W. Fowle & Co.—Gentlemen:—For a remedy of such undoubted merit as DR. WISTAR'S BALSAM OF WILD CHERRY, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial and be relieved. Several years since I first became acquainted with this Balsam at a time of distressing cough and cold, which took hold of my lungs as to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain.
In our town this remedy is a great favorite with many, and if all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.
Yours respectfully, GEO. W. MILLET.

Bryan's Pulmonic Wafers!
This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

☞ We are glad to learn that the friends of Physical Education in this city, are making arrangements to establish a Gymnasium, over a store in Market street. The funds are to be raised by subscriptions of five dollars each, and the matter is in charge of some of the same experienced and responsible gentlemen who have done so well for the Floating Bath. It is perhaps in some sense a private affair; and we only allude to it now, to express the hope that while they are about it, a room will also be fitted up for *Ladies*—which we are sure can be done as well as not, and certainly ought to be. The "bean bags" of the school girls is a good move—let us have a Gymnasium for them also. We take liberty to state, that subscriptions for either ladies' or gentlemen's shares, will be received at W. R. Preston's Apothecary establishment—where further information may be had.

A small and necessarily rather exclusive exercise room has been in existence for some years, over another store in Merchants' Row, but recently the owner and occupant of the lower premises have necessitated a removal. We think the merchants had better vacated in favor of "muscle."—But now is the chance for a grand public Gymnasium.

PORTSMOUTH POST OFFICE.—It has already been announced, and is no doubt correct, that J. P. Morse, Esq., is to be our Postmaster—though none of the new officers will probably enter upon their duties for a few weeks. We think most of the present Portsmouth incumbents of offices are worthy and efficient men; and, judging from the new appointments announced, they are to be fitly succeeded. Mr. Morse has certainly worked as hard, and done and sacrificed as much for the Republican party, as any other man here; and he is a prompt, courteous and accurate business man; and we have no doubt will make an efficient and satisfactory Post-Master. At any rate, his friends, and those who appreciate his long and arduous services for the now dominant party, will not be sorry that he has the chance to try.

☞ Among the changes which the appointment of new Government Officers about here will promote—is the removal of Stillman B. Allen, Esq., late Clerk at the Portsmouth Navy Yard, to Boston—whither he goes to engage in the business of the firm of Allen & Paine, of which house he is the head. Our relations with Mr. Allen, as with the other members of the firm, have long been of the most intimate and agreeable nature. Years ago, when we started the Chronicle, and Mr. Allen was a student in the law office of Hon. W. H. Y. Hackett, of this city, we chanced to call upon him to draw up our co-partnership papers; and so well did he afterwards appreciate the advantages offered by the Chronicle, as an advertising medium, that when he established his law business, in Kittery, he never allowed a day's issue to fail to contain his card from that time to this. And the firm of which he was at first the financial support, were equally fond of using our advertising columns—to the result of their own permanent advantage, as well as our own.

To the press in Boston, as well as all our readers and friends, we recommend Mr. Allen, and all the members of the firm, as companionable gentlemen and prompt and enterprising business men—and by no means *unprofitable* acquaintances, especially for the printers. May the Squire's shadow never be less, and his genial temper never get soured.

☞ An immense block of Cape Ann Granite, to go into the foundation of an addition to the Brewery of M. Fisher & Co., at the Creek, was hauled by our counting-room window, Wednesday afternoon, by half-a-dozen yoke of oxen. We were told it was seventeen feet long, two feet square, and weighed about six and a half tons. It came from the stone-yard of Mr. Silas Philbrick, on Pier Wharf.

☞ The Temperance Lecture next Sunday evening, in the Temple, is to be delivered by Rev. Mr. Pratt. Services begin at half past 7 o'clock.

☞ Auction of Cloths and Clothing, this (Thursday) morning, at the store of Mr. Stephen Walker in Daniel street. See advertisement.

☞ A few copies of the Extra Chronicle of last week, containing the report of the Masquerade Ball, may be had at our Counting Room.

LADIES, have you seen the beautiful display of JEWELRY at J. B. Adams', No. 3 Congress Block? If not, call before it is all gone. It is to be sold much under the regular prices. 1t

POST OFFICE ROBBERY.—On Tuesday, April 2, a man named Lord, entered the Post Office in Stratham, and stole ninety dollars, and made tracks for Great Falls, where he was arrested.

More persons are admired and envied from being unknown, than from being known.

OFFICES WITHOUT PAY.—Owing to an unfortunate oversight, no appropriation was made for the pay of any of the officers of the three territorial governments organized last session. So that the governors and other dignitaries must trust to the next Congress for compensation. They are supposed to favor an extra session.

☞ The U. S. steam frigate Powhattan, now at the Brooklyn Navy Yard, is to be dismantled and "laid up."

Why is a lover like a dog?—Because he bows and he wows.

A Distressing Cough, causes the friends of the sufferer as much pain as the sufferer himself. *Dr. Wistar's Balsam of Wild Cherry* will certainly cure coughs, colds, arrest consumption, and that speedily. When did it ever fail?

GROVER & BAKER

SEWING

MACHINES.

TO THE LADIES.

CHARLES T. EMERY,

No. 10 Market Sq., Portsmouth,

Having been appointed

SOLE AGENT IN PORTSMOUTH

for the sale of the celebrated and unrivalled Noiseless

GROVER & BAKER

FAMILY AND MANUFACTURING

Sewing Machines,

would invite especial attention to the same.

THE GROVER & BAKER SEWING MACHINE makes the only seam formed by a Sewing Machine, in which each stitch is independently locked, and without dependence on other stitches for strength, and the only seam that will admit of the thread being cut at every fourth stitch without injury to the seam in wear.

THE GROVER & BAKER SEWING MACHINE is adapted to all varieties of fabrics, sewing equally well the finest Swiss Muslin or the heaviest cloth or leather, and requiring no adjustment for any kind of sewing other than the adaptation of needles and thread.

THE GROVER & BAKER SEWING MACHINE sews from ordinary spools without rewinding, and fastens its own seams, thereby saving time and thread It will sew common spool cotton, silk and linen thread with equal facility.

THE GROVER & BAKER SEWING MACHINE is so simple that an intelligent child of ten years can readily learn to operate it. It is more easily kept in order than any other machine, and need not be taken apart to be oiled.

THE GROVER & BAKER SEWING MACHINE makes the only stitch that cannot be injured by washing and ironing, and the only stitch that forms an elastic and durable seam. Fabrics put together with this stitch may wear out and drop to pieces from original weakness, or hard usage, but come apart or give way at the seams, they cannot; they will hold together when the cloth or calico around them hangs in rags and tatters.

Every Machine Warranted.

PRICES FROM $40 UPWARDS.

☞ Be sure to call and examine.

I have also been appointed agent for

THE UNIVERSAL HEMMER,

Which can be attached to any machine, and will turn a hem from 1-16 inch to 2½ inches, without previous basting

PRICE $5.

LIFE INSURANCE.

"IN THE MIDST OF LIFE WE ARE IN DEATH."

The strong man often falters, and falls in the midst of the hurry and business of life. The *wise* man maketh provision for those whom he loveth, against the liability to accident and death.

THE

MUTUAL LIFE INSURANCE CO

Of New York,

with an accumulated capital of over

SEVEN MILLION DOLLARS,

Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually*, or *annually*, at the option of the insured.

The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.

No reflecting man can sit at his fireside with his young family about him, and feel at ease;—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

Morning Chronicle.

WHAT JOSIAH QUINCY THINKS.—"Is there on earth any collection of men, in which exists a more intrinsic, hearty, and desperate love of office, particularly of fat places? Is there any country more invested than this with the vermin that breed in the corruption of power? Is there any in which place and official emolument more certainly follow distinguished servility at elections, or base scurrility in the press?—And as to eagerness for the reward, what is the fact? Let, now, one of your great office holders—a collector of the customs, a marshal, a commissioner of loans, a postmaster in one of your cities, or any officer, agent, or factor, for your territories, or public lands, or person holding a place of minor distinction, but of considerable profit—be called upon to pay the last great debt of nature. The poor man shall hardly be dead,—he shall not be cold,—long before the corpse is in the coffin, the mail shall be crowded to repletion with letters, certificates, recommendation, and representations, and every species of sturdy, sycophantic solicitations, by which obtrusive mendacity seeks charity or invites compassion. Why, sir, we hear the clamor of the craving animals at the treasury-trough here in this capitol. Such running, such jostling, such wriggling, such clambering over one another's backs, such squealing because the tub is so narrow and the company so crowded! No, sir, let us not talk of stoical apathy towards the things of the national treasury, either in this people, or in the representatives, or senators."

WAKING THE DEAD.—One day last week the wife of one of our Irish citizens, after a long sickness, departed this life. As their custom is, her friends assembled for a wake, and were having a good time, when in the midst of the ceremonies, and to the great alarm of the party, the woman actually *woke up*, and she whom they had mourned as dead, rejoiced that she was alive again. The funeral was of course put off, and the woman lived several days, when she died again, and this time her sleep proved to be that which knows no waking.—*Woburn Budget.*

M. Musard has just composed a waltz called the Eglantine, during which the fresh odors of that flower are scattered over the concert hall. This effect comes from a new process, invented by Rimmel, the celebrated perfumer, who has already worked it at the Lyceum Theatre, where every evening he reproduces the odor of roses during a fairy scene. This ingenious process, which can be applied alike to the smallest boudoir or the largest ball-room, will perhaps be the means of replacing our present dull perfumes by the aroma of natural flowers.

An elaborate article on the new tariff in one of our exchanges illustrates the degree of information with which subjects of revenue and finance are often discussed.—The paper supposes that *wood screws*, about which there has been so much debate, *are made of wood!* When it has refreshed its intelligence a little on the matter, it might with advantage turn its attention to the kind of pine that pine apples are made of, and to the breed of horses that enter into the growth of horse chestnuts.—*Providence Journal.*

ALL SHOULD LEARN TO SING.—As it is commanded of God that all should sing, so all should make conscience of learning to sing, as it is a thing that cannot be done decently without learning. Those, therefore, who neglect learning to sing, live in sin, as they neglect what is necessary to their attending one of the ordinances of God.—*Jonathan Edwards.*

None of us know what we can live thro' till we have proved it. God sends strange strength to carry us on from one great trial to the next that is reserved for us. We live through them, and past them; so that to the world they seem over; so that strangers cheerfully observe to each other, that "we seem quite ourselves."

PHYSICAL EDUCATION.—Children are endowed by Nature with three sets of powers or faculties—Mental, Moral and Physical; and in our opinion, no system of education is complete, which does not provide for the proper cultivation and development of them all.

To be really and truly independent is to support ourselves by our own exertions.

SOMETHING MORE VALUABLE

THAN SILVER OR GOLD,

BECAUSE

IT WILL RESTORE THE WEAK,

AND REINSTATE THE BLOOD IN ALL ITS ORIGINAL PURITY & VIGOR.

It is

PROF. O. J. WOOD'S

RESTORATIVE CORDIAL

—AND—

BLOOD RENOVATOR.

It is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted *as to act in perfect accordance with the laws of nature, and yet soothe the weakest stomach*, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly innocuous in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combined powerful tonic and soothing properties, and consequently can never injure. As a sure preventive and cure of

CONSUMPTION, BRONCHITIS, DYSPEPSIA INDIGESTION, LOSS OF APPETITE, FAINTNESS, NERVOUS IRRITABILITY, NEURALGIA, PALPITATION OF THE HEART, MELANCHOLY, HYPOCHONDRIA, NIGHT SWEATS, LANGUOR, GIDDINESS, AND ALL THAT CLASS OF CASES SO FEARFULLY FATAL, CALLED FEMALE WEAKNESSES AND IRREGULARITIES.

THERE IS NOTHING ITS EQUAL!

Also Liver Derangements and Torpidity, and Liver Complaints, Diseases of the Kidneys, or any general derangement of the Urinary Organs.

It will not only cure the debility following CHILLS and FEVER, but prevent all attacks arising from miasmatic influences and cure the disease at once, if already attacked.

TRAVELLERS should have a bottle with them, as it will infallibly prevent any deleterious consequences following upon the change of climate and water.

As it prevents costiveness, and strengthens the digestive organs, it should be in the hands of all persons of sedentary habits.

LADIES not accustomed to much out-door exercise, should always use it.

MOTHERS should use it, for it is a perfect relief, taken a month or two before the final trial; she will pass the dreadful period with perfect ease and safety.

There is no mistake about it!

THE CORDIAL IS ALL WE CLAIM FOR IT!

MOTHERS, TRY IT!

And to you we appeal, to detect the illness or decline not only of your daughters, before it is too late, but also your sons and husbands, for while the former, from false delicacy, often go down to a premature grave rather than let their condition be known in time, the latter are often so mixed up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your nerve-failing affections will unerringly point you to PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR as the remedy which should be always on hand in time of need.

O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St Louis, Mo., and sold by all good Druggists. Price $1 per bottle.

Read what the Press say, after thoroughly testing the matter, and no one can have doubt.

PROF. WOOD'S Restorative Cordial and Blood Renovator is a genuine medicine of real merit, pleasant to the taste, and invigorating to the system. While it purifies the blood and soothes the nervous irritation, it aids the organs of digestion by its gentle but powerful influence, and resists the assaults of disease. It is a chemical compound so skillfully combined, that while it exhilarates it does not provoke the lassitude which usually follows excitement. A compound extracted from the vegetable matter, it is absolutely beneficial, and no ill effects can possibly accompany its use. It is an infallible and speedy remedy for Loss of Appetite, Faintness, Nervous Debility, Neuralgia, Falling of the Womb, and other delicate diseases to which women are subject. For Sickness of the Stomach, Bilious Attacks, Liver Complaints, Costiveness, Dyspepsia, Consumption, and a host of evils flesh is heir to, it is a certain cure.—*St. Louis Morning Herald.*

PROF. WOOD'S RESTORATIVE CORDIAL.—It is recorded in the classics that Psyche was once sent to a climate warmer than the West Indies, to procure a sample of the beauty of Proserpine in a box. After some delay the messenger returned, and as soon as the top of the box was removed, out flew all the ills that flesh is heir to. Fortunately hope was found in the bottom of the box. Prof. Wood's Restorative Cordial revives the recollection of the story, for it invigorates the blood, aids the organs of digestion, imparts strength to the nervous system, and fortifies the citadel of health so as to bid defiance to the assaults of disease. It is a healthy tonic, composed entirely of vegetable productions, and while it is exhilarating as pure wine, no injurious results can possibly follow its use. It is a discovery in the medical world, and those who are afflicted with loss of appetite, Dyspepsia, Consumption, Faintness, Nervous Palpitation of the Heart, &c., will here find an infallible panacea.—*St. Louis Daily Express*

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR is, without doubt, the best tonic offered to the world. To those who are suffering from general debility, we would recommend its use, for it is pleasant to the taste, is strengthening to the system, and yet acts mildly to remove all impurities of the blood, and eradicate all traces of disease. It can be taken by the weakest stomach, while those in poor health will at once feel its exhilarating power. We are confident that after using one bottle of this Cordial, none will be for a day without it.—*N. Y. Leader.*

A PURE, HEALTHY TONIC, and one free from the deleterious and injurious effects sure to follow those in ordinary use, has long been felt to be a desideratum in the medical world. Such a tonic, and one so skillfully combined from the vegetable kingdom as to act in perfect accordance with the laws of Nature, and thus soothe the weakest stomach, and at the same time allay nervous and other irritations, and tone up all the organs of which the human body is composed, is offered in Prof. Wood's Restorative Cordial and Blood Renovator. Hence it is perfectly adapted to old and Young. Reader, try it. Thousands have already done so; the testimony is universal in its favor.—*New York Atlas.*

☞ Before noticing a patent medicine, we have to be certain that it will prove itself to be all that it is recommended. And we would say that the Restorative Cordial and Blood Renovator of Prof. Wood will stand the test fully, and in fact it is without doubt the first and best medicine for purifying the blood and strengthening the system. We have no hesitation in recommending its use to all.—*New Yorker.*

Dyspepsia Remedy

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subjected to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigoratin Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.

One dose will remove all Bad Spirits.

One dose will cure Heartburn.

Three doses will cure Indigestion.

One dose will give you a good appetite.

One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disgreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigoratin Spirit, the distressing load and all painful feeling will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A dose or two will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are sured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the blood to health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations of the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cts. qts $1.

BININGER'S GENUINE Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for Family use and Invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling reasonable rates, a Brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

HEADQUARTERS, SOUTH SIDE WASHINGTON CITY, 1001 SECESSION ST.—*Telegram.*—Advices from Florida Reefs say that it is rumored that reports are in circulation to the effect that a large body of mosquitoes are preparing for an attack on the carcass of a dead horse; and unless reinforcements are sent immediately, they will be obliged to surrender it.

Later.—Dispatches from the Reefs confirm the accounts of the lawless depredations of mosquitoes. No reinforcements are required at present, as the stations on the south side—on which an attack is expected—are well garrisoned, with provisions enough to last until they are eaten up.

Still Later.—It is rumored that Gen. Gass, a great military tactician, has resigned, and delivered up the fortifications on Dead Horse Point, and the insects hold complete possession of the horse.

It is asserted that the Horse, when living, was very valuable. His value has depreciated very much, however, since he contracted a habit of kicking, and one day "kicked the bucket."

Latest—Sometime after the paper had gone to press.—It is positively denied that any mosquitoes have been seen near the Reefs, and the horse remains undisturbed.—This is by authority. Gen. Gass has not resigned, but dispatches have been received stating that there is a rumor that he is expected to immediately.

It is confidently asserted that while Gen. Gass was occupying the body of the Horse, the animal suddenly came to life, and immediately *seceshed*—by walking overboard with the General, and his tail catching in some part of the Reefs, he dragged them after him, and all three—reefs, horse and general, sank to rise no more! Mariners will govern themselves accordingly.

One of our solid men had occasion yesterday for the pain extracting service of a corn doctor; and while the operation was going on, the talk turned on the state of the times. "Business with me is remarkably dull," remarked the doctor. "You don't say that the Southern troubles affect your business," said the patient. "Indeed I do," rejoined the Doctor. "But really you don't say that people, to avoid paying twenty-five or fifty cents, will suffer the pain of their corns?" "No," replied the doctor, but the times make people wear their old boots and shoes, and they don't have any corns."—*Boston Post.*

PORTLAND A GRAIN PORT.—The Argus says that six ships are now there loading and waiting to load with grain for Europe. The engines of the Grand Trunk road are taxed to their utmost in forwarding, from Canada and the West, cereals to be shipped from that port. Last week the receipts of flour and grain, there, via the railroad were 5000 bbls. flour., 12,300 bushels wheat, 10,000 bushels oats, 575 bbls oatmeal, 1300 bushels barley, 3200 bushels bran and feed.

☞ It is said that the explosive kerosene oil is an adulteration—a mixture of the cheaper articles, camphene and burning fluid, with the kerosene, to increase the profits. Lives are thus sacrificed through the avarice of parties selling the oil.

That every day has its pains and sorrows is universally experienced, and almost universally confessed; but let us not attend only to mournful truths; if we look impartially about us we shall find that every day has likewise its pleasures and its joys.

WANTED, Material aid for constructing a life boat, that will float on "a sea of trouble," rise on the "waves of misfortune," stem the "tide of adversity," sail clear of the "quicksands of error," and steer safely to the "haven of rest."

Vain is it at wide intervals to say, "I'll save this year," if at each narrow interval you do not say, "I'll save this hour."

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic s*, and cannot fail to meet the wants of the debilitated.

It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.

One of the very best Physicians in Boston has said "*but it is the best preparation of Bitters that has ever been offered to th public.*"

Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

For further particulars reference is made to the printed circulars.

BELLINGHAM'S
Celebrated Stimulating Onguent!
For the Whiskers and Hair.

The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the Agency for, and are now enabled to offer to the American people, the above justly celebrated and world-renowned article.

THE STIMULATING ONGUENT
is prepared by DR. C. P. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of
WHISKERS OR A MUSTACHE
in from three to six weeks. This article is the only one of the kind used by the French, and in London and Paris it is in universal use.

It is a beautiful, economical, soothing, yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp, it will cure BALDNESS, and cause to spring up in place of the bald spots a fine growth of new hair. Applied according to directions, it will turn RED or TOWY hair DARK, and restore GRAY hair to its original color, leaving it soft, smooth and flexible. The ONGUENT is so indispensable article to every gentleman's toilet, and after one week's use they would not for any consideration be without it.

The subscribers are the only Agents for the article in the United States, to whom all orders must be addressed.

Price One Dollar a box—for sale by all druggists and Dealers; or a box of the "Onguent," (warranted to have the desired effect,) will be sent to any one who desires it, by mail (direct,) securely packed, on receipt of price and postage, $1.18. Apply to or address

—FOR—
RHEUMATISM AND NEURALGIA.

GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND.

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 8 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured." JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.

I certify that my friend, Wm. T. Gidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 15, 1857.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, APRIL 5, 1861.

BY HIS EXCELLENCY,

ICHABOD GOODWIN,

Governor of the State of New Hampshire.

A PROCLAMATION

For a Day of Public Fasting and Prayer

In accordance with usage, and with advice of Executive Council, I do hereby appoint Thursday, the eleventh day of April next, as a day of Public Fasting and Prayer throughout this State, and ask the people to assemble on that day, in their respective places of public worship, for the purpose of offering to Almighty God their humble supplications—imploring a continuance of his mercy to us, both as individuals and as a nation.

Never in our national history has there been greater occasion for humility, penitence and prayer; never was our political horizon so darkened by the clouds of discord and rebellion; never were our dearest social and national interests in such imminent peril. It becomes us, therefore, to look through and beyond all human agencies, and to acknowledge the sovereign providence of God. He hath smitten, and he alone can bind up our wounds.

Let us humbly consider our ways, confessing our sins; and may we not be unmindful that even while enduring the keenest injuries from the hand of men, we but suffer a just punishment from the hands of God. Let us ask to receive a spirit of conciliation, justice and patriotic devotion for ourselves; a spirit of candor and consideration—a returning sense of justice and duty—for our erring brethren.

May wisdom, moderation and forbearance, combined with a deep sense of high responsibility, animate the hearts and minds of those who, in this perilous season, are called upon to uphold the Constitution and administer the Laws of the land. Let us earnestly pray that lasting good may be evolved from the present evil; that our once glorious Union may be re-established and preserved; that our Judges may be restored as at the first, and our Counsellors as at the beginning; and that we may be mercifully saved from the bitter horrors of civil war, or the fearful woes of anarchy.

Given at the Council Chamber, this twenty-eighth day of March, in the year of our Lord one thousand eight hundred and sixty-one, and of the Independence of the United States the eighty fifth.

ICHABOD GOODWIN

By His Excellency, the Governor.

THOMAS L. TULLOCK, Sec'y of State.

FAST DAY.—We print this morning Gov. Goodwin's brief, pointed and earnest Proclamation for a Day of Fasting, Humiliation and Prayer. Thursday next, the day appointed, will doubtless be observed more according to the spirit by which it was originally instituted, than has been usual of late years. There are, says the Transcript, in the circumstances of the country, so many causes for humiliation, that the appropriateness of setting apart a day for their religious consideration cannot be questioned. The sermons we have no doubt will have a graver, deeper and more directly practical eloquence; and the pews will contain more thoughtful and more numerous listeners, than on other Fast Days.

One idea in Gov. Andrew's Massachusetts proclamation is worthy of being devoutly meditated, not only now, but at all times, namely, that "there can be no national wickedness without individual guilt." Indeed, the wickedness which is organized in our politics has a direct relation, not only to individual statesmen, but to the individual constituents of statesmen; and in a representative government the folly and guilt of the people are always sure to be represented. Every person who leads a good life is a benefactor to the State.

NAVAL.—The United States steam gunboat Dacotah, according to a letter just received from St. Helena, may be considered a failure. She was built at Norfolk, and rolls so dangerously in a heavy sea that her crew dread to see a storm rise. It is a singular fact that the two new steamers built at Norfolk for the navy, are characterized by the "rolling propensity" to a dangerous extent. The Richmond is as bad as the Dacotah. Orders have been received for the outfit of the U. S. brig Perry, now lying at Brooklyn. The Perry will take very little time to fit out.

☞ So far from recalling the French troops from Rome is the French government, that it was generally reported in Paris that ten thousand men were about to be sent out, nominally to reinforce the garrison, but really to make a counter demonstration to that of Austria on the Po.

A statement has been circulated and has attracted the attention of the English House of Commons, that there are nineteen thousand Canadian Annexationists in the city of Bangor, Me.

The Portland Argus laughs at the statement, as an absurdity.

RHODE ISLAND ELECTION.—*Providence, April 3.*—The election to-day resulted in the entire defeat of the Republicans. Gov. Sprague is re-elected by a large majority, and the Legislature is of the same political complexion. Messrs. Sheffield and Browne have defeated the late Republican members of Congress from this State.

[The New England Congressional elections are now completed; and while the popular Republican vote is almost if not quite undiminished, that party have lost *five* Representatives; and the Democratic party having gained the same five, the Republican party in this Congress becomes ten votes weaker than in the last,—or rather it would be so, were it not that the seceders were all of the Democratic party.

This is so far favorable to re-construction on the basis of slavery.]

PENALTIES IMPOSED ON VESSELS FROM THE SOUTH.—Within a week, the fine of $100 has been paid at New York by captains of four vessels which left Southern ports since the revenue laws of the Confederate States went into operation, and consequently could not obtain proper clearances. The fines were paid, under protest. The Collector retains the money on deposit, until a decision on the matter shall be made by the Secretary of the Treasury, to whom it has been referred. In one of these cases, that of the steamer Bienville, there was a lot of wines and jalap of the value of $1600, upon which there was no evidence to show that duties had been paid. These goods were brought from New Orleans, because the merchants there could find no sale for them. The Atlas says it is rather an extraordinary fact, in these times of the growth of Southern trade, that foreign goods arriving at New Orleans should find no market, and at the risk of confiscation are sent to New York to be sold.

☞ From the Philadelphia Inquirer's correspondence:—

"The Richmond Whig has been compelled to yield its strong Union sentiments before the gradual encroachments of secession. Robert Ridgway, a stanch Union man and an able editor, has withdrawn from its control.

An agent of General Sam Houston has been in the city for several days, it is said, with the intention of proceeding North to purchase arms and munitions of war. He states that "Old Sam" is raising an army of from three to five thousand men in Texas, Arkansas, Missouri and Tennessee to oppose the jurisdiction of the Confederate States. It is rumored that he has had an interview with the Cabinet with a view to informing them of the real sentiments of the people in the Lone Star State."

RAILROAD ACCIDENT.—*Pittsburg, Pa., April 3.*—The mail train, due from Philadelphia at 1 o'clock this morning, was thrown from the track near Wall's Station, by the breaking of the axle of the forward car. The forward car was thrown down an embankment fifteen feet high, the others running off the track. There were 80 passengers on board the train, 5 of whom were slightly injured, and will be able to leave to-morrow for their several places of destination. The mails caught fire from the upsetting of a stove, and the contents of several pouches were damaged or destroyed. The New York mail was damaged.

ARREST OF FUGITIVES.—*Chicago, Ill., April 3.*—A colored man named Harris, with his wife and two children, were arrested this morning as fugitive slaves from Missouri, and taken to Springfield to be examined. As they were almost entirely unknown, the warrants issued were executed with little difficulty. But after the affair became known, an intense excitement prevailed among the colored population.—Large numbers gathered at the time the morning train left. Supposing the fugitives were on board, one or two shots were fired at the train. No other disturbance occurred.

Exchange on New York has declined to 4 per cent.

VIRGINIA.—*Richmond, Va., April 3.*—Mr. Mayo was elected Mayor to-day by 1000 majority over Mills, the Union candidate.

In the Convention to-day, Mr. Scott, of Farquier, made a speech, in which he spoke of the futility of the hope that the North would give sufficient guarantees by constitutional amendments, and urged a border State conference to secure a united withdrawal hereafter, with a view to reconstruction. Mr. Richardson of Hanover made a speech in favor of immediate secession.

KEENE, N. H.—Our correspondent at Keene informs us that there were a number of handsome dwelling houses built there last year; also a large steam mill, soon to be filled with machinery for mechanical purposes. There will also be a large number of buildings erected there the coming year; including an Episcopal Church.

BOYS, BE CAREFUL.—A son of Mr. Benjamin Swain of Exeter, slid from a haymow in a barn, and was impaled on a stable broom, the handle of which entered his bowels through the rectum, and injured him so seriously that his recovery is doubtful.

☞ By the America, at Halifax, we learn the French Corps Legislatif rejected the amendment to the address in favor of the withdrawal of the troops from Rome, and finally adopted the entire address, 213 against 13.

CHARLESTON, April 3.—The Convention to-day ratified the permanent constitution of the Southern Confederacy by a vote of 149 to 20.

POLITICIANS VS. THE PEOPLE.—Considerable excitement exists at Keene, N. H., because Mr. Godfrey (of the "Sentinel" newspaper) did not receive the Post Office, according to a large vote of the Republican meeting held to recommend; and because Mr. Hatch, who received the smallest number of votes, in that meeting, *has* been appointed. The Keene people say that this is an outrage, perpetrated because Mr. Hatch is a nephew of Mr. Edwards, the member of Congress from that District,—and Mr. E. has been hung and burnt in effigy there.

On the other hand, the Manchester American (a stranger, and at a distance) says, "it seems the Department did not take the same view of the matter as the voters did. A protest was made by the business men of the place, [of what party?—*Ed. Chron.*] against the appointment of the people's candidate." There are always two sides to a story—but it does seem as if "the people" *ought* to have their own choice in such matters—but then they don't, and never will, so long as they worship and serve the politicians, and let them have things all their own way, "By the grace of God." F.

REPORTS FROM NEW ORLEANS AND TEXAS.—*New Orleans, April 2.*—The election for District Judges, yesterday, resulted in favor of the South American opposition party by a large majority.

Howell Cobb was serenaded last night by the Louisiana Guard, at the St. Charles Hotel, and a large concourse of people attended. He returned thanks in a patriotic speech.

The new revenue regulations, establishing revenue stations and depots on railroads entering the Southern confederacy, and subjecting baggage to examination, are expected to create annoyance and dissatisfaction.

A letter from Sherarl Clemens says Virginia is sure to secede on the reassembling of the convention.

An extra of the Galveston News of March 30 brings the startling news from the Rio Grande that Ampudia, with 3000 Mexicans, sixty miles distant, was marching on Brownsville. Expresses had circulated handbills declaring Texas no longer under the protection of the United States government.

Colonel Ford, with four hundred Texan troops, was fortifying Fort Brown, and chartered a steamer to bring up arms and munitions from Brazos.

Captain Powers, with 60 Texans, was in command at Brazos, with fifteen heavy guns and mortars.

It was supposed the intention of Ampudia was to make a raid on Matamoras and Brownsville for booty.

The United States steamer Mohawk arrived off Indianola on the 29th ult.; also the steamers Star of the West, Empire City and Coatzacoalcos. The latter took off six hundred United States troops, and sailed the same night.

NEW YORK, April 3.—The Commercial's dispatch states that a Cabinet meeting was held this morning, which was attended by Gen. Scott, who was hastily summoned. Capt. Fox has arrived from Fort Sumter, and it was thought the consultation was in reference to reinforcing Major Anderson. There is considerable excitement here.

The special messenger on the Alexandria and Orange Railroad has been tarred and feathered because he is a Republican.

Two batteries of artillery and a company of sappers and miners have been ordered to Fort Hamilton, New York.

A special dispatch from Charleston to the Day Book, says the furnishing of provisions to Major Anderson was stopped to-day. Gen. Beauregard is now inspecting the fortifications, as orders from Montgomery for the commencement of hostilities are hourly expected. The preparations are all completed.

☞ Mrs. Ann Whitbeck is the Lighthouse keeper at Stuyvesant, on the Hudson river, some twenty miles below Albany. She was appointed to that position in 1832, since which time she has retained it. The salary is $350 per annum. Mrs. Whitbeck has an only daughter, and between them they manage to perform the duties pertaining to the office.

GALVESTON, April 3.—Gov. Houston has sent a message to the Legislature, protesting against the convention, and appealing to that body to sustain him, claiming still to be Governor. The legislature did not take the slightest notice of it.

ST. LOUIS, April 2.—The Republican publishes a letter dated Los Vegas, New Mexico, March 12, detailing the seizure of Fort Marcy by a party of Americans and Mexicans, with Gov. Rencher at their head; but later arrivals here, as well as the Santa Fe mail of the 18th, deny any knowledge of such movements.

☞ Vice President Hamlin returned to Maine on Thursday, over the P. S. & P. Railroad. The Vice President has a slovenly style of dress, and munched parched corn as complacently as if the Union was in a perfect state of repose.

☞ The Piscataqua Association will meet in North Hampton, with Rev. John Dinsmore, on Tuesday, April 16, at 10 A. M.

☞ For the first time for twenty years, the government of the Nation, the State of Maine, and the city of Portland, will be in the hands of the same political party after Monday next.

CONNECTICUT ELECTION.—*Hartford, Conn., April 3.*—The Fourth Congressional District elects Woodruff, dem., by 80 majority.

PENSACOLA, Apr. 3.—Commander Berryman, of the Wyandotte, died yesterday, of brain fever.

WASHINGTON ITEMS.—April 3.—Minister Corwin has been tendered the sloop-of-war Cumberland, now fitting at Norfolk, to take him to Mexico. He expected to leave on the 15th, but should she not be ready, he may be conveyed in the Powhattan.

Sir Charles Wyke, the British Minister, expected to arrive in Mexico about the first of May.

The Mexican question receives the special consideration of the administration, and an immediate treaty with Mexico is one of the objects of the mission.

The Spanish fleet, which has been sent to the Gulf of Mexico will be delayed until further instructions are received from Madrid.

The decision of the Secretary of the Treasury against all bids under 94 caused great disappointment among the bidders. He has concluded to issue Treasury notes for the remaining five millions.

Minister Clay was on Monday disconnected from the Peruvian Mission, as the government disapproves of the course of the preceding administration, which suspended diplomatic intercourse between the two countries. The indications are that they will soon be resumed.

It is ascertained that the French Consuls in the Confederate States have received instructions direct from France relative to the facilita ion of southern commerce with the Empire.

Although no official notification of the coming of the French and English fleets has been received here, gentlemen in prominent positions are satisfied that their movements are in close connection with the observation of southern political events.

The continued presence of Major McCullough in Richmond is viewed in conjunction with the call for a secession convention in that city on the 16th, excites much interest here, especially in army circles.

☞ Rev. H. Q. Butterfield, late of Hallowell, Me., has accepted a call from the Congregational church in Great Falls, and has entered on his labors.

☞ Rev. Bezaleel Smith has asked a dismission from his pastoral charge of the Congregational church in New Alstead. He closed his labors there on the last Sabbath in March.

☞ Three young *American* girls have been creating a great excitement among the musical fashionables in Boston and elsewhere, of late, in opera—Misses Adelaide Phillips, Kellogg, and Hinkley.

THE WONDERS OF THE MICROSCOPE. We understand it is through the agency of this marvel viewing instrument that Dr. Ayer has at length succeeded in finding the *paludal miasm* and determining its character. In its effects we in this section have abundant evidences in the fever and ague which it alone produces when absorbed through the lungs into the blood. It has long been held to be a vapor, or something in the vapor of water from decayed and decaying vegetation. Under a great magnifying power the Doctor has found this vapor to contain distinct organisms of living bodies, corresponding precisely with those found in the blood of ague subjects. They are 13,000 times less than visible to the naked eye, but have distinct caharacter and form. He thinks they are reproductive in decaying matter or in the blood, and hence their long continued life or the remote effects of them in the system. He maintains that they resemble in character the other fermented poisons, or such as the virus of rabies or of a dead body, &c., all of whom are known to reproduce themselves with great rapidity like yeast in moistened flour, so that the slightest quantity impregnates the whole mass.

Yeast through a powerful magnifier is seen to be a forest of vegetation which grows, blossoms, and goes to seed in a short time. Miasm is not so distinctly vegetable but has more the appearance of animal life, although its motions cannot be perfectly distinguished. What the Doctor claims to have settled is that it is an organic substance and he has further found and embodied in his "Ague Cure" what will destroy it.—*Leader, St. Louis, Mo.*

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE.

The following is a sample of many letters daily received by W. E. HAGAN & CO., Troy, N. Y., who are the Manufacturers and Proprietors of "HEIMSTREET'S HAIR RESTORATIVE," an article of which many of our first citizens speak as being the *cheapest and best* Hair Preparation which has ever been introduced in our market. A combination of Stimulating Spirits and Oil, affording an agreeable *Hair Dressing*, leaving the scalp perfectly free from dandruff, and causing the Hair to have a *rich glossy appearance*. Two articles in one. A fine "*Hair Dressing*," and a never-failing Restorative for the *Bald* and *Gray*.—Read the following letter:

ST. LOUIS, MO., June, 1859.

MR. HENRY REYNOLDS,—*Dear Sir*:—I hereby certify that my hair having become *gray*, I used, at your request, HEIMSTREET'S INIMITABLE HAIR RESTORATIVE, (prepared by W. E. HAGAN & CO., Troy, N. Y.) for several weeks. My hair was in that time restored to its original color, with all its luxuriance and beauty; and I will be much pleased to recommend the article, personally, on any and every occasion, as I know it has merits that the Proprietors do not claim for it in their circulars. WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, NO REMEDY has performed so many or such remarkable cures of the *Throat, Lungs and Chest*,—of *Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma*, or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam*. So generally acknowledged is the superior excellence of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.

Editor of the Norway Advertiser, gives his opinion of this great remedy substantially as follows:

NORWAY VILLAGE, Me., Aug. 4, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—For a remedy of such undoubted merit as DR. WISTAR'S BALSAM OF WILD CHERRY, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial and be relieved. Several years since I first became acquainted with this Balsam at a time of distressing cough and cold, which took such firm hold of my lungs as to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain.

In our town this remedy is a great favorite with many, and if all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.

Yours respectfully, GEO. W. MILLET.

GROVER & BAKER

SEWING MACHINES.

TO THE LADIES.

CHARLES T. EMERY,
No. 10 Market Sq., Portsmouth,

Having been appointed

SOLE AGENT IN PORTSMOUTH

for the sale of the celebrated and unrivalled Noiseless

GROVER & BAKER

FAMILY AND MANUFACTURING

Sewing Machines,

would invite especial attention to the same.

THE GROVER & BAKER SEWING MACHINE makes the only seam formed by a Sewing Machine, in which each stitch is independently locked, and without dependence on other stitches for strength, and the only seam that will admit of the thread being cut at every fourth stitch without injury to the seam in wear.

THE GROVER & BAKER SEWING MACHINE is adapted to all varieties of fabrics, sewing equally well the finest Swiss Muslin or the heaviest cloth or leather, and requiring no adjustment for any kind of sewing other than the adaptation of needles and thread.

THE GROVER & BAKER SEWING MACHINE sews from ordinary spools without rewinding, and fastens its own seams, thereby saving time and thread It will sew common spool cotton, silk and linen thread with equal facility.

THE GROVER & BAKER SEWING MACHINE is so simple that an intelligent child of ten years can readily learn to operate it. It is more easily kept in order than any other machine, and need not be taken apart to be oiled.

THE GROVER & BAKER SEWING MACHINE makes the only stitch that cannot be injured by washing and ironing, and the only stitch that forms an elastic and durable seam. Fabrics put together with this stitch may wear out and drop to pieces from original weakness, or hard usage, but come apart or give way at the seams, they cannot; they will hold together when the cloth or calico around them hangs in rags and tatters.

Every Machine Warranted.

PRICES FROM $40 UPWARDS.

☞ Be sure to call and examine.

I have also been appointed agent for

THE UNIVERSAL HEMMER,

Which can be attached to *any* machine, and will turn a hem from 1-16 inch to 2½ inches, without previous basting.

LIFE INSURANCE.

"IN THE MIDST OF LIFE WE ARE IN DEATH."

The strong man often falters, and falls in the midst of the hurry and business of life. The wise man maketh provision for those whom he loveth, against the liability to accident and death.

THE
MUTUAL LIFE INSURANCE CO
Of New York,
with an accumulated capital of over
SEVEN MILLION DOLLARS,

Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually,* or *annually,* at the option of the insured.

The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as necessary as it is now to protect ourselves from loss by fire.

No reflecting man can sit at his fireside with his young family about him, and feel at ease;—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

SEVEN OBSTACLES TO MATRIMONY.

Enchanting girl! thy form so fair
In playful dreams around me dances:
Thy smile so bright, so free from care,
Thy dimpled cheek, thy jet-black hair,
My heart entrances.

But oh! those eyes, those lovely eyes
With joy and innocence still gleaming;
The winged light scarce swifter flies
Than do the glances from those eyes,
With pleasure beaming.

I'd woo thee, maiden, were it not
That wooing thee might prove bewildrin';
I'd woo thee maiden, were it not
For this one thing—a wife I've got,
And six small children!

☞ The Washington correspondent of the New York Herald says:—

The secret of the recent letter from Mr. Peabody, the London banker, against coercion towards the seceded States, may be found in the fact that he holds eight hundred thousand dollars of the eight per cent. bonds of the Vicksburg and Brandon Railroad in Mississippi, and part of the old United States bank assets.

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

Are for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OSWEGO, Ind., Jan. 28, 1861.

J. C. AYER & CO.: Gentlemen—I feel so thoroughly the value of your Sarsaparilla for the diseases for which it is recommended, that I have sought for it in every way I can, and have taken it myself for Ulcers on my hands and arms, sometimes so bad that I could not dressed me at the stench. My sister was afflicted with a humor in her face, which was pronounced incurable by the physicians, which your Sarsaparilla cured perfectly. I feel many testimonials of its efficacy, but will not weary you with them, in fact, the disease grew worse. At length I could find no relief in the medical profession, and I have seen it so many times cured by your Sarsaparilla, that I have no hesitation in saying that it is the best blood purifier you have, and that it will cure many things you have not found out yet. I want to know if I may use your name in the cause of humanity, and I will do all I can for you. I send you a few lines of my experience of the agony I endure every spring.

Yours, ALFRED S. TALLANT.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Dodge writes from Salem, N. Y., Feb. 1, 1861, that he has cured an inveterate case of Dropsy, which threatened to terminate fatally in the persistent use of our Sarsaparilla, and he confidently believes Ayer's Sarsaparilla to have more of the virtues of Medicine than any other preparation he knows of, and to be more the curative remedy than any other.

Bronchocele, Goitre or Swelled Neck.

Johnson Shaw of Prospect, Texas, writes—"The last bottle of your Sarsaparilla cured my Goitre. I had one that was swelling on the neck, which I had endured long and painfully."

Leucorrhea or Whites, Ovarian Tumor, Uterine Ulceration, Female Weakness.

Dr. J. S. Chesney, of New York City, writes: "I most cheerfully comply with the request of your agent, and say that I have found your Sarsaparilla a good and efficacious alterative for the numerous diseases for which it is recommended to be a remedy, but especially in Female Diseases of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhea by it, and consider it the best medicine we have for the purpose. Many of my patients have been cured by it of Ulcerous Ovarian Tumor, of long standing, and of Uterine Ulceration, which had resisted all other treatment, and which would soon result in death, if not relieved by the use of this medicine. The cure in these cases has been complete, and the patients have enjoyed good health for years since. Nothing else has ever done so much for my patients as your Sarsaparilla."

Erysipelas, Rose or Erysipelas.

Edward S. Marrow, of Roxbury, Mass., writes: "I also receive marked benefit from one of the first bottles of your Sarsaparilla I ever took. I had been troubled with Erysipelas for years, which had defied all the remedies we could find, but at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but a course of this medicine would effect a cure, and I am glad I took Sarsaparilla as the last resort before entering upon a course of mercury, which I dreaded, since I had seen so many sad effects from it. I have had no return of the disease, and no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEANS, Feb. 1, 1861.

DR. J. C. AYER: Sir, I cheerfully comply with your request of your agent, and state that a friend of mine for whom I have realized with your Sarsaparilla.

I have cured with it, in my practice, many cases of Syphilis, which had resisted all other treatment, and I have found its effects truly wonderful in the cure of Tertiary and Mercurial Disease. One of my patients had suffered from a venereal affection, which had spread over his entire body, and even to the top of his mouth. Your Sarsaparilla, directed by me, cured him in five weeks. Another was afflicted with a venereal eruption in his face, which had resisted all other treatment, which soon healed and left him as clear as a child. Another was troubled with a venereal sore throat, which had resisted all other treatment, which soon healed and left him well. I have prescribed your Sarsaparilla in many cases of Mercurial Disease, and have yielded to my administration of your compound, which soon healed, and he is well again, and of course, without some disfigurement to the face. A woman who had suffered for nine years with a venereal affection of the throat, finds the poison in her bones. They have been very sensitive to the weather that on a damp day she felt much pain in her bones. Your Sarsaparilla has cured entirely by your Sarsaparilla in a few weeks. I have from 50 to 60 cases, which I can speak positively of this Preparation from years past to be the best blood purifying remedy; consequently, these truly severe cases, in which it has cured, are surprised me.

Fraternally yours, O. I. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Fayette Co., Mo., Feb. 20, 1861.

DR. J. C. AYER: Sir, I have been afflicted with a pain in the small of my back for a long time, which I took to be a kind of lumbago, and used many remedies without relief. I had used your Sarsaparilla for some months, and had found it very beneficial in my case, and I now feel as well as ever. I feel young again. The pain in my back is entirely gone. I recommend your Sarsaparilla to all who need a good blood purifier, as I believe it to be the best I ever used.

Yours, J. P. HUNTER.

Dropsy, Costive Tumors, Enlargements, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where Ayer's Sarsaparilla has been used with the most decided benefit, and we have no doubt but that in the case upon here will not admit of the cure of cases, may be found in our American Almanac, which we think worthy the attention of the sick, and we publish it for their benefit.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia

Have been cured by this medicine. It stands in the alleviation of one of the most distressing ills that flesh is heir to, namely, those which would be supposed beyond the reach of medicine, and which have been produced by the derangement of the stomach, and we are confident that this will add a great deal to our fame.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

Has a supremacy so universally known to surpass any other medicine of its kind, that it is unnecessary to publish the evidence of its virtues. Its unrivaled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Scarcely a family can be found in this land of its victory over the diseases and dangerous disorders of the throat and lungs. Many have testified to the extent of their own disorders, and of their friends, but the effects of this remedy, we need not say, are known to many them that it has now all the virtues that it ever had when making the cures which have rendered it so universally upon the confidence of mankind.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

SOMETHING MORE VALUABLE

THAN SILVER OR GOLD,

BECAUSE

IT WILL RESTORE THE WEAK,
AND REINSTATE THE BLOOD IN ALL ITS
ORIGINAL PURITY & VIGOR.

It is

PROF. O. J. WOOD'S

RESTORATIVE CORDIAL

—AND—

BLOOD RENOVATOR.

It is precisely what its name indicates, for, while pleasant to the taste, it is revitalizing, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted, as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach, and tone up the digestive organs, and also all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. As a sure preventive and cure of

CONSUMPTION, BRONCHITIS, DYSPEPSIA INDIGESTION, LOSS OF APPETITE, FAINTNESS, NERVOUS IRRITABILITY, NEURALGIA, PALPITATION OF THE HEART, MELANCHOLY, HYPOCHONDRIA, NIGHT SWEATS, LANGUOR, GIDDINESS, AND ALL THAT CLASS OF CASES SO FEARFULLY FATAL, CALLED FEMALE WEAKNESSES AND IRREGULARITIES,

THERE IS NOTHING ITS EQUAL!

Also Liver Derangements and Torpidity, and Liver Complaints, Diseases of the Kidneys, or any general derangement of the Urinary Organs.

It will not only cure the debility following CHILLS and FEVER, but prevent all attacks arising from miasmatic influences and cure the disease at once, if already attacked.

TRAVELLERS should have a bottle with them, as it will infallibly prevent any deleterious consequences following upon the change of climate and water.

As it prevents costiveness, and strengthens the digestive organs, it should be in the hands of all persons of sedentary habits.

LADIES not accustomed to much out-door exercise, should always use it.

MOTHERS should use it, for it is a perfect relief, taken a month or two before the final trial—she will pass the dreadful period with perfect ease and safety.

There is no mistake about it!

THE CORDIAL IS ALL WE CLAIM FOR IT!

MOTHERS, TRY IT!

And to you we appeal, to detect the illness or decline not only of your daughters, before it is too late, but also your sons and husbands, from the ills, the former, from false delicacy, often go down to a premature grave rather than let their condition be known in time, the latter are often so mixed up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But you are ever on the ways vigilant, and to you we confidently appeal; for we are sure your never-failing affection will interpose and say to your DEAR WORK (Happiness) TORATIVE CORDIAL AND BLOOD RENOVATOR as the remedy which should be always on hand in time of need.

O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St. Louis, Mo., and sold by all good Druggists. Price $1 per bottle.

Read what the Press say, after thoroughly testing the matter, and no one can have doubt.

PROF. WOOD'S Restorative Cordial and Blood Renovator is a genuine medicine of real merit, pleasant to the taste, and invigorating to the system. While it purifies the blood and soothes the nervous irritation, it aids the organs of digestion to perform their functions, and resists the assaults of disease. It is a chemical compound so skillfully combined, that while it exhilarates it does not provoke the lassitude which usually follows excitement, and is composed entirely of vegetable matter, it is absolutely beneficial, and no ill effects can possibly accompany its use. It is an infallible and speedy remedy for Loss of Appetite, Faintness, Nervous Debility, Neuralgia, Falling of the Womb, and other delicate diseases to which women are subjected. For Sickness of the Stomach, Bilious Attacks, Liver Complaints, Costiveness, Dyspepsia, Consumption, and a host of evils flesh is heir to, it is a certain cure.—*St. Louis Morning Herald.*

PROF. WOOD'S RESTORATIVE CORDIAL.—It is recorded in the classics that Psyche was once sent to a climate warmer than the West Indies, to procure a sample of the beauty of Proserpine in a box. After a long delay the mandate returned, and as soon as the top of the box was removed, out flew all the ills that flesh is heir to. Fortunately hope was found in the bottom of the box. Prof. Wood's Restorative Cordial revives the recollection of the story, for it invigorates the blood, aids the digestive organs, imparts strength to the nervous system, and fortifies the citadel of health so as to bid defiance to the assaults of disease. It is a healthy tonic, composed entirely of vegetable productions, and while it is exhilarating as pure wine, no injurious results can possibly follow its use. It is a boon to the medical world, and those who are afflicted with loss of appetite, Dyspepsia, Consumption, Faintness, Debility, Palpitation of the Heart, &c., will here find an infallible panacea.—*St. Louis Daily Express*

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR is, without doubt, the best tonic before the world. If we had a friend to have suffering from general debility, we would recommend its use, for it is pleasant to the taste, is strengthening to the system, and will not come near to remove all impurities of the blood, and eradicate all traces of disease. It can be taken by the weakest stomach, while those in a good health and at once feel its exhilarating power. We are confident that after using one bottle of this Cordial, none will be for a day without it.—*N. Y. Leader.*

A PURE, HEALTHY TONIC, and one free from the deleterious and injurious effects sure to follow those in ordinary use, has long been felt to be a desideratum in the medical world. Such a tonic, and one so skilfully combined from the vegetable kingdom as to act in perfect accordance with the laws of Nature, and thus soothe the weakest stomach, and at the same time allay nervous and other irritations, and tone up all the vital powers of which the human body is composed, is offered in Prof. Wood's Restorative Cordial and Blood Renovator. Hence it is perfectly adapted to old and Young. Reader, try it. Thousands have already done so; the testimony is universal in its favor.—*New York Atlas.*

☞ Before noticing a patent medicine, we have to be certain that it will prove itself to be all that it is recommended. And we would say that the Restorative Cordial and Blood Renovator of Prof. Wood will stand the test fully, and in fact it is without a doubt the best article in the market for purifying the blood and strengthening the system. We have no hesitation in recommending its use to all.—*New Yorker.*

Dyspepsia Remedy

DR. DARIUS HAM'S
AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirum Tremens, Inability to sleep, Costiveness, Sthilitates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subjected to the horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.
One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.
One dose will remove the most distressing pains of Colic, either in the stomach or bowels.
A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.
Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, and quarts $1.

The infamous practice of adulterating Brandies having become so universal, a genuine article is the exception; it is of *vital importance* to those requiring it for Family use and Invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling reasonable rates, a Brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

Morning Chronicle.

THE LONDON TIMES, in a late number, brought by the Africa,—expresses the belief that the peace conference propositions, which had just then reached England, will not be of any avail in restoring peace. In speaking of the men chosen for Mr. Lincoln's Cabinet, it says:—

"In Mr. Seward the President has chosen a man whom the convulsions of the country have terrified into moderation. He has been overcome by the complete fulfilment of his own prophecy."

The monetary article in the London Times of March 16th thus refers to the finances of the southern confederacy:

"It appears that the Congress of the seceding American States have resolved to raise an 8 per cent. loan of £3,000,000, redeemable in ten years. As the new confederacy includes in its total population of 5,100,000, no less than 1,050,000 who are pledged to repudiation, it is difficult to understand the possibility of such an amount being raised, either in home or foreign markets. This feeling is increased by the fact that, indirectly, the entire population may be considered to have signified their approval of repudiation as a principle, by having selected Colonel Jefferson Davis as their first President. This person has long been regarded as the apostle of repudiation, and the holders of Mississippi bonds have reason to remember his celebrated speech, delivered within the legislative hall, built by British money, in which he ridiculed the 'crocodile tears' of the dupes who had ventured to petition for the payment of their claims."

The same paper concludes an article on the "New American Revolution," as follows:

"The South has hitherto had ever advantage. It has had what it is not likely soon to obtain again—the assistance of a Ministry ready to plunder, disarm, and betray the central government, for the purpose of putting them into the best position of resistance. They are not likely to get such another chance, and they will scarcely put themselves in a position from which they can never hope again to emerge with so many concurrent advantages. For these reasons we shall not be surprised to hear that the great attempt of the border States to mediate between South and North has turned out a failure, and that the mediators themselves are not disposed to abide for their own guidance by the terms they have proposed for the reconstruction of the Union."

WE WILL SUBDUE YOU.—*Messrs. Editors:*—Your New York correspondent said, a day or two since, "You cannot subdue the South by force." Very likely this may be true; but when and where has any man at the North said one word about *subduing* the South? Never, so far as I know. But there was a famous champion of the slave power, in Congress, urging the famous Nebraska bill to its passage, and repealing the Missouri compromise. When Northern men, Democrats among them, opposed this mad measure, he said, in the most insulting manner, "*We will subdue you.*" And so the matter stands. The threats are from that side. BOB SHORT.

☞ A correspondent of the New York Tribune proposes to contract to reinforce Fort Sumter, take back the stolen Branch Mint, all our ships, steamers and property taken by the rebels, and restore the same to the general government, for the sum of $7,665,000. The general government to furnish him sufficient boats and munitions of war to convey and be used by 20,000 live Yankees, "together with provisions to board the same till I could land them among the rebels, (when I expect we could live very well on their charities.") And he does not propose to have any war.

PORTLAND APPOINTMENTS.—A Washington dispatch of April 3, says:

It appears that there has been a mistake in the cast of federal officers at Portland.—Jedediah Jewett is Collector; Andrew Dole is Postmaster; C. G. Talbot is Surveyor.

The *mistake* seems to have been an electioneering *canard*, to influence the Portland City Election. No doubt it had some effect,—but not enough to carry the city for reconstruction on the basis of slavery.

All of the States comprised in the new Southern Confederacy, have adopted the Constitution prepared at Montgomery, with the exception of South Carolina.

Yes: the *States* have done something—but the *people*, in most of them, have not been consulted. The oligarchies have done the business.

DO YOU WANT A MUSTACHE?
BELLINGHAM'S
Celebrated Stimulating Onguent!
For the Whiskers and Hair.
The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the Agency for, and are now enabled to offer to the American people, the above justly celebrated and world-renowned article.
THE STIMULATING ONGUENT
is prepared by DR. C. P. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of
WHISKERS OR A MUSTACHE
in from three to six weeks. This article is the only one of the kind used by the French, and in London and Paris it is in universal use.
It is a beautiful, economical, soothing, yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp, it will cure BALDNESS, and cause to spring up in place of the bald spots a fine growth of new hair. Applied according to directions, it will turn RED or TOWY hair DARK, and restore GRAY hair to its original color, leaving it soft, smooth and flexible. The "ONGUENT" is an indispensable article in every gentleman's toilet, and after one week's use they would not for any consideration be without it.
The subscribers are the only Agents for the article in the United States, to whom all orders must be addressed.
Price One Dollar a box—for sale by all drugGists and Dealers; or a box of the "Onguent," (warranted to have the desired effect,) will be sent to any one who desires it, by mail (direct,) securely packed, on receipt of price and postage, $1.18. Apply to or address

CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA.
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an invaluable remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well. D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.—Dear Sir:—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hunareds of persons for Scrofulous Humors with great benefit.

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, APRIL 6, 1861.

RECONSTRUCTION OF THE UNION.—From the debate in the Senate between Messrs. Douglas and Breckinridge, it is very evident that the policy of a large party at the South is now for a reconstruction of the Union; that is, a new Constitution is to be formed, and slavery naturalized in the same.

If a vote so to amend the Constitution of our fathers, cannot be had without excluding New England from this new confederacy, then the six Yankee States are to be thrown out in this new slaveholding deal.

Mr. Breckinridge hinted at the reconstruction of the Union on the basis of the Montgomery Constitution, excluding New England; but the N. Y. Tribune thus utters the veto of the Empire State to this pro-slavery proposition:—

If the twelve Senators and twenty-five Representatives of New England can be kept out of Congress, the slaveholders confidently expect to regain the power they have lost, and to control the Federal Government in the future, as they have controlled it in the past. In this they may possibly be mistaken. New England is worth more to the nation than all the Cotton States combined; and if compelled to choose between them, the rest of the country will have little difficulty of choice.

Notwithstanding all this, there is no doubt the purpose is seriously entertained by a large number of secessionists and others.

It appears by articles from the Richmond Whig, that the Virginia Convention, (if it does not vote for secession outright,) will fix a code of constitutional amendments and guaranties of slavery, to suit their Virginia notions.

Next, call a convention of non-seceding (slave) States, and submit her code to them, to be modified, but not essentially changed. The rest of the plan we give in the Whig's own words:

When harmony and concurrence shall have been secured among the border States, the propositions, as agreed on by them, will be submitted as an ultimatum to the Northern States.

This ultimatum, we feel assured, will embrace no unreasonable features—nothing which is not in strict conformity with the principles of the Constitution, as understood and acted on by the fathers of the Republic. If it should be accepted by the North, the Union will be preserved and harmony restored. If, on the other hand, it be rejected, then the Border States will, in a body, withdraw from the Union, and unite with such States, both slaveholding and non-slaveholding, as may be willing to adopt them. In the event of rejection, we believe that New York, New Jersey, Pennsylvania, Ohio, Indiana and Illinois will unite with the Border States. The result may be to throw off the New England and the extreme Northwestern States. The Gulf States will soon find it to their interest to reunite themselves to this conservative Confederacy, and ultimately, the excluded Northern States, having learned a lesson of wisdom and humility, will knock at our doors for readmission into the family mansion.

This, for the men of New Hampshire and Maine, is certainly a very nice and promising programme. When they have learned wisdom enough to humble themselves in the dust, and eat dirt to order, they may be suffered to go again into a Union where their masters will tell them what to do, and they must do it.

There used to be an old saying, It takes two to make a bargain! Perhaps this may be true now.

SELFISHNESS.—*Messrs. Editors*:—I see the squib about Sugar and Gas Pipes, has worked up a tariff article in the Gazette, where the statement that the people of New Hampshire and Maine do not buy negro blankets, is pronounced *selfishness*, because it would let the people of South Carolina take care of themselves.

So it is,—and so it was selfish for the sugar planters of Louisiana to have the high duty on sugar. It is selfish for the northern free laborer to take it off or lessen it.

Our tariffs have been heavy and light, and varied generally, to suit the slave power, selfishly, for many years.

And now, when the heavy end of the negro power has dropped out of Congress, an attempt has been made to get up a revenue tariff with incidental protection,—Congress passed the bill,—and Mr. Buchanan approved and signed it. No one need be frightened. BOB SHORT.

GREAT CARRIAGE TRADE SALES.—Several thousand dollars' worth of new Carriages and Harnesses, of all sorts, styles and prices, were sold at auction in Boston, on Wednesday of last week, by N. A. Thompson & Co.; the sale being under direction of Messrs. Wm. P. Sargent & Co., and John P. Whittier, the well known extensive Boston dealers. A large company was present, the bidding brisk, and fair prices realized,—the sale being conducted to the satisfaction of all concerned.

Mr. Riddle also had his regular semi-annual sale of carriages, &c., on Saturday, but apparently with not so good success.

The pleasantest things in the world, are pleasant thoughts, and the greatest art in life is to have as many of them as possible.

NEW YORK, April 4.—Great activity prevails at the Brooklyn Navy Yard, and it is reported that several vessels of war are expected to sail to night, orders having been received in Washington to that effect. Their destination is unknown.

The cutter Harriet Lane has left her moorings off the Battery and anchored at quarantine. She is bound to sea.

The penalty imposed on the steamer Bienville has been remitted.

Four hundred dollars' worth of silks were seized yesterday from the steamship Cahawba, but the fine being paid they were released.

An officer of the Federal army in New Orleans sent by the government about the time of the secession of Texas, remains there, as he is suspected of the purpose of giving information to the war department. The Confederate States have a sleepless eye on him. He is believed to be a Pennsylvanian.

NEW YORK, April 4.—A special dispatch to the Post says that it is rumored that the Southern commissioners have demanded the immediate evacuation of Forts Sumter and Pickens.

Orders have been sent for every naval vessel to be put into commission, as the administration is determined to reinforce Fort Pickens at all hazard.

A special dispatch to the Commercial says the Secretary of the Interior has directed that no more land warrants be issued from the Pension Office to the citizens of the seceded States.

Lieut. Gilman has arrived at Washington. He states that great preparations are being made to attack Fort Pickens, and troops were being drilled daily by the Southern officers. An attack was momently expected.

A special dispatch to the Times says the batteries on Morris Island fired into an unknown schooner last night for not displaying her colors. Major Anderson immediately dispatched a messenger to Gov. Pickens for explanations. The schooner put to sea.

FROM WASHINGTON.—*Washington, April 4.*—The Gulf Squadron is to be commanded by Capt. Stringham. The reason of the increase of the Naval force there is not conjectured.

The extreme caution which characterizes the Administration, occasions many warlike rumors. The Government seems to come to the determination, in the language of a Cabinet officer, to be known only by its acts.

There is extreme solicitude everywhere manifested relative to the movements concerning Forts Pickens and Sumter. Fear is expressed that a collision may be precipitated.

The steamer Pawnee, lying off Wilmington Navy Yard, will probably leave for parts unknown on Saturday.

Information is received that Lieut. Talbot left Charleston to-day with important dispatches for Washington.

The following officers are ordered to the steamer Minnesota, destined to the Gulf: Captain Van Brunt; Commander Case; Lieutenants Warden, Wainwright, Badger, Johnson, Foster, Mitchell, and Watson; Smith, Master; Franklin Jackson, Chief Engineer.

NEW YORK, April 5.—The World's dispatch says many think the naval preparations going on are for a demonstration at St. Domingo; others contend that the revenue is to be collected at all the Southern ports; also that Commissioner Crawford has been informed that no hostile demonstration is intended against the South. The Texas troops have been ordered South again.

The Times' dispatch says the revenue laws will be enforced at New Orleans.

The Herald's dispatch says 5000 men are getting ready in Richmond, Va., to take up arms against the government, under Ben McCulloch.

☞ The Virginia Convention, at Richmond April 4, passed a resolution that the U. S. forts are *only* to protect from foreign invasion, *not* to suppress insurrection—68 to 61. In place of the resolution favoring a convention of the border States, Mr. Harvey moved the following substitute:

Resolved, That an ordinance of secession be prepared, resuming the powers delegated by Virginia, and providing for submitting the same to the qualified voters of the Commonwealth at the election in May.

Rejected—45 to 89. Though not strictly a test vote, the Union men are rejoiced.

MONTGOMERY, April 4.—Treasury notes of the Confederate States were issued to-day, under the law authorizing the issue of a million dollars. The first bond issued by the confederacy yesterday, for $1000, sold at 20 premium.

20 what? 20 per cent., 20 dollars, or 20 cents.

NORFOLK, April 4.—Mr. Prior arrived to-day, and was received by a great crowd. A salute of fifteen guns was fired. He delivers an address to-night.

There was a disturbance among the workmen at fortress Monroe. A palmetto flag was raised under the wall, outside, and the soldiers dared to interfere.

ALABAMA.—*Montgomery, April 4.*—Treasury notes of Confederated States were issued, to-day under the law authorizing a million dollars issue, the first bond issued by the Southern Confederacy.

Yesterday a thousand dollars sold at 20 per cent.

The Directors of the Merrimack Mills, in Lowell, at a meeting last Saturday, voted to run their mills but four days in the week, or reduce the wages of the operatives. The choice is to be decided upon by the operatives at the next pay day.

The Lowell Courier contradicts the above which is going the rounds of the papers.

7. American Slavery distinguished from the Slavery of English Theorists, and justified by the Law of Nature. By Rev. Samuel Seabury, D.D., Author of "Discourses on the Supremacy and Obligation of Conscience."—New York.

The present fearful crisis in our national affairs, though it came upon the greater part of the citizens of our republic like a thunderbolt out of the clear sky, corresponds only two well with the expectations of the patriotic men who formed our Constitution. Our government has already lasted longer than they anticipated. The permanent union of even the thirteen States, with their wide dissiliency of character, industry, and interest, seemed to them beyond hope. Their aim was to ward off for a while anarchy or military despotism, and to hold the several commonwealths together till they should float into smoother waters. To this aim we owe the survivance of our Constitution to the present time, and its adaptation to needs of a free people for an indefinite future. Its framers, planning primarily to meet the then existing exigency, would not build a ship of state, which would surely have foundered in the next gale. They constructed a raft, which should bend and yield, take the very shape of the waves, let the water in and out freely through its seams and junctures, and by its loose couplings and elastic movement divide and dissipate the force of any sudden shock. But, though they saw it not, this was the very structure suited to defy time no less than wave and storm; and it has been imperilled and damaged mainly by the attempt to consolidate it, to bind its lashings more closely, and to leave a less free scope and sway to its separate members. In proportion to this tendency in our administration, it has been weakened by the very measures designed to strengthen it, till now some of its couplings have parted, others are strained almost to the point of rupture, and the hearts of loyal citizens palpitate in dread of its entire disintegration and dissolution.

The founders of our government evidently intended to lodge in the central administration only such powers as were essential to the common safety, order, and well-being, and to leave to the individual States entire jurisdiction over their local institutions, without interference from beyond their borders. The tendency of national politics has been to encroach gradually on the reserved rights of the States. To the unpopularity of this tendency the Federal party succumbed early in the present century; but the instinctive love of power soon led the victorious party to adopt the same policy, which has for the most part been prevalent in our national counsels, and has, on other issues than that now paramount, excited widespread dissatisfaction, and given rise to the essays at nullification which have their record in our history. Of late years the sectional parties which joined issue on the question of slavery have aimed to nationalize their respective politics,—the one to legislate for the exclusion of slavery from the common domain of the nation, and therefore with the right of reclamation as regards fugitive slaves, which, lamentable as it is in its exercise, is yet incident to the national compact; the other, to extend the legal existence and protection of slavery beyond the limits which our fathers contemplated, and which the comity of sister States renders expedient. Hence the secession and disunion, which are already working so disastrously, and the end of which no human foresight can predict.

We are unwilling as yet to believe the restoration of the sundered Union impossible. By such concessions as may be made without the sacrifice of principle, the border slave States may be preserved within the confederation; if they remain, it will clearly be for the interest of the seceding States to return to their allegiance; and, when the present paroxysm of hostile feeling shall give place to calmer thought, the reviving love of country may merge the fierce sectional antipathy now rife. Meanwhile it becomes the prime duty of those in power, and of those whose sovereign behests our rulers but register and execute, to use every honorable endeavor for the prevention of a fratricidal war, that direst of all events, we should say, did not there loom up in almost inevitable connection with it the untold horrors of a servile war. In this view, we cannot over-estimate our indebtedness to the bold and wise discretion of Major Anderson, in withdrawing his little garrison from a weak fortress which invited tumultous attack; for, blood once drawn in civil fend, it was hardly possible that the entire North and the entire South should not have risen forthwith in internecine hostility. It may be that, in the future history of this epoch, this soldier, modest as he is brave and loyal, will find himself written the saviour of his country.

Of the course pursued by our national executive, it is not time to speak judicially. No man can have ever occupied a more difficult post than our late chief magistrate in the closing months of his official term. The progress of events may justify what seemed a vacillating policy. It was certainly in his power to hasten collision between the seceding States and the forces of the nation; and if he has been actuated, not by unmanly fear, or by personal favor, or by his intimacy with disunionists, but by love of country and of peace, the purity of his motives will be recognized when the heat of strife and the stress of peril are overpassed.

To be Continued.

It is not cowardice to yield to necessity, nor courage to stand out against it.

HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE.

The following is a sample of many letters daily received by W. E. HAGAN & Co., Troy, N. Y., who are the Manufacturers and Proprietors of "HEIMSTREET'S HAIR RESTORATIVE," an article of which many of our first citizens speak as being the *cheapest and best* Hair Preparation which has ever been introduced in our market. A combination of Stimulating Spirits and Oil, affording an agreeable *Hair Dressing*, leaving the scalp perfectly free from dandruff, and causing the Hair to have a *rich glossy appearance*. Two articles in one. A fine "*Hair Dressing*," and a never-failing Restorative for the *Bald* and *Gray*.—Read the following letter:

ST. LOUIS, MO., June, 1859.

MR. HENRY REYNOLDS,—*Dear Sir*:—I hereby certify that my hair having become *gray*, I used, at your request, HEIMSTREET'S INIMITABLE HAIR RESTORATIVE, (prepared by W. E. HAGAN & Co., Troy, N. Y.,) for several weeks. My hair was in that time restored to its original color, with all its luxuriance and beauty; and I will be much pleased to recommend the article, personally, on any and every occasion, as I know it has merits that the Proprietors do not claim for it in their circulars. Respectfully yours,

G. W. WALLACE,

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

To MARRIED LADIES it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

For full particulars, get a pamphlet, free, of the agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. feb28 dawâm

WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, NO REMEDY has performed so many or such remarkable cures of the *Throat, Lungs and Chest,—of Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma*, or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam*. So generally acknowledged is the superiority of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.

Editor of the Norway Advertiser, gives his opinion of this great remedy substantially as follows:

NORWAY VILLAGE, ME., Aug 4, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—For a remedy of such undoubted merit as Dr. WISTAR'S BALSAM OF WILD CHERRY, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial and be relieved. Several years since I first became acquainted with this Balsam at a time of distressing cough and cold, which took such firm hold of my lungs as to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain.

In our town this remedy is a great favorite with many, and if all who offer it to you, give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.

Yours respectfully, GEO. W. MILLET.

THE DAILY CHRONICLE.

THE PRICE of this paper, from this date, will be only $3 per year, when paid *in advance*; 6 cents per week; 1 cent, single copy. For bills which have been paid on other terms, in advance, allowance of the excess will be made in future settlements, if desired.

To all new subscribers, the paper will be furnished from this time to Jan. 1, 1862, three quarters of a year, for only $2 in advance. tf

☞ In Board of Aldermen on Thursday evening, a communication was received from Engine Co. No. 5, stating that unless their pay is raised to ten dollars per year, (their present pay is $7,) they will disband. —The occupants of the Brick Market request that the City Marshal be instructed to prevent bills being posted on the *front* of Jefferson Hall building. Granted.—Mr. John M. Davis sent in a bill of damages to his sled, caused by running on a pile of rocks, alleged to have been in the public highway. It was referred to a committee, who, after considering the matter, reported that he was entitled to no claim. Report accepted and adopted.—A communication was sent in from Common Council, in relation to the matter of fitting up a room at the girls' High School, at an expense of one hundred dollars, for the practice of calisthenics, and for general exercise.

☞ One of the most annoying nuisances to be encountered at this season, is the unrestricted running at large of cows about town. On Friday, one of these wandering annoyances visited the premises of a gentleman on Middle street, who has spent much labor and money on a fine front yard, which is enjoyed fully as much by the public as by the owner; and in a few moments broke off and destroyed three valuable ornamental trees, that have stood the storms of several winters, and were held in incalculable estimation by the owner.

The Pound-Keeper, if not also the City Marshal, has a duty to perform, in preventing the gross injustice that is done to many of our inhabitants, by the owners of a few cows, which are not worth the amount of damage they do in a season.

Messrs. Editors:—I notice that the Assessors are about commencing the valuation of property for the purpose of assessing the taxes for the present year. Now let me suggest the propriety of locking up the books of their predecessors in a safe, and making new valuation of the unproductive real estate of the city. Real estate from which a profit is not expected, is taxed at too high a rate in proportion to capital in stocks or in business. By the high valuation of real estate, (in some instances placed above the auction price,) Portsmouth is made to pay a far greater amount of the County tax than is our just proportion.—This error ought to be corrected, and the present Board ought to begin the reform now. JUSTICE.

☞ We commence this morning the publication of the article from the North American Review, on Slavery—to which we referred in our notice of yesterday. It is a long and carefully-studied essay, and will be read with especial interest at this time, particularly by all those interested by Rev. Dr. Peabody's Fast Day Sermon on the same subject. It will be seen that the article is in the form of a review of various books and pamphlets—but it embraces that much-mooted Discourse, with other matter; and its length will compel us to publish portions of it in several numbers of the Chronicle.

☞ Albert Blaisdell, Esq., who has been building a Custom House in Galveston, Texas, arrived home in this city on Friday evening, with a portion of his workmen.—All are on their way, we hear.

Mr. Blaisdell left at Washington nine thousand dollars of the government funds handed him by the Collector of Galveston, which the secessionists failed to get hold of. He gives a gloomy account of affairs.

☞ See the Auction advertisement of Mr. Wendell, for his sale of varieties, this forenoon, at his store in State street—and as the store is advertised to be let, and the sale to be "without reserve," no doubt there will be a chance for bargains.

Mr. Adams also has his regular Saturday sale—and among other things, will sell a lot of Law Books.

☞ Capt. Winder has been appointed a Paymaster in the Army, and Percival C. Pope, of this State, has been appointed to the office of 2d Lieutenant.

☞ The Temperance Lecture next Sunday evening, in the Temple, is to be delivered by Rev. Mr. Pratt. Services begin at half past 7 o'clock.

☞ Mr. George W. Marston, formerly of Portsmouth, has been appointed Post-Master of Boston Station, Pendleton County, Kentucky—where is quite a colony of Portsmouth people.

☞ The Friday evening papers contain the usual variety of contradictory dispatches, rumors, and guesses, from Washington, Charleston, &c.

☞ The Bath Times says the emigration to Aroostook is largely on the increase.

☞ The New York Journal of Commerce says the bonds of the Collector of that port are $200,000. The yearly profits, if he works the office with anything like efficiency, are between $30,000 and $50,000 in legitimate fees. Such used to be the income, at least, in the prosperous days of the Republic.

☞ The Rockingham Weekly Chronicle, containing a summary of the news of the week, this day published, and for sale at the Chronicle Counting Room: price 3 cents; $1 per year, in advance.

☞ A few copies of the Extra Chronicle of last week, containing the report of the Masquerade Ball, may be had at our Counting Room.

LIFE INSURANCE.

"IN THE MIDST OF LIFE WE ARE IN DEATH."

The strong man often falters, and falls in the midst of the hurry and business of life. The *wise* man matches provision for those whom he loveth, against the liability to accident and death.

THE

MUTUAL LIFE INSURANCE CO

Of New York,

with an accumulated capital of over

SEVEN MILLION DOLLARS,

Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually*, or *annually*, at the option of the insured.

The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.

No reflecting man can sit at his fireside with his young family about him, and feel at ease:—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

The Tariff.

A writer in the Chronicle who signs his name "Bob Short," to signify perhaps the extent of his comprehension or of his honesty, comments upon our article on the Tariff in a characteristic manner. He assumes that we "found fault" with the new Tariff only "in respect to two articles, viz. that the duty is high on gas pipes and negro blankets," and insists that our *iron founders* can make the one, and that the people of New Hampshire and Maine do not buy the other. The gas pipes we referred to are the wrought iron article, which we believe foundries do not make; and the blankets, tho' chiefly used in the South, are also largely consumed by lumbermen, hunters, backwoodsmen and others in the free States.

But we complained that the Tariff has made oppressive in hundreds of particulars, that in its general scope it is plainly a system of unequal and unjust taxation, such as the people would not submit to a single day if its burdens were imposed in the shape of a direct tax upon the persons who will now actually bear them. Manufactures of cotton, wool, iron, linen, silk, and numerous other articles of common and necessary use, are included in its odious details. And one of its worst features is that its imposts bear with gross inequality upon different sections of the country, and tend to create and exasperate sectional animosity at a time when every effort should be made to calm and allay it. Thus the severe duties upon iron fall upon the agricultural South, and upon the laborers of New England and the West, almost solely for the benefit of the iron making State of Pennsylvania. The tax upon cotton, linen, and woolen goods is calculated to enrich a few manufacturers in New England, and is peculiarly odious in the Southern States. And so it is of the rest of the new Tariff, in particulars vastly too numerous for us to specify in a single article.

But politicians of the Bob Short tribe seem to see no evil in this unequal and sectional taxation. If it be said that coarse blankets are outrageously assessed, the answer is that "the people of Maine and New Hampshire do not buy them," let the people of South Carolina take care of themselves. Now this is the very sectional spirit, which has already driven part of our States into secession, and which threatens utterly to disintegrate the Union. It is the utterance of pure selfishness, without the slightest idea of patriotism; and such is the characteristic sentiment of every "protective" Tariff that has ever been enacted. It is said that the duty on sugar is reduced by the new Tariff. This we understand to be true to a very small extent, compared with the impositions that have been laid by it on the other necessaries of life. But even this improvement comes at an unfortunate time. The sugar planters of Louisiana will not find their feelings of attachment to the Union strengthened, by the withdrawal of the protection upon their staple, in the very act which is framed to protect heavily the productions of other parts of the Union.

But if there be any justice or reason in the protective system, as it is called, why is not the impost on sugar increased for the benefit not only of Louisiana planters, but of the owners of the maple groves of New Hampshire, Vermont and New York?

From the Journal.

NORTH AMERICAN REVIEW.

No. 191, for April, 1861, is received by J. H. Foster, agent for Portsmouth. The following are the contents:

Art. 1. Criminal Procedure.
2. Smith's Tables of Ecclesiastical History.
3. Explorations in Eastern Africa.
4. Documentary History of the Revolution.
5. DeGerando.
6. Temporal Power of the Church.
7. The Literature of Power.
8. Slavery, its Origin and its Remedy.
9. Appleton on the Rules of Evidence.
10. Travel in Europe.
11. Critical Notices.
New Publications received.

The subjects are generally attractive, particularly the 3d, 4th, 8th and 10th articles.

The 8th article, on Slavery, is in part the address delivered by Rev. Dr. Peabody, at Cambridge, on the day of the national fast, which one of the hearers reported for us at the time. The portion which classed laborers with slaves, so much objected to by some, is not quite so general in its application, as now appears,—but is opposed to some particular positions in foreign lands, which the extracts he quotes go to justify. There is no portion of our own country where the free laborer can be assimilated, in his social position, to the slave. For if he can obtain no labor, and is compelled to resort to the alms-house, here the sacredness of his domestic relations are preserved to him, and he is yet in the enjoyment of the rights of men which no slave can claim.

The NORTH AMERICAN REVIEW, (published by Crosby, Nichols, Lee & Co. of Boston,) has now attained its 191st number, or 92d volume; having been published without intermission for nearly fifty years. It is far the oldest American periodical devoted to general literature and science; and its reputation has been steadily maintained, both in this country and in Europe, as the leading journal of the United States within its appropriate department.

Among its editors and contributors are found most of our eminent men of letters, of all parties and sects, and from all portions of the country.—It has always maintained a distinctive American character; preserving neutrality upon all domestic questions between various religious sects and political parties, but aiming to expound and defend the general doctrines of Christianity, and the general principles of our republican institutions. Its articles are frequently republished and referred to in England, and even translated into the continental languages, as authoritive expositions of American opinion. Republican yet conservative in their tone, they have, it is believed, contributed essentially towards the formation and guidance of this opinion.

The Review is published on the first of January, April, July and October, in numbers of nearly three hundred pages each, at five dollars a year

COUNTY BIBLE SOCIETY.

A Bible Society for Rockingham County, was organized in Exeter by friends of the cause, of different denominations of christians, on Wednesday of last week. The officers of the society are:—

Hon. I. Goodwin, President; three Vice Presidents: Rev. J. H. Stearns, Sec'y; Dea. F. Grant, Treasurer—which officers constitute an executive board for furthering the object of the society.

Morning Chronicle.

☞ The Nashville (Tenn.) Democrat fiercely denounces the new Southern tariff, which taxes the goods sent from the border States to the Gulf States for sale. The Democrat says:

"In the name of high Heaven, what are we to do? Are the freemen of Tennessee willing to bear the rule of traitors who are ready to betray us into the hands of task-masters? Tennessee, Kentucky and the other border States are to pay tribute to King Cotton! We shed our blood and spent millions of money to acquire free access to the Gulf of Mexico. We have built forts to protect our commerce on that gulf. We acquired the right to the free and unobstructed navigation of the Mississippi river. It is our right, and no power on earth can or shall deprive us of it. That river and those forts and custom houses are as much our property as the State Capital at Nashville."

☞ The Richmond Examiner has made a remarkable discovery, having found out that the most productive of all labor is that which is "enforced."

☞ The quarrel over the California federal appointments has been settled by a division of the appointments between the rival delegations.

☞ A young man, named Daniel Robbins, proposed honorable marriage to a girl near Little Rock, Ark., on the 13th ult., and her father, hearing of it, shot him dead in the street. Charming country!

☞ A fugitive slave who had escaped in to Painesville, Ohio, from Tennessee, was delivered up to her master a few days since without any resistance being made or excitement displayed.

☞ Mr. William A. Webster, principal of the South Grammar School at Manchester, having turned doctor, his pupils made him a present of twenty-five dollars' worth of medical books. The boys in return asked him for his rattan, which they divided around between them.

☞ Partial census returns from the Canadias indicate an increase of 49 1-2 per cent in the upper or western part of the State, and of 31 1-2 per cent. in the lower.

☞ The South Carolina Convention costs the State $500 per diem.

DR. S. O. RICHARDSON'S

SHERRY WINE BITTERS

The celebrated New England remedy for

Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.

They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.

Dr. JAMES L. LEFFLER writes from Navarre Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."

E. S. DAVIS, Postmaster at Williamsport Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."

Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cure of palpitation of the heart, and general debility.

THOMAS STANFORD, Esq., Bloomtville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles I was completely restored, and am now in robust health."

GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 2 years, and at the date of his letter he had been two years well, the Bitters effecting the cure when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."

J. W. HUNT writes from Delphos, Allen Co Ohio, in section where liver and ague prevails, that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.

D. K. GALLEHER, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

SOMETHING MORE VALUABLE

THAN SILVER OR GOLD,

BECAUSE

IT WILL RESTORE THE WEAK, AND REINSTATE THE BLOOD IN ALL ITS ORIGINAL PURITY & VIGOR.

It is

PROF. O. J. WOOD'S

RESTORATIVE CORDIAL

—AND—

BLOOD RENOVATOR.

It is precisely what its name indicates, for, while pleasant to the taste, it is powerfully invigorating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in its peculiar form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted *as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach*, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly tested for powerful tonic and soothing properties, and consequently can never injure. As a sure preventive and cure of

CONSUMPTION, BRONCHITIS, DYSPEPSIA INDIGESTION, LOSS OF APPETITE, FAINTNESS, NERVOUS IRRITABILITY, NEURALGIA, PALPITATION OF THE HEART, MELANCHOLY, HYPOCHONDRIA, NIGHT SWEATS, LANGUOR, DIZZINESS, AND ALL THAT CLASS OF CASES SO FEARFULLY FATAL, CALLED FEMALE WEAKNESSES AND IRREGULARITIES,

THERE IS NOTHING ITS EQUAL!

Also Liver Derangements and Torpidity, and Liver Complaints, Diseases of the Kidneys, or any general derangement of the Urinary Organs.

It will not only cure the debility following CHILLS and FEVER, but prevent all attacks arising from miasmatic influences and cure the disease at once, if already attacked.

TRAVELLERS should have a bottle with them, as it will infallibly prevent any deleterious consequences following upon the change of climate and water.

As it prevents costiveness, and strengthens the digestive organs, it should be in the hands of all persons of sedentary habits.

LADIES not accustomed to much out-door exercise, should always use it.

MOTHERS should use it, for it is a perfect relief, taken a month or two before the final trial—she will pass the dreadful period with perfect ease and safety.

There is no mistake about it!

THE CORDIAL IS ALL WE CLAIM FOR IT!

MOTHERS, TRY IT!

And do you we appeal, to detect the illness or decline not only of your daughters, before it is too late, but also your sons and husbands, for while the former, from false delicacy, often go down to premature graves rather than let their condition be known in time, the latter are often so mixed up with the excitement of business that if they do not perove they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal, for we are sure your never failing affection will unerringly point you to PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR as the remedy which should be always on hand in time of need.

O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St Louis, Mo., and sold by all good Druggists. Price $1 per bottle.

Read what the Press say, after thoroughly testing the matter, and no one can have doubt.

PROF. WOOD'S Restorative Cordial and Blood Renovator is a genuine medicine of real merit, pleasant to the taste, and invigorating to the system. While it purifies the blood and soothes the nervous irritation, it aids the organs of digestion to perform their functions, and resists the assaults of disease. It is a chemical compound so skilfully combined that while it exhilarates it does not provoke the lassitude which usually follows excitement. A tonic composed exclusively of vegetable matter, it is absolutely free from all evil effects can possibly accompany its use. It is an infallible and speedy remedy for Loss of Appetite, Bilious Attacks, Liver Complaints, Costiveness, Dyspepsia, Consumption, and a host of evils flesh is heir to, it is a certain cure.—*St. Louis Morning Herald.*

PROF. WOOD'S RESTORATIVE CORDIAL.—It is recorded in the classics that Pyche was once sent to a climate where dwelt the Worn Ills to procure a sample of the beauty of Proserpine in a box. After some delay the messenger returned, and on opening the top of the box was opened, our flew all the ills that flesh is heir to. Fortunately hope was found in the bottom of the box. Prof. Wood's Restorative Cordial revives the recollection of the story, for it invigorates the blood, aids the organs of digestion, imparts vigor to the nervous system, and fortifies the citadel of health so as to bid defiance to the assaults of disease. It is a healthy tonic, composed entirely of vegetable productions, and while it is exhilarating as pure wine, no injurious results can possibly follow its use. It is a desideratum in the medical world, and those who are afflicted with loss of appetite, Dyspepsia, Consumption, Faintness, Neuralgia, Palpitation of the Heart, &c., &c., have find an infallible panacea.—*St. Louis Daily Express*

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR is, without doubt, the best tonic Cordial in the world. To those who are suffering from general debility, we would recommend its use, for it is pleasant to the taste, strengthening to the system, and will at once tend to remove all impurities of the blood, and eradicate all traces of disease. It is a tonic, and while it is exhilarating as pure wine, no injurious results can possibly follow its use. It is a desideratum in the medical world, and those who are afflicted with loss of appetite, Dyspepsia, Consumption, Faintness, Neuralgia, Palpitation of the Heart, &c., &c., have find an infallible panacea.—*St. Louis Daily Express*

A PURE, HEALTHY TONIC, and one free from the deleterious and injurious effects sure to follow those in ordinary use, has long been felt to be a desideratum in the medical world. Such a tonic, and one so skilfully combined from the vegetable kingdom as to act in perfect accordance with the laws of Nature, and thus soothe the weakest stomach, and at the same time allay nervous and other irritations, and tone up all the organs of which the human body is composed, is offered in Prof. Wood's Restorative Cordial and Blood Renovator. Hence it is perfectly adapted to old and Young. Reader, try it. Thousands have already done so; the testimony is universal in its favor.—*New York Atlas.*

☞ Before noticing a patent medicine, we have to be certain that it will prove itself to be all that it is recommended. And we would say that the Restorative Cordial and Blood Renovator of Prof. Wood will fulfill the test fully, and in fact it is without doubt the first article in the market for purifying the blood and strengthening the system. We have hesitation in recommending its use to all.—*New Yorker.*

Dyspepsia Remedy

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirum Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the most nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, a week or two, find it happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DRINK.—1 wine glass full as often as necessary.

One dose will remove all Bad Spirits.

One dose will cure Heartburn.

Three doses cure Indigestion.

One dose will give you a good appetite.

One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

A few doses will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidneys, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, removes all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

BININGER'S

GENUINE

Cognac Brandy

The infamous practice of adulterating Brandies having become so universal, genuine articles is the exception; it is of *vital importance* to those requiring it for Family use and Invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic fire or and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling reasonable rater, a Brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

ATWOOD'S

QUININE TONIC

BITTERS,

The Best Aromatic Tonic ever offered to the Public.

RECOMMENDED BY THE FACULTY

For Its Superior Medicinal Qualities.

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic s*, and cannot fail to meet the wants of the debilitated.

It is a mild tonic to the invalid, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhea, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.

One of the very best Physicians in Boston has said "*has it is the best preparation of Bitters that has ever been offered to the public.*"

Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

For further particulars reference is made to the printed circulars.

PRIESTS AND PIPES.—Burleigh, in his New York letter of April 1, gives these interesting items.

A Catholic priest or doctor gave a great lecture at Brooklyn, on Sunday night.—His name is, I think, O'Riley. His house was crowded at twenty-five cents per head; but the only noticeable thing about the lecture, was the statement that all of our national troubles grew out of the fact that we were Protestants, and until we became good Catholics and repented of our sins, we should never find peace. He could have cited Ireland and Italy as proofs!

To day an important convention meets in New York. It is composed of all the manufacturers of iron pipe in the country.—The tariff is excellent for these men, and the design of the present convention is to raise the price of pipe and equalize the sale. The sale of iron pipe for gas and water is immense, and by the new method of galvanizing it, it is almost superseding copper and lead, and is not half the price. The machinery to make it is complicated and difficult, and in the hands of the present makers, it is almost a monopoly. Only about ten firms in the United States are in the manufacture. Not a rod is made in the South, and it would take ten years to construct a business and make it pay. As the sun shines on the side of the hedge where the iron men live, they intend to make hay. Hence the convention, and the higher price on the work.

☞ The truth about the trade of the Southern cities leaks out now and then.—In the weekly tables of the Savannah Republican, we find the number of vessels loading for foreign ports as follows:

	1860	1861
New Orleans,	104	57
Mobile,	28	14
Savannah,	21	19
Charleston,	25	11
Florida ports,	8	4
Total,	186	105

The exports of cotton to foreign ports from Sept. 1 in each year, were:

	1860	1861
New York,	129,890	184,962
Charleston,	259,332	158,160
Savannah,	266,669	229,093
Mobile,	480,000	379,670

Comment upon these figures is entirely superfluous.

SPIRITUAL PRESENCE.—We know not the laws of the spiritual life; but if, even while here on earth, and while it is confined to the body, the mind has, through its material organs, a kind of universal presence, and its thoughts outstrip the sunbeam, can we suppose that they who have advanced before us are more restricted in knowledge, and that eclipse falls on all that they leave behind? I cannot doubt that this world lies open to their view. With enlarged powers, with higher faculties, while all seems darkness to us, all to their purer vision may be light around us. And I would fain think that there are blessed thoughts coming unawares, and holy impulses, and better purposes, which visits the soul in its struggles, from the helping love of the departed. Sure I am that our danger is not from too great faith in the reality of the spiritual world. That world, where is it? Is it not the teachings of reason, that it is all around us? God grant that we may feel the moral power of this idea of spiritual presence!—*Peabody's "Christian Days and Thoughts."*

WHAT IS NEEDED.—We need for our dwellings more ventilation and less heat; we need more outdoor exercise, more sunlight, more manly, athletic and rude sports; we need more amusements, more holidays, more frolic and noisy, boisterous mirth.—Our infants need better nourishment than colorless mothers can ever furnish, purer milk than distilleries can manufacture; our chidren need more romping and less study. Our men need more quiet, and earlier relaxation from the labors of life. All men, both young and old, need less medicine and more good counsel.

WIFE.—This good old Saxon word (*wif*) is, after all, the dearest and most sacred word in the whole vocabulary of love. Around it clusters all that is most beautiful, chaste, and permanent in the tender passion. Into whatever forbidden paths the heart of man may wander, still it must return at last to the hallowed name of wife for consolation and rest. Any other relation between the sexes, however alluring to the imagination, invariably ends in wretchedness, in shame, and degradation.

STARVING THE NORTH.—The way the South propose to "starve the North" is to lay a tax on ice. The Mobile Register estimates an income of $220,000,000 per annum (?) from this source. Says an exchange:—"If the duty on ice will amount to this sum, what will the ice and duty together amount to." "Query: is the value of the ice to be consumed to exceed in value the total agricultural product of the South, cotton included? Southern editors are smart mathematicians.—*Charlestoiun Ade.*

Say this correctly without stopping:—"Bandy-legg'd Berachio Mustachio Whiskerifusticus the bold and brave Bombardino of Bagdad helped Abomilique Blue Beard Bashaw of Babelnamdeb to beat down an abominable Bumble Bee at Balsora."

Serfdom has finally been abolished in Russia. There is now no "divine institution" of slavery in Europe.—*Bath Times.*

DO YOU WANT A MUSTACHE?
DO YOU WANT A MUSTACHE?
BELLINGHAM'S
Celebrated Stimulating Ongunent!
For the Whiskers and Hair.
The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the Agency for, and are now enabled to offer to the American people, the above justly celebrated and world-renowned article.
THE STIMULATING ONGUENT
is prepared by DR. C. F. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of
WHISKERS OR A MUSTACHE
in from three to six weeks. This article is the only one of the kind used by the French, and in London and Paris it is in universal use.
It is a beautiful, economical, soothing, yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp, it will cure BALDNESS, and cause to spring up in place of the bald spots a fine growth of new hair. Applied according to directions, it will turn RED or TOWY hair DARK, and restore GRAY hair to its original color, leaving it soft, smooth and flexible. The "ONGUENT" is an indispensable article in every gentleman's toilet, and after one week's use they would not for any consideration be without it.
The subscribers are the only Agents for the article in the United States, to whom all orders must be addressed.
Price One Dollar a box—for sale by all drug. gists and Dealers; or a box of the "Ongunent," (warranted to have the desired effect,) will be sent to any one who desires it, by mail (direct,) securely packed, on receipt of price and postage, $1.18. Apply to or address

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA.
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entire ly cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound." After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

Morning Chronicle.

Portsmouth, N. H.

MONDAY, APRIL 8, 1861.

POWDER IN THE GARRET, OR CELLAR. The new Constitution, made at the South, and *to be proposed* at the North, compared with the present or *old* Constitution,—puts Uncle Toby in mind of an old powder story, told of a house in Portsmouth, many years ago.

A citizen who carried on some trade, had stored an open keg of gunpowder, in the garret of his dwelling-house, which was also the lodging room of his negro man.

One evening, the negro had gone up stairs, and, as the family thought, gone to bed: but some member of the household having a call to go that way, on putting his head up the staircase, was astounded at seeing the candle planted in the powder, and the negro sifting a handful of the black grain over the blaze.

A flash and a crash followed instanter, and the negro and candle, with the root and the powder, had all *seceded*, gone off together, but the house below was as good as ever, and the astonished beholder stood on the stairs safe and sound, with the sky overhead.

The arrangement of this old house was something like that of our venerable fathers, who made, on the whole, a good-looking edifice called a Constitutional Union;—in the garret of which were slily stowed away the negro and the powder;—and by and by, when a lighted candle got in there with them, bang went the powder, away went the negro, the candle was snuffed out, the roof was nowhere, and the house was incomplete.

Now it is proposed to re-pair, re-construct, re-annex, re-fit, and re-arrange the whole thing, from top to bottom,—and one of the chief improvements is to be this: the barrel of powder, and the negro with the candle in one hand and a bunch of matches in the other, are to be installed in the basement,—so that when he tries a new experiment, the whole establishment may be blown up sky high together.

THREE VICE PRESIDENTS.—Uncle Toby was considerably exercised by seeing the statement in the Chronicle, that Vice President Hamlin has a slovenly style of dress, and that he munched parched corn as complacently as if the Union was in a perfect state of repose. But then he consoled himself by the remembrance that Daniel Webster, when he lived here, was no dandy, and some nice people thought his dress not so precise as they would like; and strange as it may seem at this day, he used to munch apples and chesnuts, as complacently as if there was no war.

By the way, is not parched corn as wholesome as old rye? And is not Mr. Hamlin, going quietly home, as honorably employed as the defeated Vice President Lane is, in going to Oregon to preach secession,—or Confederacy Vice President Stephens, in calling the revolutionary sages of '76, fancy politicians?

They seem complacent in their schemes of anarchy, treachery and mirule. Why not he in his loyalty?

TREASON IN NEW YORK.—The Evening Post says that prominent representatives of the cottonocracy in New York city have concocted a treasonable circular, urging the people to accept the infamous proposition of Mayor Wood, and to declare the city part and parcel of the Confederacy of Jefferson Davis. As yet, the precious document is carefully concealed, but when made public, people will be surprised by its audacity, even in these traitorous days.

☞ One Mears, a travelling daguerreotypist, on the 23d ult., upset a bottle of collodion in his saloon at St. Albans, Vt., which ignited and set the saloon on fire.—There were quite a number of women and children in the saloon, who were got out through the windows, although not before eight or nine of them were sadly burned, and cut by broken glass. Mears was disabled by his burns.

☞ Hon. Charles A. Phelps has been appointed U. S. Surveyor at Boston, in place of Fletcher Webster. The Massachusetts delegation have recommended Mr. Dana for District Attorney, Ezra Lincoln for the Sub-Treasury, and John S. Keyes, of Concord, for Marshal.

☞ H. D. P. Bigelow, a boot and shoe dealer in Boston, has absconded, leaving behind him about $50,000 of forged paper, carrying off a few thousand dollars of borrowed money, and swindling his own clerk! He is fifty years old, a member of the Shawmut Church, and has been deemed a man of property.

☞ The Democrats of Wiscasset, Me., elected their entire ticket for town officers last Monday. Last fall the majority against them was large, but a reaction has taken place. Among the officers elected, we notice that Capt. R. H. Tucker has been chosen one of the Selectmen.

LATER FROM CALIFORNIA.

FORT KEARNEY, April 5.—The Pony Express from San Francisco, March 23d, has arrived.

Business was quiet, owing to the rain.

The rain almost insures another extraordinary crop of cereals.

The buyers of wheat had withdrawn from the market, having contracted for more than they have tonnage for shipment.

The Senate voted to consider that no election of Senator had taken place, and passed a resolution to go into a joint convention, if the Assembly concur.

The Assembly rejected the proposition nearly unanimously.

Large cargoes of silver ore continue to arrive from the Washoe, Esmeraldo and Cozo mines.

Moreno with 200 men had landed in the lower part of Lower California and upset the Epassa government. It was reported that a fight occurred in which a few were killed and several wounded.

WASHINGTON, April 4.—[Dispatch to the N. Y. World.]—Gov. Morton of Indiana and Gov. Washburn of Maine, with other distinguished officials from the Northern States, had a long interview with the President and it is understood that they all advised him to hold the southern fortifications, and urged that some speedy and definite policy be adopted by the administration.

Considerable interest has characterized all political circles to-day, consequent on the movements of the squadron which is being rapidly fitting out at the Boston and Brooklyn Navy Yards. Not a few maintain that it has been found necessary to resort to vigorous measures, and that Mr. Lincoln intends to collect the revenue in the seceded States, or to blockade ports; while an equal number is to be concentrated near St. Domingo, to offset the contemplated visit of the English and French fleets. Whatever their destination, the excitement in Washington and the South is wrought up to a high pitch. The more general opinion seems to be, that what are termed coercive measures are not connected with these sudden movements.

The opinion that the fleet is intended for St. Domingo is strengthened by the fact that A. B. Patterson, commercial agent at that point, has had interviews with Secretary Seward, and impressed upon him the interests that the United States have in that island. The Minnesota goes to St. Domingo without doubt.

The southern commissioners do not credit the rumor that the administration intends to enforce the revenue laws.

Commissioner Crawford has been informed by authority that the government intends no hostile demonstration against the South.

NEW YORK, April 5.—The government has chartered steamers Baltic and Ariel to carry troops, under sealed orders. The Baltic will carry Capt. Barry's company of Flying Artillery and 90 men, and the Ariel seven-or eight companies of infantry and marines. They will sail on Monday.

The frigate Powhattan goes to sea to-morrow morning, fully equipped and provisioned, and will take three companies of troops.

The impression at the Navy Yard is that Forts Sumter and Pickens will be reinforced.

A company of 100 men on Governor's Island has received marching orders, and others will speedily follow. There are now 2600 troops at different stations in this port.

The Post says it that the government agents sent to England and France have returned and report that both these nations will set their faces against the southern confederacy and in no manner recognize or assist it, and that the President and Cabinet have determined to take immediate and vigorous measures for the enforcement of the laws at all hazards.

The Commercial says a committe of leading Virginia politicians have had an interview with the President and Secretary of State, and were assured most positively that the President contemplated no hostile movements; that he should not attempt to collect the revenue for the simple reason that Congress withheld from him the power.

Collector Barney was sworn into office to-day.

A leading banking house in Wall street is said to have been detected in a daring attempt to swindle by means of forged Virginia bonds. It is believed that a large amount of forged bonds have been thrown upon the market by the parties implicated, who declare themselves to be Virginians.—An investigation is progressing.

A dispatch from Washington to the Commercial says Edward Prentiss has been appointed Collector at New London, and N. B. Sperry Postmaster at New Haven.

Superintendent Kennedy daily receives applications from Consus-Marshals in the seceded States, for payment for their services. His regular reply is "Applicants will be paid from the stolen government funds whenever Southen officials see fit to recognize drafts of the Federal Treasury."

A special dispatch to the Post from Washington says the rumor is that the Pawnee goes to Charleston. The excitement hearly grows more intense, and all sorts of conjectures are afloat as to the point where the blow will first fall. Leading Republican members express an opinion that an extra session of Congress will soon be called.

WASHINGTON, April 4.—Not less than 800 United States troops and marines are on board the fleet off Pensacola, all of whom, it is said at the War and Navy Departments, can be landed at Fort Pickens at any moment, besides those at Tortugas. The government have resolved, so far, on a policy, as not only to defend the Fort, but to return an attack, if one is made by Gen. Bragg and his men.

The President believes that if things remain as they are now, Jeff. Davis and the Southern troops will get the worst of it, and particularly when the southern sun, climate, and diseases get among the 4000 or 5000 troops soon to be before Pensacola. At this time it is not the purpose of the administration to yield the Fort.

DEATH OF JUDGE MCLEAN.—Hon. John McLean, Judge of the Supreme Court, died at Cincinnati, on Thursday morning last.

From the North American Review for April.

SLAVERY, ITS ORIGIN AND ITS REMEDY.

BY A. P. PEABODY, D. D.

Continued.

It is too early to take a calm review of the initial acts of the disunion drama, and a veil which no human foresight can penetrate hangs over those that yet remain. The national title and aim of our journal would forbid, did not our own principles and feelings preclude, recrimination, or the utterance of harsh sectional feeling. Yet we should be false to the demands of the passing time, did we shut out from our pages all discussion of the institution which is the source and cause of the evils we experience and dread. Moreover, the calm, temperate, and kindly treatment of this subject should be welcomed from whatever quarter, as tending to allay bitterness, to elicit conciliatory sentiments where they are wanting, and to strengthen them where they exist. We propose, therefore, to consider slavery not so much in its national relations as in its origin, its causes, and its remedies.

An institution is but a social fact, organized and legalized. The fact precedes the institution, and often exceeds it, and exists in full force beyond its pale. This is emphatically the case with slavery. It was not created by, nor is it confined within, the institutions that give it name and sanction. It exists the world over, and the very laws which seem to define its localities, while in some respects they intensify it, in others restrain and limit it. To us who boast of freedom, when we are tempted to utter reproach and denunciation against our Southern brethren, there might well be a rejoinder in the words of the old Hebrew prophet: "Are there not with you, even with you, sins against the Lord your God?"

Slavery has its origin in the essential conditions of human society. So long as there is an unequal distribution of talent, advantage, opportunity, and enterprise, there must be the rich and the poor,—the very rich, the very poor,—those who command the resources for the subsistence of all, and those who are dependent on their more fortunate neighbors for their daily bread. Hence the division of the community into the employers and the employed, or, more accurately, into the privileged classes and the proletaires. Under the former head we include not only those who live on the income of property, but those who subsist by salaries or fees for such services as imply or confer a certain rank or position in society; while under the latter we group all who depend for their livelihood on such manual labor as demands little or no skill, and is regarded and compensated as mere hand-work. Now, omitting all consideration of moral elements in society, there is an antagonism of interests between the privileged and the proletaires.—The former will seek from the latter as much work, and at as low a cost, as possible; and the auguries of success are all on their side. From their superior intelligence and freer command of the means of communication, concerted or coincident action throughout an entire district or community is easy and natural. With some provision always in hand and in reserve for immediate and future wants, they can postpone compliance with increased demands on the part of the laboring classes, and by the pressure of urgent need can starve them to their own terms.

The laboring classes suffer not only by this competition of interest with their employers, in which the odds are so fearfully against them, but still more by their competition with one another. Population tends to outgrow its means of subsistence and its opportunity of remunerative employment. Except in times of war or of rapid emigration, the supply of labor exceeds the demand, and this very excess tends to reduce the wages of labor to its lowest possible limits, and to bow the successful candidates for employment in entire subserviency to the will of their employer, inasmuch as in case of their non-subserviency their places can be readily filled by the unemployed, and they may be left to idleness and beggary.

Bastiat, who, in a very elaborate chapter of his "Harmonies Economiques," attempts to show the beneficent tendency of competition of all kinds in the social system, makes the following noteworthy admission:—

"The situation of men of this last class [the *proletaires*] is essentially precarious. As they receive their wages from day to day, they live also from day to day. In the debate which, under a free system, precedes every stipulation, they cannnot wait,—they must find work for to-morrow on whatever conditions, under pain of death. If this is not strictly true of all, it is true of many among them, and this is sufficient to depress the entire class, for it is those most hardly pushed, the most miserable, who capitulate first, and establish the general rate of wages. It thence results that wages tend to adjust themselves to the level of what is absolutely necessary for subsistence, and, in this state of things, the intervention of the least increase of competition is a veritable calamity; for the question with them is not that of well-being diminished, but of life rendered impossible."—pp. 311, 312.

Where this double competition is active, it is idle to call the laborer free. His only freedom is that of starvation,—of suicide. If he manages to live, it must be under the control and by the prescribed terms of the dominant class. The employer may be more or less imperious in his demands; but whatever they are, they must be submitted to. Instances are not wanting in our own republic, in which, as to matters nominally under the arbitrament of the individual will, that will has been overborne. Thus outward religious conformity to the rites of the employer's church has sometimes been enforced, and we have ourselves known of frequent cases in which the exercise of independent suffrage has been denied to the laborer, and he has been compelled by a necessity which knew no law, to vote as his employer dictated. And this is slavery. It may exist under widely various forms. Sometimes it is the bondage of a race to a race, as of the Gibeonites to the Jews, and of the Helots to the Spartans. Sometimes, as in Mediæval Europe, it is a serfdom attached to the occupancy of the soil, or a vassalage to its hereditary lord. Sometimes, as in many ancient states, and in a portion of this country, it is the ownership of individuals by individuals.

To be Continued.

MONTGOMERY, April 4.—The government of the Confederate States has determined to occupy Fort Pickens at whatever cost.

If the Lincoln administration should attempt to obstruct southern commerce, the confederacy will seize northern ships in southern waters, arm them with heavy guns, and send them out as privateers to prey on northern property afloat.

NEW YORK, April 6.—A dispatch from New Orleans to the Herald says it is disbelieved that Pres. Davis has ordered Anderson's supplies to be stopped.

A large body of volunteers left Baltimore yesterday to rally around the Union flag in Texas, under Houston.

An authorized statement is made that the Spanish government is *not responsible* for the proceedings at Dominica.

John M. Botts arrived here to-day, with a large delegation of Virginians, to ascertain the exact intentions of the government.

An officer of the South Carolina troops has also arrived to recruit for the Southern army.

A special dispatch to the Herald, dated Charleston, April 5, says war is expected within twenty-four hours, and every man is ordered on duty.

WASHINGTON, April 5.—It is untrue that the southern commissioners have taken a house. It is well understood that the length of their sojourn will be dependent upon circumstances.

Much alarm exists on account of the military preparations of the government, which preserves entire silence.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of

SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

To MARRIED LADIES it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, NO REMEDY has performed so many or such remarkable cures of the *Throat, Lungs and Chest*,—of *Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma*, or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam*. So generally acknowledged is the superior excellence of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.

Editor of the Norway Advertiser, gives his opinion of this great remedy substantially as follows:

NORWAY VILLAGE, Me., Aug 4, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—For a remedy of such undoubted merit as DR. WISTAR'S BALSAM OF WILD CHERRY, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial and be relieved. Several years since I first became acquainted with this Balsam at a time of distressing cough and cold, which took such firm hold of my lungs as to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain

In our town this remedy is a great favorite with many, and it all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.

Yours respectfully, GEO. W. MILLET.

HAIR RESTORATIVE.

The following is a sample of many letters daily received by W. E. HAGAN & CO., Troy, N. Y., who are the Manufacturers and Proprietors of "HEIMSTREET'S HAIR RESTORATIVE," an article of which many of our first citizens speak as being the *cheapest and best* Hair Preparation which has ever been introduced in our market. A combination of Stimulating Spirits and Oil, affording an agreeable *Hair Dressing*, leaving the scalp perfectly free from dandruff, and causing the Hair to have a *rich glossy appearance*. Two articles in one. A fine "*Hair Dressing*," and a never-failing Restorative for the *Bald* and *Gray*.—Read the following letter:

ST. LOUIS, MO., June, 1859.

MR. HENRY REYNOLDS,—*Dear Sir*:—I hereby certify that my hair having become *gray*, I used, at your request, HEIMSTREET'S INIMITABLE HAIR RESTORATIVE, (prepared by W. E. HAGAN & CO., Troy, N. Y.) for several weeks. My hair was in that time restored to its original color, with all its luxuriance and beauty; and I will be much pleased to recommend the article, personally, on any and every occasion, as I know it is a merite that the Proprietors do not claim for it in their circulars. OUR WEST.—We have received letters and circulars setting forth the attractions offered for settling in Mound City, Illinois; and asking us to advertise the same in the Chronicle, and take our pay in building lots. But altho' we are generally ready for a "trade," yet we have about made up our mind to live and die in New England; and don't care to invest in wild cat Eastern or Western land speculations, so long as there is so much land all about us not half cultivated. No, no, we can't recommend for *working* New Englanders to emigrate anywhere; especially to go West, where many of them would be *under* a "mound" in a short time, through care and hard work, if not on account of the change of climate.

☞ It will be seen by a notice on our fourth page, that the friends of Rev. Mr. Hall, (who we regret is to remove from our city,) propose to give him a "Benefit," at the Brodhead Church, this (Monday) evening. We are glad of it, and trust it will be a bouncer. Mr. Hall has been in Portsmouth for four years, (two Methodist terms,) and besides being a most devoted and faithful pastor, has proved himself one of the most active and enterprising business men in the city. In addition to greatly improving the State St. Methodist Society, he has been largely instrumental in building up the new Methodist Church. He is always ready and willing to labor for and assist good works; and the removal of such a man is a loss to the community. May his lines ever fall in pleasant places.

☞ The City Clerk got up another Printers' Lottery, at the City Rooms, last week; and Mr. Gray, of the Gazette, again drew the prize—which this time consists of Printing the School Reports, &c. This makes three times out of the last four, that Mr. Gray has drawn the lucky bit of paper marked "job," leaving blanks for all the rest of us, printers; and we think of complaining to "the proper authorities," if we don't get something presently—as is usually done by other unsuccessful gamblers in similar cases. PUB.

☞ Company C., Governor's Horse Guards, had a foot-drill, with sabres, at their Armory, Rechab Hall, on Friday evening; and meet again to-morrow evening. From the present appearances of the roads, they can mount for drill in a few days.

The Goodwin Guards are also frequently drilling, in their armory; and the opening of Spring will show more military spirit than has been exhibited in Portsmouth for a long time.

☞ The following are the officers of Piscataqua Engine Co., No. 4: Foreman, Hall B. Rand; 1st Asst., Henry L. Foote; 2d Asst., Henry Wallace; Clerk, T. J. Trafton; Steward, Ira A. Seymour; Standing Com., Uriah Blaisdell, Wm. Colley, Paul M. Snow.

☞ The meeting of the Mercantile Library Association, for election of Officers, Friday evening, resulted in no choice—and an adjournment to Friday evening next.

☞ The Art Union will draw on the 18th of April. Subscriptions received until that time, at Exchange Hall, where a new supply of all the Pictures is just received. See advertisement. tf

☞ The ship riding dismasted off Aberystwith, March 23d, is supposed to be the Belle Wood, Capt. Bush, from New Orleans for Liverpool,—a telegram having been received from the master from Caermarthen, reporting his ship in distress in Cardigan Bay.

WASHINGTON, April 6.—A committee of Virginians informed the President last night that the secession of that State is inevitable unless assurances of peace are given.

It is supposed that Congress will be called together, altho' Mr. Lincoln is known to fear that compromises would be discussed and perhaps the Republican party become divided.

There is no news from Pensacola.

There are rumors of secret movements at Richmond and New York.

A war fever is raging, but there is no reason to believe that State troops will be wanted. PERLEY.

President Lincoln says that people will see this month whether there is a government or not.—*Manchester Mirror.*

We hope they will.

ATCHISON, Kansas, April 5.—Messrs. Lane and Pomeroy were elected U. S. Senators yesterday from Kansas, by a large majority.

GOING TO TRY IT AGAIN.—Mr. Weston, the pedestrian, announces that he will leave Washington on the 23d inst., and walk to Boston on or before the noon of May 3d.

☞ The Tremont Temple church, Boston, are investigating the charges brought against the young lady implicated with Rev. Mr. Kalloch.

LIFE INSURANCE.

"IN THE MIDST OF LIFE WE ARE IN DEATH."

The strong man often falters, and falls in the midst of the hurry and business of life. The wise man maketh provision for those whom he loveth, against the liability to accident and death.

THE

MUTUAL LIFE INSURANCE CO

Of New York,

with an accumulated capital of over

SEVEN MILLION DOLLARS,

Invested at seven per cent. on bond and mortgage loans in the City and State of New York, upon Real Estate worth double the amount loaned thereon, issues

POLICIES on lives, payable to the wife, or to the legal representative of the person insured.

POLICIES payable to the person insured, on his attaining the age of 50, 60 or 70; or to his representative in case of decease before attaining this age.

PREMIUMS may be paid, *quarterly, semi-annually*, or *annually*, at the option of the insured.

The long experience of this excellent institution, like the *one hundred years'* experience of the great Equitable Life Insurance Co. of London, and other kindred institutions, proves their stability and *perpetuity* when established upon the right principle. Investments made with them have proved more remunerative than with Savings Banks.

The time is near, when to protect one's family from the loss and want often attendant upon the death of its provider, will be as universal as it is now to protect ourselves from loss by fire.

No reflecting man can sit at his fireside with his young family about him, and feel at ease;—when he knows that if death should take him from them, they would be cast upon a selfish world, without the means for education or support, which he can easily provide for them thro' a life policy.

GLASS WARE

For table use, of the very best quality, for sale at factory prices, by JOHN SISE,

From the Portsmouth Journal.

TOPEKA, KANSAS, March 20th, 1861.

To the Portsmouth Journal.

Gentlemen:—An article appeared, during my absence to Chicago, in the Manhattan Express, which quoted my acknowledgement of a draft of one hundred dollars from the generous people of your city, and contemptuously added, that the editor knew of "many people who would like to know what disposition had been made of the above mentioned funds." In justice to the kind-hearted people of Portsmouth, whose hearts and hands have been so ready to assist our unfortunate State, I would say, I have devoted the money they so generously bestowed upon our needy people, to that channel through which I believed it would reach and relieve most suffering, and where I thought it would certainly meet the approbation of those who gave it. A reference to our own County Committee may be regarded as my voucher. If the base insinuations which were put in the Express to injure me while my lips were sealed by absence, finds a place in the columns of any Eastern press, I beg them to do me the simple justice to insert my answer.

With much respect and many thanks to the generous donors, I am truly their friend and servant, J. W. ROBINSON.

MANHATTAN, RILEY CO. March 2nd, 1861.

This certifies that the One Hundred Dollars which was sent to Hon. J. W. Robinson by Dr. Faller, donated by the generous citizens of Portsmouth, N. H. has long since been religiously appropriated to the objects for which it was donated. JOHN PITNER,
CHARLES BURNES,
SAMUEL G. HOYT.
County Relief Committee of Riley Co. Kansas.

Much complaint is made in the county of Cheshire at the appointments of relatives of the Representative to some of the best public offices there—notwithstanding the expressed will of the people. It is perhaps fortunate for some Representatives that their election took place in March instead of April.

An article appears in the Boston Journal of Thursday stating that notice had been given by the New-Hampshire Congressional delegation that no more appointments should be made in the Boston Custom House from New-Hampshire, *without their recommendation!* We can regard such a statement as only a joke. Surely we have no Republicans from this state who would assume such power—if we have, it is time for the *people* to look about themselves.

PORTSMOUTH APPOINTMENTS.—There is as yet no confirmations of any of the appointments which we have already announced. We have heard no opposition made to any except to that of the Navy Agency. The only objection made to Mr Tullock is, that he has before held office! The faithfulness with which he has discharged his duties in the offices he has held, is no small recommendation, and should have its weight. It is a fact that Mr. Tullock has for several years held an office at the solicitation of his party friends, which has not been adequate to meet the necessary expenses of his family. He has, in his central position, done no little service towards preserving a thorough organization of the friends of a Republican government, and in disseminating correct principles among the people, and is now entitled to a better position. Of good business capacity, unwearied in duty, and, what should be taken into consideration in all appointments, of good moral character and temperate habits. Mr. Tullock is in every way fit for and deserving of the Navy Agency,—and such is the voice of Portsmouth.

OFFICIAL QUALIFICATIONS. — A good *moral* character and strictly *temperate* habits, should be requisite for every man who receives any office from Government—and any deviation from rectitude in these respects should be cause for immediate removal. Disregard of these requisitions, (so essential to the purity of our institutions and dignity of station,) by the past administration, has made some of the office holders a nuisance to the public which we hope never again to see repeated.

PARTING RECEPTION AND BENEFIT TO REV. J. HALL.

This gentleman being about to leave the city after four years service as a Minister of the Gospel; his friends propose to give him a reception and benefit at the *Bradhead M. E. Chapel*—Court street, on Monday Eve., April 8.

The evening will be spent in social friendly greetings, interspersed with appropriate singing. Brief addresses will be made by Gov. Goodwin, who has kindly consented to preside on the occasion, and by pastors of the several churches in the city. A committee will be delegated at the time to receive such donations as the friends may be pleased to make. The friends of Mr. Hall, without regard to denomination, are cordially invited.

THE CHEAP CLOTH SWINDLERS.—These rascals have got down into southeastern Massachusetts, where they are putting the greenhorns through at a great rate.

Two traveling merchants, called upon several farmers in Westport, with whom they wished to trade. They were selling the goods by the package, containing cloth, &c., for which they asked $90. The farmers told the traders that they were not in want of the goods; the men, however, opened the boxes, tossing the merchandise about and strangely throwing up their hands close to the heads of the unsuspecting customers. They finally sold their packages to the men, taking their notes, which they pretended to prefer to cash. One of the purchasers says he has a recollection of signing a printed paper or note, does not know for what amount, neither can he tell why he did so; that he felt strangely, and after recovering from this frame of mind, and coming to himself, he was not a little surprised at what he had done. The goods were of very poor quality, worth about $20. The sales were evidently effected by mesmerism, or some other ism, a new idea in the swindling dodge.

District No. 2.—Owing to an illegality in the election of Clerk and Committee for Dist. No. 2, held on Saturday last, the Board of Mayor and Aldermen on Thursday evening elected Robert O. Threadwell, Lyman D. Spalding, Adoniram J. Patterson, Andrew Sherburne, Samuel W. Moses, Nathan F. Mathes, Edwin N. Mathes, as the Prudential Committee for the year ensuing, and Marcellus Bufford, Clerk.

SOMETHING MORE VALUABLE

THAN SILVER OR GOLD,

BECAUSE

IT WILL RESTORE THE WEAK,
AND REINSTATE THE BLOOD IN ALL ITS
ORIGINAL PURITY & VIGOR.

It is

PROF. O. J. WOOD'S

RESTORATIVE CORDIAL

—AND—

BLOOD RENOVATOR.

It is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted to act *in perfect accordance with the laws of nature, and hence soothe the weakest stomach*, and tone up the digestive organs, and all the nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. As a sure preventive and cure of

CONSUMPTION, BRONCHITIS, DYSPEPSIA INDIGESTION, LOSS OF APPETITE, FAINTNESS, NERVOUS IRRITABILITY, NEURALGIA, PALPITATION OF THE HEART, MELANCHOLY, HYPOCHONDRIA, NIGHT SWEATS, LANGUOR, GIDDINESS, AND ALL THAT CLASS OF CASES SO FEARFULLY PREVALENT, AND FEMALE WEAKNESSES AND IRREGULARITIES,

THERE IS NOTHING ITS EQUAL!

Also Liver Derangements and Torpidity, and Liver Complaints, Diseases of the Kidneys, or any general derangement of the Urinary Organs.

It will not only cure the debility following CHILLS and FEVER, but prevent all attacks arising from miasmatic influences and cure the disease at once, if already attacked.

TRAVELLERS should have a bottle with them, as it will infallibly prevent any deleterious consequences following upon the change of climate and water.

As it prevents costiveness, and strengthens the digestive organs, it should be in the hands of all persons of sedentary habits.

LADIES not accustomed to much out-door exercise, should always use it.

MOTHERS should use it, for it is a perfect relief, taken a month or two before the final trial—she will pass the dreadful period with perfect ease and safety.

There is no mistake about it!

THE CORDIAL IS ALL WE CLAIM FOR IT!

MOTHERS, TRY IT!

And to you we appeal, to detect the illnesses or decline not only of your daughters, before it is too late, but also your sons and husbands, for while the former, from false delicacy, often go down to a premature grave rather than let their condition be known in time, the latter are often so mixed up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is all-powerful here, and to you we confidently appeal, for we are sure your never-failing affection will unerringly point you to PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR as the remedy which should be always on hand in time of need.

O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St Louis, Mo., and sold by all good Druggists. Price $1 per bottle.

Read what the Press say, after thoroughly testing the matter, and no one can have doubt.

PROF. WOOD'S Restorative Cordial and Blood Renovator is a genuine medicine of real merit, pleasant to the taste, and invigorating to the system. While it purifies the blood and soothes the nervous irritation, it aids the organs of digestion to perform their functions, and resists the assaults of disease. It is a chemical compound so skillfully combined, that while it exhilarates it does not provoke the lassitude which usually follows excitement. A tonic composed exclusively of vegetable matter, the absolutely best wind, and no ill effects can possibly accompany its use. It is an infallible and speedy remedy for Loss of Appetite, Faintness, Nervous Debility, Dyspepsia, Falling of the Womb, and other delicate diseases to which women are subject. For Sickness of the Stomach, Biliousness, Liver Complaint, Costiveness, Dyspepsia, Consumption, and a host of evils flesh is heir to, it is a certain cure.—*St. Louis Morning Herald.*

PROF. WOOD'S RESTORATIVE CORDIAL.—It is recorded in the classics that Psyche was once sent by a cruel stepmother to the Stygian Pluto, to procure a sample of the beauty of Proserpine in a box. After some delay the messenger returned, and as soon as the top of the box was removed, out flew all the ills that flesh is heir to. Fortunately hope was found in the bottom of the box. Prof. Wood's Restorative Cordial revives the recollection of the story, for it invigorates the blood, aids the organs of digestion, imparts strength to the nervous system, and renders the citadel of health so as to bid defiance to the assaults of disease. It is a healthy tonic, composed entirely of vegetable productions, and while it is exhilarating as pure wine, no injurious results can possibly follow its use. It is a desideratum in the medical world, and those afflicted with loss of appetite, Dyspepsia, Consumption, Faintness, Neuralgia, Palpitation of the Heart, &c., will here find an infallible panacea.—*St. Louis Daily Express*

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR is, without doubt, the best tonic Cordial in the world. To those who are suffering from general debility, we would recommend this preparation as it is pleasant to the taste, is strengthening to the system, and will at once tend to remove all impurities of the blood, and thus cut off the seeds of disease. It can be taken by the weakest stomach, while those in good health will at once feel its exhilarating power. We are confident that after using one bottle of this Cordial, none will be for a day without it.—*N. Y. Leader.*

A PURE, HEALTHY TONIC, and one free from the deleterious and injurious effects sure to follow those in ordinary use, has long been felt to be a desideratum in the medical world. Such a tonic, and one so skillfully combined from the vegetable kingdom as to act in perfect accordance with the laws of Nature, and thus soothe the weakest stomach, and at the same time allay nervous and other irritations, and tone up all the organs of which the human body is composed, is offered in Prof. Wood's Restorative Cordial and Blood Renovator. Hence it is perfectly adapted to old and Young. Reader, try it. Thousands have already done so: the testimony is universal in its favor.—*New York Atlas.*

☞ Before noticing a patent medicine, we have to be certain that it will prove itself to be all that is recommended. And we would say that the Restorative Cordial and Blood Renovator of Prof. Wood will stand the test fully, and in fact it is without doubt the first article in the market for purifying the blood and strengthening the system. We have no hesitation in recommending its use to all.—*New Yorker.*

DR. DARIUS HAM'S
AROMATIC INVIGORATING SPIRIT.

Dyspepsia Remedy

This medicine has been used by the public for six years, with a steadily increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, even in the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, or nervous disorders.

It will instantly revive the most melancholy and drooping spirits, and restore the weak nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible hell upon earth, called *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.
One dose will remove the distressing and disagreeable effects of Wind in the Stomach.
One dose will remove all obstructions in the Kidney, Bladder or Urinary Organs.
Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, suffer the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

BININGER'S
GENUINE
Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception, it is a matter of congratulation for those requiring it for Family use and Invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the proper demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often compounded by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling reasonable rates, a Brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and country agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

ATWOOD'S
QUININE TONIC
BITTERS,

The Best Aromatic Tonic ever offered to the Public.

RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic s*, and cannot fail to meet the wants of the debilitated.

It is a mild tonic to the Stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.

One of the very best Physicians in Boston has said "*but it is the best preparation of Bitters that has ever been offered to the public.*"

Put up in half pint as well as quart bottles, in order that all may convince themselves of its superior merits.

For further particulars reference is made to the printed circulars.

IN THE OLD CHURCH TOWER.

BY THOMAS BAILEY ALDRICH.

In the old church tower
Hangs the bell;
And above it on the vane,
In the sunshine and the rain,
Cut in gold, Saint Peter stands,
With the keys in his two hands,
And all is well.

In the old church tower
Hangs the bell;
You can hear its great heart beat,
Ah! so loud, and wild and sweet,
As the parson says a prayer
Over wedded lovers there,
While all is well.

In the old church tower
Hangs the bell;
And solemn. Hark! again,
Ah! what passion, and what pain;
With her hands upon her breast,
Some poor soul has gone to rest
Where all is well.

In the old church tower
Hangs the bell;
An old friend that seems to know
All our joy and all our woe;
It is glad when we are wed,
It is sad when we are dead,
And all is well.

A NICE WIDOW.—The following is from Dr. Holmes' new novel:—"The widow Rowans was now in the full bloom of ornamental sorrow. A very shallow crape bonnet, frilled and froth-like, allowed the parted raven hair to show its glossy smoothness. A jet pin heaved upon her bosom, with every sigh of memory or emotion of unknown origin. Jet bracelets shone with every movement of her slender hands, cased in close-fitting black gloves. Her sable dress was ridged with manifold flounces, from beneath which a small foot showed itself from time to time, clad in the same hue of mourning. Everything about her was dark, except the white of her eyes and the enamel of her teeth. The effect was complete. Gray's Elegy was not a more perfect composition."

BUSINESS MATTERS.—The business of the country continues in an unsatisfactory state, and there is but little hope of any improvement at present. The state of uncertainty and suspense which hangs over political affairs is, so far as the interests of labor are concerned, more depressing than any settled policy, even though that policy should be war. An actual state of war, while it would revolutionize industry and property, would yet create a demand for active capital and labor in new channels, while under the present aspect of things most descriptions of business are becoming actually stagnant.—*Traveller.*

MIND THE CROSSES.—No little confusion, and we might be justified if we said merriment, was occasioned in one of our city churches last Sunday, by a blunder of the officiating clergyman. The Psalms are chanted by the choir, the minister reading the alternate paragraphs. The singers chanted the CXI Psalm, while the minister read the XCI Psalm. The pulpit was at fault, and the pews wondered what the two ends of the church were trying to accomplish.—*Boston Transcript.*

FRESH WATER SPRING AT SEA.—A fresh water spring has been discovered at sea about eight miles off the coast of St. Augustine, Fla., which boils up with such force as to be seen two miles off, and has generally been mistaken for a breaker. It is pure fresh water, and ships have lately supplied themselves from it by throwing over a bucket.

The long mooted question of "What is a gentleman?" has at last been settled, in the latitude of Kentucky. In that State, according to the Lounger of Harpor's Weekly, a gentleman is—he who looks out of the window while his guest helps himself to whiskey!

Ingenious Yankees are playing a new game. Fearing that patent medicines, with old names, will no longer go down the throats of Confederate States men and women, they are turning their little jokers on another head, and dubbing them the "Great Virginia Discovery," the "Palmetto Balsam," etc.

Gov. Pickens has sent a message to the South Carolina State Convention, informing that body that 600 men will be required to garrison the forts in Charleston harbor, and that the military expenditures of the State have been $640,318.

BELLINGHAM'S
Celebrated Stimulating Onguent!
For the Whiskers and Hair.

The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the Agency for, and are now enabled to offer to the American people, the above justly celebrated and world-renowned article.

THE STIMULATING ONGUENT
is prepared by DR. C. P. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of
WHISKERS OR A MUSTACHE
in from three to six weeks. This article is the only one of the kind used by the French, and in London and Paris it is in universal use.
It is a beautiful, economical, soothing, yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp, it will cure BALDNESS, and cause to spring up in place of the bald spots a fine growth of new hair. Applied according to directions, it will turn RED or TOWY hair DARK, and restore GRAY hair to its original color, leaving it soft, smooth and flexible. The "ONGUENT" is an indispensable article in every gentleman's toilet, and after one week's use they would not for any consideration be without it.
The subscribers are the only Agents for the article in the United States, to whom all orders must be addressed.
Price One Dollar a box—for sale by all druggists and Dealers; or a box of the "Onguent," (warranted to have the desired effect,) will be sent to any one who desires it, by mail (direct,) securely packed, on receipt of price and postage, $1.18. Apply to or address

—FOR—
RHEUMATISM AND NEURALGIA.

GARDINER'S
RHEUMATIC AND NEURALGIA COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, APRIL 9, 1861.

☞ The Richmond Whig contains the *Virginia ultimatum*, which it says is not to be submitted to the border States at all, but Virginia proposes it,—and will only submit it to the other border States for co-operation,—but threatens to go out by herself rather than give it up.

Stripped of its verbiage, the ultimatum is:—

1. There must be no party opposed or unfriendly to slavery, or if there is one, it must never choose a President.

2. There must be a line somewhere, like the Missouri Line, and laws *developing* slavery to apply south of it.

3. Forts are only to defend from foes, and suppress insurrection,—but not to *intimidate* a State,—i. e., they may put down black rascals, but must not *intimidate* white ones.

4. They go for the Union, thus:—But

5. They go for secession without it.

BUFFALO, April 4.—The Commercial Advertiser publishes a letter this afternoon, signed "Johnson McNeil," a private in the army who enlisted at Buffalo a year ago, and who is now with Major Anderson in Fort Sumter. He says:—

We have enough to eat and drink, and sufficient to keep us for *four months*. Our fuel is scarce, but that is nothing. The rebels think we have been idle, but they nor any one else will ever know how many men we have in this garrison. We have got sufficient to hold the fort against the whole South in a body. Major Anderson is a true soldier, and so are the other officers and the men would die for him. I only wish we had chance to give the rascals h—l, and we can do it too.

If we ever go out of this fort it will not be with the wish of our officers. As to sending us men and supplies, it is all nonsense to talk about it; it cannot be done. We are all right if old Lincoln will only have the backbone to stand by us."

☞ Wm. S. Marston, of Plymouth, N.H., a young married man, 24 years of age, has left his wife and child, and gone to parts unknown, with Mary Cross, aged 17, daughter of his next door neighbor. Both families said to be respectable, are greatly grieved and scandalized. The parties now appear to have been improperly intimate for two years.
